

College and Career Planning Guide 2020-2021

The Abilene ISD College and Career Planning Guide is for informational purposes only and does not constitute a contract. The District makes every effort to ensure that this catalog contains complete and accurate information at the time of publication. However, circumstances may arise that require the District to change or correct existing policies, rules, or course and program information. The version of the AISD College and Career Planning Guide posted to the District's website will always reflect changes communicated in all errata.

Errata serve as official notification to Abilene ISD stakeholders of all changes, corrections, and/or deletions to the 2020-2021 AISD College and Career Planning Guide. The version of the 2020-2021 AISD College and Career Planning Guide posted to the District's website will reflect the errata listed at https://bit.ly/2N229xz.

Abilene Independent School District

STRATEGIC PLAN

Vision

Inspired, skilled, engaged and empowered students make a difference in the world

Belief Statements

- Deep learning involves critical thinking, collaboration and problem solving.
- Relevant and meaningful student experiences are the core of the modern classroom.
- Initiative, innovation, a strong work-ethic and an entrepreneurial spirit are life skills each student needs.
- The cultivation of each student's strengths and passions leads to success.
- Respect, care and having high expectations for each student is the foundation for learning.

Strategic Priorities

- Make classrooms more meaningful and relevant for students and teachers.
- Develop a culture, climate and environment that values collaboration.
- Build partnerships with local business and organizations.
- Tell the AISD stories of inspiration, success and opportunity to the community, parents and staff.

It is the policy of the Abilene Independent School District not to discriminate on the basis of race, color, national origin, age, sex, or disability in its educational and career and technical education programs, services, activities or employment practices as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Education Amendments of 1972; and Section 504 of the Rehabilitation Act of 1973, as amended. Admission to these programs is based on grade placement, aptitude and interest.

CLASSIFICATION

Classification is determined at the beginning of each school year based on the number of credits the student has earned by that time. Students, grades 9-12, will be classified on the following basis:

| Credits Earned | Classification of Student |
|---|---------------------------|
| Promoted from grade 8 | Grade 9 (Freshman) |
| 6 (must include Algebra I and English I) | Grade 10 (Sophomore) |
| 12 | Grade 11 (Junior) |
| 18 | Grade 12 (Senior) |

COURSE LIMITATIONS

Some courses listed in this guide may not work with some students' schedules due to availability, scheduling conflicts, or cancellations resulting from limited enrollment; therefore, students should always plan for alternative courses in case their first choices are unavailable.

Courses listed in the College and Career Planning Guide in the year which the student enters the 9th grade may or may not be offered in subsequent years, and additional courses may be added in subsequent years. Courses may be offered but will not be scheduled unless enrollment is sufficient to do so. New courses may be added by the Texas Education Agency and the State Board of Education or by local decision at any time.

COURSES

Students should be enrolled in 7 classes per semester. Students enrolled in Career Preparation or a Practicum course must take a minimum of 5 classes a day. A senior who is not on the Foundation Plan with an endorsement and/or has not passed state assessments for graduation must be enrolled in seven (7) instructional classes per semester and will not be eligible for a reserve period.

To be considered a full-time student and compete in UIL-sanctioned activities, students must be enrolled in school for a minimum of 5 credit-bearing periods a day.

When registering for classes, please note that AISD will offer transportation between Abilene High and Cooper High, when possible, to accommodate students desiring to take courses not offered at their home campus.

HIGH SCHOOL COURSES OFFERED IN MIDDLE SCHOOL

Students who satisfactorily complete a full year of Algebra I, Geometry, Pre-AP Art I, Theatre Arts I and/or Spanish I in middle school will receive the state required graduation credit(s) for grades 9-12.

Students who satisfactorily complete Principles of Manufacturing, Business Information Management I, Gateway, Communication Applications, or Health in middle school will receive state graduation elective credit for these courses.

High school courses taken in middle school are not used in high school GPA calculations.

CREDITS

Students may earn credit in summer school immediately following promotion from the 7th grade.

Students are required to obtain approval in advance from the principal or appointed designee in order to take a distance learning course.

Students enrolled in grades 9-12 may be awarded credit toward high school graduation for completing college-level courses. Such courses shall be provided only by institutions of higher education that are accredited by one of the following accrediting agencies:

- Southern Association of Colleges and Schools
- Middle States Association of Colleges and Schools
- New England Association of Schools and Colleges
- North Central Association of Colleges and Schools
- Western Association of Schools and Colleges
- Northwest Association of Schools and Colleges

To be eligible to enroll and be awarded credit toward state graduation requirements, a student should enroll in district approved dual credit course(s).

STATE ASSESSMENTS

To graduate from high school in the state of Texas, students must have satisfactory performance on the five State of Texas Assessments of Academic Readiness (STAAR) End-of-Course Assessments for the following: English I, English II, Algebra I, Biology and U.S. History.

NINTH GRADE ACADEMY

To assist ninth grade students with the transition from middle school to high school Abilene Independent School District created the **Ninth Grade Academies** at Abilene and Cooper High Schools. Emphasis is placed on the development of the whole student – academics, extracurricular, and building positive relationships. Students are scheduled with a team of core area teachers similar to the schedule at middle school, and the academy classes are located in specially designated areas on each campus. The Academies have staff to serve ninth grade students only. The core team of teachers is available for conferencing with parents and students. Since the pilot Academy began in 2005-06, the number of ninth graders failing core classes has decreased, attendance has improved, and more students have advanced to tenth grade.

STUDENTS TRANSFERRING TO ABILENE ISD

The following guidelines apply to the evaluation of the transcripts of students transferring to the Abilene Independent School District:

- No credit will be given for office aide and Driver's Education.
- Units of credit granted by high schools accredited by the Texas Education Agency, Texas Private School Accreditation Association, other state education agencies, or Department of Defense Schools will be honored.
 - Units of credit earned from non-accredited schools and home study programs will require validation according to the following guidelines:
 - > Credit for elective courses may be accepted, subject to review.
 - Required courses taken in sequence can validate credit in previously completed courses. (Example: English III completed successfully will validate English I and English II. Algebra II completed successfully will validate Algebra I).
 - Required courses that have no sequential course must be validated by examination or administrative approval. (Example: Geometry, World History, United States History).

PHYSICAL EDUCATION SUBSTITUTIONS

Students may receive TEA approved physical education credit for the following activities:

| <u>Activity</u> | <u>Semester</u> | <u>Credits</u> |
|--------------------|-----------------|-----------------|
| Athletics | 1st and 2nd | up to 4 credits |
| Athletic Trainer | 1st and 2nd | up to 4 credits |
| Cheerleading | 1st and 2nd | 1 credit only |
| Drill Team | 1st and 2nd | 1 credit only |
| Flag Corps | 1st and 2nd | 1 credit only |
| Marching Band | 1st only | 1 credit only |
| Musical Theatre | 1st and 2nd | 1 credit only |
| JROTC | 1st and 2nd | up to 4 credits |
| Pep Squad | 1st and 2nd | 1 credit only |
| Revolution Strings | 1st and 2nd | 1 credit only |
| Show Choir | 1st and 2nd | 1 credit only |

Private or Commercially-Sponsored Physical Activity Programs:

Students may also receive physical education credit by participating in private or commercially-sponsored physical activity programs, such as dance or martial arts, which have been approved by the Superintendent or designee. Students participating in this program may not be enrolled in another physical education class or athletics. Grades will be recorded as pass/fail and will not be calculated for GPA. Students interested in this program should contact the school counselor for an application.

SPECIAL EDUCATION

The special education department offers identified students with disabilities opportunities to develop abilities in the least restrictive environment. The ARD committee determines the course sequence for special education students as the graduation plan for each student is developed.

CREDIT BY EXAM WITHOUT PRIOR INSTRUCTION

AVAILABILITY

Credit by Examination without prior instruction will be available to Abilene ISD students enrolled in grades 7-12 in the following courses:

| Art 1 | Health |
|------------------------|--|
| Algebra I, II | Integrated Physics and Chemistry (IPC) |
| Biology | Latin I, II |
| Chemistry | Mathematical Models with Applications |
| Economics | Physics |
| English I, II, III, IV | Pre-Calculus |
| Environmental Systems | Spanish I, II |
| French I, II | US History |
| Geometry | World Geography |
| German I, II | World History |
| Government | |

UTILIZATION OF EXAMINATION SCORES

Credit for the respective course will be granted if a student scores at or above 80 on the placement examination. The examination score will be recorded on the academic achievement record transcript as the course grade. Grades earned through the credit by examination process will not be used in determining grade point averages or to establish eligibility.

CREDIT BY EXAM WITH PRIOR INSTRUCTION

AVAILABILITY

Subject to the limitation and eligibility criteria outlined in these guidelines, the credit by examination with prior instruction process will be available to Abilene ISD students enrolled in grades 7-12 to verify mastery after non-accredited instruction or to recover credit for a failed course:

- Accounting Algebra I, II Art I Astronomy Banking and Financial Services Business Information Management I Biology Business Law (.5 credit) Chemistry Child Development (.5 credit) Communication Applications (.5 credit) Digital and Interactive Media
- Dollars and Sense Economics (.5 credit) English I, II, III, IV Foundations of Personal Fitness French I, II Geometry Government (.5 credit) Health (.5 credit) Hebrew Scriptures and New Testament Individual Sports Integrated Physics and Chemistry (IPC) Lifetime Nutrition and Wellness Math Models with Applications
- Money Matters Physics Principles of Information Technology Pre-Calculus Psychology Sociology Spanish I, II, III Team Sports Theatre Arts US History World Geography World History

UTILIZATION OF EXAMINATION SCORES

Credit for the respective course will be granted if a student scores a grade at or above 70 on the examination. The examination score will be recorded on the academic achievement record transcript as the course grade. Grades earned through the credit by examination process will not be used in determining grade point averages or to establish eligibility.

EXAMINATION

All examinations are purchased from an approved university. If taken to recover credit, the student taking an exam must pay the examination fee charged by the university. If taken to accelerate, there is no charge to the student. See EHDC (Legal) for additional information.

LIMITATION

Students who failed a course because they exceeded the maximum number of absences may not use credit by examination to receive credit for the respective course. A student is limited to two attempts per course to earn credit by exam.

STUDENT ELIGIBILITY

Unless excluded by the above limitation, a student will be permitted to attempt to receive credit by examination for a course if the following criteria are met:

- A written application which reflects parental approval has been submitted;
- The application is approved by the campus principal or designee.

DETERMINING GRADE POINT AVERAGE

The final grade point average (GPA) to determine the class rank for graduating students is computed by averaging the semester grades beginning with grade 9 and ending with the fifth six-week grading period of the final year. The second semester average for the final year is determined by averaging the grades for the fourth and fifth six-week grading periods.

If a course is retaken, the highest grade will be used in GPA calculations. Grades earned from high school courses taken in middle school, from dual-credit courses, from distance learning courses, and through credit by examination* are not used in GPA calculations (unless the dual credit class is also an AP class).

The formula used for computing GPA is as follows:

| (sum of grades) | + | (number of AP/IB/local advanced honors grades 70 or above X 10) | | (number of PreAP/IB/local honors grades 70 or above x 5) | = GPA |
|--------------------|---|--|--|---|-------|
| (number of grades) | - | (standard number of grades accumulated at this point in academic career) | | - | |

As documented in Abilene ISD Board Policy Manual - EIC (LOCAL), due to the COVID-19 pandemic and school closure during the spring semester of the 2019–2020 school year, the calculation of class rank shall exclude all spring semester grades from the 2019–2020 school year for students in the graduating classes of 2021, 2022, and 2023. The "standard number of grades accumulated" is as follows:

| | Class of 2021 | Class of 2022 | Class of 2023 | Class of 2024 and Beyond |
|----------------|---------------|---------------|---------------|--------------------------|
| Freshman | 14 | 14 | 7 | 14 |
| Sophomore | 28 | 21 | 21 | 28 |
| Junior | 35 | 35 | 35 | 42 |
| Midterm Senior | 42 | 42 | 42 | 49 |
| All Graduates | 49 | 49 | 49 | 56 |

The valedictorian will be the student graduating with the highest GPA. The salutatorian will be the student with the second highest GPA. If a tie occurs, co-valedictorians will be named.

The four other students with the highest GPA in the graduating class, together with the valedictorian and salutatorian, will appear on the platform and be officially recognized as part of the commencement program. For Abilene High and Cooper High, the 25 top-ranking students will be designated. Students with a GPA of 90 or above will be designated as honors graduates on the commencement program.

To be eligible for graduation honors described above, a student must complete the final two semesters prior to graduation in the District. Completion of a semester is defined as receiving semester grades from a District school.

