

2021-2022 College and Career Planning Guide

College and Career Planning Guide 2021-2022

The Abilene ISD College and Career Planning Guide is for informational purposes only and does not constitute a contract. The District makes every effort to ensure that this catalog contains complete and accurate information at the time of publication. However, circumstances may arise that require the District to change or correct existing policies, rules, or course and program information. The version of the AISD College and Career Planning Guide posted to the District's website will always reflect changes communicated in all errata.

Errata serve as official notification to Abilene ISD stakeholders of all changes, corrections, and/or deletions to the 2021-2022 AISD College and Career Planning Guide. The version of the 2021-2022 AISD College and Career Planning Guide posted to the District's website will reflect the errata listed at https://bit.ly/30x6gPS.

STRATEGIC PLAN

Vision

Inspired, skilled, engaged and empowered students make a difference in the world

Belief Statements

- Deep learning involves critical thinking, collaboration and problem solving.
- Relevant and meaningful student experiences are the core of the modern classroom.
- Initiative, innovation, a strong work-ethic and an entrepreneurial spirit are life skills each student needs.
- The cultivation of each student's strengths and passions leads to success.
- Respect, care and having high expectations for each student is the foundation for learning.

Strategic Priorities

- Make classrooms more meaningful and relevant for students and teachers.
- Develop a culture, climate and environment that values collaboration.
- Build partnerships with local business and organizations.
- Tell the AISD stories of inspiration, success and opportunity to the community, parents and staff.

It is the policy of the Abilene Independent School District not to discriminate on the basis of race, color, national origin, age, sex, or disability in its educational and career and technical education programs, services, activities or employment practices as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Education Amendments of 1972; and Section 504 of the Rehabilitation Act of 1973, as amended. Admission to these programs is based on grade placement, aptitude and interest.

Specialty Courses	117

CLASSIFICATION

Classification is determined for all students no later than the beginning of each academic year and is based on the number of credits the student has earned. Reclassification during the school year will only occur in the student's final year of high school. Students, grades 9-12, will be classified as follows:

	CREDITS REQUIRED				
CLASSIFICATION	Class of 2022	Class of 2023	Class of 2024	Class of 2025 and Beyond	
Grade 9 - Freshman	Promoted from Grade 8				
Grade 10 – Sophomore (credits must include Algebra I and English I)	6	6	6	7	
Grade 11 - Junior	12	12	13	14	
Grade 12 - Senior	18	19	20	20	

COURSE LIMITATIONS

Some courses listed in this guide may not work with some students' schedules due to availability, scheduling conflicts, or cancellations resulting from limited enrollment; therefore, students should always plan for alternative courses in case their first choices are unavailable.

Courses listed in the College and Career Planning Guide in the year which the student enters the 9th grade may or may not be offered in subsequent years, and additional courses may be added in subsequent years. Courses may be offered but will not be scheduled unless enrollment is sufficient to do so. New courses may be added by the Texas Education Agency and the State Board of Education or by local decision at any time.

COURSES

Students should be enrolled in 8 classes per semester. Students enrolled in Career Preparation or a Practicum course must take a minimum of 6 classes a day. A senior who is not on the Foundation Plan with an endorsement and/or has not passed state assessments for graduation must be enrolled in eight (8) instructional classes per semester and will not be eligible for a reserve period.

To be considered a full-time student and compete in UIL-sanctioned activities, students must be enrolled in school for a minimum of 6 credit-bearing periods a day.

When registering for classes, please note that AISD will offer transportation between Abilene High, Cooper High and The LIFT, when possible, to accommodate students desiring to take courses not offered at their home campus.

HIGH SCHOOL COURSES OFFERED IN MIDDLE SCHOOL

Students who satisfactorily complete a full year of Algebra I, Geometry, Pre-AP Art I, Theatre Arts I and/or Spanish I in middle school will receive the state required graduation credit(s) for grades 9-12.

Students who satisfactorily complete Principles of Manufacturing, Business Information Management I, Communication Applications, or Health in middle school will receive state graduation elective credit for these courses.

High school courses taken in middle school are not used in high school GPA calculations.

CREDITS

Students may earn credit in summer school immediately following promotion from the 7th grade.

Students are required to obtain approval in advance from the principal or appointed designee in order to take a distance learning course.

Students enrolled in grades 9-12 may be awarded credit toward high school graduation for completing college-level courses. Such courses shall be provided only by institutions of higher education that are accredited by one of the following accrediting agencies:

- Southern Association of Colleges and Schools
- Middle States Association of Colleges and Schools
- New England Association of Schools and Colleges
- North Central Association of Colleges and Schools
- Western Association of Schools and Colleges
- Northwest Association of Schools and Colleges

To be eligible to enroll and be awarded credit toward state graduation requirements, a student should enroll in district approved dual credit course(s).

STATE ASSESSMENTS

To graduate from high school in the state of Texas, students must have satisfactory performance on the five State of Texas Assessments of Academic Readiness (STAAR) End-of-Course Assessments for the following: English I, English I, Algebra I, Biology and U.S. History.

NINTH GRADE ACADEMY

To assist ninth grade students with the transition from middle school to high school Abilene Independent School District created the **Ninth Grade Academies** at Abilene and Cooper High Schools. Emphasis is placed on the development of the whole student – academics, extracurricular, and building positive relationships. Students are scheduled with a team of core area teachers similar to the schedule at middle school, and the academy classes are located in specially designated areas on each campus. The Academies have staff to serve ninth grade students only. The core team of teachers is available for conferencing with parents and students. Since the pilot Academy began in 2005-06, the number of ninth graders failing core classes has decreased, attendance has improved, and more students have advanced to tenth grade.

STUDENTS TRANSFERRING TO ABILENE ISD

The following guidelines apply to the evaluation of the transcripts of students transferring to the Abilene Independent School District:

- No credit will be given for office aide and Driver's Education.
- Units of credit granted by high schools accredited by the Texas Education Agency, Texas Private School Accreditation Association, other state education agencies, or Department of Defense Schools will be honored.
- Units of credit earned from non-accredited schools and home study programs will require validation according to the following guidelines:
 - Credit for elective courses may be accepted, subject to review.

Required courses taken in sequence can validate credit in previously completed courses. (Example: English III completed successfully will validate English I and English II. Algebra II completed successfully will validate Algebra I). Required courses that have no sequential course must be validated by examination or administrative approval. (Example: Geometry, World History, United States History).

PHYSICAL EDUCATION SUBSTITUTIONS

Students may receive TEA approved physical education credit for the following activities:

<u>Activity</u>	<u>Semester</u>	<u>Credits</u>
Athletics	1st and 2nd	up to 4 credits
Athletic Trainer	1st and 2nd	up to 4 credits
Cheerleading	1st and 2nd	1 credit only
Drill Team	1st and 2nd	1 credit only
Flag Corps	1st and 2nd	1 credit only
Marching Band	1st only	1 credit only
Musical Theatre	1st and 2nd	1 credit only
JROTC	1st and 2nd	up to 4 credits
Pep Squad	1st and 2nd	1 credit only
Revolution Strings	1st and 2nd	1 credit only
Show Choir	1st and 2nd	1 credit only

Private or Commercially-Sponsored Physical Activity Programs:

Students may also receive physical education credit by participating in private or commercially-sponsored physical activity programs, such as dance or martial arts, which have been approved by the Superintendent or designee. Students participating in this program may not be enrolled in another physical education class or athletics. Grades will be recorded as pass/fail and will not be calculated for GPA. Students interested in this program should contact the school counselor for an application.

SPECIAL EDUCATION

The special education department offers identified students with disabilities opportunities to develop abilities in the least restrictive environment. The ARD committee determines the course sequence for special education students as the graduation plan for each student is developed.

CREDIT BY EXAM WITHOUT PRIOR INSTRUCTION

AVAILABILITY

Credit by Examination without prior instruction will be available to Abilene ISD students enrolled in grades 7-12 in the following courses:

Art 1	Health
Algebra I, II	Integrated Physics and Chemistry (IPC)
Biology	Latin I, II
Chemistry	Mathematical Models with Applications
Economics	Physics
English I, II, III, IV	Pre-Calculus
Environmental Systems	Spanish I, II
French I, II	US History
Geometry	World Geography
German I, II	World History
Government	

UTILIZATION OF EXAMINATION SCORES

Credit for the respective course will be granted if a student scores at or above 80 on the placement examination. The examination score will be recorded on the academic achievement record transcript as the course grade. Grades earned through the credit by examination process will not be used in determining grade point averages or to establish eligibility.

CREDIT BY EXAM WITH PRIOR INSTRUCTION

AVAILABILITY

Subject to the limitation and eligibility criteria outlined in these guidelines, the credit by examination with prior instruction process will be available to Abilene ISD students enrolled in grades 7-12 to verify mastery after non-accredited instruction or to recover credit for a failed course:

Accounting Algebra I, II Art I Astronomy Banking and Financial Services Business Information Management I Biology Business Law (.5 credit) Chemistry Child Development (.5 credit) Communication Applications (.5 credit) Digital and Interactive Media

- Dollars and Sense Economics (.5 credit) English I, II, III, IV Foundations of Personal Fitness French I, II Geometry Government (.5 credit) Health (.5 credit) Hebrew Scriptures and New Testament Individual Sports Integrated Physics and Chemistry (IPC) Lifetime Nutrition and Wellness Math Models with Applications
- Money Matters Physics Principles of Information Technology Pre-Calculus Psychology Sociology Spanish I, II, III Team Sports Theatre Arts US History World Geography World History

UTILIZATION OF EXAMINATION SCORES

Credit for the respective course will be granted if a student scores a grade at or above 70 on the examination. The examination score will be recorded on the academic achievement record transcript as the course grade. Grades earned through the credit by examination process will not be used in determining grade point averages or to establish eligibility.

EXAMINATION

All examinations are purchased from an approved university. If taken to recover credit, the student taking an exam must pay the examination fee charged by the university. If taken to accelerate, there Is no charge to the student. See EHDC (Legal) for additional information.

LIMITATION

Students who failed a course because they exceeded the maximum number of absences may not use credit by examination to receive credit for the respective course. A student is limited to two attempts per course to earn credit by exam.

STUDENT ELIGIBILITY

Unless excluded by the above limitation, a student will be permitted to attempt to receive credit by examination for a course if the following criteria are met:

- A written application which reflects parental approval has been submitted;
- The application is approved by the campus principal or designee.

DETERMINING GRADE POINT AVERAGE

The final grade point average (GPA) to determine the class rank for graduating students is computed by averaging the semester grades beginning with grade 9 and ending with the fifth six-week grading period of the final year. The second semester average for the final year is determined by averaging the grades for the fourth and fifth six-week grading periods.

If a course is retaken, the highest grade will be used in GPA calculations. Grades earned from high school courses taken in middle school, from dual-credit courses, from distance learning courses, and through credit by examination* are not used in GPA calculations (unless the dual credit class is also an AP class).

The formula used for computing GPA is as follows:

(sum of grades)	+	(number of AP/IB/local advanced honors grades 70 or above X 10)	+	(number of PreAP/IB/local honors grades 70 or above x 5)	= GPA
(number of grades)		(standard number of grades accumulated at this point in academic career)			-

As documented in Abilene ISD Board Policy Manual - EIC (LOCAL), due to the COVID-19 pandemic and school closure during the spring semester of the 2019–2020 school year, the calculation of class rank shall exclude all spring semester grades from the 2019–2020 school year for students in the graduating classes of 2021, 2022, and 2023. The "standard number of grades accumulated" is as follows:

	Class of 2021	Class of 2022	Class of 2023	Class of 2024	Class of 2025 and Beyond
Freshman	14	14	7	14	16
Sophomore	28	21	21	30	32
Junior	35	35	37	46	48
Midterm Senior	42	43	45	54	56
All Graduates	49	51	53	62	64

The valedictorian will be the student graduating with the highest GPA. The salutatorian will be the student with the second highest GPA. To be eligible for valedictorian and salutatorian, a student must have been continuously enrolled in the District high school at which they are graduating for the 2 semesters immediately preceding graduation. Ties will be broken following procedures outlined in ElC(LOCAL). If the tie is not broken after applying these methods, the District shall recognize all students involved in the tie as sharing the honor and title.

The four other students with the highest GPA in the graduating class, together with the valedictorian and salutatorian, will appear on the platform and be officially recognized as part of the commencement program. For Abilene High and Cooper High, the 25 top-ranking students will be designated. Students with a GPA of 90 or above will be designated as honors graduates on the commencement program.

To be eligible for graduation honors other than valedictorian and salutatorian described above, a student must complete the final two semesters prior to graduation in the District. Completion of a semester is defined as receiving semester grades from a District school.

Grades for transfer students will be recorded and averaged as received. Letter grades will be converted to numerical grades as follows:

А	=	95
В	=	85
С	=	77
D	=	72
F	=	no credit

A student may earn a maximum of one credit for a regular academic course, an advanced placement course, or a credit by examination* course with the same Texas Education Agency course number or one which covers the same required essential knowledge and skills.

Note: Juniors who wish to graduate early must notify the campus registrar and counselor of intent to graduate early. The deadline will be the end of the fourth six-weeks grading period of the junior year. Students must return the "Intent to Graduate Early" form to the counselor. Graduation, including participation in ceremonies, shall not occur without passing scores on all required End of Course exams.

*Credit by examination—The District shall give a student in grades 6-12 credit for an academic subject in which the student has received no prior instruction if the student scores:

- 1. Eighty percent or above on a criterion-referenced examination for acceleration for the applicable course;
- A three or higher on an advanced placement examination approved by the Board and developed by the College Board; or
 A scaled score of 60 or higher on an examination approved by the Board and administered through the College-Level
- Examination Program.

If such credit is given, the District shall enter the examination score on the student's transcript, and the student is not required to take an end-of-the-course assessment instrument under Education Code 39.023(c) for that subject.

GRADUATION PLAN AND REQUIREMENTS

Students will have an annual review of their graduation plan to assess progress, discuss necessary adjustments and update the plan to revise course choices in order to meet new or additional goals. Students will be advised of courses recommended for college and career preparation and should keep themselves informed of changes in entry requirements and career trends. Parents/guardians will be consulted if major changes occur. (Note: In addition to completing curriculum requirements for graduation, all students must pass the required End-of-Course tests and complete the final semester of work to receive a diploma.)

Foundation High School Program with Endorsements

Students who complete the **Foundation High School Program** including Algebra II as one of four mathematics credits and the credit requirements specific to at least one endorsement will graduate with the **Distinguished Level of Achievement**. All students shall specify in writing the endorsement(s) the student intends to earn. Distinguished Level of Achievement allows students to be eligible for college admission under the top 10% automatic admissions provision.

More information about the Foundation High School Program and Endorsements can be found on the next page and by reviewing Texas law using the QR code on this page or by navigating to <u>http://ritter.tea.state.tx.us/rules/tac/chapter074/ch074b.html</u>.

A student may also earn **Performance Acknowledgements** that will be placed on the student's diploma and transcript. Performance Acknowledgements may be earned by completing the following:

- 1. Outstanding Performance in a Dual Credit course:
 - at least 12 hours of college academic courses, including those taken for dual credit as part of the Texas core curriculum and advanced
 - technical credit courses and locally articulated courses, with a grade of the equivalent of 3.0 or higher on a scale of 4.0; or
 - an associate degree while in high school.

0

2. Outstanding Performance in Bilingualism or Biliteracy:

- Completing all English Language Arts requirements and maintaining a minimum GPA of the equivalent of 80 on a scale of 100 and satisfying one of the following:
 - completion of a minimum of three credits in the same language in a language other than English with a minimum GPA of the equivalent of 80 on a scale of 100, and satisfying one of the following:
 - demonstrated proficiency in the Texas Essential Knowledge and Skills for Level IV or higher in a language other than English with a minimum GPA of the equivalent of 80 on a scale of 100; or
 - completion of at least three credits in foundation subject area courses in a language other than English with a minimum GPA of 80 on a scale of 100; or
 - demonstrated proficiency in one or more languages other than English through one of the following methods:
 - score of 3 or higher on a College Board Advanced Placement exam for a language other than English, or
 - score of 4 or higher on an International Baccalaureate Exam (IB) for a higher-level language other than English courses, or
 performance on a national assessment of language proficiency in a language other than English of at least Intermediate
 High or its equivalent.
- ELL students must complete the above criteria and also have participated and met the exit criteria for a bilingual or ESL program and scored at the Advanced High level on the Texas English Language Proficiency Assessment System (TELPAS).
- 3. Outstanding Performance on a College Board Advanced Placement test or International Baccalaureate examination by earning:
 - a score of three or above on a college Board advanced placement examination
 - a score of four or above on an International Baccalaureate examination for a higher-level course.

4. Outstanding Performance on the PSAT, the ACT-PLAN, the SAT or the ACT:

- a score on the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) that qualifies the student for recognition as a commended scholar or higher by the College Board and National Merit Scholarship Corporation, as part of the National Hispanic Recognition Program (NBHRP) of the College Board or as part of the National Achievement Scholarship Program of the National Merit Scholarship Corporation; or
- achieving the college readiness benchmark score on at least two of the four subject tests on the ACT PLAN exam; or
- a combined critical reading and mathematics score of at least 1250 on the SAT; or
- a composite score on the ACT exam (without writing) of 28.

5. Earning a nationally or internationally recognized business or industry certification or license:

- performance on an examination or series of examinations sufficient to obtain a nationally or internationally recognized business or industry certification; or
- performance on an examination sufficient to obtain a government-required credential to practice a profession.

Note: In addition to completing curriculum requirements for graduation, all students must pass the required End-of-Course tests and complete the final semester of work to receive a diploma.

IMPORTANT NOTICE TO PARENTS

Students are eligible for admission to any general academic teaching institution (4-year state university) if they have completed the **Foundation High School Plan**. Students graduating on the Minimum Program may not be eligible for admission to a 4-year university. The legislation also adds the requirement that students in the top 10 percent of their high school graduating class are eligible for automatic admission to institutions of higher education <u>only</u> if they have completed the Foundation Distinguished Level diploma program. The University of Texas at Austin accepts the top 6 percent.

Foundation School Program with Endorsements

Texas requires all students to begin high school with a four-year plan to earn at least 26 credits toward graduation with one of five endorsements. The five endorsements al to statewide programs of study toward future careers. Students are encouraged to consider their skills and interests as they select programs of study toward an endorsement

Endorsements and Summary of Texas Career Pathways

STEM	BUSINESS & INDUSTRY	PUBLIC SERVICE	ARTS & HUMANITIES	MULTIDISCIPLINARY STUDIES
Science, Technology, Engineering, & Mathematics (STEM)	 Agriculture, Food & Natural Resources Architecture & Construction Arts, A/V Technology and Communications Business, Marketing and Finance Hospitality and Tourism Information Technology Manufacturing Transportation, Distribution and Logistics 	 Education and Training Health Science Human Services Law and Public Service Four years JROTC 	 Arts Humanities 	Select courses from the curriculum of each of the other endorsement areas; Credits in a variety of advanced courses from multiple content areas sufficient to complete the distinguished level of achievement under the foundation program. See p. 114 for more information.

