\title{
Abilene Independent School District
}

\section*{GOALS}
* Abilene ISD will develop a strong literacy and numeracy foundation for every student.
* Abilene ISD will advance character development by nurturing habits of mind and ethical, principle-based leadership.
* Abilene ISD will prepare all students for success in college and the workforce.
* Abilene ISD will fully integrate student-led technology and develop innovative learning environments and facilities for the purpose of high student engagement, safety and academic success.
* Abilene ISD will secure high quality, effective staff who embrace diversity, are reflective of and responsive to the district's student body, utilize best practices and understand the importance of student engagement, rigorous and relevant learning environments and the significance of connecting with students to foster a desire to learn.

It is the policy of the Abilene Independent School District not to discriminate on the basis of race, color, national origin, age, sex, or disability in its educational and career and technical education programs, services, activities or employment practices as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Education Amendments of 1972; and Section 504 of the Rehabilitation Act of 1973, as amended. Admission to these programs is based on grade placement, aptitude and interest.

\section*{CLASSIFICATION}

Classification is determined at the beginning of each school year based on the number of credits the student has earned by that time. Students, grades 9-12, will be classified on the following basis:
\begin{tabular}{|c|c|}
\hline Credits Earned & Classification of Student \\
\hline Promoted from grade 8 & Grade 9 (Freshman) \\
\hline 6 & Grade 10 (Sophomore) \\
(must include Algebra I and English I) & Grade 11 (Junior) \\
\hline 12 & Grade 12 (Senior) \\
\hline 18 & \\
\hline
\end{tabular}

\section*{COURSE LIMITATIONS}

Some courses listed in this guide may not work with some students' schedules due to availability, scheduling conflicts, or cancellations resulting from limited enrollment; therefore, students should always plan for alternative courses in case their first choices are unavailable.

Courses listed in the College and Career Planning Guide in the year which the student enters the 9th grade may or may not be offered in subsequent years, and additional courses may be added in subsequent years. Courses may be offered but will not be scheduled unless enrollment is sufficient to do so. New courses may be added by the Texas Education Agency and the State Board of Education or by local decision at any time.

Graduation requirements with Endorsements are established by the State Board of Education and Legislature. Starting with the freshman class of 2014-15, a new Foundation Plan will be implemented. Students who started high school before 2014-15 may opt to switch to this plan or complete their current plans.

\section*{COURSES}

Students should be enrolled in 7 classes per semester. Students enrolled in Career Preparation or a Practicum course must take a minimum of 5 classes a day. A senior who is not on the Recommended or Distinguished Graduation Achievement plan, or the Foundation Plan with an endorsement and/or has not passed state assessments for graduation must be enrolled in seven (7) instructional classes per semester and will not be eligible for a reserve period.

To compete in UIL-sanctioned activities, students must be enrolled in school for a minimum of 5 credit bearing periods a day.
When registering for classes, please note that AISD will offer transportation between Abilene High and Cooper High, when possible, to accommodate students desiring to take courses not offered at their home campus.

\section*{HIGH SCHOOL COURSES OFFERED IN MIDDLE SCHOOL}

Students who satisfactorily complete Algebra I, Geometry, Pre-AP Art I (full year) and/or Spanish I in middle school will receive the state required graduation credit(s) for grades 9-12.

Students who satisfactorily complete Principles of Manufacturing, Business Information Management, Gateway, Communication Applications, or Health in middle school will receive state graduation elective credit for these courses.

High school courses taken in middle school are not used in high school GPA calculations.

\section*{CREDITS}

Students may earn credit in summer school immediately following promotion from the 7th grade.
Students are required to obtain approval in advance from the principal or appointed designee in order to take a distance learning course.
Students enrolled in grades 9-12 may be awarded credit toward high school graduation for completing college-level courses. Such courses shall be provided only by institutions of higher education that are accredited by one of the following accrediting agencies:
* Southern Association of Colleges and Schools
* Middle States Association of Colleges and Schools
* New England Association of Schools and Colleges
* North Central Association of Colleges and Schools
* Western Association of Schools and Colleges
* Northwest Association of Schools and Colleges

To be eligible to enroll and be awarded credit toward state graduation requirements, a student should enroll in district approved dual credit course(s).

\section*{STATE ASSESSMENTS}

To graduate from high school in the state of Texas, students must have satisfactory performance on the five State of Texas Assessments of Academic Readiness (STAAR) End-of-Course Assessments for the following: English I, English II, Algebra I, Biology and U.S. History.

\section*{NINTH GRADE ACADEMY}

To assist ninth grade students with the transition from middle school to high school Abilene Independent School District created the Ninth Grade Academies at Abilene and Cooper High Schools. Emphasis is placed on the development of the whole student - academics, extracurricular, and building positive relationships. Students are scheduled with a team of core area teachers similar to the schedule at middle school, and the academy classes are located in specially designated areas on each campus. The Academies have staff to serve ninth grade students only. The core team of teachers is available for conferencing with parents and students. Since the pilot Academy began in 2005-06, the number of ninth graders failing core classes has decreased, attendance has improved, and more students have advanced to tenth grade.

\section*{STUDENTS TRANSFERRING TO ABILENE ISD}

The following guidelines apply to the evaluation of the transcripts of students transferring to the Abilene Independent School District:
* No credit will be given for office aide and Driver's Education.
* Units of credit granted by high schools accredited by the Texas Education Agency, Texas Private School Accreditation Association, other state education agencies, or Department of Defense Schools will be honored.
* Units of credit earned from non-accredited schools and home study programs will require validation according to the following guidelines:
> Credit for elective courses may be accepted, subject to review.
> Required courses taken in sequence can validate credit in previously completed courses. (Example: English III completed successfully will validate English I and English II. Algebra II completed successfully will validate Algebra I).
> Required courses that have no sequential course must be validated by examination or administrative approval. (Example: Geometry, World History, United States History).

\section*{PHYSICAL EDUCATION SUBSTITUTIONS}

Students may receive TEA approved physical education credit for the following activities:
\begin{tabular}{lll} 
Activity & Semester & Credits \\
\cline { 2 - 3 } Athletics & 1 st and 2nd & up to 4 credits \\
Athletic Trainer & 1 1st and 2nd & up to 4 credits \\
Cheerleading & 1 st and 2nd & 1 credit only \\
Drill Team & 1 st and 2nd & 1 credit only \\
Pep Squad & 1 st and 2nd & 1 credit only \\
Marching Band & 1 st only & 1 credit only \\
JROTC & 1 st and 2nd & up to 4 credits
\end{tabular}

Private or Commercially-Sponsored Physical Activity Programs:
Students may also receive physical education credit by participating in private or commercially-sponsored physical activity programs, such as dance or martial arts, which have been approved by the Superintendent or designee. Students participating in this program may not be enrolled in another physical education class or athletics. Grades will be recorded as pass/fail and will not be calculated for GPA. Students interested in this program should contact the school counselor for an application.

\section*{SPECIAL EDUCATION}

The special education department offers identified students with disabilities opportunities to develop abilities in the least restrictive environment. The ARD committee determines the course sequence for special education students as the graduation plan for each student is developed.

\section*{CREDIT BY EXAMINATION}

\section*{CREDIT BY EXAM WITHOUT PRIOR INSTRUCTION}

\section*{AVAILABILITY}

Credit by Examination without prior instruction will be available to Abilene ISD students enrolled in grades \(7-12\) in the following courses:
\begin{tabular}{ll} 
Art I & Health \\
Algebra I, II & Integrated Physics and Chemistry (IPC) \\
Biology & Latin I II \\
Chemistry & Mathematical Models with Applications \\
Economics & Physics \\
English I, IIIII, IV & Pre-Calculus \\
Environmental Systems & Spanish I, II \\
French I, II & US History \\
Geometry & World Geography \\
German I, II & World History \\
Government &
\end{tabular}

\section*{UTILIZATION OF EXAMINATION SCORES}

Credit for the respective course will be granted if a student scores at or above 80 on the placement examination. The examination score will be recorded on the academic achievement record transcript as the course grade. Grades earned through the credit by examination process will not be used in determining grade point averages or to establish eligibility.

\section*{CREDIT BY EXAM WITH PRIOR INSTRUCTION}

\section*{AVAILABILITY}

Subject to the limitation and eligibility criteria outlined in these guidelines, the credit by examination with prior instruction process will be available to Abilene ISD students enrolled in grades \(7-12\) who have failed any of the following courses:
\begin{tabular}{lll} 
Accounting & Foundations of Personal Fitness & Sociology \\
Algebra I, II & French I, II & Spanish I, II, III \\
Art I & Geometry & Team Sports \\
Banking and Financial Services & Government & Theatre Arts \\
Business Information Management I & Health & Touch Systems Data Entry (1/2 credit) \\
Biology & Individual Sports & US History \\
Business Law (1/2 credit) & Integrated Physics and Chemistry (IPC) & World Geography \\
Chemistry & Math Models with Applications & World History \\
Child Development (1/2 credit) & Money Matters & \\
Communication Applications & Nutrition and Wellness & \\
Digital and Interactive Media & Physics & \\
Dollars and Sense & Principles of Information Technology & \\
Economics & Pre-Calculus & \\
English I, II, III, IV & Psychology &
\end{tabular}

\section*{UTILIZATION OF EXAMINATION SCORES}

Credit for the respective course will be granted if a student scores a grade at or above 70 on the examination. The examination score will be recorded on the academic achievement record transcript as the course grade. Grades earned through the credit by examination process will not be used in determining grade point averages or to establish eligibility.

\section*{EXAMINATION}

All examinations are purchased from an approved university. Any student taking an exam must pay the examination fee charged by the university.

\section*{LIMITATION}

Students who failed a course because they exceeded the maximum number of absences may not use credit by examination to receive credit for the respective course. Only 2 credits may be earned through credit by exam or correspondence.

\section*{STUDENT ELIGIBILITY}

Unless excluded by the above limitation, a student will be permitted to attempt to receive credit by examination for a course if the following criteria are met:
* A written application which reflects parental approval has been submitted;
* The application is approved by the campus principal or designee.

The final grade point average (GPA) to determine the class rank for graduating students is computed by averaging the semester grades beginning with grade 9 and ending with the fifth six week grading period of the final year. The second semester average for the final year is determined by averaging the grades for the fourth and fifth six-week grading periods.

If a course is retaken, the highest grade will be used in GPA calculations. Grades earned from high school courses taken in middle school, from dual-credit courses, from distance learning courses, and through credit by examination* are not used in GPA calculations (unless the dual credit class is also an AP class).

The formula used for computing GPA is as follows:

\section*{(sum of grades)}
(number of AP/IB/local advanced honors grades \(70 \quad+\quad\) (number of PreAP/IB/local honors or above \(X 10\) ) grades 70 or above x 5)
=GPA

\section*{(number of grades)}
(standard number of grades accumulated at this point in academic career)

The "standard number of grades accumulated" is as follows:
All graduates - 56
Mid-term Senior (7 semesters) - 49
Junior ( 6 semesters) - 42
Sophomore ( 4 semesters) - 28
Freshman (2 semesters) - 14
The valedictorian will be the student graduating with the highest GPA. The salutatorian will be the student with the second highest GPA. If a tie occurs, co-valedictorians will be named.

The four other students with the highest GPA in the graduating class, together with the valedictorian and salutatorian, will appear on the platform and be officially recognized as part of the commencement program. The 25 top-ranking students will be designated. Students with a GPA of 90 or above will be designated as honors graduates on the commencement program.

To be eligible for graduation honors described above, a student must complete the final two semesters prior to graduation in the District. Completion of a semester is defined as receiving semester grades from a District School.

Grades for transfer students will be recorded and averaged as received. Letter grades will be converted to numerical grades as follows:
\begin{tabular}{lll}
A & \(=\) & 95 \\
B & \(=\) & 85 \\
C & \(=\) & 77 \\
D & \(=\) & 72 \\
F & \(=\) & no credit
\end{tabular}

A student may earn a maximum of one credit for a regular academic course, an advanced placement course, or a credit by examination* course with the same Texas Education Agency course number or one which covers the same required essential knowledge and skills.