Grades for transfer students will be recorded and averaged as received. Letter grades will be converted to numerical grades as follows:

| А | = | 95 |
|---|---|-----------|
| В | = | 85 |
| С | = | 77 |
| D | = | 72 |
| F | = | no credit |

A student may earn a maximum of one credit for a regular academic course, an advanced placement course, or a credit by examination* course with the same Texas Education Agency course number or one which covers the same required essential knowledge and skills.

Note: Juniors who wish to graduate early must notify the campus registrar and counselor of intent to graduate early. The deadline will be the end of the fourth six-weeks grading period of the junior year. Students must return the "Intent to Graduate Early" form to the counselor. Graduation, including participation in ceremonies, shall not occur without passing scores on all required End of Course exams.

*Credit by examination—The District shall give a student in grades 6-12 credit for an academic subject in which the student has received no prior instruction if the student scores:

- 1. Eighty percent or above on a criterion-referenced examination for acceleration for the applicable course;
- A three or higher on an advanced placement examination approved by the Board and developed by the College Board; or
 A scaled score of 60 or higher on an examination approved by the Board and administered through the College-Level Examination Program.

If such credit is given, the District shall enter the examination score on the student's transcript, and the student is not required to take an end-of-the-course assessment instrument under Education Code 39.023(c) for that subject.

GRADUATION PLAN AND REQUIREMENTS

Students will have an annual review of their graduation plan to assess progress, discuss necessary adjustments and update the plan to revise course choices in order to meet new or additional goals. Students will be advised of courses recommended for college and career preparation and should keep themselves informed of changes in entry requirements and career trends. Parents/guardians will be consulted if major changes occur. (Note: In addition to completing curriculum requirements for graduation, all students must pass the required End-of-Course tests and complete the final semester of work to receive a diploma.)

Foundation High School Program with Endorsements

Students who complete the **Foundation High School Program** including Algebra II as one of four mathematics credits and the credit requirements specific to at least one endorsement will graduate with the **Distinguished Level of Achievement**. All students shall specify in writing the endorsement(s) the student intends to earn. Distinguished Level of Achievement allows students to be eligible for college admission under the top 10% automatic admissions provision.

More information about the Foundation High School Program and Endorsements can be found on page <u>11</u> and by reviewing Texas law using the QR code on this page or by navigating to <u>http://ritter.tea.state.tx.us/rules/tac/chapter074/ch074b.html</u>.

A student may also earn **Performance Acknowledgements** that will be placed on the student's diploma and transcript. Performance Acknowledgements may be earned by completing the following:

1. Outstanding Performance in a Dual Credit course:

- at least 12 hours of college academic courses, including those taken for dual credit as part of the Texas core curriculum and advanced technical credit courses and locally articulated courses, with <u>a grade of the equivalent of 3.0 or higher</u> on a scale of 4.0: or
- an associate degree while in high school.

2. Outstanding Performance in Bilingualism or Biliteracy:

- Completing all English Language Arts requirements and maintaining a minimum GPA of the equivalent of 80 on a scale of 100 and satisfying one of the following:
 - o completion of a minimum of three credits in the same language in a language other than English with a minimum GPA of the equivalent of 80 on a scale of 100, and satisfying one of the following:
 - demonstrated proficiency in the Texas Essential Knowledge and Skills for Level IV or higher in a language other than English with a minimum GPA of the equivalent of 80 on a scale of 100; or
 - completion of at least three credits in foundation subject area courses in a language other than English with a minimum GPA of 80 on a scale of 100; or
 - demonstrated proficiency in one or more languages other than English through one of the following methods:
 - score of 3 or higher on a College Board Advanced Placement exam for a language other than English, or
 score of 4 or higher on an International Baccalaureate Exam (IB) for a higher-level language other than
 - English courses, or
 - performance on a national assessment of language proficiency in a language other than English of at least Intermediate High or its equivalent.
- ELL students must complete the above criteria and also have participated and met the exit criteria for a bilingual or ESL program and scored at the Advanced High level on the Texas English Language Proficiency Assessment System (TELPAS).
- 3. Outstanding Performance on a College Board Advanced Placement test or International Baccalaureate examination by earning:
 - a score of three or above on a college Board advanced placement examination
 - a score of four or above on an International Baccalaureate examination for a higher-level course.
- 4. Outstanding Performance on the PSAT, the ACT-PLAN, the SAT or the ACT:
 - a score on the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) that qualifies the student for recognition as a commended scholar or higher by the College Board and National Merit Scholarship Corporation, as part of the National Hispanic Recognition Program (NBHRP) of the College Board or as part of the National Achievement Scholarship Program of the National Merit Scholarship Corporation; or.
 - achieving the college readiness benchmark score on at least two of the four subject tests on the ACT PLAN exam; or
 - a combined critical reading and mathematics score of at least 1250 on the SAT; or
 - a composite score on the ACT exam (without writing) of 28.

5. Earning a nationally or internationally recognized business or industry certification or license:

- performance on an examination or series of examinations sufficient to obtain a nationally or internationally recognized business or industry certification; or
- performance on an examination sufficient to obtain a government-required credential to practice a profession.

(Note: In addition to completing curriculum requirements for graduation, all students must pass the required End-of-Course tests and complete the final semester of work to receive a diploma.)

IMPORTANT NOTICE TO PARENTS

Students are eligible for admission to any general academic teaching institution (4-year state university) if they have completed the **Foundation High School Plan**. Students graduating on the Minimum Program may not be eligible for admission to a 4-year university. The legislation also adds the requirement that students in the top 10 percent of their high school graduating class are eligible for automatic admission to institutions of higher education <u>only</u> if they have completed the Foundation Distinguished Level diploma program. The University of Texas at Austin accepts the top 6 percent.

TEXAS HIGH SCHOOL GRADUATION REQUIREMENTS

Foundation School Program with Endorsements

Texas requires all students to begin high school with a four-year plan to earn at least 26 credits toward graduation with one of five endorsements. The five endorsements align to statewide programs of study toward future careers. Students are encouraged to consider their skills and interests as they select programs of study toward an endorsement.

Endorsements and Summary of Texas Career Pathways

| STEM | BUSINESS & INDUSTRY | PUBLIC SERVICE | ARTS & HUMANITIES | MULTIDISCIPLINARY STUDIES |
|--|--|--|--|---|
| Science, Technology, Engineering, & Mathematics (STEM) | Agriculture, Food & Natural Resources Architecture & Construction Arts, A/V Technology and Communications Business, Marketing and Finance Hospitality and Tourism Information Technology Manufacturing Transportation, Distribution and Logistics | Education and Training Health Science Human Services Law and Public Service Four years JROTC | Arts Humanities | Select courses from the curriculum of each of the other endorsement areas; Credits in a variety of advanced courses from multiple content areas sufficient to complete the distinguished level of achievement under the foundation program. See p. 114 for more information. |

| REQUIRED COURSES | FOUNDATION SCHOOL PROGRAM WITH ENDORSEMENTS |
|---------------------------------|--|
| ENGLISH LANGUAGE ARTS | 4 Credits English: ELA I, II; English III or an AP English; and one credit in any authorized advanced English course (see pg.12 for course list) |
| MATHEMATICS | 4 Credits Mathematics: Algebra 1, Geometry, two credits in any authorized advanced math course (STEM must take Algebra II) Distinguished Level of Achievement: Algebra I, Geometry, Algebra II, one credit in any authorized advanced math course (see pg. 11 for course list) |
| SCIENCE | 4 Credits Science: Biology, two credits in any advanced science course, one credit in IPC, Chemistry or Physics (see pg.12) for course list) |
| SOCIAL STUDIES | 4 Credits Social Studies Highly Recommended (3 Required): World Geography is highly recommended; World History, U.S. History, and Government/Economics are required |
| PHYSICAL EDUCATION | 1 Credit: Required credit may be from any combination of the following one-half to one credit courses: Foundations of Personal Fitness, Adventure/Outdoor Education, Aerobic Activities, or Team or Individual Sports. Credit may not be earned for any TEKS-based course more than once. Credit for any of the courses listed above may be earned through participation in the following activities: Athletics (up to 4 credits) Approved private/commercial (up to 4 credits) JROTC (1 credit) Drill Team (up to 1 credit) Marching Band (up to 1 credit) |
| LANGUAGES OTHER THAN ENGLISH | 2 Credits: In the same language or 2 credits selected from Computer Science I, II, or III |
| FINE ARTS | 1 Credit |
| ELECTIVES | 6 Credits Must be selected from the State Board of Education approved courses for grades 9-12 |
| TOTAL CREDITS | 26 |

In addition to endorsements, students may earn performance acknowledgements on their high school transcripts to reflect outstanding achievement in certain areas.

PERFORMANCE ACKNOWLEDGEMENTS (next page for additional detail)

- Outstanding performance: Dual credit coursework; bilingualism/bi-literacy; Advanced Placement or International Baccalaureate performance; national exam performance
- Certification: Nationally or internationally recognized business or industry certification or license

APPROVED ADVANCED COURSES FOR THE FOUNDATION AND ENDORSEMENT HIGH SCHOOL PLAN

These courses satisfy the advanced course requirements for the Foundation & Endorsement High School Plan in English, Mathematics, and Science. This list is subject to update at any time by the Texas Education Agency and the State Board of Education.

ENGLISH LANGUAGE ARTS:

- Advanced Broadcast Journalism III
- Advanced Journalism: Newspaper III
- Advanced Journalism: Yearbook III/Literary Magazine
- Business English
- College Prep for Post-Secondary Readiness in English Language Arts
- Communications Applications (must be combined with another half-credit from this list)
- Creative Writing
- Debate III
- English IV
- Humanities
- Independent Study in English

MATHEMATICS:

- ♦ Accounting II (CTE)
- Advanced Quantitative Reasoning
- Algebra II or PAP Algebra II
- ✤ Algebraic Reasoning^{*}
- College Prep for Post-Secondary Readiness in Mathematics^o
- Discrete Mathematics for Computer Science
- Discrete Mathematics for Problem Solving

✤ ADVANCED PLACEMENT/HONORS PROGRAM

PURPOSES OF ADVANCED PLACEMENT/HONORS COURSES

Advanced Placement courses are college level courses taken by high school students in which they may receive college credit by passing a national exam. Students must take an AP exam to receive college credit. Colleges and universities set their own standards for awarding credit. Over 90% of the U.S. colleges and universities as well as those in twenty other countries award credit for AP exams.

AP courses are taught by high school teachers or university professors who receive College Board training. Since AP students are working on a college level, AP courses are designated as Bonus Points courses, and the students receive additional points toward their GPA. All AP courses are open to students in grades 9-12 who are in good academic standing and have met the criteria for selection.

CRITERIA FOR SELECTION

Students who meet the following criteria should consider enrolling in Advanced Placement, PreAP or honors courses:

- Gifted and talented student;
- Have a semester grade of at least 80 in an AP, PreAP or honors course in the same or comparable academic area the previous semester;
- > Have a grade of at least 90 in an on-level course in the same or comparable academic area the previous semester;
- > Have teacher, counselor, or principal recommendation to enroll in the class.

NEW STUDENTS TO ABILENE ISD

A student new to Abilene ISD who has been enrolled in/or approved for an Advanced Placement, PreAP or honors program or the equivalent in a previous school will be offered placement in the Abilene ISD Advanced Placement program.

✤ DUAL CREDIT COURSES

Abilene ISD students have dual credit opportunities at six colleges and universities (Abilene Christian University, Angelo State University, Cisco College, Hardin-Simmons University, McMurry University, and Texas State Technical College-West Texas) and through the state-wide Advanced Technical Credit (ATC) Program. AISD may negotiate agreements with additional colleges for dual credit. Additional dual credit courses may be added at any time. Students must meet eligibility criteria for each course.

Students may earn both high school and college credit at the same time when enrolled in a dual credit course. Credit is posted to the student's high school transcript and college transcript upon successful completion of the course. The student is taught in the same way as college students who take the same course. With regard to dual credit courses taught by college or university faculty, grading procedures are determined by the college or university. Dual credit courses taught by AISD faculty follow AISD grading guidelines. <u>Only AP dual credit grades are included in GPA calculations.</u>

Dual enrollment classes are taught by one of the following teaching arrangements:

- > The course may be taught on the college campus by a college instructor
- > The course may be taught on a high school campus by a college instructor
- > The course may be taught on a high school campus by a high school/college teacher

Policies regarding college tuition, fees, and required instructional supplies are set by the college or university. Students must meet specific college and Abilene ISD criteria before being accepted for enrollment in a dual credit course. Students should check with individual institutions of higher learning for admission requirements and details for awarding credit. Please note that students may be responsible for the cost of tuition and books. Interested students should check with their counselor for information and requirements for enrollment.