REQUIRED COURSES	FOUNDATION SCHOOL PROGRAM WITH ENDORSEMENTS
ENGLISH LANGUAGE ARTS	4 Credits English: ELA I, II; English III or an AP English; and one credit in any authorized advanced English course (see pg.12 for course list)
MATHEMATICS	4 Credits Mathematics: Algebra 1, Geometry, two credits in any authorized advanced math course (STEM must take Algebra II) Distinguished Level of Achievement: Algebra I, Geometry, Algebra II, one credit in any authorized advanced math course (see pg. 11 for course list)
SCIENCE	4 Credits Science: Biology, two credits in any advanced science course, one credit in IPC, Chemistry or Physics (see pg.12) for course list)
SOCIAL STUDIES	4 Credits Social Studies Highly Recommended (3 Required): World Geography is highly recommended; World History, U.S. History, and Government/Economics are required
PHYSICAL EDUCATION	 1 Credit: Required credit may be from any combination of the following one-half to one credit courses: Foundations of Personal Fitness, Adventure/Outdoor Education, Aerobic Activities, or Team or Individual Sports. Credit may not be earned for any TEKS-based course more than once. Credit for any of the courses listed above may be earned through participation in the following activities: Athletics (up to 4 credits) Approved private/commercial (up to 4 credits) JROTC (1 credit) Drill Team (up to 1 credit) Marching Band (up to 1 credit)
LANGUAGES OTHER THAN ENGLISH	2 Credits: In the same language or 2 credits selected from Computer Science I, II, or III
FINE ARTS	1 Credit
ELECTIVES	6 Credits Must be selected from the State Board of Education approved courses for grades 9-12
TOTAL CREDITS	26

In addition to endorsements, students may earn performance acknowledgements on their high school transcripts to reflect outstanding achievement in certain areas.

PERFORMANCE ACKNOWLEDGEMENTS

- Outstanding performance: Dual credit coursework; bilingualism/bi-literacy; Advanced Placement or International Baccalaureate performance; national exam performance
- Certification: Nationally or internationally recognized business or industry certification or license

LOCALLY-APPROVED ADVANCED CTE COURSES FOR THE FOUNDATION PLUS ENDORSEMENT HIGH SCHOOL PLAN

Not all courses listed will be offered annually. In addition to practicum courses listed below, CTE Extended Practicum and Project-Based Research courses qualify as locally-approved advanced CTE courses. Career Preparation and Extended Career Preparation courses qualify as locally-approved advanced CTE courses only when matched to the student's career cluster and as state electives otherwise. Students transferring from other districts may bring course credits that qualify as advanced under Texas CTE Programs of Study.

ADVANCED PLACEMENT/HONORS PROGRAM

PURPOSES OF ADVANCED PLACEMENT/HONORS COURSES

Advanced Placement courses are college level courses taken by high school students in which they may receive college credit by passing a national exam. Students must take an AP exam to receive college credit. Colleges and universities set their own standards for awarding credit. Over 90% of the U.S. colleges and universities as well as those in twenty other countries award credit for AP exams.

AP courses are taught by high school teachers or university professors who receive College Board training. Since AP students are working on a college level, AP courses are designated as Bonus Points courses, and the students receive additional points toward their GPA. All AP courses are open to students in grades 9-12 who are in good academic standing and have met the criteria for selection.

CRITERIA FOR SELECTION

Students who meet the following criteria should consider enrolling in Advanced Placement, PreAP or honors courses:

- Gifted and talented student;
- Have a semester grade of at least 80 in an AP, PreAP or honors course in the same or comparable academic area the previous semester;
- Have a grade of at least 90 in an on-level course in the same or comparable academic area the previous semester;
- > Have teacher, counselor, or principal recommendation to enroll in the class.

NEW STUDENTS TO ABILENE ISD

A student new to Abilene ISD who has been enrolled in/or approved for an Advanced Placement, PreAP or honors program or the equivalent in a previous school will be offered placement in the Abilene ISD Advanced Placement program.

PROJECT LEAD THE WAY HONORS COURSES AVAILABLE

Introduction to Engineering Design Computer Integrated Manufacturing Aerospace Engineering Engineering Design and Development

DUAL CREDIT COURSES

Abilene ISD students have dual credit opportunities at six colleges and universities (Abilene Christian University, Angelo State University, Cisco College, Hardin-Simmons University, McMurry University, and Texas State Technical College-West Texas) and through the state-wide Advanced Technical Credit (ATC) Program. AISD may negotiate agreements with additional colleges for dual credit. Additional dual credit courses may be added at any time. Students must meet eligibility criteria for each course.

Students may earn both high school and college credit at the same time when enrolled in a dual credit course. Credit is posted to the student's high school transcript and college transcript upon successful completion of the course. The student is taught in the same way as college students who take the same course. With regard to dual credit courses taught by college or university faculty, grading procedures are determined by the college or university. Dual credit courses taught by AISD faculty follow AISD grading guidelines. <u>Only AP dual credit grades are included in GPA calculations.</u>

Dual enrollment classes are taught by one of the following teaching arrangements:

- > The course may be taught on the college campus by a college instructor
- > The course may be taught on a high school campus by a college instructor
- > The course may be taught on a high school campus by a high school/college teacher

Policies regarding college tuition, fees, and required instructional supplies are set by the college or university. Students must meet specific college and Abilene ISD criteria before being accepted for enrollment in a dual credit course. Students should check with individual institutions of higher learning for admission requirements and details for awarding credit. Please note that students may be responsible for the cost of tuition and books. Interested students should check with their courselor for information and requirements for enrollment.

Please refer to the online or published Dual Credit Supplement for the dual credit course offerings and conditions of enrollment. The Dual Credit Supplement has specific information from the universities regarding course offerings, course descriptions, fees, requirements and important dates. This supplement will be available when college courses are published at the college/university level. A District Dual Credit Informational Meeting also will be scheduled in the spring and registration dates for students to register with the universities will be announced then.

WHAT COUNTS IN COLLEGE ADMISSIONS?

Factors Influencing Admissions Decisions (NACAC Annual Admissions Survey)

Grades in Academic/Challenging Courses	(80%)
SAT/ACT Scores	(52%)
Grades in All Subjects	(45%)
Class Rank	(31%)
Essay	(20%)
Teacher/Counselor Recommendations	(17%)
Community Service	(8%)
Work/School Activities	(8%)

The single most important credential in the applicant's folder is his/her academic record, particularly the junior year and the first half of the senior year. Usually you can help your college chances by making a strong effort to improve your course selections and grades during this time, showing you are "on the way up." College preparatory courses taken throughout high school are the most important factor in the college admission decision and will receive scrutiny by admissions officers.

The college admissions process is complex. Here are some points that may be valuable as you try to unravel its mysteries:

- Standardized examinations play a major role in the admission process. Students should take the PSAT, SAT, and ACT during their junior year. These scores are considered reliable predictors for college success when combined with high school grades in academic courses and rank in class.
- Extracurricular activities and community service play an important role in the admissions process. Colleges frequently state they look for students who will make a significant contribution to the college community. Because around 70% to 80% of all students can handle the academics, colleges often look for that extra dimension musicians, editors, actors, photographers, athletes and others with a developed and usable talent as well as students with leadership qualities. Students with superior ability in these areas can expect to receive a special review by faculty with expertise and careful consideration by the admissions office.
- For most competitive colleges, recommendations are an essential part of an applicant's file. The exceptions to this rule are large state universities where written recommendations are often not required or given as much weight. Recommendations describe not only achievements and skills, but also character, motivation, integrity and patterns of growth. Teachers' reports also play an important role in selection process, particularly when the teachers know the student well and are willing to detail potential in specific areas.
- Correspondence with colleges should be initiated and followed up by the student. Many college admissions people see this as a reflection of a student's sense of responsibility and independence. It also indicates such items as accuracy, clarity, courtesy, and maturity. If there is a particular problem on the school record or the application that needs further clarification, the student should feel free to write the college. Just as colleges keep files on students, students should keep files on the colleges. Included in the files should be copies of letters, notes, and drafts of essays. Your guidance counselor and English teacher are excellent resources when corresponding with colleges, filling out applications, and writing the required essays.

For more information visit the Abilene Education Foundation's website at <u>www.aaeeff.org.</u>

Science, Technology, Engineering and Mathematics (STEM) Endorsement

Subject to State Board of Education approval and updates:

A student may earn a Science, Technology, Engineering and Mathematics Endorsement (STEM) by completing the requirements including Algebra II, chemistry, physics and:

- a coherent sequence of courses for four or more credits in career and technical education (CTE) that consists of at least two courses in the same career cluster, including at least one advanced CTE course which includes any course that is the third or higher course in a sequence. The final course in the sequence must be from the STEM career cluster or Career Preparation I or II and Project-Based Research if the course addresses a STEMrelated field; or
- 2. courses required to complete a TEA-designated program of study related to STEM; or
- 3. three credits in mathematics by successfully completing Algebra II and two additional math courses for which Algebra II is a prerequisite; or
- 4. four credits in science by successfully completing chemistry, physics and two additional science courses; or
- 5. in addition to Algebra II, chemistry and physics, a coherent sequence of three additional credits from no more than two of the areas listed in 1, 2, 3 and 4.

ATEMS ACADEMY OF TECHNOLOGY, ENGINEERING, MATH & SCIENCE

A STEM High School

Located at The LIFT Center 2034 Quantum Loop Abilene, TX 79602 325-794-4140

The Academy of Technology, Engineering, Math & Science is an Abilene ISD public high school. Beginning with the 2021-2022 school year, ATEMS is located within The LIFT Center. The academic focus of this campus provides challenging, high-quality STEM (Science, Technology, Engineering, & Math) instruction in order to prepare students for success in STEM careers and higher education. ATEMS emphasizes academic excellence, personal responsibility, respect, professional communication, community service, and leadership.

All ATEMS students complete a program of study provided through the Career and Technical Education program. ATEMS utilizes traditional instruction as well as Project-Based Learning (PBL) and Problem-Based Learning (PrBL) and provides 1-to-1 technology access for all students. ATEMS offers rigorous Pre-AP, AP, and dual-credit courses as well as on-level academic courses. As part of the STEM emphasis of ATEMS, completion of Pre-Calculus is required.

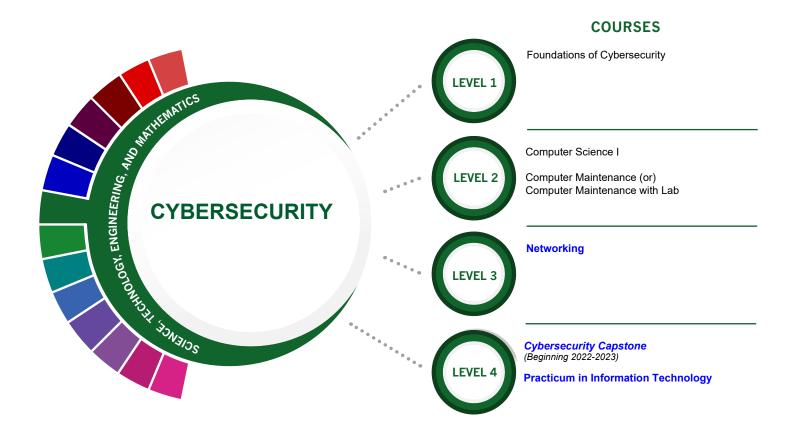

ATEMS provides numerous opportunities for student leadership and involvement including Student Council, UIL academic competitions, robotics, National Honor Society, National Technical Honor Society, STARS, and conference-led activities and community service projects. In addition, ATEMS students may choose to participate in athletics, band, orchestra, choir, and Junior ROTC at Abilene and Cooper high schools.

Students who are interested in attending ATEMS may apply online at <u>www.abileneisd.org/atems</u>. Application dates and information are also available at that website. For information regarding coursework and extra-curricular participation, please contact the ATEMS counselor.

Foundations of Cybersecurity	
Course #: 08963	Credits: 1
PEIMS #: 03580850	Grades: 9-12
In this course, students will develop the knowled needed to explore fundamental concepts rela- laws, and operations of cybersecurity. Studen- trends and operations of cyberattacks, threat- vulnerabilities. Students will review and explore designed to mitigate risks. The skills obtained in prepare students for additional study in cybers. <i>Prerequisites: None</i>	ated to the ethics, ts will examine s, and e security policies n this course

Computer Science I (TACS1)	
Course #: 09181	Credits: 1
PEIMS #: 03580200	Grades: 9-12
Computer Science I will foster students' cre	ativity and

Computer Science I will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will collaborate with one another, their instructor, and various electronic communities to solve the problems presented throughout the course. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems. By using computer science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of the principles of computer science through the study of technology operations, systems, and concepts. Prereauisites: Alaebra I

Computer Maintenance (COMPMTN)	
Course #: 08933	С
PEIMS #: 13027300	Grade
Charles to an inclusion de class of a surger than an air	

Credits: 1 Grades: 10-12

Students acquire knowledge of computer maintenance and creating appropriate documentation. Students will analyze the social responsibility of business and industry regarding the significant issues relating to the environment, ethics, health, safety, and diversity in society and in the workplace as related to computer maintenance. Students will apply technical skills to address the IT industry and emerging technologies. This course cannot be entered at mid-term.

Prerequisites: Principles of Information Technology recommended

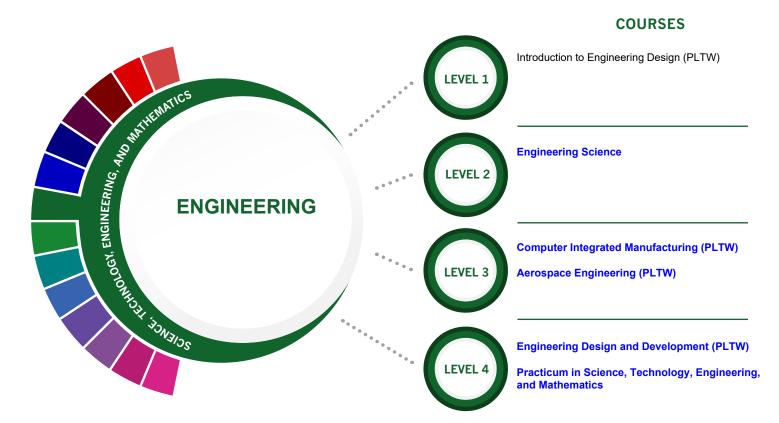

Computer Maintenance with Lab (COMMTLAB)Course #: 08704Credits: 2PEIMS #: 13027310Grades: 10-12Students acquire knowledge of computer maintenance and
creating appropriate documentation. Students will analyze the

STEM - Engineering Program

The Abilene Independent School District utilizes the Project Lead the Way® Pre-engineering Program for grades 9-12. Project Lead the Way® (PLTW) is a standards-based curriculum that will challenge the student to solve real-world engineering problems by applying knowledge and skills related to mathematics, science, and technology. A student who completes the challenging pre-engineering and academic curriculum will:

- use state-of-the-art computer hardware and software technology in use in the engineering industry;
- participate in a hands-on, team-oriented activity-based program; .
- have the opportunity to enroll in a sequence of four courses covering the essentials of engineering technology; and .
- take courses that will apply and reinforce the study of math, science and technical communication

Requirements to participate in Project Lead the Way® include

- having a strong interest in pursuing a career in engineering or engineering technology;
- enrolling in at least one college preparatory mathematics course each year in high school; and
- having a strong interest in science

The four-year sequence for pre-engineering Project Lead the Way® is as follows:

9th grade: Introduction to Engineering Design

10th arade: Engineering Science

11th grade: Computer Integrated Manufacturing and/or Aerospace Engineering

12th grade: Engineering Design and Development

Through the 2020-21 school year, all Project Lead the Way® courses are only available at the Academy of Technology, Engineering, Mathematics and Science (ATEMS) and are only open to ATEMS students. Beginning in 2021-22, the PLTW courses will be available to all AISD students through The LIFT Center.

Introduction to Engineering Design (PLTW) (IED)		
Honors		
Course #: 08900	Credits: 1	
PEIMS #: N1303742	Grades: 9-12	
This is the first course in the AISD Project Lead Engineering Program sequence. Students di engineering design process, applying math, engineering standards to hands-on projects individually and in teams to design solutions problems using 3-D modeling software and notebook to document their work. This cour ATEMS for 2020-2021. It will be offered at The schools beginning in 2021-2022. Prerequisites: None	g deep into the science, and . S

PEIMS #: N1303748 Grades: 11-12	Course #: 08902	Credits: 1
	PEIMS #: N1303748	Grades: 11-12

This course is part of the AISD Project Lead the Way® Pre-Engineering sequence. Manufactured items are part of everyday life, yet most students have not been introduced to the high-tech, innovative nature of modern manufacturing. This course illuminates the opportunities related to understanding manufacturing. At the same time, it teaches students about manufacturing processes, product design, robotics, and automation. Students can earn a virtual manufacturing badge recognized by the National Manufacturing Badge System. This course cannot be entered at mid-term and cannot be the sole final CTE course for the STEM endorsement. This course is only offered at ATEMS for 2020-2021. It will be offered at The LIFT for all high schools beginning in 2021-2022.

Prerequisites: None state required; Introduction to Engineering Design and Engineering Science AISD required

Aerospace Engineering* △ (PLTW) (AERO) Advanced Honors

Course #: 08982	Credits: 1
PEIMS #: N1303745	Grade: 11-12

In this course students learn the fundamentals of atmospheric and space flight. As they explore the physics of flight, students bring the concepts to life by designing an airfoil, propulsion system, and rockets. They learn basic orbital mechanics using industry-standard software. They also explore robot systems through projects such as remotely operated vehicles. This course cannot be the sole final CTE course for the STEM endorsement. This course is only offered at ATEMS for 2020-2021. It will be offered at The LIFT for all high schools beginning in 2021-2022.

Prerequisites: None state required; Introduction to Engineering and Engineering Science AISD required; Either concurrent enrollment in either AP Physics or Pre-AP Pre-Cal or completion of Pre-Cal or Physics with a minimum final grade of 85 of Pre-AP PreCal with a minimum final grade of 80 recommended by AISD

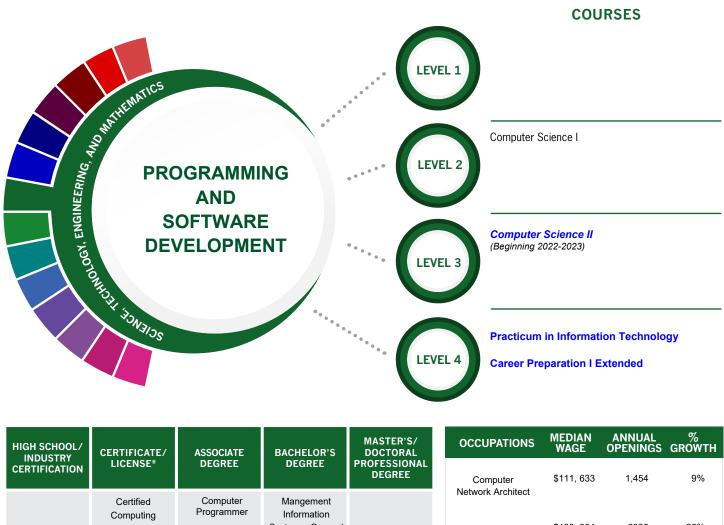

Engineering Design and Development [*] (EDD) Advanced Honors	*≏ (PLTW)

science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of the principles of computer science through the study of technology operations, systems, and concepts. *Prerequisites: Algebra I*

Computer Science II* (TACS2)
Course #: 09283 Credits: 1
PEIMS #: 03580300 Grades: 11-12
Computer Science II will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will collaborate with one another, their instructor, and various electronic communities to solve the problems presented throughout the course. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems. By using computer science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of computer science through the study of technology operations, systems, and concepts.
Prerequisites: Algebra I and either Computer Science I or Fundamentals of Computer Science

Practicum in Information Technology* (PRACIT1)			
Course #: 08871	Credits: 2		
PEIMS #: 13028000	Grade: 12		
Students gain advanced knowledge and skills in application, design, production, implementation maintenance, evaluation, and assessment of pro- services, and systems. Knowledge and skills in the analytical and application of IT concepts and ste- essential to prepare students for success in a tec society. Critical thinking, IT experience, and pro- development may be conducted in a classroom industry mentor, as an unpaid or paid internship, capstone project or as career preparation. This co offered at ATEMS.	n, bducts, e proper use of andards are hnology-driven duct a setting with an as part of a course is only		
Prerequisites: A minimum of two high school information technology (IT) courses required.			