Note: Juniors who wish to graduate early must notify the campus registrar and counselor of intent to graduate early. The deadline will be the end of the fourth six-weeks grading period of the junior year. Students must return the "Intent to Graduate Early" form to the counselor.
*Credit by examination-The District shall give a student in grades 6-12 credit for an academic subject in which the student has received no prior instruction if the student scores:
1. Eighty percent or above on a criterion-referenced examination for acceleration for the applicable course;
2. A three or higher on an advanced placement examination approved by the Board and developed by the College Board; or
3. A scaled score of 60 or higher on an examination approved by the Board and administered through the College-Level Examination Program.
If such credit is given, the District shall enter the examination score on the student's transcript, and the student is not required to take an end-of-the-course assessment instrument under Education Code 39.023(c) for that subject.

\section*{GRADUATION PLANS AND REQUIREMENTS}

Students will have an annual review of their graduation plan to assess progress, discuss necessary adjustments and update the plan to revise course choices in order to meet new or additional goals. Students will be advised of courses recommended for college and career preparation and should keep themselves informed of changes in entry requirements and career trends. Parents/guardians will be consulted if major changes occur.
(Note: In addition to completing curriculum requirements for graduation, all students must pass the required End-of-Course tests and complete the final semester of work to receive a diploma.)

\section*{Foundation High School Program with Endorsements}

Students entering Grade 9 in the 2014-15 school year and thereafter must complete the curriculum requirements of the Foundation High School Program with Endorsements for graduation in the Abilene Independent School District. Students who complete the Foundation High School Program including Algebra II as one of four mathematics credits and the credit requirements specific to at least one endorsement will graduate with the Distinguished Level of Achievement. Students who entered Grade 9 before 2014-15 may transition to the Foundation Plan with Endorsements or the Distinguished Level of Achievement. All students shall specify in writing the endorsement(s) the student intends to earn. Distinguished Level of Achievement allows students to be eligible for college admission under the top \(10 \%\) automatic admissions provision.

Endorsements can be found on page 12.
A student may also earn Performance Acknowledgements that will be placed on the student's diploma and transcript. Performance Acknowledgements may be earned by completing the following:
1. Outstanding Performance in a Dual Credit course:
- at least 12 hours of college academic courses, including those taken for dual credit as part of the Texas core curriculum and advanced technical credit courses and locally articulated courses, with a grade of the equivalent of 3.0 or higher on a scale of 4.0; or
- an associate degree while in high school.
2. Outstanding Performance in Bilingualism or Biliteracy:
- Completing all English Language Arts requirements and maintaining a minimum GPA of the equivalent of 80 on a scale of 100 and satisfying one of the following:
- completion of a minimum of three credits in the same language in a language other than English with a minimum GPA of the equivalent of 80 on a scale of 100; and satisfying one of the following:
* demonstrated proficiency in the Texas Essential Knowledge and Skills for Level IV or higher in a language other than English with a minimum GPA of the equivalent of 80 on a scale of 100; or
* completion of at least three credits in foundation subject area courses in a language other than English with a minimum GPA of 80 on a scale of 100; or
* demonstrated proficiency in one or more languages other than English through one of the following methods:
\(>\) score of 3 or higher on a College Board Advanced Placement exam for a language other than English, or
\(>\) score of 4 or higher on an International Baccalaureate Exam (IB) for a higher-level language other than English courses, or
\(>\) performance on a national assessment of language proficiency in a language other than English of at least Intermediate High or its equivalent.
- ELL students must complete the above criteria and also have participated and met the exit criteria for a bilingual or ESL program and scored at the Advanced High level on the Texas English Language Proficiency Assessment System (TELPAS).
3. Outstanding Performance on a College Board Advanced Placement test or International Baccalaureate examination by earning:
- a score of three or above on a college Board advanced placement examination
- a score of four or above on an International Baccalaureate examination for a higher-level course.
4. Outstanding Performance on the PSAT, the ACT-PLAN, the SAT or the ACT:
- a score on the Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) that qualifies the student for recognition as a commended scholar or higher by the College Board and National Merit Scholarship Corporation, as part of the National Hispanic Recognition Program (NBHRP) of the College Board or as part of the National Achievement Scholarship Program of the National Merit Scholarship Corporation; or.
- achieving the college readiness benchmark score on at least two of the four subject tests on the ACT PLAN exam; or
- a combined critical reading and mathematics score of at least 1250 on the SAT; or
- a composite score on the ACT exam (without writing) of 28.
5. Earning a nationally or internationally recognized business or industry certification or license:
- performance on an examination or series of examinations sufficient to obtain a nationally or internationally recognized business or industry certification; or
- performance on an examination sufficient to obtain a government-required credential to practice a profession.
(Note: In addition to completing curriculum requirements for graduation, all students must pass the required End-of-Course tests and complete the final semester of work to receive a diploma.)

\section*{Recommended and Distinguished Achievement Graduation Plans}

Students who entered Grade 9 before 2014-15 may choose to transition to the Foundation High School Plan with Endorsements or may remain on the Recommended and Distinguished Achievement Plans until September 1, 2018. See page 13 for requirements for the Recommended and Distinguished Plans.

\section*{Distinguished Achievement Program}

The Distinguished Achievement Program recognizes students who demonstrate levels of performance equivalent to college students or work done by professionals. To complete the Distinguished Achievement Program, students must meet all of the requirements noted on page 11 and complete four advanced measures. The four advanced measures must come from any combination of the following:
* Original research/project (no more than two of the four advanced measures):
> Individual product of professional quality as judged by a panel of professionals in the field that is the focus of the project;
> Conducted under the direction of mentor(s) and reported to an appropriate audience; and
> Related to the required curriculum (TEKS).
Students must be enrolled in an approved course or under the supervision of an Abilene ISD teacher to complete an advanced measure in this category. External evaluation of a project must be maintained in the student's cumulative folder and documented on the student's permanent record.
* Test Data
> One or more scores of three or above on a College Board Advanced Placement examination.
> A score on the Preliminary Scholastic Assessment Test (PSAT) that qualifies a student for recognition as a Commended Scholar or higher by the National Merit Scholarship Corporation; as part of the National Hispanic Scholar Program of the College Board; or as part of the National Achievement Scholarship Program for Outstanding Black American high school students. The PSAT score shall count as only one advanced measure regardless of the number of honors received by the student.
* College Courses
> A grade of 3.0 or higher on courses that count for college credit.

\section*{IMPORTANT NOTICE TO PARENTS}

Students are eligible for admission to any general academic teaching institution (4-year state university) if they have completed the Recommended / Distinguished Achievement Program or Foundation High School Plan. Students graduating on the Minimum Program may not be eligible for admission to a 4 -year university. The legislation also adds the requirement that students in the top 10 percent of their high school graduating class are eligible for automatic admission to institutions of higher education only if they have completed the Recommended / Distinguished Achievement Program or the Foundation Distinguished Level diploma program. The University of Texas at Austin accepts the top 7 percent.

\section*{(Requirements for graduation plans to earn a high school diploma are on pages 12-13.)}

Foundation School Program with Endorsements (Requirements for Students Entering Grade 9 in 2014-2015)
\begin{tabular}{|c|c|}

Note: Guidelines in the College and Career Planning Guide are subject to change based on updates from the Texas Education Agency, State Board of Education and the Texas Legislature. Any updates will be placed in the online version of the College and Career Planning Guide.

These courses satisfy the advanced course requirements for then new Foundation \& Endorsement High School Plan in English, Mathematics, and Science.

\section*{ENGLISH LANGUAGE ARTS:}
* Advanced Journalism: Newspaper III
* Advanced Journalism: Yearbook III/Literary Magazine
* AP English Language \& Composition
* Business English
* Communications Applications (must be combined with another half-credit from this list)
* Creative Writing
* Debate III
* English IV or AP English Literature \& Composition
* Independent Study in English: Hebrew Scriptures
* Independent Study in English: New Testament
* Independent Study in Speech
* Literary Genres
* Oral Interpretation III
* Public Speaking III
* Research and Technical Writing
* College Prep for Post-Secondary Readiness in English Language Arts
* Humanities
* Independent Study in Journalism
* Advanced Broadcast Journalism
* IB International Baccalaureate Language Studies AI Higher Level
* Dual Credit Courses (see page 19)

\section*{MATHEMATICS:}
* Algebra II or PAP Algebra II
* AP Calculus AB
* AP Calculus BC
* AP Computer Science
* AP Statistics
* Calculus
* Independent Study in Math
* Mathematical Applications in Agriculture, Food, and Natural Resources (CTE)
* Mathematical Models with Applications**
* Pre-calculus or PAP Pre-calculus
* Statistics \& Risk Management (CTE)
* Algebraic Reasoning
* Financial Mathematics (CTE)
* College Prep for Post-Secondary Readiness in Mathematics
* Digital Electronics
* Engineering Mathematics
* Discrete Mathematics for Computer Science
* Discrete Mathematics for Problem Solving
* Robotics Programming and Design
* Advanced Quantitative Reasoning
* IB Mathematical Studies Standard Level
* IB Mathematics Standard Level
* IB Mathematics Higher Level
* IB Further Mathematics Higher Level
* Dual Credit Courses (see page 19)

\section*{SCIENCE:}
* Anatomy \& Physiology (CTE)
* AP Biology
* AP Chemistry
* AP Environmental Science
* AP Physics I: Algebra-Based
* AP Physics II: Algebra-Based
* Chemistry or PAP Chemistry
* Environmental Systems
* Medical Microbiology (CTE)
* Pathophysiology (CTE)
* Physics or PAP Physics
* Principles of Engineering (CTE)
* College Prep for Post-Secondary Readiness in Science
* Aquatic Science
* Astronomy
* Earth and Space Science
* AP Physics C
* Advanced Animal Science (CTE)
* Advanced Plant and Soil Science (CTE)
* Food Science (CTE)
* Forensic Science (CTE)
* Advanced Biotechnology (CTE)
* Principles of Technology (CTE)
* Scientific Research and Design (CTE)
* Engineering Design and Problem Solving (CTE)
* IB Biology
* IB Chemistry
* IB Physics
* IB Environmental Systems
* Dual Credit Courses (see page 19)
\({ }_{* *}^{*}\) This list is subject to being updated at any time by the Texas Education Agency and the State Board of Education.
\({ }^{* *}\) May be taken after Algebra I in any sequence, for Foundation Plus Endorsement Plan, but will only count as a student's third math credit. Does not qualify as an advanced math or as a math course for the STEM Endorsement

\title{
APPROVED ADVANCED CTE COURSES OFFERED IN AISD, BY CAREER CLUSTERS, FOR THE FOUNDATION PLUS ENDORSEMENT HIGH SCHOOL PLAN \\ *There are Advanced CTE Courses approved by the Texas Education Agency that are not currently offered in Abilene ISD which are permissible for completing an endorsement.

* Database Programming (Oracle)
* Internetworking Technologies I (Cisco)
* Internetworking Technologies II (Cisco)
* Geographic Information Systems
* Raster Based Geographic Information Systems
* Spatial Technology and Remote Sensing

\section*{LAW, PUBLIC SAFETY, CORRECTIONS, AND SECURITY}
* Law Enforcement II
* Court Systems and Practices
* Correctional Services
* Security Services
* Forensic Science
* Firefighter II
* Practicum in Law, Public Safety, Corrections, and Security
* Practicum in Law, Public Safety, Corrections, and Security II
* Forensic Psychology

\section*{MANUFACTURING}
* Advanced Welding
* Advanced Precision Metal Manufacturing
Advanced Flexible Manufacturing
\& Manufacturing Engineering

\section*{MARKETING}
* Marketing Dynamics
* Practicum In Marketing Dynamics II
* Practicum In Marketing Dynamics

\section*{SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS (STEM)}
* Practicum in Science, Technology, Engineering, and Mathematics
* Practicum in Science, Technology, Engineering, and Mathematics II
* Computer Integrated Manufacturing (PLTW)
* Engineering Design and Development (PLTW)
* Advanced Engineering Design and Presentation
* Advanced Biotechnology
* Engineering Mathematics
* Advanced Electronics
* Principles of Technology
* Scientific Research and Design
* Scientific Research and Design II
* Scientific Research and Design III
* Engineering Design and Problem Solving
* Aerospace Engineering
* Biotechnology Engineering
* Civil Engineering and Architecture
* Data Acquisition and Analysis
* Engineering: the Digital Future (Infinity)

\section*{TRANSPORTATION, DISTRIBUTION, AND LOGISTICS}
* Automotive Technology
* Advanced Automotive Technology
* Practicum in Transportation, Distribution, and Logistics
* Practicum in Transportation, Distribution, and Logistics II
* Advanced Aircraft Technology
* Collision Repair and Refinishing

\footnotetext{
* Advanced Collision Repair and Refinishing
* Small Engine Technology
* Advanced Small Engine Technology
* Transportation Systems Management
* Logistics, Planning and Management Systems
}

Students who are on the Recommended or Distinguished Graduation Programs are required to have four credits in mathematics and science. Below are additional State Board approved courses that will satisfy the fourth credit in mathematics and science.