Please refer to the Dual Credit Supplement for the dual credit course offerings and conditions of enrollment. The Dual Credit Supplement has specific information from the universities regarding course offerings, course descriptions, fees, requirements and important dates. This supplement will be available as college courses are published at the college/university level. A District Dual Credit Informational Meeting also will be scheduled in the spring and dates for students to register with the universities will be announced then.

WHAT COUNTS IN COLLEGE ADMISSIONS

| Factors Influencing Admission Decisions | | | | | | |
|---|-------|--|--|--|--|--|
| (NACAC Annual Admissions Survey) | | | | | | |
| Grades in Academic/Challenging Courses | (80%) | | | | | |
| SAT/ACT Scores | (52%) | | | | | |
| Grades in All Subjects | (45%) | | | | | |
| Class Rank | (31%) | | | | | |
| Essay | (20%) | | | | | |
| Teacher/Counselor Recommendations | (17%) | | | | | |
| Community Service | (8%) | | | | | |
| Work/School Activities | (8%) | | | | | |

The single most important credential in the applicant's folder is his/her academic record, particularly the junior year and the first half of the senior year. Usually you can help your college chances by making a strong effort to improve your course selections and grades during this time, showing you are "on the way up." College preparatory courses taken throughout high school are the most important factor in the college admission decision and will receive scrutiny by admissions officers.

The college admissions process is complex. Here are some points that may be valuable as you try to unravel its mysteries:

- Standardized examinations play a major role in the admission process. Students should take the PSAT, SAT, and ACT during their junior year. These scores are considered reliable predictors for college success when combined with high school grades in academic courses and rank in class.
- Extracurricular activities and community service play an important role in the admissions process. Colleges frequently state they look for students who will make a significant contribution to the college community. Because around 70% to 80% of all students can handle the academics, colleges often look for that extra dimension musicians, editors, actors, photographers, athletes and others with a developed and usable talent as well as students with leadership qualities. Students with superior ability in these areas can expect to receive a special review by faculty with expertise and careful consideration by the admissions office.
- For most competitive colleges, recommendations are an essential part of an applicant's file. The exceptions to this rule are large state universities where written recommendations are often not required or given as much weight. Recommendations describe not only achievements and skills, but also character, motivation, integrity and patterns of growth. Teachers' reports also play an important role in selection process, particularly when the teachers know the student well and are willing to detail potential in specific areas.
- Correspondence with colleges should be initiated and followed up by the student. Many college admissions people see this as a reflection of a student's sense of responsibility and independence. It also indicates such items as accuracy, clarity, courtesy, and maturity. If there is a particular problem on the school record or the application that needs further clarification, the student should feel free to write the college. Just as colleges keep files on students, students should keep files on the colleges. Included in the files should be copies of letters, notes, and drafts of essays. Your guidance counselor and English teacher are excellent resources when corresponding with colleges, filling out applications, and writing the required essays.

For more information visit the Abilene Education Foundation's website at www.aaeeff.org.

Science, Technology, Engineering and Mathematics (STEM) Endorsement

Subject to State Board of Education approval and updates:

A student may earn a Science, Technology, Engineering and Mathematics Endorsement (STEM) by completing the requirements including Algebra II, chemistry, physics and:

- a coherent sequence of courses for four or more credits in career and technical education (CTE) that consists of at least two courses in the same career cluster, including at least one advanced CTE course which includes any course that is the third or higher course in a sequence. The final course in the sequence must be from the STEM career cluster; or
- 2. courses required to complete a TEA-designated program of study related to STEM; or
- 3. three credits in mathematics by successfully completing Algebra II and two additional math courses for which Algebra II is a prerequisite; or
- 4. four credits in science by successfully completing chemistry, physics and two additional science courses; or
- 5. in addition to Algebra II, chemistry and physics, a coherent sequence of three additional credits from no more than two of the areas listed in 1, 2, 3 and 4.

ATEMS ACADEMY OF TECHNOLOGY, ENGINEERING, MATH & SCIENCE

A STEM High School

650 E. HWY 80 Abilene, Texas 79601 325-794-4140

The Academy of Technology, Engineering, Math & Science is a public high school within Abilene ISD. The academic focus of this campus is on providing challenging, high-quality STEM (Science, Technology, Engineering, & Math) instruction in order to prepare students for success in STEM careers and higher education. ATEMS emphasizes academic excellence, personal responsibility, respect, professional communication, community service, and leadership.

The engineering program of study is comprised of courses that are part of the nationally-recognized Project Lead the Way program. PLTW provides course curriculum and extensive teacher-training. ATEMS utilizes traditional instruction as well as Project-Based Learning (PBL) and Problem-Based Learning (PrBL) and provides 1-to-1 technology access for all students. ATEMS offers rigorous Pre-AP, AP, and dual-credit courses as well as on-level academic courses. In order to encourage both communication and collaboration, students and teachers utilize a web-based learning management system.

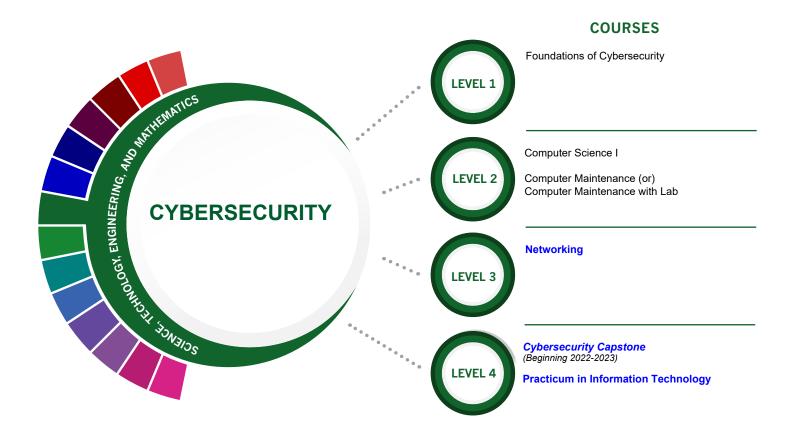

ATEMS provides numerous opportunities for student leadership and involvement including Student Council, UIL academic competitions, robotics, National Honor Society, National Technical Honor Society, Mouse Squad, STARS, and conference-led activities and community service projects. In addition, ATEMS students may choose to participate in athletics, band, orchestra, choir, and Junior ROTC at Abilene and Cooper high schools.

Students who are interested in attending ATEMS may apply online at <u>www.abileneisd.org/atems</u>. Application dates and information are also available at that website. For information regarding coursework and extra-curricular participation, please contact the ATEMS counselor.

| Foundations of Cybersecurity (TAFCYE | 3) |
|--|---|
| Course #: 08963 | Credits: 1 |
| PEIMS #: 03580850 | Grades: 9-12 |
| In this course, students will develop the knowled needed to explore fundamental concepts rela laws, and operations of cybersecurity. Students trends and operations of cyberattacks, threats, vulnerabilities. Students will review and explore designed to mitigate risks. The skills obtained in prepare students for additional study in cyberse Proconditional | ted to the ethics, will examine and security policies this course |
| Prerequisites: None | |

| Computer Science I (TACS1) | |
|----------------------------|--------------|
| Course #: 09181 | Credits: 1 |
| PEIMS #: 03580200 | Grades: 9-12 |

Computer Science I will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will collaborate with one another, their instructor, and various electronic communities to solve the problems presented throughout the course. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems. By using computer science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of the principles of computer science through the study of technology operations, systems, and concepts. This course will be offered at ATEMS during the 2020-2021 school year and will be available to all high school students beginning in 2021-2022.

Prerequisites: Algebra I

| Computer Maintenance (COMPMTN) | |
|--------------------------------|---------------|
| Course #: 08933 | Credits: 1 |
| PEIMS #: 13027300 | Grades: 10-12 |

Students acquire knowledge of computer maintenance and creating appropriate documentation. Students will analyze the social responsibility of business and industry regarding the significant issues relating to the environment, ethics, health, safety, and diversity in society and in the workplace as related to computer maintenance. Students will apply technical skills to address the IT industry and emerging technologies. This course cannot be entered at mid-term.

Prerequisites: Principles of Information Technology recommended

STEM - Engineering Program

The Abilene Independent School District utilizes the Project Lead the Way® Pre-engineering Program for grades 9 -12. Project Lead the Way® (PLTW) is a standards-based curriculum that will challenge the student to solve real-world engineering problems by applying knowledge and skills related to mathematics, science, and technology. A student who completes the challenging pre-engineering and academic curriculum will:

- use state-of-the-art computer hardware and software technology in use in the engineering industry;
- participate in a hands-on, team-oriented activity-based program;
- have the opportunity to enroll in a sequence of four courses covering the essentials of engineering technology; and
- take courses that will apply and reinforce the study of math, science and technical communication

Requirements to participate in Project Lead the Way® include

- having a strong interest in pursuing a career in engineering or engineering technology;
- enrolling in at least one college preparatory mathematics course each year in high school; and
- having a strong interest in science

The four-year sequence for pre-engineering Project Lead the Way® is as follows:

9th grade: Introduction to Engineering Design

10th grade: Engineering Science

11th grade: Computer Integrated Manufacturing and/or Aerospace Engineering

12th grade: Engineering Design and Development

Through the 2020-21 school year, all Project Lead the Way® courses are only available at the Academy of Technology, Engineering, Mathematics and Science (ATEMS) and are only open to ATEMS students. Beginning in 2021-22, the PLTW courses will be available to all AISD students through The LIFT Center.

Introduction to Engineering Design AISD required

Computer Integrated Manufacturing*△ (PLTW) (CIM) Advanced Honors Course #: 08902 Credits: 1 PEIMS #: N1303748 Grades: 11-12

This course is part of the AISD Project Lead the Way® Pre-Engineering sequence. Manufactured items are part of everyday life, yet most students have not been introduced to the high-tech, innovative nature of modern manufacturing. This course illuminates the opportunities related to understanding manufacturing. At the same time, it teaches students about manufacturing processes, product design, robotics, and automation. Students can earn a virtual manufacturing badge recognized by the National Manufacturing Badge System. This course cannot be entered at mid-term and cannot be the sole final CTE course for the STEM endorsement. This course is only offered at ATEMS for 2020-2021. It will be offered at The LIFT for all high schools beginning in 2021-2022.

Prerequisites: None state required; Introduction to Engineering Design and Engineering Science AISD required

STEM Endorsement *Advanced CTE course

Aerospace Engineering* (PLTW) (AERO) Advanced Honors

| Course #: 08982 | Credits: 1 |
|-------------------|--------------|
| PEIMS #: N1303745 | Grade: 11-12 |

In this course students learn the fundamentals of atmospheric and space flight. As they explore the physics of flight, students bring the concepts to life by designing an airfoil, propulsion system, and rockets. They learn basic orbital mechanics using industry-standard software. They also explore robot systems through projects such as remotely operated vehicles. This course cannot be the sole final CTE course for the STEM endorsement. This course is only offered at ATEMS for 2020-2021. It will be offered at The LIFT for all high schools beginning in 2021-2022.