Career Preparation I Extended* (EXCAREE1)				
Course #: 08958	Credits: 3			
PEIMS #: 12701305	Grades: 11-12			

This course provides opportunities for students to participate in a learning experience that combines classroom instruction with paid business and industry employment experiences and prepares students with a variety of skills for a fast-changing workplace. Career Preparation includes employability skills, job interview techniques, communication skills, financial and budget activities, human relations, as well as job-specific skills related to a student's training station. **Prerequisites: None**

 $^{\rm \Delta} Approved CTE Innovative Courses cannot be the sole final course in a coherent sequence for endorsement in STEM$

Business and Industry Endorsement

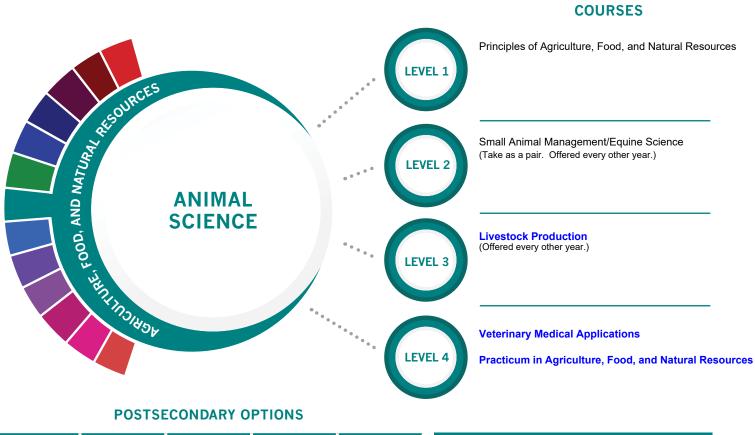

Subject to State Board of Education approval and updates:

A student may earn a Business and Industry Endorsement by completing the following requirements:

1. a coherent sequence of courses for four or more credits in career and technical education (CTE) that includes at least two courses in the same career cluster, including at least one advanced CTE course which includes any course that is the third or higher course in a sequence. The final course in the sequence must be selected from one of the following CTE career clusters:

- Agriculture, Food and Natural resources
- Architecture and Construction
- Arts, Audio/Visual Technology and Communications
- Business, Management and Administration
- Finance
- Hospitality and Tourism
- Information Technology
- Manufacturing
- Marketing
- Transportation, Distribution and Logistics
- Energy
- Career Preparation I or II and Project-Based Research related to a career field from this list; or
- 2. courses required to complete a TEA-designated program of study related to business and industry; or
- 3. four English credits, including three levels of one of the following areas:
 - Advanced Broadcast Journalism; or
 - Advanced Journalism: Newspaper; or
 - Advanced Journalism: Yearbook
 - Public Speaking; or
 - Debate
- 4. a coherent sequence of four credits from 1, 2, or 3.

The Animal Science program of study focuses on the science, research, and business of animals and other living organisms. It teaches students how to apply biology and life science to real-world life processes of animals and wildlife, either in laboratories or in the field, which could include a veterinary office, a farm or ranch, or any outdoor area harboring animal life. Students may also research and analyze the growth and destruction of species and research or diagnose diseases and injuries of animals.

The **Design and Multimedia Arts** program of study explores the occupations and educational opportunities associated with designing or creating graphics to meet specific commercial or promotional needs, such as packaging, displays, or logos. This program of study may also include exploration into designing clothing and accessories, and creating special effects, animation, or other visual images using film, video, computers, or other electronic tools and media, for use in computer games, movies, music videos, and commercials.

WORK BASED LEARNING AND EXPANDED LEARNING OPPORTUNITIES

Exploration Activities: Join a website development group. Visit "learn to code" educational websites. Work Based Learning Activities: Intern with a multimedia or animation studio. Obtain a certificate in graphic design.

For more information on postsecondary options for this program of study, visit TXCTE.org.

Additional industry based certification information is available from the TEA CTE website.

The Arts, A/V Technology and Communications (AAVTC) Career Cluster® focuses on careers in designing, producing, exhibiting, performing, writing, and publishing multimedia content including visual and performing arts and design, journalism, and entertainment services. Information Technology – Information Technology Support and Services Program

Principles of Information Technology (PRINIT)			
Course #: 08863	Credits: 1		
PEIMS #: 13027200	Grades: 9-10		
Students develop computer literacy skills to adapt to emerging technologies used in the global marketplace. Students implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the information technology environment. This course cannot be entered at mid-term.			
Prerequisites: None			
Computer Maintenance (COMPMTN)			
Course #: 08933	Credits: 1		
PEIMS #: 13027300 Grades: 10-12			
Students acquire knowledge of computer maintenance and creating appropriate documentation. Students will analyze the social responsibility of business and industry regarding the			

social responsibility of business and industry regarding the significant issues relating to the environment, ethics, health, safety, and diversity in society and in the workplace as related to computer maintenance. Students will apply technical skills to address the IT industry and emerging technologies. This course cannot be entered at mid-term.

Prerequisites: Principles of Information Technology recommended

Computer Maintenance with Lab (COMMILAB)				
Course #: 08704	Credits: 2			
PEIMS #: 13027310	Grades: 10-12			
Students acquire knowledge of computer ma				
creating appropriate documentation. Studer	nts will analyze the			
social responsibility of business and industry re	egarding the			
significant issues relating to the environment.	ethics, health,			

safety, and diversity in society and in the workplace as related to computer maintenance. Students will apply technical skills to address the IT industry and emerging technologies. This course cannot be entered at mid-term.

Prerequisites: Principles of Information Technology recommended

Computer Technician Practicum* (COMPT1) (First time taken) Credits:2

Course #: 08866 PEIMS #: 13027500

Grades: 10-12

Students will gain knowledge and skills in the area of computer technologies, including advanced knowledge of electrical and electronic theory, computer principles, and components related the installation, diagnosis, service, and repair of computer-based technology systems. Students will reinforce, apply, and transfer their knowledge and skills to a variety of settings and problems. Proper use of analytical skills and application of information technology concepts and standards are essential to prepare students for success in a technologydriven society. Critical thinking, IT experience, and product development may be conducted either in a classroom setting with an instructor, with an industry mentor, or both. Prerequisites: None. Principles of Information Technology, Computer Maintenance, and Computer Maintenance Lab recommended

Computer Technician Practicum* (COMPT2) (Second time taken) Credits:2

Course #: 08882

PEIMS #: 13027510

Students will gain knowledge and skills in the area of computer technologies, including advanced knowledge of electrical and electronic theory, computer principles, and components related the installation, diagnosis, service, and repair of computer-based technology systems. Students will reinforce, apply, and transfer their knowledge and skills to a variety of settings and problems. Proper use of analytical skills and application of information technology concepts and standards are essential to prepare students for success in a technologydriven society. Critical thinking, IT experience, and product development may be conducted either in a classroom setting with an instructor, with an industry mentor, or both. Prerequisites: None. Principles of Information Technology, Computer Maintenance, and Computer Maintenance Lab

Grades: 10-12

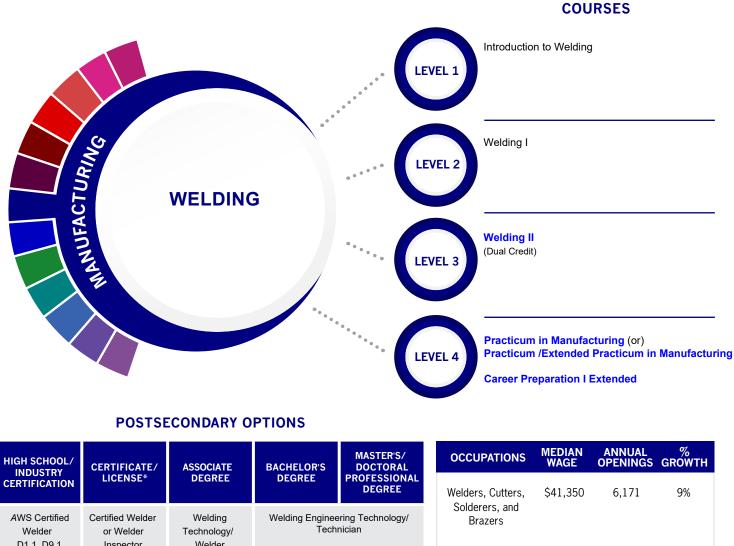

recommended

Practicum in Information Technology* (PPACIT1)

Practicum in information rechnology			
Course #: 08871	Credits: 2		
PEIMS #: 13028000	Grade: 12		
Students gain advanced knowledge and skills in the application, design, production, implementation, maintenance, evaluation, and assessment of products, services, and systems. Knowledge and skills in the proper use of analytical and application of IT concepts and standards are essential to prepare students for success in a technology-driven society. Critical thinking, IT experience, and product development may be conducted in a classroom setting with an industry mentor, as an unpaid or paid internship, as part of a capstone project or as career preparation. This course is only offered at ATEMS.			
Prerequisites: A minimum of two high school information technology (IT) courses required.			
Career Preparation I Extended* (EXCAREE1)			
Course #: 08958	Credits: 3		
PEIMS #: 12701305 Grades: 11-12			
This course provides opportunities for students to participate in a learning experience that combines classroom instruction with paid business and industry employment experiences and			

prepares students with a variety of skills for a fast-changing workplace. Career Preparation includes employability skills, job interview techniques, communication skills, financial and budget activities, human relations, as well as job-specific skills related to a student's training station. Prerequisites: None

The **Welding** program of study focuses on the development and use of automatic and computer-controlled machines, tools, and robots that perform work on metal or plastic. Students will learn how to modify parts to make or repair machine tools or maintain individual machines, and how to use hand-welding or flame-cutting equipment.

Business and Industry Endorsement *Advanced CTE course

The **Automotive** program of study teaches students how to repair and refinish automobiles and service various types of vehicles. Students may learn to collect payment for services or supplies and perform typical vehicle maintenance procedures such as lubrication, oil changes, installation of antifreeze, or replacement of accessories like wiper blades or tires.

The Transportation, Distribution, and Logistics Career Cluster® focuses on careers in planning, management, and movement of people, materials, and goods by road, pipeline, air, rail, and water. It also includes related professional support services such as transportation infrastructure planning and management, logistics services, mobile equipment and facility maintenance.

Successful completion of the Automotive program of study will fulfill requirements of the Business and Industry Endorsement. Approved Statewide Program of Study - September 2019

# Public Services Endorsement

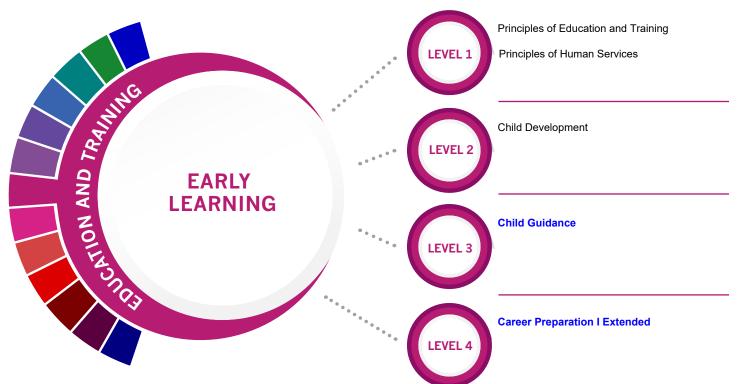

#### Subject to State Board of Education approval and updates:

A student may earn a Public Services Endorsement by completing the following requirements:

- a coherent sequence of courses for four or more credits in CTE that consists at least two courses in the same career cluster, including at least one advanced CTE course which includes any course that is the third of higher course in a sequence. The final course in the sequence must be selected from one of the CTE career clusters listed in the following:
  - Education and Training
  - Health Science
  - Human Services
  - Law, Public Safety, Corrections, and Security;
  - Career Preparation I or II and Project-Based Research if the course addresses a filed from this list; or
- 2. courses required to complete a TEA-designated program of study related to public services; or
- 3. four credits in Junior Reserve Officer Training Corps (JROTC)

The **Early Learning** program of study focuses on early childhood education, which consists of instructing and supporting preschool and early elementary school students in activities that promote social, physical and intellectual growth as well as in basic elements of science, art, music, and literature. This program of study introduces CTE concentrators to tasks necessary for planning, directing, and coordinating activities for young children.

# Education and Training – Teaching and Training Program

Principles of Education and Training (PRINEDTR)		
Course #: 08833	Credits: 1	
PEIMS #: 13014200	Grades: 9-10	
Principles of Education and Training is designed to introduce		
learners to the various careers available within the Education		
and Training Career Cluster. Students use self-knowledge as well		
as educational and career information to analyze various		
careers within the Education and Training Career Cluster.		
Students will develop a graduation plan that leads to a specific		
career choice in the student's interest area.		
Prerequisites: None		

Principles of Human Services (PRINHUSR)		
Course #: 08910	Credit: 1	
PEIMS #: 13024200	Grades: 9-12	
This laboratory course will enable students to investigate careers		
in the Human Services Career Cluster, including counseling and		
mental health, early childhood development, f	amily and	
community, personal care, and consumer servi	ices. Each	

student is expected to complete the knowledge and skills essential for success in high-skill, high-wage, or high-demand human services careers.

Prerequisites: None

Child Development (CHILDDEV)		
Course #: 08911	Credits: 1	
PEIMS #: 13024700	Grades: 10-12	
This technical laboratory course addresses knowledge and skills related to child growth and development from prenatal		
through school-age children, equipping students with child		
development skills, Students use these skills to promote the well-		
being and healthy development of children and investigate		

Human Growth and Development (HUGRDEV) Course #: 08936 Credits: 1 EIMS #: 13014300 Grades: 10-12

careers related to the care and education of children. Prerequisites: Principles of Human Services recommended

This course is an examination of human development across the lifespan with emphasis upon research, theoretical perspectives, and common physical, cognitive, emotional, and social developmental milestones. The course covers material that is generally taught in a postsecondary, one-semester introductory course in developmental psychology or human development.

Prerequisites: None; Principles of Education and Training recommended

# Instructional Practices * (INPRAC)

Course #: 08835	Credits: 2
PEIMS #: 13014400	Grades: 11-12

This course is a field-based internship which provides students with background knowledge of child and adolescent development as well as principles of effective teaching and training practices. Students work under the joint direction and supervision of both a teacher with knowledge of early childhood, middle childhood, and adolescence education and exemplary educators or trainers in direct instructional roles with elementary-, middle school- and high school-aged students. Students learn to plan and direct individualized instruction and group activities, prepare instructional materials, develop materials for educational environments, assist with record keeping, and complete other responsibilities of teachers, trainers, paraprofessionals, or other educational personnel. **Prerequisites: None; Principles of Education and Training and Human Growth and Development recommended**

# HOLLAND MEDICAL HIGH SCHOOL

Students interested in pursuing careers in the health care field have the opportunity to attend Holland Medical High School on the beautiful campus of Hardin-Simmons University. Holland is a unique, collaborative partnership between HSU, Cisco College and the Abilene Independent School District. Constructed on the corner of Cedar and Vogel, Holland Medical High is located near the largest medical community in West Texas and is adjacent to Hendrick Health System.

Holland offers the Healthcare Therapeutic program of study to eleventh and twelfth grade students interested in the health field. Students divide their time each day between Holland and their home campuses. Beginning

their junior year, students attend Holland Medical High School for three periods each day (either morning or afternoon) with the remainder of the day spent at their home campus where they complete additional courses and have the option to participate in extracurricular activities, such as athletics and fine arts. Principles of Health Science, a required prerequisite course, is available at both Cooper High and Abilene High for 10th through 12th graders. Medical Terminology, a recommended prerequisite, is open to 9th through 12th grade students. Students who complete the Healthcare Therapeutic program of study will be eligible for a Public Services Endorsement upon graduation.

Health Science Courses offered at Holland are:

- Health Science Theory/Health Science Clinical Certified Nurse Aide
- Health Science Theory/Health Science Clinical Diversified Healthcare Skills
- Practicum in Health Science Pharmacy Technician
- Practicum in Health Science Dental Assistant
- Practicum in Health Science Medical Assistant
- Anatomy and Physiology
- Medical Microbiology

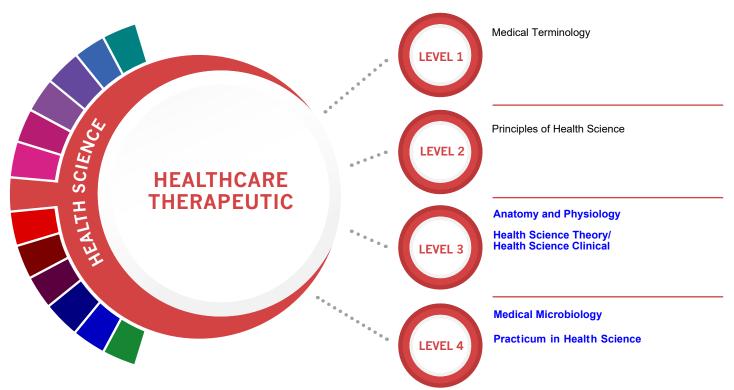

Holland students will have the opportunity to complete numerous certifications recognized by the health care industry. These certifications may include the following: ASHI First Aid; CPR; OSHA 10; Certified Nurse Aide; Pharmacy Technician; Registered Dental Assistant (Radiology, Infection Control, and Jurisprudence); Certified Electrocardiograph Technician; Certified Clinical Medical Assistant; and Phlebotomy Technician.

For additional information on Holland Medical High School and the AISD Health Science program of study, contact the Director of Holland at (325)794-4120.

The **Healthcare Therapeutic** program of study introduces students to occupations and educational opportunities related to diagnosing and treating acute, episodic, or chronic illness independently or as part of a healthcare team. This program of study also includes an introduction to the opportunities associated with providing treatment and counsel to patients as well as rehabilitative programs that help build or restore daily living skills to persons with disabilities or developmental delays.

Additional industry based certification information is available from the TEA CTE website.		Health Occupations Students of America (HOSA)		s center, hospi or nursing home				

For more information on postsecondary options for this program of study, visit TXCTE.org.

The Health Science Career Cluster® focuses on planning, managing, and providing therapeutic services, diagnostics services, health informatics, support services, and biotechnology research and development. To pursue a career in the health science industry, students should learn to reason, think critically, make decisions, solve problems, communicate effectively, and work well with others.

Successful completion of the Healthcare Therapeutic program of study will fulfill requirements of the Public Service or STEM endorsement as long as math and science requirements are met. Updated - July 2020.

#### **Program Overview:**

Students who choose to complete the Healthcare Therapeutic program of study within the Health Science cluster generally complete Principles of Health Science and Medical Terminology during their freshman and sophomore years at Abilene High or Cooper High.

During their junior year, students attend Holland where they complete Health Science Theory with a clinical experience. While in this course, students choose to focus either on earning their Certified Nurse Aide/Assistant certification or on learning about a variety of healthcare career fields (this option is referred to as Diversified Healthcare Services). Juniors also complete Anatomy and Physiology A a c A theorem A t

For their senior year, students complete both Medical Microbiology and Practicum in Health Science. During their Practicum course, students will choose to complete one of the following certification options:

- Pharmacy Technician certification,
- Registered Dental Assistant certification,
- Certified Nurse Aide/Assistant certification, or
- Certified Medical Assistant with EKG/ECG Technician certification.