\section*{MATHEMATICS:}

The fourth mathematics credit may be selected from the following:
* Mathematical Models with Applications - course must be taken before Algebra II (Recommended Plan only)
* Pre-Calculus or Pre-AP Calculus
* AP Statistics or Statistics and Risk Management
* AP Calculus AB
* AP Calculus BC
* Independent Study in Mathematics
* Dual credit enrollment in college or university math course
* Advanced Quantitative Reasoning (AQR)
* AP Computer Science
* IB Mathematics Studies Standard Level
* IB Mathematics Standard Level
* IB Mathematics Higher Level
* IB Further Mathematics Standard Level

The fourth credit may be selected from the following courses and may be taken after the completion of Algebra I and Geometry and either after the completion of or concurrently with Algebra II:
* Engineering Mathematics (CTE)
* Statistics and Risk Management (CTE)
* Financial Mathematics (CTE)
* Mathematical Applications in Agriculture, Food and Natural Resources (CTE) (Recommended Plan only)

\section*{SCIENCE:}

The fourth science credit may be selected from the following:
* Integrated Physics and Chemistry (IPC) - course must be successfully completed prior to chemistry and physics (Recommended Plan only)
* Environmental Systems
* Earth and Space Science
* AP Biology
* AP Environmental Science
* AP Chemistry
* AP Physics 1: Algebra-Based
* AP Physics 2: Algebra-Based
* AP Physics C
* Dual credit enrollment in college or university science course
* Aquatic Science
* Astronomy
* Earth and Space Science
* IB Biology
* IB Chemistry
* IB Physics
* IB Environmental Systems

The fourth credit may be selected from the following courses and may be taken after the completion of biology and chemistry and either after the completion of or concurrently of physics:
* Scientific Research and Design (CTE)
* Anatomy and Physiology (CTE)
* Engineering Design and Problem Solving (CTE)
* Medical Microbiology (CTE)
* Medical Pathophysiology (CTE)
* Advanced Animal Science (CTE)
* Advanced Biotechnology (CTE)
* Advanced Plant and Soil Science (CTE)
* Food Chemistry (CTE)
* Forensic Science (CTE)

\section*{ABILENE ISD EARLY COLLEGE OPPORTUNITIES FOR STUDENTS}

The Abilene Independent School District offers the opportunity for students to earn college credit while in high school and save money on tuition through the following Early College Programs:
* Advanced Placement/Honors Program
* Dual Credit Courses with Angelo State University, Abilene Christian University, Cisco College, Hardin-Simmons University, McMurry University, and Texas State Technical College-West Texas, Articulated Course Credit through the statewide Advanced Technical Credit (ATC) Program or other approved Texas colleges and universities. AISD may negotiate agreements with additional colleges for dual credit.
* Texas Virtual School Network (TxVSN)

\section*{* ADVANCED PLACEMENT/HONORS PROGRAM}

\section*{PURPOSES OF ADVANCED PLACEMENT/HONORS COURSES}

Advanced Placement courses are college level courses taken by high school students in which they may receive college credit by passing a national exam. Students must take an AP exam to receive college credit. Colleges and universities set their own standards for awarding credit. Over \(90 \%\) of the U.S. colleges and universities as well as those in twenty other countries award credit for AP exams.

AP courses are taught by high school teachers or university professors who receive College Board training. Since AP students are working on a college level, AP courses are designated as Bonus Points courses, and the students receive additional points toward their GPA. All AP courses are open to students in grades 9-12 who are in good academic standing and have met the criteria for selection.

\section*{CRITERIA FOR SELECTION}

Students who meet the following criteria should consider enrolling in Advanced Placement, PreAP or honors courses:
> Gifted and talented student;
> Have a semester grade of at least 80 in an AP, PreAP or honors course in the same or comparable academic area the previous semester;
> Have a grade of at least 90 in an on-level course in the same or comparable academic area the previous semester;
> Have teacher, counselor, or principal recommendation to enroll in the class.

\section*{NEW STUDENTS TO ABILENE ISD}

A student new to Abilene ISD who has been enrolled in/or approved for an Advanced Placement, PreAP or honors program or the equivalent in a previous school will be offered placement in the Abilene ISD Advanced Placement program.

\section*{ADVANCED PLACEMENT/HONORS COURSES AVAILABLE}
\begin{tabular}{|l|l|l|}

\section*{PROJECT LEAD THE WAY HONORS COURSES AVAILABLE}
Introduction to Engineering Design
Principles of Engineering
Computer Integrated Manufacturing
Engineering Design and Development

\section*{DUAL CREDIT COURSES}

Abilene ISD students have dual credit opportunities at six colleges and universities (Abilene Christian University, Angelo State University, Cisco College, Hardin-Simmons University, McMurry University, and Texas State Technical College-West Texas) and through the state-wide Advanced Technical Credit (ATC) Program. AISD may negotiate agreements with additional colleges for dual credit. Additional dual credit courses may be added at any time. Students must meet eligibility criteria for each course.

Students may earn both high school and college credit at the same time when enrolled in a dual credit course. Credit is posted to the student's high school transcript and college transcript upon successful completion of the course. The student is taught and graded in the same way as college students who take the same course. Only AP dual credit grades are included in GPA calculations.

Dual enrollment classes are taught by one of the following teaching arrangements:
> The course may be taught on the college campus by a college instructor
> The course may be taught on a high school campus by a college instructor
> The course may be taught on a high school campus by a high school/college teacher
Policies regarding college tuition, fees, and required instructional supplies are set by the college or university. Students must meet specific college and Abilene ISD criteria before being accepted for enrollment in a dual credit course. Students should check with individual institutions of higher learning for admission requirements and details for awarding credit. Please note that students may be responsible for the cost of tuition and books. Interested students should check with their counselor for information and requirements for enrollment.

\section*{See the online Dual Credit Supplement for the dual credit course offerings and conditions of enrollment.}

\section*{ARTICULATED CREDIT—ADVANCED TECHNICAL CREDIT}

Abilene ISD students can also receive college credit for designated high school courses through the state-wide, Advanced Technical Credit (ATC) program. ATC articulated courses are tuition free. However, not all public two-year colleges in Texas participate in the Advanced Technical Credit program, and not all participating colleges offer all courses covered by the ATC program. For additional information regarding ATC and a comprehensive list of two-year colleges participating in ATC, go to: www.atctexas.org. Students should check with the school counselor for additional AISD career and technical education courses that are eligible for Advanced Technical Credit. The following AISD CTE courses are eligible for statewide articulated credit (for those courses taken in \(11^{\text {th }}\) or \(12^{\text {th }}\) grades) through the Advanced Technical Credit program.
\begin{tabular}{|l|l|}

\hline
\end{tabular}

The single most important credential in the applicant's folder is his/her academic record, particularly the junior year and the first half of the senior year. Usually you can help your college chances by making a strong effort to improve your course selections and grades during this time, showing you are "on the way up." College preparatory courses taken throughout high school are the most important factor in the college admission decision and will receive scrutiny by admissions officers.

The college admissions process is complex. Here are some points that may be valuable as you try to unravel its mysteries:
* Standardized examinations play a major role in the admission process. Students should take the PSAT, SAT, and ACT during their junior year. These scores are considered reliable predictors for college success when combined with high school grades in academic courses and rank in class.
* Extracurricular activities and community service play an important role in the admissions process. Colleges frequently state they look for students who will make a significant contribution to the college community. Because around \(70 \%\) to \(80 \%\) of all students can handle the academics, colleges often look for that extra dimension - musicians, editors, actors, photographers, athletes and others with a developed and usable talent as well as students with leadership qualities. Students with superior ability in these areas can expect to receive a special review by faculty with expertise and careful consideration by the admissions office.
* For most competitive colleges, recommendations are an essential part of an applicant's file. The exceptions to this rule are large state universities where written recommendations are often not required or given as much weight. Recommendations describe not only achievements and skills, but also character, motivation, integrity and patterns of growth. Teachers' reports also play an important role in selection process, particularly when the teachers know the student well and are willing to detail potential in specific areas.
* Correspondence with colleges should be initiated and followed up by the student. Many college admissions people see this as a reflection of a student's sense of responsibility and independence. It also indicates such items as accuracy, clarity, courtesy, and maturity. If there is a particular problem on the school record or the application that needs further clarification, the student should feel free to write the college. Just as colleges keep files on students, students should keep files on the colleges. Included in the files should be copies of letters, notes, and drafts of essays. Your guidance counselor and English teacher are excellent resources when corresponding with colleges, filling out applications, and writing the required essays.

For more information visit the Abilene Education Foundation's website at www.aaeeff.org.

The Academy of Technology, Engineering, Mathematics \& Science is a Texas Education Agency designated T-STEM public high school within Abilene ISD. As a Texas STEM school, our academic focus is on providing challenging, high-quality STEM instruction to a diverse student population in order to prepare our students for success in STEM careers and higher education. We emphasize academic excellence, personal responsibility, respect, professional communication, community service, and leadership.

All students who attend ATEMS select one of two areas of study: engineering or information technology. Our engineering courses are part of the nationally-recognized Project Lead the Way program which provides course curriculum and extensive teacher-training. ATEMS utilizes traditional instruction as well as Project-Based Learning (PBL) and Problem-Based Learning (PrBL) and provides 1-to-1 technology access for all students. ATEMS offers rigorous Pre-AP, AP, and dual-credit courses as well as solid academic courses. In order to encourage both communication and collaboration, our students and teachers use Schoology, a web-based learning management system.

ATEMS provides numerous opportunities for student leadership and involvement including Student Council, UIL academic competitions, robotics, National Honor Society, National Technical Honor Society, Mouse Squad, STARS, and conference-led activities and community service projects. In addition, ATEMS students may choose to participate in athletics, band, orchestra, choir, and Junior ROTC at Abilene and Cooper high schools.

Students who are interested in attending ATEMS may apply online beginning in January. For additional information regarding coursework and extra-curricular participation, please contact the ATEMS counselor.

\section*{HOLLAND MEDICAL EARLY COLLEGE HIGH SCHOOL}

Students interested in pursuing careers in the health care field have the opportunity to attend Holland Medical Early College High School on the beautiful campus of HardinSimmons University. Holland is a unique, collaborative partnership between HSU, Cisco College and the Abilene Independent School District. Constructed on the corner of Cedar and Vogel, Holland Med High is located near the largest medical community in West Texas and is adjacent to Hendrick Health System.

Beginning in 2015-2016, Holland transitioned to an early college high school. Students will be able to earn up to 60 college credit hours toward an Associate's or Bachelor's degree while in high school. Holland houses the AISD Health Sciences program of study and is available to students interested in the health field. Flexible scheduling enables students to fulfill their core academic graduation requirements (including advanced placement courses) and to participate in extracurricular activities, such as athletics and fine arts. Principles of Health Science, a required prerequisite course, is available at Holland, Cooper High and Abilene High. Medical Terminology, a recommended prerequisite, is open to \(9^{\text {th }}\) through \(12^{\text {th }}\) grade students. Holland added sophomores in 2015-2016 and plans to add and freshmen in the future.

Health Science Courses offered at Holland are:
> Principles of Health Science
> Practicum in Health Science - Certified Nurse Aide
> Practicum in Health Science - Diversified Healthcare Skills
> Practicum in Health Science II - Pharmacy Technician
> Practicum in Health Science II - Dental Assistant
> Practicum in Health Science II - Medical Assistant
> Anatomy and Physiology
> Medical Microbiology
> Pathophysiology
> Problems and Solutions - Phlebotomy
> Problems and Solutions - Research and Design

Holland students will have the opportunity to complete numerous certifications and licenses recognized by the health care industry. These certifications may include: First Aid; CPR-AHA Healthcare Provider; CPR-AHA Heartsaver Adult Only; CPRAdult and PBLS; Certified Nurse Aide; Pharmacy Technician; Registered Dental Assistant (Radiology, Infection Control, and Jurisprudence); Certified Medical Assistant (Certified Electrocardiograph Technician and Certified Clinical Medical Assistant); and Phlebotomy Technician.