Prerequisites: None state required; Introduction to Engineering and Engineering Science AISD required; Either concurrent enrollment in either AP Physics or Pre-AP Pre-Cal or completion of Pre-Cal or Physics with a minimum final grade of 85 of Pre-AP PreCal with a minimum final grade of 80 recommended by AISD

Engineering Design and Development* ${}^{\scriptscriptstyle \bigtriangleup}$ (PLTW) (EDD)

| Ac | dvar | nced | Hon | ors |
|----|------|------|-----|-----|
| | | | | |

| Course #: 08903 | Credits: 1 |
|-------------------|------------|
| PEIMS #: N1303749 | Grade: 12 |
| | |

The knowledge and skills students acquire throughout PLTW Engineering come together in Engineering Design and Development as they identify an issue and then research, design, and test a solution, ultimately presenting their solution to a panel of engineers. Students apply the professional skills they have developed to document a design process to standards, completing Engineering Design and Development ready to take on any post-secondary program or career. This course cannot be entered at mid-term and **cannot be the sole final CTE course for the STEM endorsement. This course is only offered at ATEMS for 2020-2021. It will be offered at The LIFT for all high schools beginning in 2021-2022.**

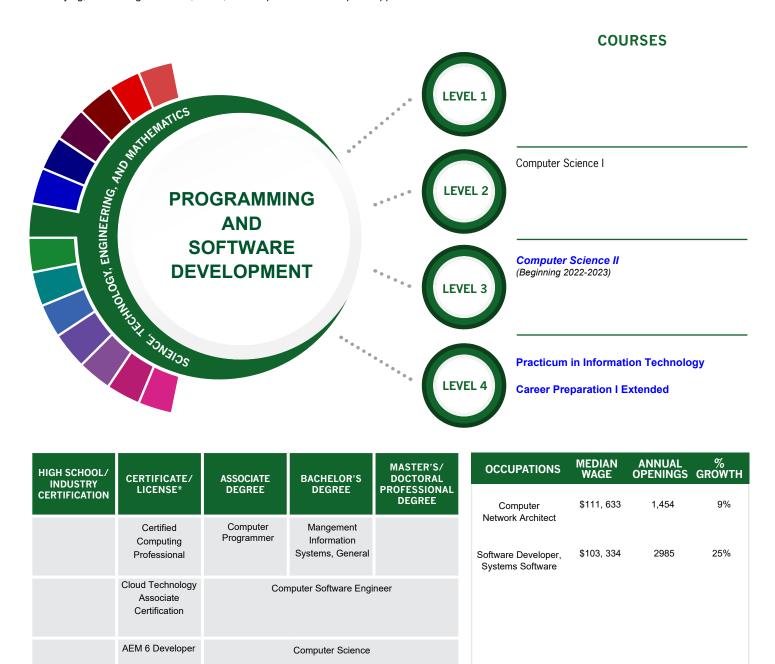

Prerequisites: None state required; Engineering Science, Introduction to Engineering Design, and either Computer Integrated Manufacturing or Aerospace Engineering AISD required

Practicum in Science, Technology, Engineering, and Mathematics* (PRCSTEM1)

| Course #: 08891 | Credits: 2 |
|---|---|
| PEIMS #: 13037400 | Grade: 12 |
| This course is recommended for students in grade 1 practicum course is a paid or unpaid capstone exp students participating in a coherent sequence of c technical education courses in the science, techno engineering, and mathematics career cluster. This only offered at ATEMS for 2020-2021. It will be offered for all high schools beginning in 2021-2022. | perience for areer and plogy, course is |
| Prerequisites: Algebra I and Geometry; two S cluster credits recommended | TEM career |

 $^{\triangle}\mbox{Approved CTE Innovative Courses cannot be the sole final course in a coherent sequence for endorsement in STEM$

The **Programming and Software Development** program of study explores the occupations and education opportunities associated with researching, designing, developing, and testing operating systems-level software, compilers, and network distribution software for medical, industrial, military, communications, aerospace, business, scientific, and general computer applications. This program of study may also include exploration into creating, modifying, and testing the codes, forms, and script that allow computer applications to run

WORK BASED LEARNING AND EXPANDED LEARNING OPPORTUNITIES

Exploration Activities: Student organization = SkillsUSA and/or Technology Student Association Work Based Learning Activities: Obtain an industry based certification.

For more information on postsecondary options for this programs of study, visit TXCTE.org

*Includes Level I and Level II Certificates

Certifed

Software Analyst

The Science, Technology, Engineering, and Mathematics (STEM) Career Cluster focuses on planning, managing, and providing, scientific research and professional and technical services, including laboratory and testing services, and research and development services.

Successful completion of the Programming and Software Development program of study will fulfill requirements of STEM Endorsement. Approved Statewide Program of Study - September 2019

PEIMS #: 03580300 Computer Science II will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will collaborate with one another, their instructor, and various electronic communities to solve the problems presented throughout the course. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems. By using computer science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of computer science through the study of technology operations, systems, and concepts. AISD plans to offer this course beginning in the 2021-2022 school year. Prerequisites: Algebra I and either Computer Science I or Fundamentals of Computer Science

Practicum in Information Technology* (PRACIT1)Course #: 08871Credits: 2PEIMS #: 13028000Grade: 12

Students gain advanced knowledge and skills in the application, design, production, implementation, maintenance, evaluation, and assessment of products, services, and systems. Knowledge and skills in the proper use of analytical and application of IT concepts and standards are essential to prepare students for success in a technologydriven society. Critical thinking, IT experience, and product development may be conducted in a classroom setting with an industry mentor, as an unpaid or paid internship, as part of a capstone project or as career preparation. **This course is only offered at ATEMS.**

Prerequisites: A minimum of two high school information technology (IT) courses required.

Business and Industry Endorsement

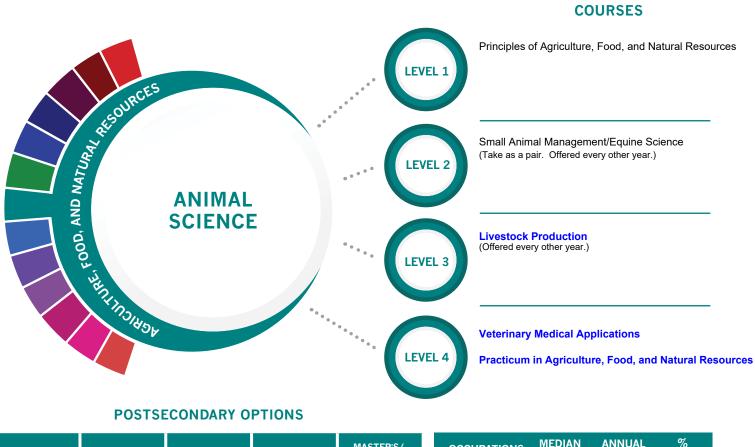

Subject to State Board of Education approval and updates:

A student may earn a Business and Industry Endorsement by completing the following requirements:

1. a coherent sequence of courses for four or more credits in career and technical education (CTE) that includes at least two courses in the same career cluster, including at least one advanced CTE course which includes any course that is the third or higher course in a sequence. The final course in the sequence must be selected from one of the following CTE career clusters:

- Agriculture, Food and Natural resources
- Architecture and Construction
- Arts, Audio/Visual Technology and Communications
- Business, Management and Administration
- Finance
- Hospitality and Tourism
- Information Technology
- Manufacturing
- Marketing
- Transportation, Distribution and Logistics
- Energy
- Career Preparation I or II and Project-Based Research related to a career field from this list; or
- 2. courses required to complete a TEA-designated program of study related to business and industry; or
- 3. four English credits, including three levels of one of the following areas:
 - Advanced Broadcast Journalism; or
 - Advanced Journalism: Newspaper; or
 - Advanced Journalism: Yearbook
 - Public Speaking; or
 - Debate
- 4. a coherent sequence of four credits from 1, 2, or 3.

The Animal Science program of study focuses on the science, research, and business of animals and other living organisms. It teaches students how to apply biology and life science to real-world life processes of animals and wildlife, either in laboratories or in the field, which could include a veterinary office, a farm or ranch, or any outdoor area harboring animal life. Students may also research and analyze the growth and destruction of species and research or diagnose diseases and injuries of animals.

hand and power tools. For safety and liability considerations, limiting course enrollment to 15 students is recommended. This course also provides communication and occupational skills to assist the student in obtaining and maintaining employment. *Prerequisites: None*

Construction Technology I (CONTECH1)

Course #: 08812Credits: 2PEIMS #: 13005100Grades: 10-12In this course students will gain knowledge and skills needed to
enter the workforce as carpenters or building maintenance

supervisors or to prepare for a postsecondary degree in construction management, architecture, or engineering. Students will acquire knowledge and skills in safety, tool usage, building materials, codes, and framing. For safety considerations, limiting course enrollment to 15 students is recommended. This course cannot be entered at mid-term. *Prerequisites: None; Principles of Construction recommended*

Construction Technology II* (CONTECH 2)

Course #: 08813 PEIMS #: 13005200 Credits: 2 Grades: 11-12

In this course students will gain advanced knowledge and skills needed to enter the workforce as carpenters, building maintenance technicians, or supervisors or to prepare for a postsecondary degree in construction management, architecture, or engineering. Students will build on the knowledge base from Construction Technology I and are introduced to exterior and interior finish-out skills. For safety considerations, limiting course enrollment to 15 students is recommended. This course cannot be entered at mid-term. *Prerequisites: Construction Technology I*

Mill and Cabinetmaking Technology* (MACTECH)

Credits: 2

| Course #: 08960 | |
|--------------------|--|
| DEINAS #. 12005200 | |

PEIMS #: 13005300Grades: 10-12In this course, students will gain knowledge and skills needed to
enter the workforce in mill work and cabinet manufacturing and
installation. Students may also apply these skills to professions in
carpentry or building maintenance supervision or use the skills as
a foundation for a postsecondary degree in construction
management, architecture, or engineering. Students will acquire
knowledge and skills in cabinet design, tool usage, jointing
methods, finishes, and industry-level practices such as numerical
and computer-control production methods. AISD plans to offer
this course beginning in the 2021-2022 school year.

Prerequisites: None; Principles of Construction recommended

related to a student's training station.

Prerequisites: None

The **Automotive** program of study teaches students how to repair and refinish automobiles and service various types of vehicles. Students may learn to collect payment for services or supplies and perform typical vehicle maintenance procedures such as lubrication, oil changes, installation of antifreeze, or replacement of accessories like wiper blades or tires.

movement of people, materials, and goods by road, pipeline, air, rail, and water. It also includes related professional support services such as transportation infrastructure planning and management, logistics services, mobile equipment and facility maintenance.

Successful completion of the Automotive program of study will fulfill requirements of the Business and Industry Endorsement. Approved Statewide Program of Study - September 2019

Public Services Endorsement

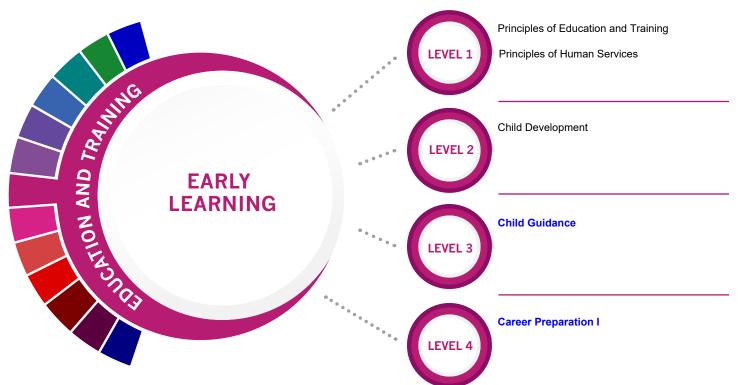

Subject to State Board of Education approval and updates:

A student may earn a Public Services Endorsement by completing the following requirements:

- a coherent sequence of courses for four or more credits in CTE that consists at least two courses in the same career cluster, including at least one advanced CTE course which includes any course that is the third of higher course in a sequence. The final course in the sequence must be selected from one of the CTE career clusters listed in the following:
 - Education and Training
 - Health Science
 - Human Services
 - Law, Public Safety, Corrections, and Security;
 - Career Preparation I or II and Project-Based Research if the course addresses a filed from this list; or
- 2. courses required to complete a TEA-designated program of study related to public services; or
- 3. four credits in Junior Reserve Officer Training Corps (JROTC)

The **Early Learning** program of study focuses on early childhood education, which consists of instructing and supporting preschool and early elementary school students in activities that promote social, physical and intellectual growth as well as in basic elements of science, art, music, and literature. This program of study introduces CTE concentrators to tasks necessary for planning, directing, and coordinating activities for young children.

Program Overview:

Students who choose to complete the Healthcare Therapeutic program of study within the Health Science cluster generally complete Principles of Health Science and Medical Terminology during their freshman and sophomore years at Abilene High or Cooper High.

During their junior year, students attend Holland where they complete Health Science Theory with a clinical experience. While in this course, students choose to focus either on earning their Certified Nurse Aide/Assistant certification or on learning about a variety of healthcare career fields (this option is referred to as Diversified Healthcare Services). Juniors also complete Anatomy and Physiology A $a certain A_{\rm A} + A_{\rm A}$

For their senior year, students complete both Medical Microbiology and Practicum in Health Science. During their Practicum course, students will choose to complete one of the following certification options:

- Pharmacy Technician certification,
- Registered Dental Assistant certification,
- Certified Nurse Aide/Assistant certification, or
- Certified Medical Assistant with EKG/ECG Technician certification.

HOLLAND MEDICAL HIGH SCHOOL

Students interested in pursuing careers in the health care field have the opportunity to attend Holland Medical High School on the beautiful campus of Hardin-Simmons University. Holland is a unique, collaborative partnership between HSU, Cisco College and the Abilene Independent School District. Constructed on the corner of Cedar and Vogel, Holland Medical High is located near the largest medical community in West Texas and is adjacent to Hendrick Health System.