# Health Science - Healthcare Therapeutic Program

Medical Terminology (MEDTERM)	
Course #:08707	Credits: 1
PEIMS #:13020300	Grades: 9-12
This course is designed to introduce students to the structure of medical terms, including prefixes, suffixes, word roots, singular and plural forms, and medical abbreviations. The course allows students to achieve comprehension of medical vocabulary appropriate to medical procedures, human anatomy and physiology, ant pathophysiology.	
Prerequisites: None	
Principles of Health Science (PRINH	ILSC)
Option for Dual Credit	
Course #: 08841	Credits: 1
PEIMS #: 13020200	Grade: <b>9-</b> 10

This course is designed to provide an overview of the therapeutic, diagnostic, health informatics, support services, and biotechnology research and development systems of the health care industry. In addition, the student will be instructed in various health care skills such as taking vital signs, body mechanics, infection control, and CPR/First Aid. This course is available at Abilene High and Cooper High and is a prerequisite for courses at Holland Medical High School. It cannot be entered at mid-term. *Prerequisites: None* 

Anatomy and Physiology* (ANATPHYS)		
Course #: 08847 Credits: 1		
PEIMS #: 13020600 Grades: 11-12		
This course introduces a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis. Students conduct laboratory investigations, use scientific methods during investigations, and make informed decisions using critical		
thinking and scientific problem-solving. Note: This course can count as the fourth year of science for graduation requirements for students entering 9 th grade in 2007-2008.		

Prerequisites: Biology and a second science credit required; a course from the Health Science career cluster recommended

## Health Science Theory*/Health Science Clinical -Diversified Healthcare Skills (HLSCLIN-DHS)

Course #: 08955		
PEIMS #:	13020410	

Credits: 2 Grades: 11-12 (must be 16 by Nov 1)

These courses are designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Students will employ hands-on experiences for continued knowledge and skill development. Health Science Theory and Health Science Clinical must be taken concurrently. At the completion of this course, students will engage in an unpaid work-based, job shadowing experience. The course prepares the student for transition into further training or workbased experience in healthcare. At the completion of this course, students will engage in an unpaid work-based, job shadowing experience. The course prepares the student for transition into further training or work-based experience in healthcare. **This course is only available at Holland Medical High**.

Prerequisites: Biology required; Principles of Health Science AISD requirement

### Health Science Theory*/Health Science Clinical -Certified Nurse Assistant (HLSCLIN-CNA) Course #: 08956 Credits: 2

Course #: 08956 PEIMS #: 13020410

Grades: 11-12

(must be 16 by Nov 1) These courses are designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Students will employ hands-on experiences for continued knowledge and skill development. Health Science Theory and Health Science Clinical must be taken concurrently. During the fall semester students will participate in a Texas Department of Health approved Nurse's Aide certification program. During the spring semester students will participate in clinical rotations at participating health care facilities. This course is only available at Holland Medical High. Prerequisites: Biology required; Principles of Health Science AISD requirement

# Medical Microbiology* (MICRO)

Course #: 08708	Credits: 1
PEIMS #: 13020700	Grades: 11-12
This course is designed to explore the microbial world, studying topics such as pathogenic and non-pathogenic microorganisms, laboratory procedures, identifying microorganisms, drug-resistant organisms, and emerging	
diseases. This course is only available at Holla	and Medical High.
Prerequisites: Biology and Chemistry required Health Science Career Cluster recommended	

# Practicum in Health Science – Medical Assistant* (PRACHLS1-CMA)

Course #: 08845	Credits: 2
PEIMS #: 13020500	Grade: 12

This practicum is designed to provide the knowledge and skills for students to obtain national-approved medical assistant certifications. In the fall, students are offered a certification as a Certified Electrocardiograph Technician (CET). This semester consists of learning how to perform an EKG and patient monitoring during cardiac procedures and interpreting EKG results. In the spring, students are offered a certification as a Certified Clinical Medical Assistant. This semester consists of learning skills such as patient history and assessment, minor office procedures, phlebotomy, EKG, specimen collection and front-office admission skills. Students will do clinicals at the hospital and physician offices. This course cannot be entered at midterm. **This course is only available at Holland Medical High**. *Prerequisites: Health Science Theory/Health Science Clinical required* 

# Practicum in Health Science – Pharmacy Technician* (PRACHLS1-PHARM)

Course #: 08846	Credits: 2
PEIMS #:13020500	Grade: 12
This practicum is designed to give students the kr skills to complete the national certification test for Technician. The practicum course provides an ur capstone experience for students participating in science coherent sequence. This course is only a Holland Medical High.	r Pharmacy npaid n the health
Prerequisites: Health Science Theory/Health Science Theory/Health Science required; Chemistry recommended	nce Clinical

## Practicum in Health Science – Dental Assistant* (PRACHLS1-RDA)

Course #: 08922	Credits: 2
PEIMS #:13020500	Grade: 12
The property of the state of the state of the state of the state.	اممرتم متمام مانيرم متنا ممالح

This practicum is designed to give students the knowledge and skills to complete the state certification test for Registered Dental Assistant. Students will have the opportunity to complete up to three of the certifications recognized in the state certification test. This practicum provides an unpaid internship in a dental office. This course is only available at Holland Medical High.

Prerequisites: Health Science Theory/Health Science Clinical required

# Practicum in Health Science – Certified Nurse Aide* (PRACHLSC1-CNA)

Course #: 08916	Credits: 2
PEIMS #:13020500	Grades: 12

A course designed to provide for the development of multioccupational knowledge and skills related to a wide variety of health careers. Students will have hands-on experiences for continued knowledge and skills development. During the fall semester students will participate in a Texas Department of Health approved Nurse's Aide certification program. During the spring semester students will participate in clinical rotations at participating local health care facilities. This course cannot be entered at mid-term. This course is only available at Holland Medical High.

Prerequisites: Health Science Theory/Health Science Clinical-DHS required

### Project-Based Research – Phlebotomy* (PROBS1) Course #: 08950 Credits: 1

	oreans: r
PEIMS #: 12701500	Grade: 12
Phlebotomy is an independent study course taugh	t on the
campus of Cisco College, offered as a continuing	education
credit. This course usually meets three nights a wee	k during the
spring semester. Phlebotomy provides a general ov	verview of
techniques, procedures and issues pertaining to the	e proper
collection of blood specimens for routine clinical la	Iboratory
testing in order to develop well-trained, proficient of	and
professional phlebotomists. Students will learn prop	er patient
contact and procedures; phlebotomy techniques,	procedures
and equipment; the anatomy and physiology of th	e circulatory
system; and laboratory organization and measurer	nent. Training
includes 84 hours of classroom instruction and clinic	cal hours
determined by the successful completion of 100 cc	ombined vein
puncture and finger/heel sticks for students to rece	eive a
National Phlebotomy certification. This course is on	ly available
at Holland Medical High.	
Prerequisites: Principles of Health Science	

## Project-Based Research – Research and Design* (PROBS1)

Course #: 08952	Credits: 1
PEIMS #: 12701500	Grade: 12
This independent study course is a project-based experience developed by a student or group of an interdisciplinary mentor team. The project pro	students and wides
opportunities for an in-depth study of at least one healthcare industry. The student or group demor ability to utilize a variety of resources, advanced	nstrates the

of the project. This course is only available at Holland Medical High. Prerequisites: Principles of Health Science, Health Science Theory/Health Science Clinical, Practicum in Health Science AISD required

and communication skills in the development and presentation

The **Family and Community Services** program of study introduces students to knowledge and skills related to social services, including child and human development and consumer sciences. CTE concentrators may learn about or practice managing social and community services or teaching family and consumer sciences. Students may follow career paths in social work or therapy for children, families, or school communities.

Anatomy and Physiology* (ANATP	HYS)
Course #: 08847	Credits: 1
PEIMS #: 13020600	Grades: 11-12
This course introduces a variety of topics, in	cluding the structure

This course introduces a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis. Students conduct laboratory investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem-solving. Note: This course can count as the fourth year of science for graduation requirements for students entering 9th grade in 2007-2008.

Prerequisites: Biology and a second science credit required; a course from the Health Science career cluster recommended

## Counseling and Mental Health* (COUNSMH) Course #: 08967 Credits: 1

Course #: 00707	Credits: 1
PEIMS #: 13024600	Grades: 11-12

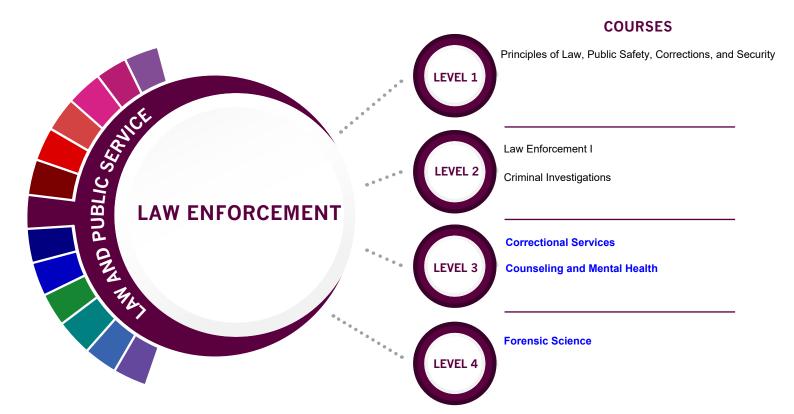

In this course, students model the knowledge and skills necessary to pursue a counseling and mental health career through simulated environments. Students are expected to apply knowledge of ethical and legal responsibilities, limitations on their actions and responsibilities, and the implications of their actions. Students understand how professional integrity in counseling and mental health care is dependent on acceptance of ethical and legal responsibilities. **Prerequisites: None; Principles of Human Services recommended** 

Firefighter II* (FIRE2) – Part 1		
Dual Enrollment – Cisco College at Abilene Fire		
Academy		
AISD Course #: C8713	1.5 high school credits	
PEIMS: 13030000	Grade: 12	
Fire Academy participants complete a series of courses in basic preparation for a new firefighter. Firefighter II-Part 1 satisfies the final two parts of a seven-part series of certifications that satisfy the Texas Commission on Fire Protection (TCFP) curriculum for Basic Structural Fire Suppression. <b>Fire Academy is offered at the</b> <b>AISD Fire Station</b>		
Cisco Course: Firefighter Cer	t VI	
CC Course #: FIRS 1329	3 college semester hours	
Prerequisites: FIRS 1323 required. Principles of Law, Public Safety, Corrections, and Security recommended.		
Cisco Course: Firefighter Cert VII		
CC Course #: FIRS 1433	3 college semester hours	
Prerequisites: FIRS 1329	_	
Firefighter II* (FIRE2) – Part 2		
AISD Course #: 08713	1.5 high school credits	
PEIMS: 13030000	Grade: 12	
Fire Academy participants complete a series of courses in basic		

Fire Academy participants complete a series of courses in basic preparation for a new firefighter. After completion of the sevenpart firefighting course of study with Cisco College, students finish the program with coursework to fulfill the EMS requirement to prepare for the Fire Basic certification exam. **Fire Academy is offered at the AISD Fire Station** 

Prerequisites: Firefighter I required; Principles of Law, Public Safety, Corrections, and Security recommended

The **Law Enforcement** program of study teaches students about the development of, adherence to, and protection of various branches of law. Students may learn how to appropriately and legally respond to breaches in the law according to statutory rules and regulations as well as investigate how and why the breaches occurred.

PEIMS #: 13029300Grades: 10-12Law Enforcement I is an overview of the history, organization,<br/>and functions of local, state, and federal law enforcement.Students will understand the role of constitutional law at local,<br/>state, and federal levels; the United States legal system, criminal<br/>law, law enforcement terminology, and the classification and<br/>elements of crime.

Prerequisites: Principles of Law, Public Safety, Corrections, and Security recommended

# Criminal Investigation (CRINVEST)

Course #: 08711	Credits: 1
PEIMS #: 13029550	Grades: 10-12
Criminal Investigation is a course that	introduces students to the

profession of criminal investigations. Students will understand basic functions of criminal investigations and procedures and will learn how to investigate or follow up during investigations. Students will learn terminology and investigative procedures related to criminal investigation, crime scene processing, evidence collection, fingerprinting, and courtroom presentation. Through case studies and simulated crime scenes, students will collect and analyze evidence such as fingerprint analysis, bodily fluids, hairs, fibers, shoe and tire impressions, bite marks, drugs, tool marks, firearms and ammunition, blood spatter, digital evidence, and other types of evidence. This course is only available at CHS.

Prerequisites: Principles of Law, Public Safety, Corrections and Security recommended

Correctional Services* (CORRSRVS)
Course #: 08877
PEIMS #: 13029700

Cre	dits:	1
Grades:	10-1	2

In Correctional Services, students will learn the role and responsibilities of a county or municipal correctional officer; discuss relevant rules, regulations, and laws of municipal, county, state, or federal facilities; and discuss defensive tactics, restraint techniques, and first aid procedures as used in the municipal, county, state, or federal correctional setting. Students will analyze rehabilitation and alternatives to institutionalization for inmates.

Prerequisites: None

# Counseling and Mental Health* (COUNSMH)

Course #: 08967	Credits: 1	
PEIMS #: 13024600	Grades: 11-12	
In this course, students model the knowledge and skills		

necessary to pursue a counseling and mental health career through simulated environments. Students are expected to apply knowledge of ethical and legal responsibilities, limitations on their actions and responsibilities, and the implications of their actions. Students understand how professional integrity in counseling and mental health care is dependent on acceptance of ethical and legal responsibilities. *Prerequisites: None; Principles of Human Services recommended* 

Forensic Science* (FORENSCI)	
Course #: 06431	Credits: 1
PEIMS #: 13029500	Grades: 11-12
Forensic Science is a course that introduces students to the application of science to connect a violation of law to a specific criminal, criminal act, or behavior and victim. Students will learn terminology and procedures related to the search and examination of physical evidence in criminal cases as they are performed in a typical crime laboratory. Using scientific methods, students will collect and analyze evidence such as fingerprints, bodily fluids, hairs, fibers, paint, glass, and cartridge cases. Students will also learn the history and the legal aspects as they relate to each discipline of forensic science	
Prerequisite: Biology and Chemistry required; Recommended prerequisite or corequisite: any Law, Public Safety, Corrections and Security career cluster course	

# Military Science/JROTC

# AIR FORCE JUNIOR RESERVE OFFICER TRAINING CORPS (AFJROTC)

### General Qualifications:

- Cadets must be able to perform physical training/exercise to include up to a mile and half run, push-ups and sit ups.
- Cadets are required to comply with AFJROTC grooming standards (hair/shave/makeup) and be of good moral character.
- Air Force issued uniforms will be worn once a week and at other times as directed.
- Activity fee required.

### Program Benefits:

- Cadets will be taught life skills, discipline, citizenship, how to lead people and manage resources
- Cadets are provided books and uniforms at no cost.
- Cadets do not incur military service obligations.
- Students may take AFJROTC in lieu of Physical Education.
- Cadets can participate in extracurricular activities: Drill Teams, Rocket Teams, PT Teams, etc.
- Cadets who successfully complete the AFJROTC program and enlist in one of the military services may begin their military career at higher rank and pay grade. (Subject to change and as directed by each military service.)
- Senior ROTC scholarships are available for qualified applicants.
- Nominations to service academies are available for qualifying students.

### Program Components:

The Air Force Junior Reserve Officer Training Corps (AFJROTC) course of study consists of three (3) major program components which are taught over four years. The curriculum is instrumental in developing citizens of character dedicated to serving our nation and communities:

- 1. Leadership Education (LE): Leadership Education courses are focused on AFJROTC mission, standards, drill, and discipline. This includes, but is not limited to courses of instruction in: Citizenship, customs and courtesies; Effective communication and leadership skills; introduction to career opportunities/life skills and tools for success after high school whether that be in college, civilian or military careers; importance of managers, management, and characteristics of what it takes to be a good leader.
- 2. Aerospace Science (AS): Aerospace Science is a broad area of study introducing cadets to patriotism, national security, fundamentals of aerodynamics, rocketry, space/astronomy, aerospace history, and people, governments and cultures. The senior cadets also learn how to manage the cadet corps. Cadets are encouraged to complete high school, pursue higher educational goals and skills, and even consider the Air Force or other military service as a possible career path.
- 3. Wellness and Fitness (PT): Wellness is an official and integral part of the AFJROTC program which consists of exercise programs focused upon individual base line improvements with the goal of achieving a national standard as calculated by age and gender. The Wellness curriculum is instrumental in developing citizens of character dedicated to serving our nation and communities.

# **Junior ROTC**

Reserve Officers Training Corps I (SU	IBJ1)/(ROTC1)
Course #: 04910 (PE credit)	Credits: 1
Course #: 09161	Credits: 1
PEIMS #: PES00004 (PE credit)	Grades: 9-12
PEIMS #: 03160100	Grades: 9-12
AFJROTC I consists of: (1) Leadership Educati introduces cadets to the AFJROTC mission, o	

introduces cadets to the AFJROTC mission, objectives, dress and appearance, drill and ceremony, discipline, respect, values, and ethics. This course satisfies the state Physical Education credit requirement if the student has not already satisfied this credit. *Prerequisites: None* 

### Reserve Officers Training Corps II (ROTC 2) Course #: 09263 Credits: 1

### PEIMS #: 03160200

Grades: 9-12

AFJROTC II consists of: (1) Leadership Education which stresses communication skills, personal awareness, and group/team dynamics. (2) Aerospace Science offers either Science of Flight, which focuses on how airplanes fly, weather, how flight affects the human body, and flight and land navigation or An Introduction to Global Awareness which delves into the history, religion, languages, economics, social issues, environmental concerns and human rights of countries around the globe. (3) Wellness focuses on physical fitness through exercise and team building.

Prerequisites: None

# Reserve Officers Training Corps III (ROTC 3)Course #: 09265Credits: 1PEIMS #: 03160300Grades: 9-12AFJROTC III consists of: (1) Leadership Education which helps<br/>students plan for life after high school – college, finding a job,<br/>and financial planning are a few of the topics covered. (2)

Aria lindricial planning are a few of the topics covered. (2) Aerospace Science studies the space environment, manned space flight and exploration, and the latest advances in space technology (3) Wellness focuses on physical fitness through exercise and team building.

Prerequisites: None

Reserve Officers Training Corps IV (ROTC 4)	
Course #: 09367	Credits: 1
PEIMS #: 03160400	Grade 12
AFJROTC consists of: (1) Leadership Education v exposure to fundamentals of leadership and mo (2) Aerospace Science which explores Policy ar Organization pertaining to the military services of States National Security Strategy. (3) Wellness for physical fitness through exercise and team build cadets are responsible for the leadership and of the Corps.	anagement. nd and the United ocuses on ding. Senior
Prerequisites: Senior or graduating junior; ROTC interview.	I, II, or III or

For more information on the JROTC Program, please contact the Air Force JROTC instructors at either Abilene High or Cooper High Schools.

# Arts and Humanities Endorsement

# Subject to State Board of Education approval and updates:

A student may earn an Arts and Humanities Endorsement by completing the following requirements:

- 1. five social studies courses; or
- 2. four levels of the same language in a language other than English, which may include Advanced Language for Career Applications; or
- 3. two levels of the same language in a language other than English and two levels of a different language in a language other than English; or
- 4. four levels of American Sign Language; or
- 5. a coherent sequence of four credits by selecting courses from one or two categories or disciplines in fine arts.
- 6. four English elective credits by selecting from the following:
  - English IV
  - Independent Study in English
  - Literary Genres
  - Creative Writing
  - Research and Technical Writing
  - Advanced Placement English Literature and Composition; or
  - International Baccalaureate Language Students A1 Higher Level; or
  - Communications Applications

Students seeking the Arts and Humanities endorsement will complete courses found in the Core Academic Courses section.