For additional information on Holland Medical Early College High School and the AISD Health Science program of study, contact Mrs. Lyndsey Williamson, Principal of Holland at 794-4120.

\section*{Subject to State Board of Education approval and updates:}

A student may earn a Science, Technology, Engineering and Mathematics Endorsement (STEM) by completing the requirements including Algebra II, chemistry, physics and:
1. a coherent sequence of courses for four or more credits in career and technical education (CTE) that consists of at least two courses in the same career cluster, including at least one advanced CTE course which includes any course that is the third or higher course in a sequence. The final course in the sequence must be obtained from the STEM career cluster.
2. a coherent sequence of four courses in computer science; or
3. five courses in mathematics by successfully completing Algebra I, geometry, Algebra II and two additional math courses for which Algebra II is a prerequisite; or
4. five courses in science by successfully completing biology, chemistry, physics and two additional science courses.
5. in addition to Algebra II, chemistry and physics, a coherent sequence of three additional credits from no more than two of the areas listed in 1,2,3 and 4.

\title{
Technology, Engineering, and Mathematics Project Lead the Way®/ Engineering
}

NEW DISCOVERIES ARE MADE EVERY DAY. Scientists, technologists, engineers, and mathematicians are pushing the boundaries of human knowledge by seeking to better understand and improve the world around us. They spend their time exploring everything from vast galaxies of stars to the tiniest subatomic particles. They invent the technologies that make our lives easier and more rewarding and develop solutions to problems that threaten our future. Thanks to the men and women on the cutting edge, we know more than ever before. If you are curious about the universe, dream of exploring new worlds of knowledge, or want to solve the planet's problems, then Science, Technology, Engineering \& Mathematics could be the right career cluster for you.

Note: ATEMS Engineering Pre- Engineering** Pathway students may complete both PLTW engineering courses (left side) and TSTC/CAD courses (right side) if their schedules allow. The Engineering Pathway requirements can be fulfilled by either option.

\section*{Science, Technology, Engineering, and Mathematics \\ Project Lead the Way®}

Abilene Independent School District implemented the Project Lead the Way® Pre-engineering Program for grades \(9-12\). Project Lead the Way® (PLTW) is a standards-based curriculum that will challenge the student to solve real-world engineering problems by applying the knowledge and skills related to mathematics, science, and technology. A student who completes the challenging pre-engineering and academic curriculum will:
- use state-of-the-art computer hardware and software technology in use in the engineering industry;
- participate in a hands-on, team-oriented activity-based program;
- have the opportunity to enroll in a sequence of four courses covering the essentials of engineering technology; and
- take courses that will apply and reinforce the study of math, science and technical communication

Requirements to participate in Project Lead the Way \({ }^{\circledR}\) include
- having a strong interest in pursuing a career in engineering or engineering technology;
- enrolling in at least one college preparatory mathematics course each year in high school; and
- having a strong interest in science (four years of science is highly recommended, especially physics and chemistry)

The four-year sequence for pre-engineering Project Lead the Way \({ }_{\circledR}\) will be:
\[
\begin{array}{ll}
\text { 9th grade: } & \text { Introduction to Engineering Design } \\
\text { 10th grade: } & \text { Principles of Engineering } \\
\text { 11th grade: } & \text { Computer Integrated Manufacturing } \\
\text { 12th grade: } & \text { Engineering Design and Development }
\end{array}
\]

All Project Lead the Way® courses are designated as Honors courses and are eligible for weighted grade points. All Project Lead the Way® courses are only available at the Academy of Technology, Engineering, Mathematics and Science (ATEMS) and are only open to ATEMS students.

\begin{abstract}
Introduction to Engineering Design (PLTW) (IED) (Honors)
Course \#: 08900 Credits: 1
PEIMS \#: N1303742 Grades: 9-12
This is the first course in the AISD Project Lead the Way \({ }^{\circledR}\) PreEngineering Program sequence. The course will develop problem solving skills through the application of the "engineering method." Traditional manual drafting methods will augment the use of state-of-the-art computer aided drafting and 3-D modeling hardware and software in designing, evaluating, and producing engineering drawings. Students will have the opportunity to complete the Autodesk Inventor certification. This course is only offered at ATEMS.
Prerequisites: None
\end{abstract}

\section*{Principles of Engineering (PRINENG) (Honors)}

Course \#: 08981 Credits: 1
PEIMS \#: 13037500
Grades: 9-12
This is the second course in the AISD Project Lead the Way® Pre-
Engineering Program sequence. The main purpose of this course is to help the student answer the question "Is a career in engineering or engineering technology for me?" The development of engineering problem-solving skills used in postsecondary education engineering programs and in engineering careers will be emphasized. Various engineering systems, manufacturing processes, and how engineers address the social and political consequences of technological change will be explored. This course is only offered at ATEMS.
Prerequisites: Introduction to Engineering Design and concurrent enrollment in a college prep mathematics course
*Advanced CTE course

\section*{Computer Integrated Manufacturing* (PLTW) (CIM) (Advanced Honors)}

Course \#: 08902 Credits: 1
PEIMS \#: N1303748 Grades: 11-12
This course is part of the AISD Project Lead the Way® PreEngineering sequence. It is a course that applies principles of robotics and automation. The course builds on computer solid modeling skills developed in Introduction to Engineering Design, and Design and Drawing for Production. Students use CNC equipment to produce actual models of their three-dimensional designs. Fundamental concepts of robotics used in automated manufacturing and design analysis are included. This course cannot be entered at mid-term. This course is only offered at ATEMS.
Prerequisites: Introduction to Engineering Design and/or Principles of Engineering
\begin{tabular}{l}
\begin{tabular}{l} 
Engineering Design and Development (PLTW) (EDD) \\
(Advanced Honors)*
\end{tabular} \\
\hline Course \#: 08903
\end{tabular}\(\quad\) Credits: 19

This is the final course in the AISD Project Lead The Way PreEngineering Program sequence. Students in this capstone course will work in teams to research, design, and construct a solution to an open-ended engineering problem. This engineering project will be conducted under the guidance of practicing engineers and an AISD teacher. This course cannot be entered at mid-term. This course is only offered at ATEMS.
Prerequisites: Principles of Engineering, Introduction to Engineering Design, and Computer Integrated Manufacturing
\begin{tabular}{l} 
Practicum in Science, Technology, Engineering, and \\
Mathematics* (PRACSTEM) \\
\hline Course \#: \(08891 \quad\) Credits: \(\mathbf{2}\) \\

\title{
Industry \\ Endorsement
}

\section*{Subject to State Board of Education approval and updates:}

A student may earn a Business and Industry Endorsement by completing the following requirements:
1. a coherent sequence of courses for four or more credits in career and technical education (CTE) that includes at least two courses in the same career cluster, including at least one advanced CTE course which includes any course that is the third or higher course in a sequence. The final course in the sequence must be selected from one of the following CTE career clusters:
- Agriculture, Food and Natural resources
- Architecture and Construction
- Arts, Audio/Visual Technology and Communications
- Business Management and Administration
- Finance
- Hospitality and Tourism
- Information Technology
- Manufacturing
- Marketing
- Transportation, Distribution and Logistics; or
2. four English elective courses, including three levels of one of the following areas:
- Advanced Broadcast Journalism; or
- Advanced Journalism: Newspaper; or
- Advanced Journalism: Yearbook
- Public Speaking; or
- Debate
3. four technology applications credits
4. a coherent sequence of four credits from 1, 2 , or 3.

The Six-to-Eight-Year Plan is intended to give you and your parent(s) a guide to use as you progress through high school and plan for college and careers. You will want to review the plan each year to make sure you are taking the required courses for graduation. Use this guide to help you select courses that support your career goals. Ensure that you are taking the academic courses that support your post-secondary plans.

\section*{Agriculture, Food, and Natural Resources}

Careers in Agriculture, Food \& Natural Resources involve planning and managing agriculture, food, fiber, and natural resource systems. They also include the production of agricultural commodities such as food, fiber, wood products, horticultural crops, and other plant and animal products. Other important parts of these careers are: financing, processing, marketing and distribution of agricultural products; farm production, supply and service industries; horticulture and landscaping services; the conservation and use of land and water resources; the development and maintenance of recreational resources operations; and related environmental management services.

\section*{Agriculture, Food, and Natural Resources}

\section*{Principles of Agriculture, Food and Natural Resources (PRINAFNR)}
\begin{tabular}{lr} 
Course \#: 08800 & Credits: 1 \\
PEIMS \#: 13000200 & Grades: 9-12
\end{tabular}

PEMS \#. 13000200
This basic course is designed to provide an introduction to global agriculture. The course includes instructional units in agricultural career development, leadership, communications, personal finance and mechanized agriculture. Topics will enhance the student's understanding of historical significance and interdependency of agriculture to societies of the world, and enhance the agricultural comprehension in agricultural science. It will also include the study of soils, plants, animals, agricultural construction, food science, and supervised agricultural experience programs and leadership. This course cannot be entered at mid-term. This course may be taken to satisfy the speech credit.
Prerequisites: None

\section*{Livestock Production (LIVEPROD)}

Course \#: 08801
Credits: \(1 / 2\)
PEIMS \#: 13000300
Grades: 10-12
This course is designed to develop knowledge and skills pertaining to the nutrition, reproduction, health and management of domestic animals. Students will have the opportunity to complete certification in Beef Quality Assurance.
Prerequisites: None
\begin{tabular}{|lr}
\hline Equine Science (EQUINSCI) & \\
\hline Course \#: 08802 & Credits: \(1 / 2\) \\
\hline PEIMS \#: 13000500 & Grades: 10-12 \\
\hline
\end{tabular}

This course is designed to develop knowledge and skills pertaining to the selection, nutrition, reproduction, health and management of horses.
Prerequisites: None

\section*{Food Technology and Safety (FOODTS)}

Course \#: 08803
Credits: \(1 / 2\)
PEIMS \#: 13001300
Grades: 10-12
This course is concerned with world food production, the processing, preparing, and packaging of foods, government regulations regarding foods, exploring career opportunities, and leadership development.
Prerequisites: None

\section*{Wildlife, Fisheries, and Ecology Management (WFECGT)}

Course \#: 08804 Credits: \(1 / 2\)
PEIMS \#: 13001500 Grades: 10-12
This course is designed to examine the importance of wildlife and outdoor recreation with emphasis on using wildlife and natural resources.
Prerequisites: None

\footnotetext{
*Advanced CTE course
}

\section*{Agricultural Mechanics and Metal Technologies (AGMECHMT)}

Course \#: 08807 Credits: 1
PEIMS \#: 13002200 Grades: 10-12
To be prepared for careers in agricultural power, structural, and technical systems, students need to attain academic skills and knowledge; acquire technical knowledge and skills related to power, structural, and technical agricultural systems and the industry; and develop knowledge and skills regarding opportunities to learn, reinforce, apply, and transfer knowledge and skills and technologies in a variety of settings. This course is designed to develop an understanding of agricultural mechanics as it relates to safety and skills in tools operation, electrical wiring, plumbing, carpentry, fencing, concrete, and metal working techniques. Students will have the opportunity to complete certification in NCCER Core.
Prerequisites: Principles of Agriculture, Food and Natural Resources

\section*{Agricultural Facilities Design and Fabrication* (AGFDFAB)}

\section*{Course \#: 08808 \\ Credits: 1 \\ PEIMS \#: 13002300 \\ Grades: 11-12}

This course is designed to develop skills in the maintenance, evaluation, design, and building of agricultural structures using approved construction techniques. The following topics will be discussed: safe working practices, proper planning and design, the installation and maintenance of electrical systems and farm water systems. Students will have the opportunity to complete certification in NCCER Core. This course cannot be entered at mid-term.