Holland offers the Healthcare Therapeutic program of study to eleventh and twelfth grade students interested in the health field. Students divide their time each day between Holland and their home campuses. Beginning

their junior year, students attend Holland Medical High School for three periods each day (either morning or afternoon) with the remainder of the day spent at their home campus where they complete additional courses and have the option to participate in extracurricular activities, such as athletics and fine arts. Principles of Health Science, a required prerequisite course, is available at both Cooper High and Abilene High for 10th through 12th graders. Medical Terminology, a recommended prerequisite, is open to 9th through 12th grade students. Students who complete the Healthcare Therapeutic program of study will be eligible for a Public Services Endorsement upon graduation.

Health Science Courses offered at Holland are:

- > Health Science Theory/Health Science Clinical Certified Nurse Aide
- ▶ Health Science Theory/Health Science Clinical Diversified Healthcare Skills
- Practicum in Health Science Pharmacy Technician
- Practicum in Health Science Dental Assistant
- Practicum in Health Science Medical Assistant
- Anatomy and Physiology
- Medical Microbiology

Holland students will have the opportunity to complete numerous certifications recognized by the health care industry. These certifications may include the following: ASHI First Aid; CPR; OSHA 10; Certified Nurse Aide; Pharmacy Technician; Registered Dental Assistant (Radiology, Infection Control, and Jurisprudence); Certified Electrocardiograph Technician; Certified Clinical Medical Assistant; and Phlebotomy Technician.

For additional information on Holland Medical High School and the AISD Health Science program of study, contact the Director of Holland at (325)794-4120.

| Health Science Career Cluster recommended | | | |
| | | | |

Practicum in Health Science – Medical Assistant* (PRACHLS2-CMA)

| Course #: 08915 | Credits: 2 |
|-------------------|------------|
| PEIMS #: 13020510 | Grade: 12 |
| | |

This practicum is designed to provide the knowledge and skills for students to obtain national-approved medical assistant certifications. In the fall, students are offered a certification as a Certified Electrocardiograph Technician (CET). This semester consists of learning how to perform an EKG and patient monitoring during cardiac procedures and interpreting EKG results. In the spring, students are offered a certification as a Certified Clinical Medical Assistant. This semester consists of learning skills such as patient history and assessment, minor office procedures, phlebotomy, EKG, specimen collection and front-office admission skills. Students will do clinicals at the hospital and physician offices. This course cannot be entered at midterm. **This course is only available at Holland Medical High.** *Prerequisites: Principles of Health Science and Biology required; Health Science Theory/Health Science Clinical Recommended*

Practicum in Health Science – Pharmacy Technician* (PRACHLS2-PHARM)

| Course #: 08914 | Credits: 2 | | |
|--|------------|--|--|
| PEIMS #: 13020510 | Grade: 12 | | |
| This practicum is designed to give students the know | wledge and | | |
| skills to complete the national certification test for F | harmacy | | |
| Technician. The practicum course provides an unpaid capstone | | | |
| experience for students participating in the health | science | | |
| coherent sequence. This course is only available at Holland | | | |
| Medical High. | | | |
| Prerequisites: Principles of Health Science required; | · Health | | |

Prerequisites: Principles of Health Science required; Health Science Theory/Health Science Clinical and Chemistry recommended

Practicum in Health Science – Dental Assistant* (PRACHLS2-RDA)

| Course #: 08927 | Credits: 2 |
|--|---------------------------|
| PEIMS #: 13020510 | Grade: 12 |
| This was attained to characterize and the solute students in | اممر متمام مانيت متنا مطا |

This practicum is designed to give students the knowledge and skills to complete the state certification test for Registered Dental Assistant. Students will have the opportunity to complete up to three of the certifications recognized in the state certification test. This practicum provides an unpaid internship in a dental office. This course is only available at Holland Medical High.

Prerequisites: Principles of Health Science

| Practicum in Health Science - | Certified Nurse Aide* |
|-------------------------------|-----------------------|
| (PRACHLSC2-CNA) | |
| Course #: 08923 | Credits: 2 |
| PEIMS #: 13020510 | Grades: 12 |
| PEIIVIS #. 13020310 | Grades. 12 |

A course designed to provide for the development of multioccupational knowledge and skills related to a wide variety of health careers. Students will have hands-on experiences for continued knowledge and skills development. During the fall semester students will participate in a Texas Department of Health approved Nurse's Aide certification program. During the spring semester students will participate in clinical rotations at participating local health care facilities. This course cannot be entered at mid-term. This course is only available at Holland Medical High.

Prerequisites: Principles of Health Science, Biology, and Health Science Theory/Health Science Clinical-DHS

| Project-Based Research – Phlebotomy* (PROBS1) |
|---|
|---|

| Course #: 08950 | Credits: 1 |
|-------------------|------------|
| PEIMS #: 12701500 | Grade: 12 |

Phlebotomy is an independent study course taught on the campus of Cisco College, offered as a continuing education credit. This course usually meets three nights a week during the spring semester. Phlebotomy provides a general overview of techniques, procedures and issues pertaining to the proper collection of blood specimens for routine clinical laboratory testing in order to develop well-trained, proficient and professional phlebotomists. Students will learn proper patient contact and procedures; phlebotomy techniques, procedures and equipment; the anatomy and physiology of the circulatory system; and laboratory organization and measurement. Training includes 84 hours of classroom instruction and clinical hours determined by the successful completion of 100 combined vein puncture and finger/heel sticks for students to receive a National Phlebotomy certification. This course is only available at Holland Medical High.

Prerequisites: Principles of Health Science

Project-Based Research – Research and Design* (PROBS1)

| Course #: 08952 Cre | edits: 1 |
|--|----------|
| PEIMS #: 12701500 Grad | de: 12 |
| This independent study course is a project-based learning | |
| experience developed by a student or group of students | and |
| an interdisciplinary mentor team. The project provides | |
| opportunities for an in-depth study of at least one aspect | of the |
| healthcare industry. The student or group demonstrates th | e |
| ability to utilize a variety of resources, advanced technolo | igy, |
| and communication skills in the development and present | tation |
| of the project. This course is only available at Holland Med | lical |

Prerequisites: Principles of Health Science, Health Science Theory, Practicum in Health Science

High.

The **Family and Community Services** program of study introduces students to knowledge and skills related to social services, including child and human development and consumer sciences. CTE concentrators may learn about or practice managing social and community services or teaching family and consumer sciences. Students may follow career paths in social work or therapy for children, families, or school communities.

Military Science/JROTC

AIR FORCE JUNIOR RESERVE OFFICER TRAINING CORPS (AFJROTC)

General Qualifications:

- > Cadets must be able to perform physical training/exercise to include up to a mile and half run, push-ups and sit ups.
- > Cadets are required to comply with AFJROTC grooming standards (hair/shave/makeup) and be of good moral character.
- > Air Force issued uniforms will be worn once a week and at other times as directed.
- > Activity fee required.

Program Benefits:

- > Cadets will be taught life skills, discipline, citizenship, how to lead people and manage resources
- Cadets are provided books and uniforms at no cost.
- Cadets do not incur military service obligations.
- Students may take AFJROTC in lieu of Physical Education.
- > Cadets can participate in extracurricular activities: Drill Teams, Rocket Teams, PT Teams, etc.
- Cadets who successfully complete the AFJROTC program and enlist in one of the military services may begin their military career at higher rank and pay grade. (Subject to change and as directed by each military service.)
- Senior ROTC scholarships are available for qualified applicants.
- Nominations to service academies are available for qualifying students.

Program Components:

The Air Force Junior Reserve Officer Training Corps (AFJROTC) course of study consists of three (3) major program components which are taught over four years. The curriculum is instrumental in developing citizens of character dedicated to serving our nation and communities:

- 1. Leadership Education (LE): Leadership Education courses are focused on AFJROTC mission, standards, drill, and discipline. This includes, but is not limited to courses of instruction in: Citizenship, customs and courtesies; Effective communication and leadership skills; introduction to career opportunities/life skills and tools for success after high school whether that be in college, civilian or military careers; importance of managers, management, and characteristics of what it takes to be a good leader.
- 2. Aerospace Science (AS): Aerospace Science is a broad area of study introducing cadets to patriotism, national security, fundamentals of aerodynamics, rocketry, space/astronomy, aerospace history, and people, governments and cultures. The senior cadets also learn how to manage the cadet corps. Cadets are encouraged to complete high school, pursue higher educational goals and skills, and even consider the Air Force or other military service as a possible career path.
- 3. Wellness and Fitness (PT): Wellness is an official and integral part of the AFJROTC program which consists of exercise programs focused upon individual base line improvements with the goal of achieving a national standard as calculated by age and gender. The Wellness curriculum is instrumental in developing citizens of character dedicated to serving our nation and communities.

AP Studio Art: Two-Dimensional Design Portfolio (AP2DDP)

| Course #: 02414 | Credits: 1 |
|-------------------|---------------|
| PEIMS #: A3500400 | Grades: 10-12 |

This portfolio is intended to address a very broad interpretation of two-dimensional design issues. This type of design involves purposeful decision-making about the use the elements and principles of art in an integrative way. The elements of design (line, shape, illusion of space, illusion of motion, pattern, texture, value, and color) are like a palette of possibilities that artists use to express themselves. For this portfolio, students are asked to demonstrate proficiency in two-dimensional design using a variety of art forms such as graphic design, typography, digital imaging, photography, collage, fabric design, weaving, illustration, painting, and printmaking. This course cannot be entered at mid-term. Students are expected to submit an AP portfolio.

Prerequisites: Art II; teacher approval recommended

AP Studio Art: Three-Dimensional Design Portfolio (AP3DDP)

| Course #: 02514 | Credits: 1 |
|-------------------|---------------|
| PEIMS #: A3500500 | Grades: 10-12 |
| | |

This portfolio is intended to address a broad interpretation of sculptural issues in depth and space. These may include mass, volume, form, plane, light, and texture. Such elements and concepts can be articulated through additive, subtractive, and/or fabrication processes. A variety of approaches to representation, abstraction, and expression may be part of the student's portfolio. These might include, among others, traditional sculpture, architectural models, apparel, ceramics, three-dimensional fiber art or metal work. Students are expected to submit an AP Portfolio. This course cannot be entered at mid-term.

Prerequisites: Art II; teacher approval recommended

| AP History of Art (APHISART) | |
|---|---------------|
| Course #: 02314 | Credits: 1 |
| PEIMS #: A3500100 | Grades: 11-12 |
| This course is designed to provide the same | benefits to |

secondary school students as are provided by an introductory college course in art history and the understanding and enjoyment of architecture, sculpture, painting, and other art forms with an historical and cultural context. The students will examine major forms of artistic expression and learn to look at works of art critically, with intelligence and sensitivity, and to articulate what they see or experience. This course cannot be entered at mid-term. Students are expected to take the AP exam.

Prerequisites: Teacher approval recommended

| Theatre Arts I (TH1) | |
|----------------------|--------------|
| Course #: 02231 | Credits: 1 |
| PEIMS #: 03250100 | Grades: 9-12 |

This is the first course in theatre, introducing theatre as an art, and beginning the study of the cultural contributions of the theatre, its plays and its performance, its production styles and techniques. The course introduces basic acting, the role of the actor in interpreting dramatic literature, and the historical evolution of performance styles. This course cannot be entered at mid-term.

| Musical Theatre is an interactive class focus | ing on vocal |

Musical Theatre is an interactive class focusing on vocal training, dance styles, character analysis and creation and audition techniques. Students will study the work of the actor/singer/dancer and use their gained knowledge to develop as performers. Students will prepare and present as soloists as well as members of small groups and larger ensembles in speaking, singing, and dance disciplines. Since this is a workshop course, students will prepare material for class presentation and critique. Members of the class will have hands-on, performance-based opportunities to practice musical theatre technique. Students will need to provide appropriate clothing, jazz shoes, and character shoes for this course.