# Multidisciplinary Studies

# Endorsement

Subject to State Board of Education approval and updates:

A student may earn a Multidisciplinary Studies endorsement by completing the following requirements:

- 1. four advanced courses that prepare a student to enter the workforce successfully or postsecondary education without remediation from one endorsement area or among endorsement areas that are not in a coherent sequence; or
- 2. four credits in each of four foundation subject areas (four English, four math, four science, four social studies) to include English IV or College Prep ELA and chemistry and/or physics; or
- 3. four credits in Advanced Placement courses or International Baccalaureate courses, or dual credit selected from English, mathematics, science, social studies, economics, languages other than English or fine arts.

Students seeking the Multidisciplinary Studies endorsement will complete courses found in the Core Academic Courses section.

# Core Academic Courses

# Core Academics – English & English Learners

of the English language, which gives the college bound	•
This course is a survey of British literature and the development of the English language, which gives the college bound student a background in the history and culture of the English-speaking peoples. Reading, grammar, usage, mechanics, and composition skills are integrated into the literature units. Course research projects emphasize literary criticism.	
Prerequisites: English III or AP English Language and Composition recommended	

AP English Literature and Composition (APENGLIT)	
Course #: 01405	Credits: 1
PEIMS #: A3220200	Grade: 12
AP English Language and Literature is a college level course with emphasis on training students to become skilled readers and writers in diverse genres and modes of composition. Utilizing world literature as a base, the course concentrates on individual interpretation and response. Writing includes a research paper in MLA or APA format. Students are expected to take the AP Exam. <i>Summer reading may be assigned.</i>	
Prerequisites: English III or AP English Language and Composition recommended	

Business English (BUSENGL)	
Course #: 08908	Credits: 1
PEIMS #: 13011600	Grade: 12
In Business English, students enhance communication and research skills by applying them to the business environment, in addition to exchanging information and producing properly formatted business documents using emerging technology. <i>Prerequisites: English III</i>	

Independent Study in English (IND ENG)	
Course #: 01435	Credits: 1
PEIMS #: 03221800	Grade: 11-12
This course provides students an opportunity to do additional advanced work in English. Students will be given opportunities to conduct research, produce original works in print, develop an advanced communication-related skill, or do advanced study in a specific area of interest.	
Prerequisites: English III, teacher approval and concurrent enrollment in English IV	

# Independent Study in English: Hebrew Scriptures (HEBSCEN)

Course #: 01161 PEIMS #: 03221830 Elective Credits: ½ Grade: 9-12

In this course students will study the characters, poetry, and narratives of the Hebrew Scriptures that are prerequisites to understanding the contributions and influence of the Bible on contemporary society and culture, including literature, art, music, mores, oratory, and public policy. The content of the course will not endorse, favor or promote any particular religion or non-religious faith or religious perspective. Offered first semester only.

Prerequisites: None

Independent Study in English: New Testament	
(NEWTENG)	

Course #: 01162	Elective Credits: ½
PEIMS #: 03221840	Grade: 9-12

In this course students will study the characters, poetry, and narratives of the New Testament that are prerequisites to understanding the contributions and influence of the Bible on contemporary society and culture, including literature, art, music, mores, oratory, and public policy. The content of the course will not endorse, favor or promote any particular religion or non-religious faith or religious perspective. Offered second semester only.

Prerequisites: None

Creative Writing (CREAT WR)	
Course #: 01323	Credits: 1/2
PEIMS #: 03221200	Grades: 11-12
The students will explore figurative language of devices by incorporating them into a piece of will learn how to use proportion, contrast, susp	f discourse. They

repetition, and various points of view. They will analyze these devices in literary examples, while at the same time considering their own work as a piece of literature, a literary test. The production of original work will be paramount in this course. *Prerequisites: 80 or above average in previous English class and teacher approval recommended* 

Literary Genres (LIT GENR)	
Course #: 01391	Credits: 1/2
PEIMS #: 03221500	Grades: 11-12
Students will explore various literary genres found in the literature of the world.	
Prerequisites: 80 or above average in previous English class and teacher approval recommended	

Practical Writing Skills (PRACT WR)	
Course #: 01433 Credits: 1	
PEIMS #: 03221300	Grade: 12
The study of writing allows high school students while developing skills necessary for composing and requests for information, as well as for com applications and résumés. This course emphasi of conventions and mechanics of written Englis appropriate and effective application of Englis the effective use of vocabulary. <i>Prerequisites: English III</i>	g business letters npleting job izes skill in the use sh, the

College Preparatory English Language Arts (CPELA)	
Course #: 01459 Credits: 1	
PEIMS #: CP110100 Grades: 12	
The focus of the course is on applying critical reading skills for organizing, analyzing and retaining material and developing written work appropriate to the audience, purpose, situation, and length of the assignment. This course is designed to prepare students for college-level reading and writing intensive courses including ENGL 1301. Students will learn to write effective, logical essays, utilizing textual support to develop reading comprehension strategies and to analyze, synthesize and make value judgments using critical thinking. The course fulfills The Texas Success Initiative (TSI) requirements for reading and writing. Students who successfully complete this course	

and pass the TSI will qualify to take ENGL 1301.

Prerequisites: Three English credits prior to enrollment

Debate I (DEBATE 1)	
Course #: 01246	Credits: 1
PEIMS #: 03240600	Grades: 9-12
Debate II (Debate 2)	
Course #: 01248	Credits: 1
PEIMS #: 03240700	Grades: 10-12
Debate III (DEBATE 3)	
Course #: 01346	Credits: 1
PEIMS #: 03240800	Grades: 11-12
These courses develop skills in analysis, research, and organization and provide opportunities to prepare and present debates in a variety of debate contexts. Debate I is a pre- competition class. Students may have the opportunity to debate in at least one TFA qualifying tournament. Major emphasis in Debate II and III will be placed on TFA, NFL, and UIL competition, which includes traveling to tournaments.	
Prerequisites: Debate I – none; Debate II and III – completion of	
Debate 1 and teacher approval recommended	

Oral Interpretation I (ORALINT1)	
Course #: 01237	Credits: 1
PEIMS #: 03240200	Grades: 9-12
Oral Interpretation II (ORALINT2)	
Course #: 01261	Credits: 1
PEIMS #: 03240300	Grades: 10-12
Oral Interpretation III (ORALINT3)	
Course #: 01361	Credits: 1
PEIMS #: 03240400	Grades: 10-12
These courses furnish opportunities for students to develop	
competencies in analysis, adaptation, and performance of	

literature for an audience. Major emphasis in Oral Interpretation II and III will be placed on TFA, NFL and UIL competition. Prerequisites: Oral Interpretation I – none; Oral Interpretation II

and III – completion of Oral Interpretation I and teacher approval recommended

Public Speaking I (PUBSPKG1)	
Course #: 01255	Credits: 1
PEIMS #: 03240900	Grades: 9-12
Public Speaking II (PUBSPKG2)	
Course #: 01275	Credits: 1
PEIMS #: 03241000	Grades: 10-12
Public Speaking III (PUBSPKG3)	
Course #: 01277	Credits: 1
PEIMS #: 03241100	Grades: 10-12
Emphasis in this course will be on the practical application of speech skills. The course will include an exploration of the following: concepts of rhetoric, outstanding public speakers of the past and present, topic selection, research skills, organization of ideas, selection of language, preparation and presentation of speeches, delivery skills, listening skills, and	
evaluation skills. Students will be expected to compete in	

speech competition.

Prerequisites: Public Speaking I – none; Public Speaking II and III – completion of Public Speaking I and teacher approval recommended

Independent Study/Speech (IND SPCH)	
Course #: 01253	Credits: 1
PEIMS #: 03241200	Grades: 10-12
Independent study in speech provides opportunity for advanced students to plan, organize, produce, perform, and evaluate a project that enables them to develop advanced skills in communication, critical thinking, and problem-solving.	
Prerequisites: Public Speaking I or Oral Interpretation I or Debate I and teacher approval recommended	

Communication Applications (COMMAPP)	
Course #: 01145	Credits: 1/2
PEIMS #: 03241400	Grades: 9-12
Subject areas included in this course are the identification, analysis, development, and evaluation of communication skills necessary for professional and social success in interpersonal situations, group interactions, and personal and professional presentations.	
Prerequisites: None	

Professional Communications (PROFCOMM)	
Course #: 08823	Credits: 1/2

English I for Speakers of Other Languages (ENG1 SOL)	
Credits: 1	
Grades: 9-10	
nguages (ENG2	
Credits: 1	
Grades: 9-10	
The goal of these classes is to increase the English proficiency of the students enrolled in these classes. These courses may be substituted for English I and II for immigrant students with limited English proficiency.	
Proficiency (LEP)	
nd Acquisition Credits: 1	
Grades: 9-12	
English Language Development and Acquisition (ELDA2) second time taken	
Credits: 1	
Grades: 10-12	
This course is designed to provide instructional opportunities for secondary recent immigrant students with little or no English proficiency. These students have scored at the negligible/very limited academic language level of the state-approved English oral language proficiency tests. This course enables students to become increasingly more proficient in English in all four language domains. Prerequisites: Designated Limited English Proficiency (LEP) Corequisites: Must be taken concurrently with a course that awards English credit such as ESOL I-II or English III-IV. A student may take this course up to two times for credit when paired with different corequisites.	

# **Core Academics - Fine Arts**

Note: For Communications Applications, Debate, Oral Interpretation, Public Speaking and Professional Communications course descriptions, see the English Language Arts and Reading section, pages 105-106.

## Art I (ART 1)

Course #: 02111 PEIMS #: 03500100

Credits:	1
Grades: 9-1	12

Art I provides the student an opportunity to develop skills in design, drawing, painting, printmaking, and sculpture. It includes four basic strands: perception; creative expression/performance; historical/cultural heritage; and critical evaluation. These provide unifying structures for organizing the knowledge and skills students are expected to acquire. Students will be required to use memory, imagination, and real life objects/experiences as sources for art works. This course cannot be entered at mid-term. Prerequisites: None

PreAP Art I (ART 1 PREAP)	
Course #: 02113	
PEIMS #: 03500100	

Credits: 1 Grades: 9-12

This course is designed for the art student that has shown advanced skills in middle school art. The student will continue developing (1) a sense of quality in their work and (2) decisive use of art elements and principles. This course cannot be entered at mid-term.

Prerequisites: Teacher approval recommended

PreAP Art II – Drawing (ART2DRAW PREAP)	
Course #: 02213	Credits: 1
PEIMS #: 03500500	Grades: 9-12
This course requires that students develop basic drawing skills using a variety of media. Drawing is approached as a final product. The basic strands established in Art I will be emphasized. This course cannot be entered at mid-term.	
Prerequisites: Art I; teacher approval recommended	

PreAP Art II – Sculpture (ART2SCLP PREAP)		
Course #: 02224	Credits: 1	
PEIMS #: 03501000	Grades: 9-12	
In this course students will construct sculptures using additive		
and subtractive methods in a variety of media. 3D design		
concepts such as form, plane and light, depth and space will		
be explored. This course cannot be entered at mid-term.		
Prerequisites: Art I; teacher approval recommended		

PreAP Art II – Photography (ART2PHTO PREAP)		
Course #: 02229	Credits: 1	
PEIMS #: 03501200	Grades: 9-12	
This course introduces the student to advance aesthetic aspects of digital photography. Cou study of different digital camera types, parts of fundaments of digital photography and imagi	ntent includes a Ind operation,	

and natural and artificial lighting. This course cannot be entered at mid-term.

Prerequisites: Art I; teacher approval recommended

# 

	Preap Art III- Drawing (ART3DRAW PREAP)	
Course #: 02325	Credits: 1	
PEIMS #: 03501300	Grades: 10-12	
In this course, the student is required to draw in depth and will develop the ability to plan and execute drawings as the basis for painting, printmaking, and sculpture. This is a prerequisite for AP 2D Design Portfolio, AP 3D Design Portfolio, and AP Art Drawing Portfolio. This course cannot be entered at mid-term. <i>Prerequisites: Art II Drawing; teacher approval recommended</i>		

## PreAP Art III- Photography (ART3PHTO PREAP)

Course #: 02423	Credits: 1
PEIMS #: 03502200	Grades: 10-12
This course introduces the student to advanced digital	
photography techniques, creative digital imaging, darkroom	
and alternative processes, and printing for competitions and	
exhibitions. Emphasis is placed upon preparation for entry into	

AP Two-Dimensional Design Portfolio (Photography/Digital Imaging). This course cannot be entered at mid-term. Prerequisites: Art II Photography; teacher approval recommended

# AP Studio Art: Drawing Portfolio (APSTARTD)

Course #: 02301		Credits: 1
PEIMS #: A3500300		Grades: 11-12

The requirements for this course reflect three major concerns: a sense of quality in a student's work; the student's concentration on a particular visual interest or problem; and the student's need for breadth of experience in the formal, technical, and expressive means of the arts. During this course, the student will be introduced to a variety of problems in drawing. This course cannot be entered at mid-term. Students are expected to submit an AP portfolio.

Prerequisites: Art II; teacher approval recommended

## AP Studio Art: Two-Dimensional Design Portfolio (AP2DDP)

· · ·	
Course #: 02414	Credits: 1
PEIMS #: A3500400	Grades: 10-12

This portfolio is intended to address a very broad interpretation of two-dimensional design issues. This type of design involves purposeful decision-making about the use the elements and principles of art in an integrative way. The elements of design (line, shape, illusion of space, illusion of motion, pattern, texture, value, and color) are like a palette of possibilities that artists use to express themselves. For this portfolio, students are asked to demonstrate proficiency in two-dimensional design using a variety of art forms such as graphic design, typography, digital imaging, photography, collage, fabric design, weaving, illustration, painting, and printmaking. This course cannot be entered at mid-term. Students are expected to submit an AP portfolio.

Prerequisites: Art II; teacher approval recommended

# AP Studio Art: Three-Dimensional Design Portfolio (AP3DDP)

Course #: 02514	Credits: 1
PEIMS #: A3500500	Grades: 10-12

This portfolio is intended to address a broad interpretation of sculptural issues in depth and space. These may include mass, volume, form, plane, light, and texture. Such elements and concepts can be articulated through additive, subtractive, and/or fabrication processes. A variety of approaches to representation, abstraction, and expression may be part of the student's portfolio. These might include, among others, traditional sculpture, architectural models, apparel, ceramics, three-dimensional fiber art or metal work. Students are expected to submit an AP Portfolio. This course cannot be entered at mid-term.

Prerequisites: Art II; teacher approval recommended

AP History of Art (APHISART)	
Course #: 02314	Credits: 1
PEIMS #: A3500100	Grades: 11-12
This course is designed to provide the same benefits to	

secondary school students as are provided the same benefits to secondary school students as are provided by an introductory college course in art history and the understanding and enjoyment of architecture, sculpture, painting, and other art forms with an historical and cultural context. The students will examine major forms of artistic expression and learn to look at works of art critically, with intelligence and sensitivity, and to articulate what they see or experience. This course cannot be entered at mid-term. Students are expected to take the AP exam.

Prerequisites: Teacher approval recommended

Theatre Arts I (TH1)	
Course #: 02231	C
	-

PEIMS #: 03250100

Credits: 1 Grades: 9-12

This is the first course in theatre, introducing theatre as an art, and beginning the study of the cultural contributions of the theatre, its plays and its performance, its production styles and techniques. The course introduces basic acting, the role of the actor in interpreting dramatic literature, and the historical evolution of performance styles. This course cannot be entered at mid-term.

Prerequisites: None		
Theatre Arts II (TH2)		
Course #: 02331	Credits: 1	
PEIMS #: 03250200	Grades: 9-12	
Theatre Arts III (TH3)		
Course #: 02431	Credits: 1	
PEIMS #: 03250300	Grades: 10-12	
Theatre Arts IV (TH4)		
Course #: 02433	Credits: 1	
PEIMS #: 03250400	Grade: 11-12	
These courses build on the background established in Theatre I, continuing the study of the cultural contributions of the theatre, its plays, and its performance and production styles and techniques. Basic principles of production are studied and applied through performances in various theatrical modes. Each level of theatre will require a greater degree of understanding and competency in technique and performance. This course cannot be entered at mid-term.		
penomance. This coulse cullifol be enlere	u ur mu-iemi.	

Prerequisites: Theatre I, audition and teacher approval

Technical Theatre I (TH1TECH)	
Course #: 02241	Credits: 1
PEIMS: 03250500	Grades: 10-12
Technical Theatre II (TH2TECH)	
Course #: 02341	Credits: 1
PEIMS: 03250600	Grades: 11-12
Technical Theatre III (TH3TECH)	
Course #: 02441	Credits: 1
PEIMS: 03251100	Grades: 12
This course combines theories of design and stage-craft techniques with construction and operation of the various elements of technical theatre. This course cannot be entered at mid-term.	

Prerequisites: Teacher approval

Theatre Production I (TH1PROD)		
Course #: 02381	Credits: 1	
PEIMS #: 03250700	Grades: 9-12	
Theatre Production II (TH2PROD)		
Course #: 02383	Credits: 1	
PEIMS #: 03250800	Grades: 10-12	
Theatre Production III (TH3PROD)		
Course #: 02385	Credits: 1	
PEIMS #: 03250900	Grades: 11-12	
Theatre Production IV (TH4PROD)		
Course #: 02387	Credits: 1	
PEIMS #: 03251000	Grade: 12	
Students will develop and practice acting concepts, skills, and many technical phases of theatre production. Students will also be provided opportunities to grow aesthetically through participation and observation of theatre events. <i>Prerequisites: Audition and teacher approval</i>		

Theatre and Media Communications 1 (TH1MCOM)	
Course #: 02389 Credits:	
PEIMS #: 03251300	Grades: 9-12
Theatre and Media Communication 1 provide rigorous and relevant experiential study of the video and audio design. Creation and analy performances will be balanced with explorat contemporary practices in digital media. Stu how to bridge traditional stagecraft with curr applications to create new digital media. The include a major project to address local issue community. This project will afford students of learn and practice creative research skills, de engage an audience, and connect an online their project.	eatre along with ysis of student tions into udents will learn rent technology ne course will es within the an opportunity to evelop a narrative,

Revolution Strings (MUS2INEN) Year 2 only		
Course #: 02866	Credits:1	
PEIMS #: 03151800	Grades: 10-12	
Revolution Strings (MUS3INEN) Year 3 only		
Course #: 02966	Credits:1	
PEIMS #: 03151900	Grades: 11-12	
Revolution Strings (MUS4INEN) Year 4 only		
Course #: 02666	Credits:1	
PEIMS #: 03152000	Grades: 12	
Orchestra ensemble (Revolution Strings) includes auditioned string students who demonstrate advanced skills in performance. This course includes various styles including jazz, pop, Celtic, country/western, and other styles. Students incorporate choreography and dance into performance on a regular basis.		
Prerequisites: Director approval		

Choir I (MUS1CHOR) Year 1 only	
Course #: 02660	Credits: 1
PEIMS #: 03150900	Grades: 9-12
Choir II (MUS2CHOR) Year 2 only	
Course #: 02760	Credits: 1
PEIMS #: 03151000	Grades: 10-12
Choir III (MUS3CHOR) Year 3 only	
Course #: 02860	Credits: 1
PEIMS #: 03151100	Grades: 11-12
Choir IV (MUS4CHOR) Year 4 only	
Course #: 02560	Credits: 1
PEIMS #: 03151200	Grades: 12
These courses are open to students with and without previous vocal training. There is continued vocal training with emphasis on tone production, sight-reading, and a variety of choral literature.	
Proroquisitos, Director approval	

Prerequisites: Director approval

Show Choir (MUS1VOEN) Year 1 only		
Course #: 02750	Credits: 1	
PEIMS #:03152100	Grades: 9-12	
Show Choir (MUS2VOEN) Year 2 only		
Course #: 02850	Credits: 1	
PEIMS #: 03152200	Grades: 10-12	
Show Choir (MUS3VOEN) Year 3 only		
Course #: 02950	Credits: 1	
PEIMS #: 03152300	Grades: 11-12	
Show Choir (MUS4VOEN) Year 4 only		
Course #: 02650	Credits: 1	
PEIMS #: 03152400	Grades: 12	
Vocal ensemble includes auditioned vocal stud	dents who	
demonstrate advanced skills in vocal performance. This course		
includes various styles including jazz, pop, and Broadway		
musicals. Students will incorporate choreography and dancing		
in performance on a regular basis.		