\section*{Prerequisites: None}

\section*{Practicum in Agriculture, Food and Natural Resources* (PRACAFNR)}

Course \#: 08809
Credits: 3
PEIMS \#: 13002500
Grades: 11-12
This work-based learning course is designed to provide entrylevel training in specific agribusiness careers. The student may participate in either paid or unpaid work experiences at an approved agribusiness training station in the local community. Classroom instruction is designed to teach the student workplace readiness skills and job-specific skills related to the work experience. Students will have the opportunity to complete the National Career Readiness or Customer Service certifications.
Prerequisites: Minimum age of 16 at time of enrollment, application and teacher approval

Practicum in Agriculture, Food, and Natural Resources II* (PRACAFN2)

\section*{Course \#: 08810 Credits: 3}

PEIMS \#: 13002510
Grades: 11-12
This work-based learning course is designed to provide entrylevel training in specific agribusiness careers. The student may participate in either paid or unpaid work experiences at an approved agribusiness training station in the local community. Classroom instruction is designed to teach the student workplace readiness skills and job-specific skills related to the work experience.
Prerequisites: Practicum in Agriculture, Food and Natural Resources

\footnotetext{
*Advanced CTE course
}

\section*{Architecture and Construction}

LOOK AROUND YOU. You are likely inside a room in a building, maybe your school. You are in a structure that started with an idea in an architect's head. He or she imagined how tall it would be, how many rooms it would hold, where the walls and doorways would stand. The architect drew up the plans that guided teams of people as they went about constructing the building.....plumbers, electricians, masons, roofers, framers, and so on. And now the building is finished, another team of people manage and maintain it, keeping equipment up and running, the spaces clean and organized, and the windows glistening. These are the people who work in the Architecture \& Construction cluster. If you like to design and build things, tinker with tools and technology, or decorate homes and offices with flooring, paint, furniture, and art, then Architecture \& Construction could be the right career cluster for you.

\title{
Architecture and Construction
}
\begin{tabular}{lr}
\hline Principles of Architecture and Construction (PRINARCH) \\
\hline Course \#: \(08811 \quad\) Credits: 1 \\
\hline PEIMS \#: 13004200 & Grades: 9-12
\end{tabular}

PEIMS \#: 13004200
Grades: 9-12
This course provides an overview to the various fields of architecture, interior design, construction science, and construction technology. Achieving proficiency in decisionmaking and problem-solving is an essential skill for career planning and lifelong learning. Students use self-knowledge, educational, and career information to set and achieve realistic career and educational goals. Job-specific, skilled training can be provided through the use of training modules to identify career goals in trade and industry areas. Safety and career opportunities are included, in addition to work ethics and jobrelated study in the classroom such as communications; problem solving and critical thinking; Information Technology Applications; systems' safety, health, and environmental; leadership and teamwork; ethics and legal responsibilities; employability and career development; technical skills; introduction to hand tools; introduction to power tools; basic rigging; and reading technical drawings.
Prerequisites: None

\section*{Construction Technology (CONSTECH)}

\section*{Course \#: 08812}

Credits: 2
PEIMS \#: 13005100
Grades: 10-12
In Construction Technology students gain knowledge and skills specific to those needed to enter the workforce as carpenters or building maintenance supervisors, or prepare for a postsecondary degree in construction management, architecture, or engineering. Students acquire knowledge and skills in safety, tool usage, building materials, codes, and framing. Students will continue their NCCER certification in carpentry. This course cannot be entered at mid-term and may not be offered on both high school campus, but is open to all AISD students.
Prerequisites: Principles of Architecture and Construction
Part 1 and 2 or NCCER Core Certificate

\section*{Advanced Construction Technology* (ADVCONST)}

Course \#: 08813 Credits: 2
PEIMS \#: 13005200
Grades: 11-12
A pre-employment lab course designed to provide job specific training for entry-level employment in construction-related careers: carpenter, bricklayer, residential electrician, commercial welder, plumber, painter, and decorator. Instruction includes safety and career opportunities Students will continue their NCCER certification in carpentry. This course cannot be entered at mid-term and may not be offered on both high school campus, but is open to all AISD students.
Prerequisites: Construction Technology recommended
*Advanced CTE course

Electrical Technology* (ELECTECH)
Course \#: C8814
Credits: 2
PEIMS \#: 13005600
Grades: 10-12
A pre-employment laboratory course designed to provide jobspecific training for entry-level employment in the high demand field of residential and commercial/industrial electrical careers. This course includes installation, servicing skills, safety, and actual job-site training that leads to career opportunities as a licensed apprentice electrician. Students will have the opportunity to complete certification in NCCER Electrical Trades. Hours completed during the course can be transferred to advanced licenses in the industry. This course is offered on the Abilene High School campus, but is open to all AISD students. This course cannot be entered at mid-term.
Prerequisites: Principles of Architecture and Construction part 1 and 2 or NCCER Core Certificate

\section*{Advanced Electrical Technology* (ADVELECT)}

Course \#: C8815
Credits: 2
PEIMS \#: 13005700
Grades: 11-12
This second-year pre-employment lab course is designed to provide advanced job-specific training for entry-level employment in the high demand field of residential and commercial/industrial electrical careers. This course includes actual job-site training and a license as an apprentice electrician. Students will have the opportunity to complete the NCCER Electrical Trades certification. Hours completed during the course can be transferred to advanced licenses in the industry. This course is offered on the Abilene High School campus, but is open to all AISD students. Students cannot enter this course at mid-term.

\section*{Prerequisites: Electrical Technology}

\section*{Practicum in Construction Management* (PRACCONS)}
Course \#: 08818 Credits: 2

PEIMS \#: 13006200 Grades: 12
Practicum in Construction Management is an occupationally specific course designed to provide classroom technical instruction or on-the-job training experiences in the construction industry. Safety and career opportunities are included in addition to work ethics and job-related study in the classroom. The Practicum is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. Students apply technical skills to address business application of emerging technologies, students develop a foundation in the economical, financial,
technological, international, social, and ethical aspects of business to become competent consumers, employees, and entrepreneurs. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business environment.
Prerequisites: Advanced Construction, Advanced Electrical

\section*{Arts, A/V Technology and Communications}

Careers in Arts, A/V Technology \& Communications involve performing, visual, literacy, and media arts as well as studies in humanities and culture. Those that choose a career in this pathway are able to use their individual talents in many different ways. Careers in this area include direct interaction with people. Such jobs depend on the person's ability to express ideas to others using spoken, written, and non-verbal language. They also include the ability to listen effectively and react appropriately, especially in group situations.

\section*{Visual Communications}

*TSTC Online AISD Computer Lab

\section*{Arts, A/V Technology, and Communications}

Some of the courses in this cluster are offered through a partnership with Texas State Technical College West Texas. These classes are dual credit classes that will be offered through an online agreement with TSTC.

Principles of Information Technology (PRINIT)
Course \#: 08863 Credits: 1
PEIMS \#: \(13027200 \quad\) Grades: 9-10

Students develop computer literacy skills to adapt to emerging technologies used in the global marketplace. Students implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the information technology environment. Students will have the opportunity to complete the IC3 certification. This course cannot be entered at mid-term.
Prerequisites: None

\section*{Audio Visual Production (AVPROD)}

\section*{Course \#: 09289}

Credits: 1
PEIMS \#: 13008500 Grades: 10-12

Careers in audio and video technology and film production span all aspects of the audio/video communications industry. Within this context, in addition to developing technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications career cluster, students will be expected to develop an understanding of the industry with the focus on pre-production, production, and post-production audio and video activities. Students must be 16 years old and have transportation to Shotwell Stadium. Only offered at Cooper High.
Prerequisites: None
\begin{tabular}{|l|}
\hline Graphic Design and Illustration (GRAPHDI) \\
\hline Dual Credit - Online \\
\hline Course \#: T8819 \\
\hline PEIMS \#: 13008800 \\
\hline Graphic design and illustration is an online course with TSTC that \\
will span all aspects of the advertising and visual \\
communications industries. Within this context, in addition to \\
developing knowledge and skills needed for success in the Arts, \\
Audio/Video Technology, and Communications career cluster, \\
students will be expected to develop an understanding of the \\
industry with a focus on fundamental elements and principles of \\
visual art and design. \\

\hline
\end{tabular}

Problems And Solutions - Visual Communications (PROBS1)
Dual Credit - Online
Course \#: 18963
Credits: 1
PEIMS \#: 12701500
Grades: 12
This course is the end of a sequence for dual credit through TSTC and covers vector graphics and web page design. The course is offered at both high school campuses in an online environment. Students must have taken Graphic Design and Illustration.
Prerequisites: Graphic Design and Illustration

\section*{Business Management and Administration}

Careers in these fields provide a broad range of opportunities in the exciting world of business and financial management, including entrepreneurship (owning your own business), sales, marketing, computer information systems, finance, accounting, personnel, economics and management. Within this variety of careers, each has its own activities, opportunities and requirements. While an accountant needs to be organized and is called upon to analyze, process and communicate information concerning financial operations, a fashion merchandiser must be able to plan, promote, buy and sell apparel. Even though these are two different jobs, both require skills in human relations (working with people), management, administration and communication.

\section*{Administrative and Information Support Systems (suggested sequence of courses)}

\title{
Business Management and Administration
}

\section*{Principles of Business, Marketing, and Finance (PRINBMF)}
\begin{tabular}{lr}
\hline Course \#: 08824 & Credits: \(1 / 2\) \\
\hline PEIMS \#: 13011200 & Grades: \(9-11\) \\
\hline Course \#: 08917 & Credits: 1 \\
\hline PEIMS \#: 13011200 & Grades: \(9-11\) \\
\hline
\end{tabular}

This course introduces practical business procedures and develops the foundation for competent business participation and self-sufficiency in today's world. It also develops flexibility and adaptability for the rapidly changing business environment as well as other skills necessary for success in the workforce. Reading, writing, and calculating skills will be reinforced and effective communication and information management skills will be developed through the use of emerging technology.
Prerequisites: None

\section*{Business Information Management I* (BUSIM1) \\ Course \#: 08826 \\ Credits: 1 \\ PEIMS \#: 13011400 \\ Grades: 9-12}

Students apply technical skills to address business applications of emerging technologies, create word processing documents, develop spreadsheets, formulate databases, and make electronic presentations using Microsoft Office Suite. Students will the opportunity to complete the Microsoft Office Specialist (MOS) exam for Word certification. This course cannot be entered at mid-term.
Prerequisites: None

\section*{Business Information Management II* (BUSIM2)}

Course \#: 08827 Credits: 1
PEIMS \#: 13011500
Grades: 10-12
This course is a continuation of Business Information Management I. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and make a successful transition to the workforce or postsecondary education. Students apply technical skills to address business applications of emerging technologies, create complex word-processing documents, develop sophisticated spreadsheets using charts and graphs, and make electronic presentations using Microsoft Office Suite. Students will have the opportunity to complete the Microsoft Office Specialist (MOS) exam for Excel and PowerPoint certifications. This course cannot be entered at mid-term.
Prerequisites: Business Information Management I

\section*{Business Law* (BUSLAW)}

Course \#: 08828 Credits: \(1 / 2\)
PEIMS \#: 13011700 Grades: 11-12
Students analyze the social responsibility of business and industry regarding the significant issues relating to the legal environment, business ethics, torts, contracts, negotiable financial instruments, personal property, sales, warranties, business organizations, concept of agency and employment, and employment, and real property. Students apply technical skills to address business applications or contemporary legal issues. Students incorporate a broad base of knowledge that includes the legal, managerial, marketing, financial, ethical, and international dimensions of business to make appropriate business decisions.

\section*{Prerequisites: None}
*Advanced CTE course

\section*{Global Business *(GLOBBUS)}

Course \#: 08829
Credits: \(1 / 2\)
PEIMS \#: 13011800
Grades: 10-12
Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce and postsecondary education. Students apply technical skills to address global business applications of emerging technologies. Students develop a foundation in the economics, financial, technological, international, social, and ethical aspects of business to become competent consumers, employees, and entrepreneurs. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business environment.

\section*{Prerequisites: None}

\section*{Business Management* (BUSMGT)}

Course \#: 08830
Credits: 1
PEIMS \#: 13012100
Grades: 10-12
Students recognize, evaluate, and prepare for a rapidly evolving global business environment that requires flexibility and adaptability. Students analyze the primary functions of management and leadership, which are planning, organizing, staffing, directing or leading, and controlling. Topics will incorporate social responsibility of business and industry. Students develop a foundation in the economical, financial,
technological, international, social, and ethical aspects of business to become competent managers, employees, and entrepreneurs. Students incorporate a broad base of knowledge that includes the legal, managerial, marketing, financial, ethical, and international dimensions of business to make appropriate management decisions. Students will have the opportunity to complete the Everfi Financial Literacy certification. This course cannot be entered at mid-term.