AP Music Theory (APMUSTHY) Course #: 02701 Credits: 1 PEIMS #: A3150200 Grades: 11-12 This course is designed to prepare students to take the College Board AP Music Theory exam. This course is designed to develop a student's ability to recognize, understand and describe the basic materials and processes of music that are

heard or presented in a score. This course cannot be entered at mid-term. Students are expected to take the AP exam. *Prerequisites: Teacher approval and ability to read music*

Dance I (DANCE 1) Course #: 02066 Credits: 1 PEIMS #: 03830100 Grades: 9-12 Dance II (DANCE 2) Course #: 02366 Credits: 1 PEIMS #: 03830200 Grades: 10-12 Dance III (DANCE 3) Course #: 02266 Credits: 1 Grades: 11-12 PEIMS #: 03830300 Dance IV (DANCE 4) Course #: 02166 Credits: 1 PEIMS #: 03830400 Grades: 12 Dance may earn either Fine Arts or PE credit, but not both simultaneously. Fine Arts credit is available only to courses taught by an SBEC certified Dance instructor. Dance students develop perceptual thinking, movement principles and technical skills as they explore choreographic and performance qualities. Students develop self-discipline and healthy bodies that move expressively, efficiently, and safely while recognizing dance as a vehicle for understanding historical and cultural relevance, increasing an awareness of heritage and traditions of their own and others, and enabling them to participate in a diverse society.

| PEIMS #: A3410100 Grades: 10-12 | | |
| This course emphasizes the use of the language for active communication and develops the following skills: the ability to understand spoken French in various contexts: a French vocabulary sufficiently ample for reading newspaper and magazine articles, literary texts, and other non-technical writings | | |

without dependence on a dictionary; and for viewing, understanding and responding to global current events via TV and/or technology; and the ability to express ideas coherently, resourcefully, and with reasonable fluency and accuracy in both written and spoken French. Course emphasizes preparation for the AP French Language Exam. This course cannot be entered at mid-term. Students are expected to take the AP exam.

Prerequisites: French III

| Algebra I (ALG 1) | |

| Course #: 05141 | Credits: 1 |
| PEIMS #: 03100500 | Grades: 9-12 |
| Algebra I provides the foundation concept Geometry, and all high school mathematic concepts in the areas of number operation reasoning, algebraic thinking, and symbolic emphasis is placed on function concepts, t between equations, and the use of these to applications. Preparation for End of Course | cs. It establishes ns, quantitative c reasoning. An he relationship o model real world |
| | |

Prerequisites: Grade 8 Math or its equivalent

PreAP Algebra I (ALG 1 PREAP)

Course #: 05101

| Credits: | 1 |
|------------|---|
| Grados 0_1 | 2 |

PEIMS #: 03100500Grades: 9-12This college-preparatory course covers the same material
presented in regular Algebra I. Concepts will be explored in
greater depth and problem-solving will be more varied and
demanding. Technology including the graphing calculator and
the computer will be used to a greater extent than in Algebra I.
Additional topics to be covered are geometric representations
of algebraic situations, quadratic systems with parabolas, and
absolute value equations and inequalities. Preparation for End
of Course testing will be included.

Prerequisites: Grade 8 Math or its equivalent

| Geometry (GEOM) | |
|--|--------------|
| Course #: 05251 | Credits: 1 |
| PEIMS #: 03100700 | Grades: 9-12 |
| Geometry consists of the study of geometric figures of zero, one, two, and three dimensions and the relationships among | |

them. Connections are made between geometric concepts and solving real world problems by using a variety of representations (concrete, pictorial, algebraic, and coordinate), tools, technology, applications and modeling, logical reasoning, justification, and proof. *Prerequisites: Algebra I*

| PreAP Geometry (GEOM PREAP) | |
|---|--------------|
| Course #: 05203 | Credits: 1 |
| PEIMS #: 03100700 | Grades: 9-12 |
| This college-preparatory course will contain the Texas Essential Knowledge and Skills in the regular geometry course. Concepts | |
| will be explored in greater depth and with rigor designed to properly prepare students to be successful in Pre-Advanced | |
| Placement Algebra 2. | |

Prerequisites: Algebra I

| Mathematical Models with Applications (MTHMOD) | |
|---|---------------|
| Course #: 05135 Credits: 1 | |
| PEIMS #: 03102400 | Grades: 10-12 |
| This course revisits Algebra I and Geometry concepts as a | |
| bridge to Algebra II. In addition, students will be introduced to | |

bridge to Algebra II. In addition, students will be introduced to applied math in real world situations, including personal finance (budgeting, insurance, savings, and credit.) This course may not fulfill the math entrance requirements of some colleges. Semesters are independent of each other.

Prerequisites: Algebra I; Geometry recommended

Algebra II (ALG 2)

| Course | #: 05241 | | |
|----------|-----------|---|--|
| DEINAS # | • 0310060 | n | |

PEIMS #: 03100600

Progression through the algebra concepts taught in this course allows students to develop logical reasoning and problemsolving skills vital in today's technology-oriented world. It prepares students for either school-to-work programs or progression to higher mathematics needed for post-secondary studies and emphasizes the need to master functional relationships and employ them to problem-solve real situations. Technology applications allow table building, coordinate graphing, algebraic analysis, and computation. Content encompasses the study of algebraic functions using data analysis, matrices, factoring, complex numbers, properties of exponents, graphs, and tables. The relationships between algebra and geometry are continuously integrated into the course. Abstract algebra concepts and their geometric graphs are linked together for such functions as linear, quadratic, radical, inverse, exponential, and logarithmic functions. Graphs of circles, ellipses, parabolas, and hyperbolas (the conic sections), and their respective algebraic descriptions are also studied and applied.

Credits: 1 Grades: 9-12

Prerequisites: Algebra I; Geometry recommended; Geometry can be taken concurrently

AP Calculus AB (APCALCAB) Course #: 05403 PEIMS #: A3100101 Grades: 11-12

This course will follow the course description for AP Calculus AB as defined by the college board. Students will be taught the Texas Essential Knowledge and Skills of calculus such as applying limit theorems, continuity, differentiation and integration of algebraic and transcendental (trigonometric, exponential, and logarithmic) functions. Also, applications of first and second derivatives including curve sketching, velocity and acceleration, maxima and minima, and related rates are covered. Indefinite and definite integration including applications are presented. Other subjects covered are differentiating composite functions using the chain rule, implicit differentiation problems, and other integration methods. Graphing calculator skills are required for solving some problems. Preparation for the College Board AP Calculus Exam is emphasized. Students are expected to take the AP exam. Prerequisites: Pre-Calculus

AP Calculus BC (APCALCBC)

Course #: 05407 PEIMS #: A3100102

Credits: 1 Grades: 11-12

Credits: 1

This course is equivalent to a first-semester college calculus course and the subsequent single-variable calculus course. It follows the curriculum as presented by the College Board to emphasize the big ideas of limits, derivatives, integrals, and series. Work focuses on mathematical proficiencies including reasoning with definitions and theorems, connecting concepts, implementing algebraic/computational processes, connecting multiple representations, building notational fluency, and communicating scholarly work. Preparation for the College Board AP Calculus Exam is emphasized. Students are expected to take the AP exam.

Prerequisites: Pre-Calculus

| Statistics and Business Decision Making* |
|--|
| (STATSBDM) |
| Course #: 08840 |

Credits: 1 Grades: 11-12

This course in an introduction to statistics and the application of statistics to business decision making. Students will use statistics to make business decisions and will determine appropriateness of methods used to collect data to ensure conclusions are valid

Prerequisites: Algebra II

PEIMS #: 13016900

AP Statistics (APSTATS)

Course #: 05405 PEIMS #: A3100200

```
Credits: 1
Grades: 11-12
```

This course will follow the course description for AP Statistics as defined by the college board. Students will be introduced to the major concepts and tools to collect, analyze, and draw conclusions from data. Topics are divided into four major themes: exploratory analysis, planning a study, probability, and statistical inference. Preparation for the College Board AP Statistics Exam is emphasized. Students are expected to take the AP exam.

Prerequisites: Algebra II and Geometry; Juniors concurrently enrolled in Pre-Calculus recommended

*Advanced CTE course

Mathematical Applications in Agriculture, Food and Natural Resources* (MATHAFNR)

| Course #: 08919 | Credits: 1 |
|-------------------|---------------|
| PEIMS #: 13001000 | Grades: 10-12 |

To be prepared for careers in agriculture, food, and natural resources, students must acquire technical knowledge in the discipline as well as apply academic skills in mathematics. Students should apply knowledge and skills related to mathematics, including algebra, geometry, and data analysis in the context of agriculture, food, and natural resources. To prepare for success, students are afforded opportunities to reinforce, apply, and transfer their knowledge and skills related to mathematics in a variety of contexts.

Prerequisites: Algebra I. Recommended 1 credit from the courses in the Agriculture, Food, and Natural Resources cluster.

College Preparatory Math (CPMAT)

| concepting main (crimin) | |
|--|---------------|
| Course #: 05259 | Credits: 1 |

Core Academic Courses

| Biology (BIO) | |
|-------------------|--------------|
| Course #: 06121 | Credits: 1 |
| PEIMS #: 03010200 | Grades: 9-10 |

In Biology, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical-thinking and scientific problem-solving. Students in biology study a variety of topics that include the following: structures and functions of cells and viruses; growth and development of organisms; cells, tissues, and organs; nucleic acids and genetics; taxonomy; metabolism and energy transfers in living organisms; living systems; homeostasis; ecosystems; and plants and the environment. Preparation for End of Course testing will be included. Prerequisites: None

| PreAP Biology (BIO PREAP) | |
|--|--------------|
| Course #: 06201 | Credits: 1 |
| PEIMS #: 03010200 | Grades: 9-10 |
| In PreAP Biology, students conduct field and | d laboratory |

investigations, use scientific methods during investigations, and make informed decisions using critical-thinking and scientific problem-solving. Students will design and conduct biological scientific experiments. Students in biology study a variety of topics that include the following: structures and functions of cells and viruses; growth and development of organisms; cells, tissues, and organs; nucleic acids and genetics; taxonomy; metabolism and energy transfers in living organisms; living systems; homeostasis; ecosystems; and plants and the environment. Students will be expected to perform on an advanced level in preparation for further upper-level science courses. Preparation for End of Course testing will be included. Prerequisites: None

AP Biology (AP-BIO)

Course #: 06373

PEIMS #: A3010200

Credits: 1 Grades: 11-12 (Grade 10 with teacher recommendation)

The Advanced Placement Biology course is designed to be the equivalent of a college introductory biology course. The course will include those topics regularly covered in a college biology course, and differs from standard high school biology with respect to the kind of textbook used, the range and depth of topics covered, the kind of laboratory work done by students, and the time and effort required of students. The course aims to provide students with the conceptual framework, factual knowledge, and analytical skills necessary to deal critically with the rapidly changing science of biology. In essence, students will learn to think like scientists, including designing and conducting experiments, statistical analysis of data, drawing conclusions based on data analysis, and error analysis. Content requirements for AP Biology are prescribed in the College Board Publication Advanced Placement Course Description: Biology, published by the College Board. Students are expected to take the AP exam.

Prerequisites: Biology, Chemistry and Physics recommended (may be taken concurrently).

Integrated Physics and Chemistry (IPC)

| Course #: 06327 | Credits: 1 |
|---|-------------------|
| PEIMS #: 03060201 | Grade: 9-10 |
| In Integrated Physics and Chemistry, students of | conduct field and |
| laboratory investigations, use scientific methods during | |
| investigations, and make informed decisions using critical- | |
| thinking and scientific problem-solving. This cc | ourse integrates |
| the disciplines of physics and chemistry in the following topics: | |
| motion, waves, energy transformations, properties of matter, | |
| changes in matter, and solution chemistry. | |
| Prerequisites: Biology recommended | |

Chemistry (CHEM)

| Course #: 06263 | Credits: 1 |
|-------------------|---------------|
| PEIMS #: 03040000 | Grades: 10-12 |
| | |

In Chemistry, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem-solving. Students study a variety of topics that include the following: characteristics of matter; energy transformations during physical and chemical changes; atomic structure; periodic table of elements; behavior of gases; bonding; nuclear fusion and nuclear fission; oxidation-reduction reactions; chemical equations; solutes; properties of solutions; acids and bases; molar relationships; and chemical reactions. Students will investigate how chemistry is an integral part of our daily lives.

Prerequisites: Algebra I; Biology recommended. Completion or concurrent enrollment in a second year of math recommended. (If IPC is taken it must be completed before enrolling in chemistry or physics.)

PreAP Chemistry (CHEM PREAP) Course #: 06203 Credits: 1 PEIMS #: 03040000 Grades: 10-12 (Grade 9 with

teacher recommendation)

In PreAP Chemistry, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem-solving. Students study a variety of topics that include the following: characteristics of matter; energy transformations during physical and chemical changes; atomic structure; periodic table of elements; behavior of gases; bonding; nuclear fusion and nuclear fission; oxidation-reduction reactions; chemical equations; solutes; properties of solutions; acids and bases; molar relationships; and chemical reactions. Students will investigate how chemistry is an integral part of our daily lives. Students will be expected to perform on an advanced level in preparation for further upper-level science courses. Prerequisites: Algebra I; Biology recommended. Completion or concurrent enrollment in a second year of math recommended (If IPC is taken it must be completed before enrolling in chemistry or physics.)