Prerequisites: Director approval

Applied Music I (MUS1APL)		
Course #: 02710	Credits: 1	
PEIMS #: 03152500	Grades: 10-12	
Applied Music II (MUS2APL)		
Course #: 02711	Credits: 1	
PEIMS #: 03152600	Grades: 11-12	
Applied Music III (MUS3APL)		
Course #: 02712	Credits: 1	
PEIMS #: 03152601	Grades: 12	
Applied Music is a course for band students intent to advance their individual musical skill set. Areas addressed include, but are not limited to the following: technique and tone development, All-Region and Area audition preparation, Solo and Ensemble repertoire exploration, music listening analysis, an overview of musical historical context, and additional tailored instruction based on the individual needs of each student.		
Local Prerequisites: one year high school band		

To ensure proper credit to students who persist in the fine arts program throughout their high school career, please follow notations in red to accurately schedule students and ensure credit.

Musical Theatre I (MUSTH1)		
Course #: 02390	Credits: 1	
PEIMS #: 03251900	Grades: 9-12	
Musical Theatre II (MUSTH2)		
Course #: 02391	Credits: 1	
PEIMS #: 03252000	Grades: 10-12	
Musical Theatre III (MUSTH3)		
Course #: 02392	Credits: 1	
PEIMS #: 03252100	Grades: 11-12	
Musical Theatre IV (MUSTH4)		
Course #: 02393	Credits: 1	
PEIMS #: 03251000	Grade: 12	
Musical Theatre is an interactive class focu training, dance styles, character analysis a audition techniques. Students will study the actor/singer/dancer and use their gained develop as performers; and prepare and p well as members of small groups and large speaking, singing, and dance disciplines. S workshop course, students will prepare ma presentation and critique. Members of the hands-on, performance-based opportuniti musical theatre technique. Students will ne appropriate clothing, jazz shoes, and chara course.	nd creation and e work of the knowledge to present as soloists as or ensembles in ince this is a terial for class class will have es to practice eed to provide	
Prerequisites: Audition		

AP Music Theory (APMUSTHY)	
Course #: 02701 Credits	
PEIMS #: A3150200	Grades: 11-12
This course is designed to prepare stu Board AP Music Theory exam. This co develop a student's ability to recogn describe the basic materials and pro heard or presented in a score. This c at mid-term. Students are expected <i>Prerequisites: Teacher approval and</i>	ourse is designed to ize, understand and cesses of music that are ourse cannot be entered to take the AP exam.

Dance I (DANCE 1)		
Course #: 02066	Credits: 1	
PEIMS #: 03830100	Grades: 9-12	
Dance II (DANCE 2)		
Course #: 02366	Credits: 1	
PEIMS #: 03830200	Grades: 10-12	
Dance III (DANCE 3)		
Course #: 02266	Credits: 1	
PEIMS #: 03830300	Grades: 11-12	
Dance IV (DANCE 4)		
Course #: 02166	Credits: 1	
PEIMS #: 03830400	Grades: 12	
Dance may earn either Fine Arts or PE credit, but not both simultaneously. Fine Arts credit is available only to courses taught by an SBEC certified Dance instructor. Dance students develop perceptual thinking, movement principles and technical skills as they explore choreographic and performance qualities. Students develop self-discipline and healthy bodies that move expressively, efficiently, and safely while recognizing dance as a vehicle for understanding historical and cultural relevance, increasing an awareness of heritage and traditions of their own and others, and enabling them to participate in a diverse society.		
Prerequisites: Director approval		

# **Core Academics - Health**

Health Education (HLTH ED)		
Course #: 04201	Credits: 1/2	
PEIMS #: 03810100	Grades: 9-12	
Topics are addressed that assist the students in understanding a healthy lifestyle, including body systems, substance abuse, accident prevention, human sexuality, mental health, disease control, self-esteem, and decision-making.		
Prerequisites: Recommended for 9th grade students		
Advanced Health Education (ADUIT		
Advanced Health Education (ADHLTHED)		
Course #: 04301	Credits: ½	
PEIMS #: 03810200	Grades: 9-12	

Students are provided opportunities for researching, discussing, and analyzing health issues. This higher level of involvement provides students with experiences designed to reinforce positive health behaviors. Students are given the opportunity to learn more about technology, how it affects health, and how to use electronic technology to gain health information. The emphasis in this course is less related to learning facts and more related to providing students with the skills necessary to access their own health information and services and become health literate.

Prerequisites: Health Education recommended

Credits: ½-1*
Grades: 10-12
Credits: 1
Grades: 10-12
Credits:1
Grades: 11-12

This course provides an opportunity for the study and

application of the components of sports medicine including but not limited to sports medicine related careers, organizational and administrative considerations, prevention of athletic injuries, recognition, evaluation, and immediate care of athletic injuries, rehabilitation and management skills, taping and wrapping techniques, first aid/CPR/AED, emergency procedures, nutrition, sports psychology, human anatomy and physiology, therapeutic modalities, and therapeutic exercise. Individualized and independent assignments will be included in this course. This course will involve outside-of-class time, homework, and time required working with athletes and athletic teams. This course complements the classroom preparation of a student wishing to work in the sports medicine arena by working as student athletic trainer with the various high school sports teams. Offered at Abilene High School only. This course expires in 2021-22.

*Ninth graders may take the course during the Spring semester with teacher approval.

# **Core Academics - Languages Other Than English**

Spanish I (SPAN I)	
Course #: 03141	Credits: 1
PEIMS #: 03440100	Grades: 9-12
Students will acquire listening, speaking, rec skills, and concepts at the novice level that understanding of simple, routine situations. S made aware of concepts which result in the awareness of the history and culture of ano course cannot be entered at mid-term. <i>Prerequisites: None</i>	result in the Students will also be e knowledge and

PreAP Spanish I (SPAN I PREAP)	
Course #: 03144	Credits: 1
PEIMS #: 03440100	Grades: 9-12
This college preparatory course will focus on skills necessary for success in Advanced Placement classes. The course content	
will be covered in greater depth and/or at an accelerated	
nace Student skills will include listening speaking reading and	

pace. Student skills will include listening, speaking, reading, and writing of concepts at the novice level that will result in the understanding of simple, routine situations. Students will be made aware of the history and culture of another people. This course cannot be entered at mid-term.

Prerequisites: None

Spanish II (SPAN 2)	
Course #: 03244	Credits: 1
PEIMS #: 03440200	Grades: 9-12
Students will continue to acquire listening	speaking reading

Students will continue to acquire listening, speaking, reading, and writing skills, and concepts at the novice level that result in the understanding of most routine questions, statements, and commands along with the ability to respond and to reproduce vocabulary sufficient to express themselves in everyday situations. Students will study the history and culture of another people within a range of different situations. Students will be aware of generalizations about how a language operates and the skills that result in the application of the language learning process to the study of other languages. This course cannot be entered at mid-term. **Prerequisites: Spanish I** 

#### PreAP Spanish II (SPAN 2 PREAP)

#### Course #: 03344

PEIMS #: 03440200

Credits: 1 Grades: 9-12

This college preparatory course will focus on skills necessary for success in Advanced Placement classes. Subject matter will be covered in greater depth and/or at an accelerated pace. Students will acquire listening, speaking, reading, and writing skills that result in the understanding of most routine questions, statements, and commands along with the ability to respond and to reproduce vocabulary sufficient to express themselves in everyday situations. Students will study the history and culture of another people within a range of different situations. This course cannot be entered at mid-term.

Prerequisites: Spanish 1 or PreAP Spanish I

#### PreAP Spanish III (SPAN 3 PREAP)

Course #: 03249	Credits: 1
PEIMS #: 03440300	Grades: 10-12
This preparatory course covers material in the student for AP Spanish IV. The following in the course: listening and speaking on a level emphasizing extemporaneous speed comprehension of native-speakers; readir intermediate-ability level emphasizing cla contemporary literature and original com experiences emphasizing the awareness of cultural differences; grammatical structure ability level emphasizing mechanics and v course cannot be entered at mid-term.	g skills will be included n intermediate-ability ch and ng and writing on an ssical and/or positions; cultural and knowledge of e on an intermediate-
Prerequisites: Spanish II or PreAP Spanish I	1

#### AP Spanish IV (APSPALAN)

Course #: 03446	Credits: 1
PEIMS #: A3440100	Grades: 10-12
This course emphasizes the use of the language	ge for active
communication and develops the following s	kills: the ability to
comprehend formal and informal spoken Spo	
vocabulary and a grasp of structure to allow the easy,	
accurate reading of newspaper and magazine articles, as well	
as of modern literature in Spanish; the ability to compose	
expository passages; and the ability to express ideas orally with	
accuracy and fluency. Course emphasizes preparation for the	
AP Spanish Language Exam. This course cannot be entered at	
mid-term. Students are expected to take the AP exam.	
Prerequisites: PreAP Spanish III or teacher recommendation	

#### AP Spanish V (APSPALIT)

Course #: 03546	Credits: 1
PEIMS #: A3440200	Grades: 11-12
This course emphasizes advanced reading and writing skills; introduces students to the diverse literature written in Spanish and helps them reflect on the many voices and cultures with an extensive reading list including works from seven centuries of Hispanic literature; course also requires advanced ability to express ideas in writing with accuracy and fluency; course emphasizes preparation for the AP Spanish Literature Exam. This course cannot be entered at mid-term. Students are expected to take the AP exam.	
Prerequisites: AP Spanish IV or teacher recommendation

# **Core Academics - Mathematics**

Algebra I (ALG 1)	
Course #: 05141	Credits: 1
PEIMS #: 03100500	Grades: 9-12
Algebra I provides the foundation concepts for Algebra 2,	
Geometry, and all high school mathematics. It establishes	
concepts in the areas of number operations, quantitative	

reasoning, algebraic thinking, and symbolic reasoning. An emphasis is placed on function concepts, the relationship between equations, and the use of these to model real world applications. Preparation for End of Course testing will be included.

Prerequisites: Grade 8 Math or its equivalent

PreAP Algebra I (ALG 1 PREAP)	
Course #: 05101	Credits: 1
PEIMS #: 03100500	Grades: 9-12

This college-preparatory course covers the same material presented in regular Algebra I. Concepts will be explored in areater depth and problem-solving will be more varied and demanding. Technology including the graphing calculator and the computer will be used to a greater extent than in Algebra I. Additional topics to be covered are geometric representations of algebraic situations, guadratic systems with parabolas, and absolute value equations and inequalities. Preparation for End of Course testing will be included.

Prerequisites: Grade 8 Math or its equivalent

Geometry (GEOM)	
Course #: 05251	Credits: 1
PEIMS #: 03100700	Grades: 9-12
Geometry consists of the study of geometric fig one, two, and three dimensions and the relation them. Connections are made between geome and solving real world problems by using a vari representations (concrete, pictorial, algebraic, coordinate), tools, technology, applications ar logical reasoning, justification, and proof.	nships among etric concepts ety of and
Prerequisites: Algebra I	

PreAP	Geometry	(GEOM PREA	P)

Preap Geometry (GEOW PREAP)	
Course #: 05203	Credits: 1
PEIMS #: 03100700	Grades: 9-12
This college-preparatory course will contain th	ne Texas Essential
Knowledge and Skills in the regular geometry	course. Concepts
will be explored in greater depth and with rigo	or designed to
properly prepare students to be successful in f	Pre-Advanced

Placement Algebra 2. Prerequisites: Algebra I

Mathematical Models with Applications (MTHMOD)	
Course #: 05135 Credits: 1	
PEIMS #: 03102400	Grades: 10-12
This course revisits Algebra I and Geometry concepts as a	
bridge to Algebra II. In addition, students will be introduced to applied math in real world situations, including personal finance	

(budgeting, insurance, savings, and credit.) This course may not fulfill the math entrance requirements of some colleges. Semesters are independent of each other.

Prerequisites: Algebra I; Geometry recommended

#### Algebra II (ALG 2)

Course #: 05241	
-----------------	--

PEIMS #: 03100600

Grades: 9-12 Progression through the algebra concepts taught in this course allows students to develop logical reasoning and problemsolving skills vital in today's technology-oriented world. It prepares students for either school-to-work programs or progression to higher mathematics needed for post-secondary studies and emphasizes the need to master functional relationships and employ them to problem-solve real situations. Technology applications allow table building, coordinate graphing, algebraic analysis, and computation. Content encompasses the study of algebraic functions using data analysis, matrices, factoring, complex numbers, properties of exponents, graphs, and tables. The relationships between algebra and geometry are continuously integrated into the course. Abstract algebra concepts and their geometric graphs are linked together for such functions as linear, quadratic, radical, inverse, exponential, and logarithmic functions. Graphs of circles, ellipses, parabolas, and hyperbolas (the conic sections), and their respective algebraic descriptions are also studied and applied.

Credits: 1

Prerequisites: Algebra I; Geometry recommended; Geometry can be taken concurrently

#### PreAP Algebra II (ALG 2 PREAP)

Course #: 05201	Credits: 1
PEIMS #: 03100600	Grades: 9-12
This college-preparatory course covers the same material presented in regular Algebra II in addition to other topics that will better prepare students for Pre-Advanced Placement Pre-Calculus. Concepts will be explored in greater depth and problem-solving will be more varied and demanding.	
Prerequisites: Algebra I; Geometry recommended; Geometry can be taken concurrently	

#### Pre-Calculus (PRF CALC)

Course #: 05353Credits: 1PEIMS #: 03101100Grades: 10-12Pre-Calculus combines the use of the real number coordinate system with an extensive study of functions and their graphs, including trigonometric functions and their periodicity, inverse, composite, polynomial, rational, exponential, and logarithmic functions. Functions, sequences and series, conic sections, parametric representations, and vectors will be used to model real life situations.Prerequisites: Algebra I, Geometry, Algebra II		
Pre-Calculus combines the use of the real number coordinate system with an extensive study of functions and their graphs, including trigonometric functions and their periodicity, inverse, composite, polynomial, rational, exponential, and logarithmic functions. Functions, sequences and series, conic sections, parametric representations, and vectors will be used to model real life situations.	Course #: 05353	Credits: 1
system with an extensive study of functions and their graphs, including trigonometric functions and their periodicity, inverse, composite, polynomial, rational, exponential, and logarithmic functions. Functions, sequences and series, conic sections, parametric representations, and vectors will be used to model real life situations.	PEIMS #: 03101100	Grades: 10-12
Prerequisites: Algebra I, Geometry, Algebra II	system with an extensive study of functions of including trigonometric functions and their p composite, polynomial, rational, exponentia functions. Functions, sequences and series, of parametric representations, and vectors will	nd their graphs, eriodicity, inverse, I, and logarithmic conic sections,

Prerequisites: Algebra I. Geometry, Algebra II	

#### AP Calculus AB (APCALCAB) Course #: 05403 PEIMS #: A3100101

Credits: 1 Grades: 11-12

This course will follow the course description for AP Calculus AB as defined by the college board. Students will be taught the Texas Essential Knowledge and Skills of calculus such as applying limit theorems, continuity, differentiation and integration of algebraic and transcendental (trigonometric, exponential, and logarithmic) functions. Also, applications of first and second derivatives including curve sketching, velocity and acceleration, maxima and minima, and related rates are covered. Indefinite and definite integration including applications are presented. Other subjects covered are differentiating composite functions using the chain rule, implicit differentiation problems, and other integration methods. Graphing calculator skills are required for solving some problems. Preparation for the College Board AP Calculus Exam is emphasized. Students are expected to take the AP exam. Prerequisites: Pre-Calculus

#### AP Calculus BC (APCALCBC)

Course #: 05407 PFIMS #: A3100102 Credits: 1 Grades: 11-12

This course is equivalent to a first-semester college calculus course and the subsequent single-variable calculus course. It follows the curriculum as presented by the College Board to emphasize the big ideas of limits, derivatives, integrals, and series. Work focuses on mathematical proficiencies including reasoning with definitions and theorems, connecting concepts, implementing algebraic/computational processes, connecting multiple representations, building notational fluency, and communicating scholarly work. Preparation for the College Board AP Calculus Exam is emphasized. Students are expected to take the AP exam.

Prerequisites: Pre-Calculus

Statistics and Busine	ess Decision Making*
(STATSBDM)	
Course #: 08840	

Credits: 1 Grades: 11-12

This course in an introduction to statistics and the application of statistics to business decision making. Students will use statistics to make business decisions and will determine appropriateness of methods used to collect data to ensure conclusions are valid.

Prerequisites: Algebra II

PEIMS #: 13016900

#### AP Statistics (APSTATS)

Course #: 05405 PEIMS #: A3100200

```
Credits: 1
Grades: 11-12
```

This course will follow the course description for AP Statistics as defined by the college board. Students will be introduced to the major concepts and tools to collect, analyze, and draw conclusions from data. Topics are divided into four major themes: exploratory analysis, planning a study, probability, and statistical inference. Preparation for the College Board AP Statistics Exam is emphasized. Students are expected to take the AP exam.

Prerequisites: Algebra II and Geometry; Juniors concurrently enrolled in Pre-Calculus recommended

*Advanced CTE course

# Mathematical Applications in Agriculture, Food and Natural Resources* (MATHAFNR)

Course #: 08919	
PEIMS #: 13001000	

Credits: 1 Grades: 10-12

To be prepared for careers in agriculture, food, and natural resources, students must acquire technical knowledge in the discipline as well as apply academic skills in mathematics. Students should apply knowledge and skills related to mathematics, including algebra, geometry, and data analysis in the context of agriculture, food, and natural resources. To prepare for success, students are afforded opportunities to reinforce, apply, and transfer their knowledge and skills related to mathematics in a variety of contexts.

Prerequisites: Algebra I. Recommended 1 credit from the courses in the Agriculture, Food, and Natural Resources cluster.

#### College Preparatory Math (CPMAT)

concept reparatory math (or mith)	
Course #: 05259	Credits: 1
PEIMS #: CP111200	Grade: 12
This course is designed to prepare 12 th grade stud success in entry-level college math courses. Topi Real Number System, Algebraic Reasoning, Fund Equations, Inequalities, and Quadratics. Students increase math skills and problem-solving ability of for success on the TSI assessment as a measure of readiness. This is an advanced fourth math credi Foundation Plan and Endorsements. The course is credit for other graduation plans. It is not eligible Students may earn ½ credit for one semester.	cs include the stions, s will work to s they prepare of college t for the s an elective
Prerequisites: Three math credits prior to enrollme	ent

#### Financial Mathematics (FINMATH)

# Course #: 08939Credits: 1PEIMS #: 13018000Grades: 10-12This course is about personal money management. Students<br/>will apply critical-thinking to analyze personal financial<br/>decisions based on current and projected economic factors<br/>including career and postsecondary education planning.<br/>Topics include employment earnings, taxation, credit, housing,<br/>transportation, investments, and insurance.Prerequisites: Algebra I

Algebraic Reasoning (ALGREA)Course #: 05367Credits: 1PEIMS #: 03102540Grades: 10-12This course will build upon the knowledge and skills for math<br/>from Kindergarten through Algebra 1 in order to develop a<br/>deeper understanding of algebraic reasoning. Topics include<br/>functions, relationships, patterns, numeric reasoning and data<br/>to increase workforce and college readiness.Prerequisites: Algebra I

Course #: 06121	Credits: 1
PEIMS #: 03010200	Grades: 9-10
In Biology, students conduct field and labora use scientific methods during investigations, a informed decisions using critical-thinking and solving. Students in biology study a variety of the following: structures and functions of cells	and make scientific problem- topics that include

growth and development of organisms; cells, tissues, and organs; nucleic acids and genetics; taxonomy; metabolism and energy transfers in living organisms; living systems; homeostasis; ecosystems; and plants and the environment. Preparation for End of Course testing will be included.