\section*{Prerequisites: None}

\section*{Problems And Solutions - Office Software Management (PROBS1) \\ Dual Credit - online \\ Course \#: 18962 Credits: 1 \\ PEIMS \#: 12701500 \\ Grade: 12}

Office Software Management is the second year of sequence offered by TSTC. This is an online course taught on the two high school campuses, but offered for dual credit. The course will deal with presentation software such as PowerPoint and using other types of integrated applications. This course follows the course Business Information Management II
Prerequisites: Business Information Management II

\section*{Practicum in Business Management* (PRACBM)}

\section*{Course \#: 08831 Credits: 3}

PEIMS \#: 13012200
Grades: 11-12
The Practicum is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education, Students apply technical skills to address business application of emerging technologies, students develop a foundation in the economics, financial,
technological, international, social, and ethical aspects of business to become competent consumers, employees, and entrepreneurs. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business environment. Students incorporate a broad base of knowledge that includes the legal, managerial, marketing, financial, ethical, and international dimensions of business to make appropriate business decisions. Students will have the opportunity to complete a certification Microsoft Office Specialist certification.
Prerequisites: Business Management or Business Law/Global Business recommended

\section*{Finance}

MONEY MAKES THE WORLD GO ROUND.... AND THERE IS PLENTY OF IT IN TEXAS. In fact, if our state were its own country, it would be the 10thlargest economy in the world, ranking right between Spain and South Korea. There are about 750 banks in Texas and thousands more brokerage, financial-service, insurance, and accounting firms. Professionals who work in these companies manage investments and make loans, pay for storm damage, sell bonds and stock ATMs with cash, and more. If you are good with numbers, want to play the stock market, or enjoy working with the public, then Finance could be the right career cluster for you.

\section*{Business Financial Management and Accounting (suggested sequence of courses)}

\section*{Finance}

\section*{Principles of Business, Marketing, and Finance (PRINBMF)}

Course \#: 08824
Credits: 1/2
PEIMS \#: 13011200
Grades: 9-11
Course \#: 08917
Credits: 1
PEIMS \#: 13011200
Grades: 9-11
In Principles of Business, Marketing, and Finance students gain knowledge and skills in economics and private enterprise systems, the impact of global business, marketing of goods and services, advertising, and product pricing. Students analyze the sales process and financial management principles. This course allows students reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems and settings in business, marketing, and finance.

\section*{Prerequisites: None}

\section*{Money Matters (MONEYM)}
Course \#08931 Credits: \(1 / 2-1\)

PEIMS \#: 13016200
Grades: 9-12
Students will investigate global economics with emphasis on the free enterprise system and its impact on consumers and businesses. Students apply critical-thinking skills to analyze financial options based on current and projected economic factors. Students will gain knowledge and skills necessary to set long-term financial goals through investment, tax planning, asset allocation, risk management, retirement planning, and estate planning. This course may be entered at semester.
Prerequisites: Principles of Business, Marketing, and Finance recommended

\section*{Accounting I (ACCOUNT1)}

Course \#: 08838
Credits: 1
PEIMS \#: 13016600 Grades: 10-12

Students investigate the field of accounting, including how it is impacted by industry standards as well as economic, financial, fechnological, social, legal, and ethical factors. Students reflect on this knowledge as they engage in the process or recording, classifying, summarizing, analyzing, and communicating accounting information. Students formulate and interpret financial information for use in management decision making. This course cannot be entered at mid-term.
Prerequisites: Principles of Business, Marketing, and Finance recommended

\footnotetext{

\hline Banking and Financial Services (BANKFIN) \\
\hline Course \#: 08928 & Credits: 1 \\
\hline PEIMS \#: 13016300 & Grades: \(11-12\)
\end{tabular}

PEIMS \#: 13016300
Grades: 11-12
Students develop knowledge and skills in the economic, financial, technological, international, social, and ethical aspects of banking to become competent consumers, employees, and entrepreneurs. Students incorporate a broad base of knowledge that includes the operations, sales, and management of banking institutions to gain a complete understanding of how banks function within society.
Prerequisites: Principles of Business, Marketing and Finance recommended

\section*{Accounting II *(ACCOUNT2)}

Course \#: 08839
Credits: 1
PEIMS \#: 13016700
Grades: 11-12
Students continue the investigation of the field of accounting including how it is impacted by industry standards as well as economic, financial, technological, international, social, legal, and ethical factors. Students reflect on this knowledge as they engage in various managerial and cost accounting activities. Students formulate and interpret financial information for use in management decision making. Students will have the opportunity to complete the Everfi Financial Literacy certification. This course cannot be entered at mid-term.

\section*{Prerequisites: Accounting I}

\section*{Financial Mathematics (FINMATH)}

Course \#: 08939
Credits: 1
PEIMS \#: 13018000
Grades: 10-12
This course is about personal money management. Students will apply critical-thinking to analyze personal financial decisions based on current and projected economic factors including career and postsecondary education planning. Topics include employment earnings, taxation, credit, housing, transportation, investments, and insurance.
Prerequisites: Three math credits prior to enrollment

\section*{Hospitality and Tourism}

TEXAS IS A TOP TOURIST DESTINATION. People from around the globe come here to visit attractions such as the Alamo, Six Flags Over Texas, and Padre Island National Seashore.....all ranked among the top draws for tourists in the state. Untold millions enjoy our wealth of hotels, restaurants, theaters, museums, zoos, aquariums, rodeos, campgrounds, state and national parks, racetracks, cruises, and more. The job of keeping all those people happy falls to workers in Hospitality \& Tourism. Whether chefs, or concierges, travel agents or tour guides, park rangers or players for sports teams, the professionals in this cluster are expert at pleasing the public. If you want to see the world, enjoy serving others, or dream of opening a restaurant of bed and breakfast someday, then Hospitality \& Tourism may be the right cluster for you.

\section*{Culinary Arts}

Principles of Hospitality and Tourism
Grades: 9-11
Credit: ½

\section*{Principles of Hospitality and Tourism (PRINHOSP)}
Course \#: 08850 Credits: \(1 / 2\)
PEIMS \#: \(13022200 \quad\) Grades: 9-11

The hospitality and tourism industry encompasses lodging; travel and tourism; recreation, amusements, attractions, and resorts; and restaurants and food beverage service. The hospitality and tourism industry maintains the largest national employment base in the private sector. Students use knowledge and skills that meet industry standards to function effectively in various positions within this multifaceted industry. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.

\section*{Prerequisites: None}

\section*{Culinary Arts* (CULARTS)}
Course \#: \(08851 \quad\) Credits: 1
PEIMS \#: \(13022600 \quad\) Grades: 10-12

Culinary Arts begins with the fundamentals and principles of the art of cooking and the science or baking and includes management and production skills and techniques. Students can pursue a national sanitation certification (ServSafe) and internship course. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.
Prerequisites: Principles of Hospitality and Tourism recommended

\section*{Practicum in Culinary Arts* (PRACCUL)}
Course \#: 08852 Credits: 2
PEIMS \#: 13022700 Grades: 11-12

This course is a unique practicum that provides occupationally specific opportunities for students to participate in a learning experience that combines classroom instruction with actual industry career experiences in the culinary arts fields. The practicum course is a paid or unpaid capstone experience for students participating in a coherent sequence of career and technical education courses in the Hospitality and Tourism cluster. Students will have the opportunity to complete the ServSafe Food Safety Certification.
Prerequisites: Culinary Arts

\section*{Practicum in Culinary Arts II* (PRACCUL2)}

Course \#: 08853
PEIMS \#: 13022710
Credits: 2
PEIMS \#: 13022710
Grade: 12
This course is a continuation of Practicum in Culinary Arts. Students will be able to build on the culinary knowledge and skills gained in Practicum in Culinary Arts I. Students will be provided internship opportunities in appropriate industry locations.

\section*{Prerequisites: Practicum in Culinary Arts}

\section*{Information Technology}

TEXAS IS THE HEART AND SOUL OF THE INFORMATION TECHNOLOGY REVOLUTION. Our state is home to world-class high-tech companies such as Texas Instruments, Dell, and Advanced Microsystems. Countless smaller firms create computer games, set up custom networks, service computer equipment, or develop and manage websites. In fact, every business in Texas needs IT expertise, either from in-house staff or from outside vendors. Keeping electronic data flowing takes both technical expertise and problem-solving savvy. If you are good at grasping technology works, have an idea for a new website or computer game, or want a career that is always changing, then Information Technology may be the right cluster for you.

\section*{Information Technology}

\section*{Principles of Information Technology (PRINIT)}

\section*{Course \#: 08863}

Credits: 1
PEIMS \#: 13027200
Grades: 9-10
Students develop computer literacy skills to adapt to emerging technologies used in the global marketplace. Students implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the information technology environment. Students will have the opportunity to complete the IC3 certification. This course cannot be entered at mid-term.

\section*{Prerequisites: None}

\section*{Computer Maintenance (COMPMTN)}

Course \#: 08933
Credits: 1
PEIMS \#: 13027300 Grades: 9-12
Course \#: 08864
Credits: 2
PEIMS \#: 13027300
Grades: 9-12
Students acquire principles of computer maintenance, including electrical and electronic theory, computer hardware principles, and broad level components related to the installation, diagnosis, service, and repair of computer systems. To prepare for success, students must have opportunities to reinforce, apply and transfer knowledge and skills to a variety of settings and problems. Students will have the opportunity to complete the TestOut PC Pro certification. This course cannot be entered at mid-term.
Prerequisites: Principles of Information Technology recommended

Telecommunications and Networking* (TELECOMN)
Option for Dual Credit
Course \#: 08865
Credits: 1
PEIMS \#: 13027400
Grades: 9-12
Students develop knowledge of the concepts and skills related to telecommunications and data nełworking technologies and practices in order to apply them to personal or career development. To prepare for success, students will have opportunities to reinforce, apply, and transfer knowledge and skills to a variety of settings and problems. Students will have the opportunity to complete the TestOut Network Pro certification.
Prerequisites: Principles of Information Technology and Computer Maintenance or concurrent enrollment recommended

\section*{Computer Technician* (COMPTECH)}
\begin{tabular}{lr} 
Course \#: 08866 & Credits:2 \\
PEIMS \#: 13027500 & Grades: 10-12
\end{tabular}

PEIMS \#: 13027500
Grades: 10-12
Students gain knowledge and skills in the area of computer technologies, including advanced knowledge of electrical and electronic theory, computer principles, and components related the installation, diagnosis, service, and repair of computer-based technology systems. Students will reinforce, apply, and transfer their knowledge and skills to a variety of settings and problems. Proper use of analytical skills and application of information technology concepts and standards are essential to prepare students for success in a technology-driven society. The critical thinking, information technology experience, and product development may be conducted either in a classroom setting with an instructor, with an industry mentor, or both. Students will have the opportunity to complete the TestOut Security Pro certification.
Prerequisites: Computer Maintenance recommended Advanced CTE course

\section*{Computer Programming (COMPPROG)}

Course \#: 08867
Credits: 1
PEIMS \#: 13027600
Grades: 10-12
Students acquire knowledge of structured programming techniques in HTML5 and concepts appropriate to developing executable programs and creating appropriate documentation. Students analyze the social responsibility of business and industry regarding the significant issues relating to the environment, ethics, health safety, and diversity in society and in the workplace as it relates to computer programming. Students apply technical skills to address business applications of emerging technologies. This course may be taken for credit in languages other than English.
Prerequisites: Principles of Information Technology recommended

\section*{Digital and Interactive Media (DIMEDIA) \\ Course \#: 08869 \\ Credits: 1 \\ PEIMS \#: 13027800 \\ Grades: 10-12}

Through the study of digital and interactive media and its application in information technology, students will analyze and assess current and emerging technologies, while designing and creating multimedia projects that address customer needs and resolve a problem. Students implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. The knowledge and skills acquired and practiced will enable students to successfully perform and interact in a technology-driven society. Students enhance reading, writing, computing, communication, and critical thinking and apply them to the information technology environment. At ATEMS students will have the opportunity to complete certification in Adobe Photoshop and lllustrator. This course cannot be entered at mid-term.
Prerequisites: Principles of Information Technology recommended