AP Chemistry (AP-CHEM)

Course #: 06473 PEIMS #: A3040000 Credits: 1

Grades: 11-12 (10th grade with teacher recommendation)

The Advanced Placement Chemistry course is designed to be the equivalent of the General Chemistry course usually taken during the first college year. For some students, this course enables them to undertake, as college freshmen, second-year work in the chemistry sequence, or to register in courses in other fields where general chemistry is a prerequisite. For other students, the AP Chemistry course fulfills the laboratory science requirement and frees time for other courses. This course differs from high school Chemistry I with respect to the kind of textbook used, the topics covered, the emphasis on chemical calculation and the mathematical formulation of principles, and the kind of laboratory work done by students. Quantitative differences appear in the number of topics treated, the time spent on the course by students, and the nature and the variety of experiments done in the laboratory. Content requirements for AP Chemistry are prescribed in the College Board Publication Advanced Placement Course Description: Chemistry, published by the College Board. Students are expected to take the AP exam.

Prerequisites: Algebra II and Biology; Chemistry or Physics recommended (may be taken concurrently).

| Physics (PHYSICS) | |
|-------------------|---------------|
| Course #: 06371 | Credits: 1 |
| PEIMS #: 03050000 | Grades: 11-12 |
| | |

In Physics, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problemsolving. Students study a variety of topics that include the following: laws of motion, changes within physical systems and conservation of energy and momentum; force; thermodynamics; characteristics and behavior of waves; and quantum physics. This course provides students with a conceptual framework, factual knowledge, analytical, and

scientific skills. Prerequisites: Algebra I and Biology recommended. (IPC is not a prerequisite. If IPC is taken it must be completed before enrolling in chemistry or physics.)

| AP Physics 1: Algebra-Based (APPHYS1) | |
|---------------------------------------|--------------|
| Course #: 06427 | Credits: 1 |
| PEIMS #: A3050003 | Grade: 11-12 |
| | |

AP Physics 1: Algebra-Based is the equivalent to a first-semester college course in algebra-based physics. The course covers Newtonian mechanics (including rotational dynamics and angular momentum); work, energy, and power; and mechanical waves and sound. It will also introduce electric circuits. The focus is on a series of learning objectives that clarify the knowledge and skills students should demonstrate to qualify for college credit and placement. Please check the college you plan to attend for the acceptance of this course in your major field of study. Content requirements for Advanced Placement (AP) Physics are prescribed by the College Board Publication Advanced Placement Course Description: Physics 1, published by the College Board. Students are expected to take the AP Exam.

Prerequisites: Recommended Physics, Algebra 1, Algebra II, and Geometry

AP Physics 2: Algebra-Based (APPHYS2)

| Course #: 06429 | Credits: 1 |
|-------------------|--------------|
| PEIMS #: A3050004 | Grade: 11-12 |

AP Physics 2: Algebra-Based is the equivalent to a secondsemester college course in algebra-based physics. The course covers fluid mechanics; thermodynamics; electricity and magnetism; optics; and atomic and nuclear physics. The focus is on a series of learning objectives that clarify the knowledge and skills students should demonstrate to qualify for college credit and placement. Please check the college you plan to attend for the acceptance of this course in your major field of study. Content requirements for Advanced Placement (AP) Physics are prescribed by the College Board Publication Advanced Placement Course Description: Physics 2, published by the College Board. Students are expected to take the AP Fxam

Prerequisites: Algebra II, completion of Biology, Chemistry, AP Physics I, and concurrent enrollment in Pre-Calculus or Calculus is strongly recommended.

Anatomy and Physiology* (ANATPHYS)

| Forensic Science* (FORENSCI) | |
|------------------------------|---------------|
| Course #: 06431 | Credits: 1 |
| PEIMS #: 13429500 | Grades: 11-12 |

Forensic Science is a course that introduces students to the application of science to connect a violation of law to a specific criminal, criminal act, or behavior and victim. Students will learn terminology and procedures related to the search and examination of physical evidence in criminal cases as they are performed in a typical crime laboratory. Using scientific methods, students will collect and analyze evidence such as fingerprints, bodily fluids, hairs, fibers, paint, glass, and cartridge cases. Students will also learn the history and the legal aspects as they relate to each discipline of forensic science

Prerequisite: Biology and Chemistry. Recommended prerequisite or corequisite: any Law, Public Safety, Corrections and Security career cluster course

| Environmental Systems (ENVIRSYS) | |
|---|----------------------------|
| Course #: 06233 | Credits: 1 |
| PEIMS #: 03020000 | Grades: 11-12 |
| la Facilitation de la Contanta de la Cont | Let an at the language and |

In Environmental Systems, students conduct field and laboratory investigations, use scientific methods during investigations and make informed decisions using critical-thinking and scientific problem-solving. Students study a variety of topics that include the following: biotic and abiotic factors in habitats; ecosystems and biomes; interrelationships among resources and an environmental system; sources and flow of energy through an environmental system; relationships between carrying capacity and changes in populations and ecosystems; and changes in environments.

Prerequisites: Biology and a physical science recommended

| | 0 111 1 |
|---|---------------|
| Course #: 06309 | Credits: 1 |
| PEIMS #: A3020000 | Grades: 11-12 |
| In AP Environmental Science students will study scientific | |
| principles that help them understand the relationships of the | |
| natural world. Students will identify environmental problems | |
| both natural and man-made and examine solutions for | |
| resolving these problems. Topics that will be covered include | |
| the following: flow of energy, nutrient cycles, earth dynamics, | |
| atmospheric pollution, biomes, population studies, | |
| renewable/nonrenewable resources, water and soil quality, | |
| evaluation, and human impact on environmental issues. | |
| Students are expected to take the AP exam. | |
| Prerequisites: Algebra II and Biology; Chemistry and Physics | |
| recommended (may be taken concurrently). | |

| Course #: 06379 | Credits: 1 |
| PEIMS #: 03060100 | Grades: 11-12 |
| In Astronomy, students conduct laboratory and | d field |
| investigations, use scientific methods, and make informed | |
| decisions using critical thinking and scientific problem-solving. | |
| Students study the following topics: astronomy in civilization, | |
| patterns and objects in the sky, our place in space, the moons, | |
| the reason for the seasons, planets, the sun, stars, galaxies, | |
| cosmology, and space exploration. Students who complete | |
| Astronomy will acquire knowledge within a conceptual | |
| framework, conduct observations of the sky, work | |
| collaboratively, and develop critical-thinking s | kills. |
| Prerequisites: Recommended one unit of high : | school science |

| World Geography Studies (W GEO) | |
|--|--|
| Course #: 07261 | Credits: 1 |
| PEIMS #: 03320100 | Grades: 9-12 |
| Students examine people, places, and environmediate regional, national, and international scales from perspective of geography. Students describe the geography on events of the past and present. A portion of the course centers on the physical encultural patterns; the distribution and movement ulation; relationships among people, places, and the concept of region. This course cannot mid-term. | n the spatial ne influence of A significant nvironment; nt of world pop- nd environments; |

Prerequisites: None

PreAP World Geography Studies (W GEO PREAP)Course #: 07210Credits: 1PEIMS #: 03320100Grades: 9-12

Students examine people, places, and environments at local, regional, national, and international scales from the spatial and ecological perspectives of geography. Students describe the influence of geography on events of the past and present. The course will focus on the physical processes that shape patterns in the physical environment, and the social processes that shape cultural patterns of regions. Students compare how components of culture shape the characteristics of regions and analyze the impact of technology and human modifications on the physical environment. Students use problem-solving and decision-making skills to ask and answer geographic questions. This course is the introductory course to the high school social studies AP Program. The course cannot be entered at mid-term. *Prerequisites: None*

World History Studies (W HIST)

Course #: 07241

Credits: 1

PEIMS #: 03340400

Grades: 10-12

The major emphasis in this course is on the study of significant people, events, and issues from the earliest times to the present. Students analyze important events and issues in western civilization as well as in civilizations in other parts of the world. This course cannot be entered at mid-term. *Prerequisites: World Geography recommended*

AP World History (APWHIST)Course #: 07203Credits: 1PEIMS #: A3370100Grades: 10-12The purpose of AP World History is to develop a greater
understanding of the evolution of global processes and
contacts, in interaction with different types of human societies.
The course highlights the nature of changes in international

frameworks and their causes and consequences, as well as comparisons among major societies. Focused primarily on the past ten-thousand years of the global experience, the course builds on an understanding of cultural, institutional, and technological precedents. Specific themes provide further organization to the course, along with the consistent attention to contacts among societies that form the core of world history as a field of study. Preparation for the College Board AP Exam is emphasized. This course may be substituted for World History Studies. This course cannot be entered at mid-term. Students are expected to take the AP exam.

Prerequisites: World Geography or Pre-AP World Geography recommended

AP Human Geography (APHUMGEO)

Credits: 1

Grades: 10-12

PEIMS #: A3360100

Course #: 07301

This course is to introduce students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of the Earth's surface. Students employ spatial concepts and landscape analysis to analyze human social organization and its environmental consequences. They also learn about the methods and tools geographers use in their science and practice. Preparation for the College Board AP Exam is emphasized. This course cannot be entered at mid-term. This course may be used as a substitute for World Geography. Students are expected to take the AP exam.

Prerequisites: Pre-AP World Geography recommended

United States History Studies Since 1877 (US HIST)

| Course #: 07111 | Credits: 1 |
|-------------------|---------------|
| PEIMS #: 03340100 | Grades: 10-12 |

Students study the history of the United States since Reconstruction to the present. Historical content focuses on the political, economic, and social events and issues related to industrialization and urbanization, major wars, domestic and foreign policies of the Cold War and post-Cold War eras, and reform movements including civil rights. This course cannot be entered at mid-term. Preparation for the College Board AP Exam is emphasized. Preparation for End of Course testing will be included.

Prerequisites: World History, World Geography recommended

AP United States History (APUSHIST)

| Course #: 07401 | Credits: 1 |
|-------------------|---------------|
| PEIMS #: A3340100 | Grades: 10-12 |

Advanced Placement United States History is designed to provide students with the analytic skills and factual knowledge necessary to deal critically with the problems and materials in American history. This course, designed as a college-level course, prepares students for intermediate and advanced college courses by making demands upon them equivalent to those made by full-year introductory college courses. In this course students will learn to assess historical materials, their relevance to a given interpretive problem, their reliability, and their importance-and to weigh the evidence and interpretations presented in historical scholarship. Preparation for the College Board AP Exam is emphasized. This course may be substituted for U.S. History Since Reconstruction. This course cannot be entered at mid-term. Preparation for End of Course testing will be included and students are expected to take the AP exam.

Prerequisites: AP World History and Pre-AP World Geography recommended

| United States Government (GOVT) | |
|--|---------------|
| Course #: 07331 Credits: ½ | |
| PEIMS #: 03330100 | Grades: 11-12 |
| The focus of this course is on the principles and beliefs upon | |
| which the United States was founded on the structure, | |

which the United States was founded on the structure, functions, and powers of government at the national, state, and local levels. Students learn major political ideas and forms of government in history. A significant focus of the course is on the U.S. Constitution, its underlying principles and ideas, and the form of government it created.

Prerequisites: United States History recommended

AP United States Government and Politics (APUSGOVT)

| PEIMS #: A3330100 Grade: 12 | |
|-----------------------------|--|
| PEIMS # A 3330100 Grade: 12 | |

Advanced Placement United States Government and Politics is designed for qualified students who wish to complete studies in high school equivalent to a one-semester college introductory course. It will give students an analytical perspective on government and politics. The student will become familiar with the Constitutional underpinnings of United States Government; political beliefs and behaviors; political parties and interest groups; the institutions and policy processes of national government; civil rights and civil liberties. Students will acquire the skills of analyzing data and writing and presenting written and oral arguments which will prepare them for the demands of beginning and intermediate college courses. Students are expected to take the AP exam.