#### Prerequisites: None

PreAP Biology (BIO PREAP)		
Course #: 06201	Credits: 1	
PEIMS #: 03010200	Grades: 9-10	
In PreAP Biology, students conduct field and laboratory		
investigations, use scientific methods during investigations, and		

investigations, use scientific methods during investigations, and make informed decisions using critical-thinking and scientific problem-solving. Students will design and conduct biological scientific experiments. Students in biology study a variety of topics that include the following: structures and functions of cells and viruses; growth and development of organisms; cells, tissues, and organs; nucleic acids and genetics; taxonomy; metabolism and energy transfers in living organisms; living systems; homeostasis; ecosystems; and plants and the environment. Students will be expected to perform on an advanced level in preparation for further upper-level science courses. Preparation for End of Course testing will be included. *Prerequisites: None* 

#### AP Biology (AP-BIO)

Course #: 06373 PEIMS #: A3010200

#### Credits: 1

Grades: 11-12 (Grade 10 with teacher recommendation)

The Advanced Placement Biology course is designed to be the equivalent of a college introductory biology course. The course will include those topics regularly covered in a college biology course, and differs from standard high school biology with respect to the kind of textbook used, the range and depth of topics covered, the kind of laboratory work done by students, and the time and effort required of students. The course aims to provide students with the conceptual framework, factual knowledge, and analytical skills necessary to deal critically with the rapidly changing science of biology. In essence, students will learn to think like scientists, including designing and conducting experiments, statistical analysis of data, drawing conclusions based on data analysis, and error analysis. Content requirements for AP Biology are prescribed in the College Board Publication Advanced Placement Course Description: Biology, published by the College Board. Students are expected to take the AP exam.

Prerequisites: Biology, Chemistry and Physics recommended (may be taken concurrently).

#### Integrated Physics and Chemistry (IPC)

Course #: 06327	Credits: 1	
PEIMS #: 03060201	Grade: 9-10	
In Integrated Physics and Chemistry, students co	onduct field and	
laboratory investigations, use scientific methods during		
investigations, and make informed decisions using critical-		
thinking and scientific problem-solving. This course integrates		
the disciplines of physics and chemistry in the following topics:		
motion, waves, energy transformations, properties of matter,		
changes in matter, and solution chemistry.		
Prerequisites: Biology recommended		

#### Chemistry (CHEM)

Course #: 06263	Credits: 1	
PEIMS #: 03040000	Grades: 10-12	
In Chemistry, students conduct field and laboratory		

In Chemistry, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem-solving. Students study a variety of topics that include the following: characteristics of matter; energy transformations during physical and chemical changes; atomic structure; periodic table of elements; behavior of gases; bonding; nuclear fusion and nuclear fission; oxidation-reduction reactions; chemical equations; solutes; properties of solutions; acids and bases; molar relationships; and chemical reactions. Students will investigate how chemistry is an integral part of our daily lives

Prerequisites: Algebra I; Biology recommended. Completion or concurrent enrollment in a second year of math recommended. (If IPC is taken it must be completed before enrolling in chemistry or physics.)

#### PreAP Chemistry (CHEM PREAP)

Course #: 06203 PEIMS #: 03040000 Credits: 1 Grades: 10-12 (Grade 9 with teacher recommendation)

In PreAP Chemistry, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem-solving. Students study a variety of topics that include the following: characteristics of matter; energy transformations during physical and chemical changes; atomic structure; periodic table of elements; behavior of gases; bonding; nuclear fusion and nuclear fission; oxidation-reduction reactions; chemical equations; solutes; properties of solutions; acids and bases; molar relationships; and chemical reactions. Students will investigate how chemistry is an integral part of our daily lives. Students will be expected to perform on an advanced level in preparation for further upper-level science courses. Prerequisites: Algebra I; Biology recommended. Completion or concurrent enrollment in a second year of math recommended (If IPC is taken it must be completed before enrolling in chemistry or physics.)

#### **AP Chemistry (AP-CHEM)**

Course #: 06473 PEIMS #: A3040000

#### Credits: 1 Grades: 11-12 (10th grade with teacher recommendation)

The Advanced Placement Chemistry course is designed to be the equivalent of the General Chemistry course usually taken during the first college year. For some students, this course enables them to undertake, as college freshmen, second-year work in the chemistry sequence, or to register in courses in other fields where general chemistry is a prerequisite. For other students, the AP Chemistry course fulfills the laboratory science requirement and frees time for other courses. This course differs from high school Chemistry I with respect to the kind of textbook used, the topics covered, the emphasis on chemical calculation and the mathematical formulation of principles, and the kind of laboratory work done by students. Quantitative differences appear in the number of topics treated, the time spent on the course by students, and the nature and the variety of experiments done in the laboratory. Content requirements for AP Chemistry are prescribed in the College Board Publication Advanced Placement Course Description: Chemistry, published by the College Board. Students are expected to take the AP exam.

Prerequisites: Algebra II and Biology; Chemistry or Physics recommended (may be taken concurrently).

#### Physics (PHYSICS)

Course #: 06371 PEIMS #: 03050000

Credits: 1 Grades: 11-12

In Physics, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problemsolving. Students study a variety of topics that include the following: laws of motion, changes within physical systems and conservation of energy and momentum; force; thermodynamics; characteristics and behavior of waves; and

quantum physics. This course provides students with a conceptual framework, factual knowledge, analytical, and scientific skills.

Prerequisites: Algebra I and Biology recommended. (IPC is not a prerequisite. If IPC is taken it must be completed before enrolling in chemistry or physics.)

AP Physics 1: Algebra-Based (APPHYS1)		
Course #: 06427	Credits: 1	
PEIMS #: A3050003	Grade: 11-12	
AP Physics 1: Algebra-Based is the equivalent to a first-semester		
college course in algebra-based physics. 1	The course covers	

ers Newtonian mechanics (including rotational dynamics and angular momentum); work, energy, and power; and mechanical waves and sound. It will also introduce electric circuits. The focus is on a series of learning objectives that clarify the knowledge and skills students should demonstrate to gualify for college credit and placement. Please check the college you plan to attend for the acceptance of this course in your major field of study. Content requirements for Advanced Placement (AP) Physics are prescribed by the College Board Publication Advanced Placement Course Description: Physics 1, published by the College Board. Students are expected to take the AP Exam.

Prerequisites: Recommended Physics, Algebra 1, Algebra II, and Geometry

#### AD Develos 2: Algobra Rased (ADDHVS2)

AP Physics 2: Algebra-Based (APPHYS2)		
Course #: 06429	Credits: 1	
PEIMS #: A3050004	Grade: 11-12	
AP Physics 2: Algebra-Based is the equivalent t	o a second-	
semester college course in algebra-based phy	rsics. The course	
covers fluid mechanics; thermodynamics; electricity and		
magnetism; optics; and atomic and nuclear physics. The focus		
is on a series of learning objectives that clarify the knowledge		
and skills students should demonstrate to qualify for college		
credit and placement. Please check the college you plan to		
attend for the acceptance of this course in your major field of		
study. Content requirements for Advanced Placement (AP)		
Physics are prescribed by the College Board Publication		
Advanced Placement Course Description: Physics 2, published		
by the College Board. Students are expected	to take the AP	
Exam.		
Prerequisites: Algebra II, completion of Biology		

Physics I, and concurrent enrollment in Pre-Calculus or Calculus is strongly recommended.

#### Anatomy and Physiology* (ANATPHYS)

Course #: 08847	Credits: 1	
PEIMS #: 13020600	Grades: 11-12	
This course introduces a variety of topics, in and function of the human body and the in systems for maintaining homeostasis. Stude laboratory investigations, use scientific met investigations, and make informed decision thinking and scientific problem-solving. No count as the fourth year of science for grace for students entering 9th grade in 2007-2008	nteraction of body nts conduct hods during ns using critical te: This course can duation requirements	
Prerequisites: Biology and a second science credit required; a course from the Health Science career cluster recommended		

*Advanced CTE course

#### Forensic Science* (FORENSCI) Course #: 06431 PEIMS #: 13029500

Credits: 1 Grades: 11-12

Forensic Science is a course that introduces students to the application of science to connect a violation of law to a specific criminal, criminal act, or behavior and victim. Students will learn terminology and procedures related to the search and examination of physical evidence in criminal cases as they are performed in a typical crime laboratory. Using scientific methods, students will collect and analyze evidence such as fingerprints, bodily fluids, hairs, fibers, paint, glass, and cartridge cases. Students will also learn the history and the legal aspects as they relate to each discipline of forensic science *Prerequisite: Biology and Chemistry. Recommended* 

prerequisite or corequisite: any Law, Public Safety, Corrections and Security career cluster course

Environmental Systems (ENVIRSYS)	
Course #: 06233	Credits: 1
PEIMS #: 03020000	Grades: 11-12

In Environmental Systems, students conduct field and laboratory investigations, use scientific methods during investigations and make informed decisions using critical-thinking and scientific problem-solving. Students study a variety of topics that include the following: biotic and abiotic factors in habitats; ecosystems and biomes; interrelationships among resources and an environmental system; sources and flow of energy through an environmental system; relationships between carrying capacity and changes in populations and ecosystems; and changes in environments.

Prerequisites: Biology and a physical science recommended

#### AP Environmental Science (AP-ENVIR)

	/
Course #: 06309	Credits: 1
PEIMS #: A3020000	Grades: 11-12
In AP Environmental Science students will study principles that help them understand the relati natural world. Students will identify environme both natural and man-made and examine solv resolving these problems. Topics that will be co the following: flow of energy, nutrient cycles, e atmospheric pollution, biomes, population stud renewable/nonrenewable resources, water ar evaluation, and human impact on environmen Students are expected to take the AP exam.	onships of the ental problems utions for overed include earth dynamics, dies, nd soil quality,
Prerequisites: Algebra II and Biology; Chemistr recommended (may be taken concurrently).	y and Physics

Astronomy (ASTRMY)	
Course #: 06379	Credits: 1
PEIMS #: 03060100	Grades: 11-12
In Astronomy, students conduct laboratory an investigations, use scientific methods, and mal decisions using critical thinking and scientific p Students study the following topics: astronomy patterns and objects in the sky, our place in sp the reason for the seasons, planets, the sun, sta cosmology, and space exploration. Students v Astronomy will acquire knowledge within a co framework, conduct observations of the sky, w collaboratively, and develop critical-thinking s	ke informed roblem-solving. in civilization, bace, the moons, ars, galaxies, vho complete nceptual vork
Prerequisites: Recommended one unit of high school science	

World Geography Studies (W GEO)	
Course #: 07261	Credits: 1
PEIMS #: 03320100	Grades: 9-12
Students examine people, places, and enviror regional, national, and international scales fro perspective of geography. Students describe geography on events of the past and present portion of the course centers on the physical e cultural patterns; the distribution and moveme ulation; relationships among people, places, c	m the spatial the influence of . A significant environment; ent of world pop-
and the concept of region. This course canno	ot be entered at

mid-term.

Prerequisites: None

# PreAP World Geography Studies (W GEO PREAP)Course #: 07210Credits: 1PEIMS #: 03320100Grades: 9-12

Students examine people, places, and environments at local, regional, national, and international scales from the spatial and ecological perspectives of geography. Students describe the influence of geography on events of the past and present. The course will focus on the physical processes that shape patterns in the physical environment, and the social processes that shape cultural patterns of regions. Students compare how components of culture shape the characteristics of regions and analyze the impact of technology and human modifications on the physical environment. Students use problem-solving and decision-making skills to ask and answer geographic questions. This course is the introductory course to the high school social studies AP Program. The course cannot be entered at mid-term. *Prerequisites: None* 

#### World History Studies (W HIST)

#### Course #: 07241

Credits: 1

PEIMS #: 03340400

#### Grades: 10-12

The major emphasis in this course is on the study of significant people, events, and issues from the earliest times to the present. Students analyze important events and issues in western civilization as well as in civilizations in other parts of the world. This course cannot be entered at mid-term. *Prerequisites: World Geography recommended* 

AP World History (APWHIST)	
Course #: 07203	Credits: 1
PEIMS #: A3370100	Grades: 10-12
The purpose of AP World History is to develo understanding of the evolution of global pro- contacts, in interaction with different types. The course highlights the nature of changes frameworks and their causes and conseque	ocesses and of human societies. s in international ences, as well as

comparisons among major societies. Focused primarily on the past ten-thousand years of the global experience, the course builds on an understanding of cultural, institutional, and technological precedents. Specific themes provide further organization to the course, along with the consistent attention to contacts among societies that form the core of world history as a field of study. Preparation for the College Board AP Exam is emphasized. This course may be substituted for World History Studies. This course cannot be entered at mid-term. Students are expected to take the AP exam.

Prerequisites: World Geography or Pre-AP World Geography recommended

#### AP Human Geography (APHUMGEO)

#### Credits: 1

Grades: 10-12

PEIMS #: A3360100

Course #: 07301

This course is to introduce students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of the Earth's surface. Students employ spatial concepts and landscape analysis to analyze human social organization and its environmental consequences. They also learn about the methods and tools geographers use in their science and practice. Preparation for the College Board AP Exam is emphasized. This course cannot be entered at mid-term. This course may be used as a substitute for World Geography. Students are expected to take the AP exam.

Prerequisites: Pre-AP World Geography recommended

#### United States History Studies Since 1877 (US HIST)

Course #: 07111	Credits: 1
PEIMS #: 03340100	Grades: 10-12

Students study the history of the United States since Reconstruction to the present. Historical content focuses on the political, economic, and social events and issues related to industrialization and urbanization, major wars, domestic and foreign policies of the Cold War and post-Cold War eras, and reform movements including civil rights. This course cannot be entered at mid-term. Preparation for the College Board AP Exam is emphasized. Preparation for End of Course testing will be included.

Prerequisites: World History, World Geography recommended

#### AP United States History (APUSHIST)

Course #: 07401		Credits: 1
PEIMS #: A3340100		Grades: 10-12

Advanced Placement United States History is designed to provide students with the analytic skills and factual knowledge necessary to deal critically with the problems and materials in American history. This course, designed as a college-level course, prepares students for intermediate and advanced college courses by making demands upon them equivalent to those made by full-year introductory college courses. In this course students will learn to assess historical materials, their relevance to a given interpretive problem, their reliability, and their importance—and to weigh the evidence and interpretations presented in historical scholarship. Preparation for the College Board AP Exam is emphasized. This course may be substituted for U.S. History Since Reconstruction. This course cannot be entered at mid-term. Preparation for End of Course testing will be included and students are expected to take the AP exam.

Prerequisites: AP World History and Pre-AP World Geography recommended

United States Government (GOVT)	
Course #: 07331	Credits: 1/2
PEIMS #: 03330100	Grades: 11-12
The focus of this course is on the principles and beliefs upon which the United States was founded on the structure.	
functions, and powers of government at the national, state,	

functions, and powers of government at the national, state, and local levels. Students learn major political ideas and forms of government in history. A significant focus of the course is on the U.S. Constitution, its underlying principles and ideas, and the form of government it created.

Prerequisites: United States History recommended

# AP United States Government and Politics (APUSGOVT)

Course #: 07403	Credits: 1/2
PEIMS #: A3330100	Grade: 12

Advanced Placement United States Government and Politics is designed for qualified students who wish to complete studies in high school equivalent to a one-semester college introductory course. It will give students an analytical perspective on government and politics. The student will become familiar with the Constitutional underpinnings of United States Government; political beliefs and behaviors; political parties and interest groups; the institutions and policy processes of national government; civil rights and civil liberties. Students will acquire the skills of analyzing data and writing and presenting written and oral arguments which will prepare them for the demands of beginning and intermediate college courses. Students are expected to take the AP exam.

Prerequisites: Pre-AP World Geography, AP World History, AP US History recommended

#### Economics with Emphasis on the Free Enterprise System and its Benefits (ECO-FE)

Course #: 07361 PEIMS #: 03310300 Credits: ½ Grades:11-12

The focus in this course is on the basic principles concerning production, consumption, and distribution of goods and services in the United States and a comparison with those in other countries around the world. Students examine the rights and responsibilities of consumers and businesses. Students analyze the interaction of supply, demand, and price, and study the role of financial institutions in a free enterprise system. *Prerequisites: None* 

AP Macroeconomics (APMACECO)		
Course #: 07304	Credits: 1/2	
PEIMS #: A3310200	Grades: 11-12	
This course prepares students to take the College Board		
Macroeconomics AP Exam. This course is designed to give		
students a thorough knowledge and understanding of		
economic principles that apply to the economy as a whole.		
The course stresses the study of national income and price		
determination, economic performance measures, economic		
growth, and international economics. Students are expected to		
take the AP examination.		

Prerequisites: Pre-AP World Geography, AP World History, AP US History recommended

#### AP United States Government and Politics (.5)(APUSGOVT) and AP Macroeconomics (.5) (APMACECO)

Course #:07425	Credits: 1
PEIMS #: 84400101	Grades: 12
Please see AP United States Government and Politics and AP	
Macroeconomics course descriptions. This course is taught in a	
blended format covering for AP Covernment and AP	

blended format covering for AP Government and AP Macroeconomics throughout the entire year in preparation for the AP exams in Government and Economics. Note: Course credit for Government and/or Economics will not be issued until the end of the spring semester. Special consideration should be given if a student is considering a move outside of the district to instead take our course offerings that are not blended. Counselor will advise.

Prerequisites: Pre-AP World Geography, AP World History, AP US History recommended

AP European History	(APEUHIST)
---------------------	------------

Course #: 07405	Credits: 1
PEIMS #: A3340200	Grades: 11-12
AP European History is a college-level course covering the political, economic, religious, and cultural history of Europe since the Renaissance. Preparation for the College Board AP Exam is emphasized. This course cannot be entered at mid- term. Students are expected to take the AP exam.	
Prerequisites: AP World History, Pre-AP World Geography, AP United States History recommended	

Course #: 07391	Credits: ½
PEIMS #: 03370100	Grades: 11-12
Students study dynamics and models of individual and group relationships; topics such as the history and systems of	
sociology, cultural and social norms, social institutions, and mass communication.	