\hline Problems and Solutions - Digital Marketing (PROBS 1) \\
\hline Dual Credit - Online \\
\hline Course \#: T8965 & \\
\hline PEIMS \#: 12701500 & Crades: \(11-12\) \\
\hline
\end{tabular}

Digital Marketing is the second year of sequence offered by TSTC. This is an online course taught on the two high school campuses, but offered for dual credit. The course will deal with digital signs and how they are programmed and used as a marketing tool in today's society. This course follows the course Digital and Interactive Media.
Prerequisites: Digital and Interactive Media

\section*{Problems And Solutions - Database And Web Programming (PROBS1)}

Dual Credit - Online
Course \#: 18964
Credits: 1
PEIMS \#: 12701500
Grade: 11-12
Database and Web Programming is the second year of sequence offered by TSTC. This is an online course taught on the two high school campuses, but offered for dual credit. The course will deal with programming web pages and the use of oracle as it relates to web design and programming. This course follows the course Web Technologies
Prerequisites: Web Technologies or concurrent enrollment

\section*{Research in Information Technology Solutions (RESITSOL)*}

Course \#: 08871
Credits: 2
PEIMS \#: 13028000
Grade: 12
This is a capstone course recommended for senior students at ATEMS. Students gain advanced knowledge and skills in the application, design, production, implementation, maintenance, evaluation, and assessment of products, services, and systems. Knowledge and skills in the proper use of analytical and application of information technology concepts and standards are essential to prepare students for success in a technologydriven society. Critical thinking, information technology experience, and product development may be conducted in a classroom setting with an industry mentor, as an unpaid internship, or as career preparation. A capstone project is required to successfully complete the course.
Prerequisites: A minimum of two high school information technology courses required

Grades: 11-12
Through the study of web technologies and design, students learn to make informed decisions and apply the decisions to the and interpersonal skills to prepare for a rapidly evolving workplace environment. The knowledge and skills acquired and practiced will enable students to successfully perform and interact in a technology-driven socieły. Students enhance think and com to infation, a thinking and apply them to the information technology certification in Adobe Flash and Adobe Dreamweaver.

Prerequisites. Principles of information Technology recommended

\section*{Manufacturing}

MANUFACTURING IS MAKING THINGS. Raw materials become products such as cars, computer chips, cell phones, contact lenses, cosmetics, clothes and more. Employees who create those products range from production-line workers in factories assembling parts to executives in skyscrapers overseeing global operations. Repetitive tasks that typically occur in manufacturing are being performed by robots and the automation process, which requires highly trained employees that can adapt to a variety of situations. Manufacturing today needs people who can understand highly technical information and make complex decisions. Workers are responsible for creative problem solving that ensures companies meet the highest quality standards. If you like building things, can follow detailed instructions, or are good at organizing people and processes, then Manufacturing could be the right career cluster for you.

\section*{Manufacturing}

\section*{Principles of Manufacturing (PRINMAN)}

Course \#: 08878
Credits: 1
PEIMS \#: 13032200
Grades: 9-12
In Principles of Manufacturing, students gain knowledge and skills in the application, design, production, and assessment of products, services, and systems and how those knowledge and skills are applied to manufacturing. Knowledge and skills in the proper application of principles of manufacturing, the design of technology, the efficient prediction of technology, and the assessment of the effects of manufacturing production technology prepare students for success in the modern world. The study of manufacturing technology allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities and problems in a manufacturing setting. In addition to general academic and technical knowledge and skills, students gain an understanding of career opportunities available in manufacturing and what employers require to gain and maintain employment in these careers. This course cannot be entered at mid-term. Currently offered in middle school.

\section*{Prerequisites: None}

Welding (WELD)
Course \#: C8879
Credits: 2
PEIMS \#: 13032300 Grades: 10-12
Rapid advances in technology have created new career opportunities and demands in many industries. Welding provides the knowledge, skills, technologies required for employment in metal technology systems. Students will have the opportunity to complete American Welding Society Sense certification. This course cannot be entered at mid-term. This course is offered on the Cooper High School and Woodson CE campuses but is open to all AISD students.
Prerequisites: Principles of Manufacturing or Principles of Architecture and Construction recommended
Advanced Welding* (ADVWELD)
Course \#: C8880 Credits: 2
PEIMS \#: 13032400
Grades: 11-12
Advanced Welding builds on knowledge and skills developed in Welding. Students will develop advanced welding concepts and skills as they relate to personal and career development, This course integrates academic and technical knowledge and skills, Students will have opportunities to reinforce, apply, and transfer knowledge and skills to a variety of settings and problems. Students will have the opportunity to complete the American Welding Society Sense certification. This course is offered on the Cooper High School and Woodson CE campuses but is open to all AISD students.
Prerequisites: Welding; Algebra I or Geometry
recommended

\section*{Practicum in Manufacturing* (PRACMANU)}
\begin{tabular}{lr} 
Course \#: \(08883 \quad\) Credits: 2 \\
\hline PEIMS \#: 13033000 & Grades: 12
\end{tabular}

PEIMS \#: 13033000
Grades: 12
The practicum course is a paid or unpaid capstone experience for students participating in a coherent sequence of career and technical education courses in the manufacturing cluster. The practicum is designed to give students supervised practical application of previously studied knowledge and skills.
Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience.
Prerequisites: Advanced Welding recommended

\section*{Principles of Architecture and Construction (PRINARCH) \\ Course \#: 08811 Credits: 1 \\ PEIMS \#: 13004200 Grades: 9-12}

This course provides an overview to the various fields of architecture, interior design, construction science, and construction technology. Achieving proficiency in decisionmaking and problem-solving is an essential skill for career planning and lifelong learning. Students use self-knowledge, educational, and career information to set and achieve realistic career and educational goals. Job-specific, skilled training can be provided through the use of training modules to identify career goals in trade and industry areas. Safety and career opportunities are included, in addition to work ethics and jobrelated study in the classroom such as communications; problem solving and critical thinking; Information Technology Applications; systems' safety, health, and environmental; leadership and teamwork; ethics and legal responsibilities; employability and career development; technical skills; introduction to hand tools; introduction to power tools; basic rigging; and reading technical drawings.

\section*{Prerequisites: None}
*Advanced CTE course

\section*{Marketing}

BUILDING A CAREER IN THE BOOMING FIELD OF MARKETING, SALES \& SERVICE STARTS WITH SELLING YOU. You need to think of yourself as a "product" and define the features and benefits that will attract your "customers"....the employers that might hire you. Your resume is like an advertisement telling your story clearly and compellingly by detailing the education, experience, and skills you have that qualify you for the job. Then, with persistence, comes an interview, during which you have to dress to impress, speak and listen well, and show that you can be a valuable member of the organization's team. Finally, you need to close the deal by following up with a thank-you note that makes a positive impact on the hirer. If you want to learn how to package yourself for success, sell any type of product or service, or serve all kinds of customers, then Marketing may be the right cluster for you.

\section*{Principles of Business, Marketing and Finance Grades: 9-11 \\ Credit: \(1 / 2-1\)}

\section*{Transportation, Distribution, and Logistics}

TEXAS IS ON THE MOVE. Every day, everywhere in the northern, southern, eastern, and western parts of the state, people and products travel hundreds of thousands of miles of roads, waterways, railroad tracks, and air routes......all because of those who work in Transportation, Distribution \& Logistics. These professionals are responsible for ensuring that all the properly maintained vehicles and the right plans are in place so that everyone and everything gets to the right place on time at the lowest possible cost. They are experts at planning and project management, increasingly using technology such as Global Positioning System (GPS) satellites and Radio Frequency Identification (RFID) tags to track the location of shipments. If you are a mover and shaker, have a talent for organization, or yearn to see new places, then Transportation, Distribution \& Logistics could be the right career cluster for you.

Automotive services include knowledge of the function of the major automotive systems and the principles of diagnosing and servicing these systems. In Automotive Technology, students gain knowledge and skills in the repair, maintenance, and diagnosis of vehicle systems. This study allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. The focus of this course is to teach the theory of operation of automotive vehicle systems and associate repair practices. This course is offered at Abilene High only but is open to all AISD students.
Prerequisites: Principles of Transportation, Distribution, and Logistics recommended
Advanced Automotive Technology* (ADVAUTOT)
Course \#: 08896
Credits: 2
PEIMS \#: 13039700
Grades: 11-12
Automotive services include advanced knowledge of the function of the major automotive systems and the principles of diagnosing and servicing these systems. In Advanced Automotive Technology, students gain knowledge and skills in the repair, maintenance, and diagnosis of vehicle systems. This study allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. The focus of this course is to teach the theory of operation of automotive vehicle systems and associated repair practices. Students will have the opportunity to complete the Section 609 MVAC Technician certification. This course is offered at Abilene High only but is open to all AISD students.
Prerequisites: Automotive Technology recommended

Practicum in Transportation, Distribution, and Logistics* (PRACTDL)
Course \#: 08897
Credits: 2
PEIMS \#: 13040400
Grades: 12
The practicum course is a paid or unpaid capstone experience for students participating in a coherent sequence of courses in the Transportation, Distribution, and Logistics cluster. The Practicum is designed to give students supervised practical application of knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience, such as internships, mentorships, independent study, or laboratories. This course is offered at Abilene High only but is open to all AISD students. Prerequisites: Advanced Automotive Technology recommended

\section*{Public}

\section*{Services}

\section*{Endorsement}

Subject to State Board of Education approval and updates:
A student may earn a Public Services Endorsement by completing the following requirements:
1. a coherent sequence of courses for four or more credits in CTE that consists at least two courses in the same career cluster, including at least one advanced CTE course which includes any course that is the third of higher course in a sequence. The final course in the sequence must be selected from one of the CTE career clusters listed in the following:
- Education and Training
- Government and Public Administration
- Health Science
- Human Services
- Law, Public Safety, Corrections and Security; or
2. four credits in Junior Reserve Officer Training Corps (JROTC)

\section*{Education and Training}

TEACHING, THEY SAY, IS THE PROFESSION THAT MAKES ALL OTHER PROFESSIONS POSSIBLE. The people who work in Education \& Training instill the knowledge and skills everyone, from preschoolers to adult learners, needs to succeed. These caring, capable, and committed professionals help prepare their students for the many rewards and challenge that personal, professional, and civic life brings. If you yearn to learn, feel a calling to teach, or would like to work in a favorite subject area, then Education \& Training could be the right career cluster for you.

\section*{Education and Training (suggested sequence of courses)}

\section*{Education and Training}

\section*{Principles of Education and Training (PRINEDTR)}

Course \#: 08833 Credits: 1
PEIMS \#: \(13014200 \quad\) Grades: 9-12
Principles of Education and Training is designed to introduce learners to the various careers available within the education and training career cluster. Students use self-knowledge and educational and career information to analyze various careers within the education and training career cluster. Students will also gain an understanding of the basic knowledge and skills essential to careers within the education and training career cluster. Students will develop a graduation plan that leads to a specific career choice in the student's interest area.

\section*{Prerequisites: None}

\section*{Human Growth and Development (HUGRDEV)}

\section*{Course \#: 08936}

Credits: 1
EIMS \#: 13014300
Grades: 10-12
This course is an examination of human development across the lifespan with emphasis upon research, theoretical perspectives, and common physical, cognitive, emotional, and social developmental milestones. The course covers material tha is generally taught in a postsecondary, one-semester introductory course in developmental psychology or human development.
Prerequisites: Principles of Education Recommended

\section*{Child Development (CHILDDEV)}

Course \#: 08857
Credits: \(1 / 2\)
PEIMS \#: 13024700 Grades: 10-12
This technical laboratory course addresses knowledge and skills related to child growth and development from prenatal through school-age children, equipping students with child development skills, Students use these skills to promote the well-being and healthy development of children and investigate careers related to the care and education of children. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.

\section*{Prerequisites: None}

\footnotetext{
*Advanced CTE course
}

\section*{Instructional Practices in Education and Training* (INPREDTR)}

\section*{Course \#: 08835}

PEIMS \#: 13014400 Grades: 11-12
This course is a field-based internship which provides students background knowledge of child and adolescent development principles as well as principles of effective teaching practices. Class time is divided between classroom instruction on a high school campus and lab training in an AISD elementary classroom. Students gain practical experiences as teacher aides by planning, preparing, and presenting activities to elementary students while assisting the elementary classroom teacher.