Prerequisites: Pre-AP World Geography, AP World History, AP US History recommended

Economics with Emphasis on the Free Enterprise System and its Benefits (ECO-FE)

Course #: 07361 PEIMS #: 03310300 Credits: ½ Grades:11-12

The focus in this course is on the basic principles concerning production, consumption, and distribution of goods and services in the United States and a comparison with those in other countries around the world. Students examine the rights and responsibilities of consumers and businesses. Students analyze the interaction of supply, demand, and price, and study the role of financial institutions in a free enterprise system. *Prerequisites: None*

| AP Macroeconomics (APMACECO) | |
|---|---------------|
| Course #: 07304 | Credits: 1/2 |
| PEIMS #: A3310200 | Grades: 11-12 |
| This course prepares students to take the College Board | |
| Macroeconomics AP Exam. This course is designed to give | |
| students a thorough knowledge and understanding of | |
| economic principles that apply to the economy as a whole. The | |
| course stresses the study of national income and price | |
| determination, economic performance measures, economic | |
| growth, and international economics. Students are expected to | |
| take the AP examination. | |

Prerequisites: Pre-AP World Geography, AP World History, AP US History recommended

PreAP Psychology (.5) (PSYCHPREAP) and AP Psychology (.5) (APPSYCH) *Course #: 07284/07283*

PEIMS #: 03350100/A3350100

Credits:1 Grades: 11-12

The PreAP Psychology and AP Psychology courses introduce students to the systematic and scientific study of human behavior and mental processes. While considering the psychologists and studies that have shaped the field, students explore and apply psychological theories, key concepts, and phenomena associated with such topics as the biological bases of behavior, sensation and perception, learning and cognition, motivation, developmental psychology, testing and individual differences, treatment of abnormal behavior, and social psychology. PreAP Psychology is offered 1st semester and must be completed to enter AP Psychology which is offered 2nd semester. (Course only available at CHS and receives ½ credit for PreAP Psychology and ½ for AP Psychology) *Prerequisites: None*

Social Studies Advanced Studies – 20th Century Americans (SSADV1-20thCENT)

Course #:07385

PEIMS #:03380001

001

Credits: 1 Grades: 10-12

This two-semester course will examine the lives of Americans who have helped to shape the culture of the U.S., this nation's history and the lives of students. The course is intended to aid students who will enroll in U.S. History or have an interest in the topic. The course will include the names and events listed in English 2 and U.S. History TEKS that parallel the course curriculum. SAT/ACT vocabulary words will be embedded into the lessons. **This course is offered at AHS only**.

Prerequisites: None

Social Studies Advanced Studies – Holocaust and Genocide Studies (SSADV1-HOLGEN)

Course #:07387 PEIMS #: 03380001 Credits: 1 Grades: 10-12

The Holocaust and Genocide Studies course is designed to allow students an in-depth exploration of topics that typically generate high interest. Students will learn lessons on human behavior, citizen responsibility and accountability, the roots of prejudice, and the dangers of apathy and abuse of power. This course is offered at CHS only. *Prerequisites: None*

Social Studies Advanced Studies – Women's History (SPTSS3)

| Course #:07595 | Credits: 1/2 |
|--|---------------------------|
| PEIMS #: 03380032 | Grades: 10-12 |
| The factor is a second of the first state of the second state of t | stants of Constant and In |

This course will help you understand the stories of women in several periods of American history. Students will build understanding of women's roles in several periods in American history, including political and economic history (the major events of the day) and social history (how people lived their lives on a day-to-day basis). This course is offered at AHS only. *Prerequisites: None*

Specialty Classes

| AP Seminar (APSMNR) | |
|---------------------|------------|
| Course #: 01407 | Credits: 1 |
| PEIMS #: N1130026 | Grades: 11 |

AP Seminar is a foundational course that engages students in cross-curricular conversations that explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives. Using an inquiry framework, students practice reading and analyzing articles, research studies, and foundational, literary, and philosophical texts; listening to and viewing speeches, broadcasts, and personal accounts; and experiencing artistic works and performances. Students learn to synthesize information from multiple sources, develop their own perspectives in written essays, and design and deliver oral and visual presentations, both individually and as part of a team. Ultimately, the course aims to equip students with the power to analyze and evaluate information with accuracy and precision in order to craft and communicate evidence-based

arguments. This course expires in 2024-2025. Prerequisites: Successful completion of prior PreAP or AP

coursework. Concurrent enrollment in AP Language and Composition recommended.

| AP Research (APRES) | |
|---------------------|------------|
| Course #: 01409 | Credits: 1 |
| PEIMS #: N1100014 | Grades: 12 |

AP Research, the second course in the AP Capstone experience, allows students to deeply explore an academic topic, problem, issue, or idea of individual interest. Students design, plan, and implement a yearlong investigation to address a research question. Through this inquiry, they further the skills they acquired in the AP Seminar course by learning research methodology, employing ethical research practices, and accessing, analyzing, and synthesizing information. Students reflect on their skill development, document their processes, and curate the artifacts of their scholarly work through a process and reflection portfolio. The course culminates in an academic paper of 4,000-5,000 words (accompanied by a performance, exhibit, or product where applicable) and a presentation with an oral defense. **This course expires in 2024-2025.**

Prerequisites: AP Seminar

Parenting Education I (PAED1)

| Course #: 08898 | Credits: 1 |
|-------------------|--------------|
| PEIMS #: N1302536 | Grades: 9-12 |

This course is designed to address the special needs and interests of students who are parents or expectant parents. Special emphasis is placed on prenatal care and development, postnatal care, infant care, child development, and parenting skills. Other units of study address personal development, responsible parenthood and adult roles, family problems and crises, conflict resolution, family health issues, nutrition, safety, management, and employability skills. Students develop the knowledge and skills to the multiple roles of student, parent, family member, and provider. Open to male and female students who are parents and to students who are pregnant. This course expires in 2023-2024. Prerequisites: None

Parenting Education II (PAED2)

| Course #: 08899 | Credits: 1 |
|--|-----------------|
| PEIMS #: N1302537 | Grades: 10-12 |
| Parenting Education II is designed to build on e | education and |
| experiences from Parenting Education I. This course provides | |
| more in-depth knowledge of parenting and child development | |
| including implications of expectations of children, child abuse, | |
| disabilities, and issues impacting young families such as | |
| employment, postsecondary education, transportation, child | |
| care, housing, and personal responsibility. Students develop the | |
| knowledge and skills to manage the multiple roles of being a | |
| student, parent, family member, and provider. Open to male | |
| and female students who are parents and to s | tudents who are |

pregnant. This course expires in 2023-2024.

Recommended Prerequisites: Parenting Education I.

Methodology of Academic and Personal Success (MAPS1)

| DEIMS #. N1130021 Grades: 9-1(| Course #: 09725 | Credits: 1 |
|--------------------------------|-------------------|--------------|
| | PEIMS #: N1130021 | Grades: 9-10 |

The course focuses on the skills and strategies necessary for students to make a successful transition into high school and an academic career. Students will explore the options available in high school, higher education, and the professional world in order to establish both immediate and long-range personal goals. After identifying their individual learning styles and abilities, students will build on these abilities by developing critical time-management, organization and study skills. The course focuses on self-understanding, decision-making, resiliency, attitude, character education, and leadership to help students maximize personal achievement. Students will develop the specific strategies necessary to achieve their personal and professional goals. The course emphasizes proactive problem-solving, self-determination, and independent thinking and learning skills. In addition, students will explore and experience collaboration as a tool for creative problem solving. As part of goal setting and leadership activities, students may complete an outside community service learning experience in addition to class assignments. This course expires in 2021-2022.

Prerequisites: None

General Employability Skills (GEMPLS)

Course #: 09726

PEIMS #: N1270153

Credits: 1 Grades: 9-12

This course provides students with knowledge of the prerequisite skills for general employment as well as the means of obtaining those skills. Employability skills include fundamentals of Maintenance of personal appearance and grooming. The course also includes the knowledge, skills, and attitudes that allow employees to get along with their co-workers, make important work-related decisions, and become strong members of the work team. Discovering job possibilities that link skills, abilities, interests, values, needs, and work environment preferences is a part of the process of obtaining employability skills and abilities and is experiential learning that takes place over time. This course expires in 2021-2022.

Prerequisites: ARD committee decision. This course satisfies high school elective graduation requirement.

| College Transition (CLGTRN) | |
|---|--------------|
| Course #: 09727 | Credits: 1 |
| PEIMS #: N1290050 | Grades: 9-12 |
| College Transition is designed to equip stude | nts with the |
| knowledge, skills, and abilities necessary to be active and | |

successful learners, both in high school and in college. Students examine numerous research-based learning strategies that are proven to lead to academic success such as goal setting, effective time management, handling stress, note taking, active reading, test-taking strategies, and conducting research. In the College Transition course, students will research financial scholarships and grant opportunities, complete applications, and explore technical schools, colleges, and universities. This course expires in 2021-2022. Prerequisites: None

Principles of Cosmetology Design and Color Theory (PRICOSMO)

| (1110001110) | |
|-------------------|--------------|
| Course #: 08710 | Credits: 1 |
| PEIMS #: 13025050 | Grades: 9-10 |
| | |

In this course, students coordinate integration of academic, career, and technical knowledge and skills in this laboratory instructional sequence course designed to provide job-specific training for employment in cosmetology careers. Students will attain academic skills and knowledge as well as technical knowledge and skills related to cosmetology design and color theory. Students will develop knowledge and skills regarding various cosmetology design elements such as form, lines, texture, structure and illusion or depth as they relate to the art of cosmetology. Instruction includes sterilization and sanitation procedures, hair care, nail care, and skin care and meets the TDLR requirements for licensure upon passing the state examination. Analysis of career opportunities, license requirements, knowledge and skills expectations, and development of workplace skills are included. This course is offered on the Abilene High campus but is open to all AISD students.

Prerequisites: Principles of Human Services recommended

Navigating Life with Hearing Loss (NAVLOSS)

| | / |

|---|--------------|
| Course #:08983 | Credits: 1 |
| PEIMS: 13037000 | Grades: 9-10 |
| In this course, students will transfer academic skills to | |
| component designs in a project-based environment through | |
| implementation of the design process. Students will build | |
| prototypes or use simulation software to test their designs. | |
| Additionally students will explore career opportunities, employer | |

Additionally students will explore career opportunities, employer expectations, and educational needs in the robotic and automation industry.

Prerequisites: Principles of Applied Engineering Recommended

| Robotics II (ROBOTIC2) | |
|--|--|
| Course #:08942 | Credits: 1 |
| PEIMS: 13037050 | Grades: 10-12 |
| In this course, students will explore artificial in programming in the robotic and automation implementation of the design process, stude academic skills to component designs in a p environment. Students will build prototypes a test their designs. <i>Prerequisites: Robotics I</i> | n industry. Through nts will transfer roject-based |

| Scientific Research and Design-Drones* (SCIRD) | |
|--|---------------------|
| Course #:08943 | Credits: 1 |
| PEIMS: 13037200 | Grades: 11-12 |
| In this course, students will utilize drone-based technology and | |
| apply math and science skills as they complete a scientific | |
| program of study including problem identification, investigation | |
| design, data collection and analysis, formulation, and | |
| presentation. Student will prepare for and tal | ke the exam for the |
| Part 107 License for Drones. | |

Prerequisites: Biology, Chemistry or Physics. This course satisfies high school science graduation requirement.

| Community Transportation (COMTRNS) | |
|--|--------------|
| Course # 16105 | Credits: .5 |
| PEIMS: N1304660 | Grades: 9-12 |
| This course introduces knowledge and skills to empower | |
| students to research and access public transportation options in | |
| their respective communities. Areas to be addressed include | |

pedestrian and rider safety, navigating public transportation systems, use of technology, and general social skills, including self-advocacy, self-assertiveness, and transportation etiquette. This course provides necessary transportation information, resources, and opportunities that will benefit students in secondary and postsecondary environments as they follow their chosen education or career path. **This course expires in 2021-2022**.

Prerequisites: ARD committee decision. This course satisfies high school elective graduation requirement.

*Advanced CTE course

| Making Connections I (MAKECO | ON1) | |
|--|---------------|--|
| Course #: 16101 | Credits: .5 | |
| PEIMS: N1290332 | Grades: 9-12 | |
| Making Connections II (MAKEC | ON2) | |
| Course #: 16102 | Credits: .5 | |
| PEIMS: N1290333 | Grades: 10-12 | |
| Making Connections III (MAKEC | CON3) | |
| Course #: 16103 | Credits: .5 | |
| PEIMS: N1290334 | Grades: 11-12 | |
| Making Connections IV (MAKECON4) | | |
| Course #: 16104 | Credits: .5 | |
| PEIMS: N1290335 | Grades: 12 | |
| The Making Connections course sequence serves students who | | |
| have an autism spectrum disorder or a related disorder which | | |
| causes them to have difficulty with social skills. This course assists | | |
| the students in developing an understanding of autism and | | |
| other related disorders. These courses expire in 2021-2022. | | |
| Proceedings test APD committee decision These courses satisfy | | |

Prerequisites: ARD committee decision. These courses satisfy high school elective graduation requirements