Psychology (PSYCH)	
Course #: 07281	Credits: 1/2
PEIMS #: 03350100	Grades: 11-12
Students consider the development of t personality. The study of psychology is b framework and relies on effective collec data. Students study topics such as the development, personality, motivation, c <i>Prerequisites: None</i>	ased on an historical ction and analysis of ories of human

Personal Financial Literacy (PFL)	
Course #: 07265	Credits: 1/2
PEIMS #: 03380082	Grades: 11-12
Personal Financial Literacy will develop citize knowledge and skills to make sound, informe decisions that will allow them to lead financia and understand personal financial responsibi <i>Prerequisites: None</i>	d financial ally secure lifestyles

#### PreAP Psychology (.5) (PSYCHPREAP) and AP Psychology (.5) (APPSYCH) *Course #: 07284/07283*

PEIMS #: 03350100/A3350100

Credits:1 Grades: 11-12

The PreAP Psychology and AP Psychology courses introduce students to the systematic and scientific study of human behavior and mental processes. While considering the psychologists and studies that have shaped the field, students explore and apply psychological theories, key concepts, and phenomena associated with such topics as the biological bases of behavior, sensation and perception, learning and cognition, motivation, developmental psychology, testing and individual differences, treatment of abnormal behavior, and social psychology. PreAP Psychology is offered 1st semester and must be completed to enter AP Psychology which is offered 2nd semester. (Course only available at CHS and receives ½ credit for PreAP Psychology and ½ for AP Psychology) *Prerequisites: None* 

#### Social Studies Advanced Studies – 20th Century Americans (SSADV1-20thCENT)

Course #:07385

PEIMS #:03380001

Credits: 1 Grades: 10-12

This two-semester course will examine the lives of Americans who have helped to shape the culture of the U.S., this nation's history and the lives of students. The course is intended to aid students who will enroll in U.S. History or have an interest in the topic. The course will include the names and events listed in English 2 and U.S. History TEKS that parallel the course curriculum. SAT/ACT vocabulary words will be embedded into the lessons. **This course is offered at AHS only**.

Prerequisites: None

# Social Studies Advanced Studies – Holocaust and Genocide Studies (SSADV1-HOLGEN)

Course #:07387 PEIMS #: 03380001 Credits: 1 Grades: 10-12

The Holocaust and Genocide Studies course is designed to allow students an in-depth exploration of topics that typically generate high interest. Students will learn lessons on human behavior, citizen responsibility and accountability, the roots of prejudice, and the dangers of apathy and abuse of power. This course is offered at CHS only. *Prerequisites: None* 

# Social Studies Advanced Studies – Women's History (SPTSS3)

Course #:07595	Credits: 1/2
PEIMS #: 03380032	Grades: 10-12
This course will help you understand the stories of women in	

This course will help you understand the stories of women in several periods of American history. Students will build understanding of women's roles in several periods in American history, including political and economic history (the major events of the day) and social history (how people lived their lives on a day-to-day basis). This course is offered at AHS only. *Prerequisites: None* 

#### Social Studies Advanced Studies – African American History Since Reconstruction (SPTSS2) Course #:07495 Credits: ½

COUISE #.07470	Cieuns. 72
PEIMS #: 03380022	Grades: 10-12
The purpose of this course is to examine the A	African American
experience in the United States from 1863 to	the present.
Prominent themes include the end of the Civil War and the	
beginning of Reconstruction; African America	ans' urbanization
experiences; the development of the modern civil rights	
movement and its aftermath' and the thought and leadership	
of Booker T. Washington, Ida B. Wells-Barnett,	W.E.B. Du Bois,
Marcus Garvey, Martin Luther King, Jr., and N	Nalcom X. This
course is offered at AHS only.	
Prerequisites: None	

# **Specialty Classes**

AP Seminar (APSMNR)	
Course #: 01407	Credits: 1
PEIMS #: N1130026	Grades: 11

AP Seminar is a foundational course that engages students in cross-curricular conversations that explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives. Using an inquiry framework, students practice reading and analyzing articles, research studies, and foundational, literary, and philosophical texts; listening to and viewing speeches, broadcasts, and personal accounts; and experiencing artistic works and performances. Students learn to synthesize information from multiple sources, develop their own perspectives in written essays, and design and deliver oral and visual presentations, both individually and as part of a team. Ultimately, the course aims to equip students with the power to analyze and evaluate information with accuracy and precision in order to craft and communicate evidence-based

arguments. This course expires in 2024-2025.

Prerequisites: Successful completion of prior PreAP or AP coursework. Concurrent enrollment in AP Language and Composition recommended.

AP Research (APRES)	
Course #: 01409	Credits: 1
PEIMS #: N1100014	Grades: 12
AP Research, the second course in the AP Caps experience, allows students to deeply explore a topic, problem, issue, or idea of individual interest design, plan, and implement a yearlong investig	n academic st. Students

topic, problem, issue, or idea of individual interest. Students design, plan, and implement a yearlong investigation to address a research question. Through this inquiry, they further the skills they acquired in the AP Seminar course by learning research methodology, employing ethical research practices, and accessing, analyzing, and synthesizing information. Students reflect on their skill development, document their processes, and curate the artifacts of their scholarly work through a process and reflection portfolio. The course culminates in an academic paper of 4,000-5,000 words (accompanied by a performance, exhibit, or product where applicable) and a presentation with an oral defense. **This course expires in 2024-2025**. *Prerequisites: AP Seminar* 

Strategic Learning for High Scho (STLNHSM)	ool Mathematics
Course #: 05409	Credits: 1

	Crounter 1
PEIMS #: N1100300	Grades: 9-12
This course is intended to create stre	togic mathematical

This course is intended to create strategic mathematical learners from underprepared mathematics students. The basic understandings will stimulate students to think about their approach to mathematical learning. These basic understandings will include identifying errors in the teaching and learning process, input errors, physiological concerns, and key cognitive skills. The essential knowledge and skills will foster a deeper understanding of the task of learning mathematical concepts. Use of personal data and statistical analysis will establish relevance and aid in creation of individualized learning plans (ILPs). This course expires in 2024-2025. *Prerequisites: None* 

### Peer Assistance and Leadership 1 (PAAL1) Course #: 09364 Credits: 1

COUISE #: 09304	Creans: T
PEIMS #: N1290005	Grades: 11-12
Peer Assistance and Leadership 2 (PAAL2)	
Course #: 09464	Credits: 1
PEIMS #: N1290006	Grades: 11-12

The Peer Assistance and Leadership program is a peer helping program in which selected high school students in grades 11 and 12 are trained to work as peer helpers with other students either on their own campus or from feeder middle schools or elementary schools. Participants will be trained in a variety of helping skills which will enable them to assist other students in having a more positive and productive school experience. PALS also perform service projects at various local non-profit agencies. The program is approved by the Texas Education Agency as an elective course for credit (1 unit) toward graduation. Students must submit an application and be interviewed before being selected for this course. This course requires a one year commitment and cannot be entered at mid-term. This course also requires a minimum of 3 Saturdays for volunteer work. AHS and CHS PALS partners with Big Brothers Big Sisters in working with elementary students. These courses expire in 2024-2025.

Prerequisites: Application and interview

Advancement Via Individual Dete	rmination 1	
(AVID1)		
Course #: 09721	Credits: 1	
PEIMS #: N1290001	Grade: 9	
Advancement Via Individual Determination 2 (AVID2)		
Course #: 09722	Credits: 1	
PEIMS #: N1290002	Grade: 10	
Advancement Via Individual Determination 3		
(AVID3)		
Course #: 09723	Credits: 1	
PEIMS #: N1290030	Grade: 11	
Advancement Via Individual Determination 4		
(AVID4)		
Course #: 09724	Credits: 1	
PEIMS #: N1290033	Grade: 12	
AVID is an elective course that prepares students in the academic middle for four-year college eligibility. For one		
period a day, they learn organizational and study skills, work on critical thinking and asking probing questions, get academic		
help from peers and tutors, and participate in enrichment and		
motivational activities that make college se		
These courses expire in 2024-2025.		
Prerequisites: None		

Countdown to College (SAT PREP)		
Course #: 09486	Local Credit	
PEIMS #: 85000104 Grades: 10-12		
This course is designed for serious college-bound students who will take the PSAT in their junior year or SAT/ACT in their senior year. The purpose of the course is to increase the test scores of college-bound students and increase the opportunities for participants to receive academic college scholarships.		

Prerequisites: Recommended for college bound students

Career Preparation I (CAREERP1)		
Course #: 08953	Credits: 2	
PEIMS #: 12701300	Grades: 11-12	
This course provides opportunities for students to participate in a		
learning experience that combines classroom instruction with		
paid business and industry employment experiences and		
prepares students with a variety of skills for a fast-changing		
workplace. Career Preparation includes employability skills, job		
interview techniques, communication skills, financial and		
budget activities, human relations, as well as job-specific skills		

related to a student's training station. Prerequisites: None

#### Career Preparation I/Extended Career Prep I (EXCAREE1)

Course #: 08958 PEIMS #: 12701305

Credits: 3 Grades: 11-12

This course provides opportunities for students to participate in a learning experience that combines classroom instruction with paid business and industry employment experiences and prepares students with a variety of skills for a fast-changing workplace. Career Preparation includes employability skills, job interview techniques, communication skills, financial and budget activities, human relations, as well as job-specific skills related to a student's training station. Extended Career Preparation provides opportunities for students to participate in a work-bases learning experience that combines classroom instruction with business and industry employment experiences. The goal is to prepare students with a variety of skills for a changing workplace. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success.

Prerequisites: None

#### Career Preparation II (CAREERP2)

Course #: 08954 Credits: 2 PEIMS #: 12701400

Grades: 12

This course is a continuation of the instruction with paid business and industry employment experiences of Career Preparation I. Prerequisites: Career Preparation I or Extended Career Preparation I

Career Preparation II/Extended Career Prep II (EXCAREE2)	
Course #:08959	Credits: 3
PEIMS #: 12701405	Grades: 12
This course is a continuation of the instruction and industry employment experiences of Car	eer Preparation I.
Extended Career Preparation provides oppor	

students to participate in a work-bases learning experience that combines classroom instruction with business and industry employment experiences. The goal is to prepare students with a variety of skills for a changing workplace. Career preparation is relevant and rigorous, supports student attainment of academic standards, and effectively prepares students for college and career success.

Prerequisites: Career Preparation I or Extended Career Preparation I

#### Parenting Education I (PAED1)

Course #: 08898	Credits: 1
PEIMS #: N1302536	Grades: 9-12
This course is designed to address the special r	needs and
interests of students who are parents or expect	tant parents.
Special emphasis is placed on prenatal care and	
development, postnatal care, infant care, child development,	
and parenting skills. Other units of study address personal	
development, responsible parenthood and adult roles, family	
problems and crises, conflict resolution, family health issues,	
nutrition, safety, management, and employability skills. Students	
develop the knowledge and skills to the multiple roles of	
student, parent, family member, and provider. Open to male	
and female students who are parents and to students who are	
pregnant. This course expires in 2023-2024.	
Prerequisites: None	

#### Parenting Education II (PAED2)

Course #: 08899 Credits	
PEIMS #: N1302537	Grades: 10-12
Parenting Education II is designed to build or	n education and
experiences from Parenting Education I. This course provides	
more in-depth knowledge of parenting and child development	
including implications of expectations of children, child abuse,	
disabilities, and issues impacting young families such as	
employment, postsecondary education, trai	nsportation, child

care, housing, and personal responsibility. Students develop the knowledge and skills to manage the multiple roles of being a student, parent, family member, and provider. Open to male and female students who are parents and to students who are pregnant. This course expires in 2023-2024.

Recommended Prerequisites: Parenting Education I.

#### Methodology of Academic and Personal Success (MAPS1)

Course #: 09725	Credits: 1
PEIMS #: N1130021	Grades: 9-10

The course focuses on the skills and strategies necessary for students to make a successful transition into high school and an academic career. Students will explore the options available in high school, higher education, and the professional world in order to establish both immediate and long-range personal goals. After identifying their individual learning styles and abilities, students will build on these abilities by developing critical time-management, organization and study skills. The course focuses on self-understanding, decision-making, resiliency, attitude, character education, and leadership to help students maximize personal achievement. Students will develop the specific strategies necessary to achieve their personal and professional goals. The course emphasizes proactive problem-solving, self-determination, and independent thinking and learning skills. In addition, students will explore and experience collaboration as a tool for creative problem solving. As part of goal setting and leadership activities, students may complete an outside community service learning experience in addition to class assignments. This course expires in 2021-2022. Prerequisites: None

PEIMS #: N1270153Grades: 9-12This course provides students with knowledge of the prerequisite skills for general employment as well as the means of obtaining those skills. important work-related decisions, and become strong members of the work team. Discovering job possibilities that link skills, abilities, interests, values, needs, and work environment preferences is a part of the process of obtaining employability skills and abilities and is experiential learning that takes place over time. **This course expires in 2021-2022**.

Prerequisites: None

College Transition	(CLGTRN)
--------------------	----------

Course #: 09727 PEIMS #: N1290050

Credits: 1

Grades: 9-12

College Transition is designed to equip students with the knowledge, skills, and abilities necessary to be active and successful learners, both in high school and in college. Students examine numerous research-based learning strategies that are proven to lead to academic success such as goal setting, effective time management, handling stress, note taking, active reading, test-taking strategies, and conducting research. In the College Transition course, students will research financial scholarships and grant opportunities, complete applications, and explore technical schools, colleges, and universities. This course expires in 2021-2022.

# Principles of Cosmetology Design and Color Theory (PRICOSMO)

Course #: 08710	Credits: 1
PEIMS #: 13025050	Grades: 9-10

In this course, students coordinate integration of academic, career, and technical knowledge and skills in this laboratory instructional sequence course designed to provide job-specific training for employment in cosmetology careers. Students will attain academic skills and knowledge as well as technical knowledge and skills related to cosmetology design and color theory. Students will develop knowledge and skills regarding various cosmetology design elements such as form, lines, texture, structure and illusion or depth as they relate to the art of cosmetology. Instruction includes sterilization and sanitation procedures, hair care, nail care, and skin care and meets the TDLR requirements for licensure upon passing the state examination. Analysis of career opportunities, license requirements, knowledge and skills expectations, and development of workplace skills are included. This course is offered on the Abilene High campus but is open to all AISD students.

Prerequisites: Principles of Human Services recommended

# Navigating Life with Hearing Loss (NAVLOSS)Course #: 09701Credits: 1PEIMS #: N1290330Grade: 9-12This course provides the necessary information, resources, and<br/>opportunities that will empower students who are deaf or hard<br/>of hearing to effectively apply information and skills learned in<br/>educational, home, and community settings in order to<br/>facilitate achievement in secondary and postsecondary<br/>environments. The course is open to hearing students who are<br/>taking ASL and are interested in working in fields related to<br/>deafness. This course expires in 2021-2022.Prerequisites: None

Introduction to Cosmetology (INTCOSMO)	
Course #: 08860	Credits: 1
PEIMS #: 13025100	Grade: 10
In this course students explore career in the cosmetology industry. To prepare for success, students must have academic and technical knowledge and skills relative to the industry. Students may earn hours toward state licensing requirements. This course is offered on the Abilene High campus but is open to all AISD students. Prerequisites: None	

Cosmetology I (COSLAB1)	
Course #: 08885	Credits: 3
PEIMS #: 13025210	Grades: 10-11
Students coordinate integration of academic, career, and technical knowledge and skills in this laboratory instructional sequence course designed to provide job-specific training for employment in cosmetology careers. Instruction includes sterilization and sanitation procedures, hair care, nail care, and skin care and meets the Texas Department of Licensing and Regulation (TDLR) requirements for licensure upon passing the state examination. Analysis of career opportunities, license requirements, knowledge and skills expectations, and development of workplace skills are included. This course is offered on the Abilene High campus but is open to all AISD students.	
Prerequisites: Introduction to Cosmetology recommended	
Cosmetology II* (COSLAB2)	

Cosmetology II* (COSLAB2)	
Course #: 08887	Credits: 3
PEIMS #:13025310	Grades: 11-12
In Cosmetology II, students will demonstrate p academic technical, and practical knowledg content is designed to provide the occupatio for licensure. Instruction includes advanced tra professional standards/employability skills; Texa Licensing and Regulation (TDLR) rules and regu tools, equipment, technologies and materials; skills. This course is offered on the Abilene High open to all AISD students. <i>Prerequisites: Cosmetology I</i>	ge and skills. The nal skills required aining in as Department of ulations; use of and practical

#### Intro to Speech and Language Pathology and Audiology (INTSPA)

Course	#:	08	984

#### PEIMS #: N1302100

Credits: 1 Grades: 10-12

The Introduction to Speech and Language Pathology and Audiology course is designed to provide for the development of advanced knowledge and skills related to the professions that specialize in communication disorders: Speech-language pathology, audiology, hearing, and speech and language science; the scope of practice as determined by the American Speech-Language-Hearing Association for these professions; multicultural service delivery for individuals with communication disorders: certification: code of ethics: practice settings: employment opportunities; and the use of technology in management and treatment of communication disorders. This course expires in 2021-2022.

Prerequisites: Principles of Health Science and Anatomy and Physiology recommended

Speech and Language Development (SLDEV)		
Course #: 08986	Credits: 1	
PEIMS #: N1302098	Grades: 11-12	

The Speech and Language Development course provides for the development of advanced knowledge and skills related to the speech and language acquisition and growth of developing children. A clear understanding of healthy speech development as well as the speech, language, and communication developmental milestones is a prerequisite for studying communication disorders. To pursue a career in communication sciences and disorders, students should learn the biological, neurological, psychological, developmental, and cultural bases of human communication and the building blocks for learning to listen, speak, read, and write using language to understand and express meaning. This course expires in 2021-2022.

Prerequisites: Principles of Health Science, Anatomy and Physiology, Intro to Speech-Language Pathology and Audiology recommended

#### **Community Transportation (COMTRNS)**

Course #: 16105	Cre	dits: .5
PEIMS: N1304660	Grade	s: 9-12

This course introduces knowledge and skills to empower students to research and access public transportation options in their respective communities. Areas to be addressed include pedestrian and rider safety, navigating public transportation systems, use of technology, and general social skills, including self-advocacy, self-assertiveness, and transportation etiquette. This course provides necessary transportation information, resources, and opportunities that will benefit students in secondary and postsecondary environments as they follow their chosen education or career path. This course expires in 2021-2022.

Prerequisites: ARD committee decision. This course satisfies high school elective graduation requirement.

#### **Robotics I (ROBOTIC1)**

Course #:08983	Credits: 1
PEIMS: 13037000	Grades: 9-10
In this course, students will transfer academic skills to	
component designs in a project-based environment through	
implementation of the design process. Students will build	
prototypes or use simulation software to test their designs.	
Additionally students will explore career opportunities, employer	
even e etertione de la elucientiene de la cada de la cada este e end	

expectations, and educational needs in the robotic and automation industry

Prerequisites: Principles of Applied Engineering Recommended

Course #:08942	Credits: 1
PEIMS: 13037050	Grades: 10-12
In this course, students will explore artificial intelligence and programming in the robotic and automation industry. Through implementation of the design process, students will transfer academic skills to component designs in a project-based environment. Students will build prototypes and use software to test their designs.	

Introduction to Unmanned Aerial Vehicle (UAV) Flight (PRINUAV)		
Course #:08943	Credits: 1	
PEIMS: N1304670	Grades: 10-12	
The Introduction to Unmanned Aerial Veh course is designed to prepare students fo employment or continuing education in p operations. Principles of UAV is designed to UAV flight navigation, industry laws and re regulations. Students are also exposed to procedures, environmental factors, and h in the UAV industry. <b>This course expires in</b> <i>Prerequisites: Principles of Transportation s</i> <i>recommended</i>	r entry-level biloting UAV to instruct students in egulations, and safety mission planning human factors involved 2026-2027.	

Credits: .5		
Grades: 9-12		
Making Connections II (MAKECON2)		
Credits: .5		
Grades: 10-12		
Making Connections III (MAKECON3)		
Credits: .5		
Grades: 11-12		
Making Connections IV (MAKECON4)		
Credits: .5		
Grades: 12		
The <i>Making Connections</i> course sequence serves students who have an autism spectrum disorder or a related disorder which causes them to have difficulty with social skills. This course assists the students in developing an understanding of autism and other related disorders. <b>These courses expire in 2021-2022</b> . <i>Prerequisites: ARD committee decision. These courses satisfy</i> <i>high school elective graduation requirements</i>