\section*{Prerequisites: Principles of Education \& Training} recommended

\section*{Practicum in Education and Training* (PRACEDTR)}
\begin{tabular}{lr}
\hline Course \#: 08836 & Credits: 2 \\
\hline PEIMS \#: 13014500 & Grades: 12 \\
\hline
\end{tabular}

This second-year course is a continuation of Instructional Practices in Education and Training and extends training for teacher aides at the elementary level. The student will serve as a teacher's aide in various programs in the AISD including prekindergarten, deaf education, art, music, speech pathology, and other special programs.
Prerequisites: Instructional Practices in Education and Training recommended

\section*{Government and Public Administration}

Individuals who choose a career in the military are committed to maintaining a strong national defense. Responsibilities within the military services involve a wide range of activities-from running a hospital to commanding a tank; from programming computers to operating a nuclear reactor; from repairing and maintaining helicopters to preparing and serving meals to hundreds of military personnel. Enlisted personnel comprise 85\% of the Armed Forces and carry out the fundamental operations of the military in such areas as combat, administration, construction, engineering, health care, and human services.

\section*{Military Science}

\section*{Military Science/JROTC}

\section*{AIR FORCE JUNIOR RESERVE OFFICER TRAINING CORPS (AFJROTC)}

\section*{General Qualifications:}
\(>\) Cadets must be able to perform physical training/exercise to include up to a mile and half run, push-ups and sit ups.
\(>\) Cadets are required to comply with AFJROTC grooming standards (hair/shave/makeup) and be of good moral character.
> Air Force issued uniforms will be worn once a week and at other times as directed
\(>\) Activity fee required.

\section*{Program Benefits:}
\(>\) Cadets will be taught life skills, discipline, citizenship, how to lead people and manage resources
> Cadets are provided books and uniforms at no cost.
> Cadets do not incur military service obligations.
\(>\) Students may take AFJROTC in lieu of Physical Education.
\(>\) Cadets can participate in extracurricular activities: Drill Teams, Rocket Teams, PT Teams, etc.
> Cadets who successfully complete the AFJROTC program and enlist in one of the military services may begin their military career at higher rank and pay grade. (Subject to change and as directed by each military service.)
> Senior ROTC scholarships are available for qualified applicants.
> Nominations to service academies are available for qualifying students.

\section*{Program Components:}

The Air Force Junior Reserve Officer Training Corps (AFJROTC) course of study consists of three (3) major program components which are taught over four years. The curriculum is instrumental in developing citizens of character dedicated to serving our nation and communities:
1. Leadership Education (LE): Leadership Education courses are focused on AFJROTC mission, standards, drill, and discipline. This includes, but is not limited to courses of instruction in: Citizenship, customs and courtesies; Effective communication and leadership skills; introduction to career opportunities/life skills and tools for success after high school whether that be in college, civilian or military careers; importance of managers, management, and characteristics of what it takes to be a good leader.
2. Aerospace Science (AS): Aerospace Science is a broad area of study introducing cadets to patriotism, national security, fundamentals of aerodynamics, rocketry, space/astronomy, aerospace history, and people, governments and cultures. The senior cadets also learn how to manage the cadet corps. Cadets are encouraged to complete high school, pursue higher educational goals and skills, and even consider the Air Force or other military service as a possible career path.
3. Wellness and Fitness (PT): Wellness is an official and integral part of the AFJROTC program which consists of exercise programs focused upon individual base line improvements with the goal of achieving a national standard as calculated by age and gender. The Wellness curriculum is instrumental in developing citizens of character dedicated to serving our nation and communities.

\section*{Air Force Junior Reserve Officers Training Corps (SUBJ1)/(ROTC1)}

Course \#: 04910 (PE credit) Credits: 1
Course \#: 09161
PEIMS \#: PES00004 (PE credit)
PEIMS \#: 03160100
Grades: 9-12

AFJROTC I consists of: (1) Leadership Education which introduces cadets to the AFJROTC mission, objectives, dress and appearance, drill and ceremony, discipline, respect, values, and ethics. (2) Aerospace Science which explores the development of flight throughout the centuries. (3) Wellness which focuses on physical fitness through exercise and team building. This course satisfies the state Physical Education credit requirement if the student has not already satisfied this credit.

\section*{Prerequisites: None}

\section*{Air Force Junior Reserve Officers Training Corps II (ROTC 2)}

Course \#: 09263
Credits: 1
PEIMS \#: 03160200
Grades: 9-12
AFJROTC II consists of: (1)Leadership Education which stresses communication skills, personal awareness, and group/team dynamics. (2) Aerospace Science offers either Science of Flight, which focuses on how airplanes fly, weather, how flight affects the human body, and flight and land navigation or An Introduction to Global Awareness which delves into the history, religion, languages, economics, social issues, environmental concerns and human rights of countries around the globe. (3) Wellness focuses on physical fitness through exercise and team building.
Prerequisites: None

\section*{Air Force Junior Reserve Officers Training Corps III (ROTC 3)}

Course \#: 09265 Credits: 1
PEIMS \#: 03160300 Grades: 9-12
AFJROTC III consists of: (1) Leadership Education which helps students plan for life after high school - college, finding a job, and financial planning are a few of the topics covered. (2) Aerospace Science studies the space environment, manned space flight and exploration, and the latest advances in space technology (3) Wellness focuses on physical fitness through exercise and team building.

\section*{Prerequisites: None}

\section*{Air Force Junior Reserve Officers Training Corps IV (ROTC 4)}

Course \#: 09367
PEIMS \#: 03160400
Grade 12
AFJROTC consists of: (1) Leadership Education which provides exposure to fundamentals of leadership and management. (2) Aerospace Science which explores Policy and Organization pertaining to the military services and the United States National Security Strategy. (3) Wellness focuses on physical fitness through exercise and team building. Senior cadets are responsible for the leadership and operation of the Corps.
Prerequisites: Senior or graduating junior; ROTC I, II, or III or interview.
```

For more information on the JROTC Program, please contact the Air Force JROTC instructors at either Abilene High or Cooper High Schools.

```

\section*{Health Science}

Careers in Health Sciences involve the promotion and maintenance of good health and the prevention and treatment of disease as well as providing diagnostic, therapeutic, and environmental services in the medical, dental, surgical, and related health care industries. If you would like to help other people live active, healthy lives, help them recover from illness or injury, or help people cope with ongoing illness, this career area will be of great interest to you. Careers in the health field require specialized training and certifications or licenses in the occupation. There is a big demand for qualified workers in all health-related careers.

\footnotetext{
*Advanced CTE course
}

\section*{Health Science}

Most of the following Health Science courses are offered at Holland Medical High School located on the campus of Hardin-Simmons University. Holland is open to all AISD students in the 11 th or 12 th grade who have completed the required prerequisites at their home campus. Students interested in attending Med High should talk to their school counselor or the Health Science teacher at their school. See page 31 for more information on Holland Medical High School

\section*{Principles of Health Science (PRINHLSC)}

Option for Dual Credit
Course \#: 08841
Credits: 1
PEIMS \#: 13020200
Grades: 10-12
This course is an overview of the various systems in the health care industry. Examples of topics covered in this course include: careers in health care, personal qualities of health care professionals, and legal and ethical issues in health care. The students will also be given instruction in basic anatomy and physiology topics. In addition, the student will be instructed in various health care skills such as taking vital signs, body mechanics, infection control, and CPR/First Aid. This course is available at Abilene High, Cooper High and Holland Medical and is a prerequisite for courses at Holland Medical High School It cannot be entered at mid-term.
Prerequisites: Medical Terminology and Biology or concurrent enrollment recommended

\section*{Medical Terminology* (MEDTERM)}

Option for Dual Credit
Course \#: 08842 Credits: \(1 / 2\)
PEIMS \#: 13020300
Grades: 9-12
As an introduction to medical terms, this course is designed to give students a basic vocabulary and understanding of the language of medicine. Students will learn how to define medical terms by breaking the words down into the components such as prefixes, suffixes, and word roots. Students will also be introduced to basic medical charting and abbreviations. The topics in this course are designed to assist students in future courses related to health science. This course is available at Abilene High and Cooper High
Prerequisites: None

\section*{Practicum in Health Science -Certified Nurse Aide* (HLTHSCI)}

Course \#: 08916
Credits: 2
PEIMS \#: 13020500 Grades: 11-12 (must be 16 by Nov 1)
A course designed to provide for the development of multioccupational knowledge and skills related to a wide variety of health careers. Students will have hands-on experiences for continued knowledge and skills development. During the fall semester students will participate in a Texas Department of Health approved Nurse's Aide certification program. During the spring semester students will participate in clinical rotations at participating local health care facilities. This course cannot be entered at mid-term. This course is only available at Holland Medical High.
Prerequisites: Principles of Health Science and Biology

\section*{Practicum in Health Science - Diversified Healthcare Skills* (HLTHSCI)}

Course \#: 08924
Credits: 2
PEIMS \#: 13020500
Grades: 11-12
This Health Science course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Students will have hands-on experiences for continued knowledge and skill development. At the completion of this course students will engage in an unpaid work-based experience. This course prepares the student for transition into further training or work-based experience in healthcare. This course cannot be entered at mid-term. This course is only available at Holland Medical High.
Prerequisites: Principles of Health Science and Biology

\section*{Practicum in Health Science II- Medical Assistant* (PRACHLSC)}
Course \#: 08915 Credits: 2

PEIMS \#: 13020510
Grade: 12
This practicum is designed to provide the knowledge and skills for students to obtain national-approved medical assistant certifications. In the fall, students are offered a certification as a Certified Electrocardiograph Technician (CET). This semester consists of learning how to perform an EKG and patient monitoring during cardiac procedures, and interpreting EKG results. In the spring, students are offered a certification as a Certified Clinical Medical Assistant. This semester consists of learning skills such as patient history and assessment, minor office procedures, phlebotomy, EKG, specimen collection and frontoffice admission skills. Students will do clinicals at the hospital and physician offices. This course cannot be entered at midterm. This course is only available at Holland Medical High.
Prerequisites: Principles of Health Science and Biology required; Practicum in Health Science-Certified Nurse Aide recommended

\section*{Practicum in Health Science II- Pharmacy Technician* (PRACHLSC)}

Course \#: 08914
Credits: 2
PEIMS \#: 13020510
Grade: 12
This practicum is designed to give students the knowledge and skills to complete the national certification test for Pharmacy Technician. The practicum course provides an unpaid capstone experience for students participating in the health science coherent sequence. This course is only available at Holland Medical High.
Prerequisites: Principles of Health Science required; Practicum in Health Science and Chemistry recommended

\footnotetext{
*Advanced CTE course
}

\section*{Practicum in Health Science II - Dental Assistant* (PRACHLSC)}

Course \#: 08927
Credits: 2
PEIMS \#: 13020510
Grade: 12
This practicum is designed to give students the knowledge and skills to complete the state certification test for Registered Dental Assistant. Students will have the opportunity to complete up to three of the certifications recognized in the state certification test. This practicum provides an unpaid internship in a dental office. This course is only available at Holland Medical High.
Prerequisites: Principles of Health Science

\section*{Practicum in Health Science II- Certified Nurse Aide* (PRACHLSC)}

Course \#: 08923 Credits: 2
PEIMS \#: 13020510
Grades: 12
A course designed to provide for the development of multioccupational knowledge and skills related to a wide variety of health careers. Students will have hands-on experiences for continued knowledge and skills development. During the fall semester students will participate in a Texas Department of Health approved Nurse's Aide certification program. During the spring semester students will participate in clinical rotations at participating local health care facilities. This course cannot be entered at mid-term. This course is only available at Holland Medical High.
Prerequisites: Principles of Health Science, Biology, and Practicum in Health Science-Diversified Healthcare Skills

\section*{Anatomy and Physiology* (ANATPHYS)}

Course \#: 08847
Credits: 1
PEIMS \#: 13020600
Grades: 11-12
This course introduces a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis. Students conduct laboratory investigations, use scientific methods during investigations, and make informed decisions using critica thinking and scientific problem-solving. Note: This course can count as the fourth year of science for graduation requirements for students entering 9th grade in 2007-2008.
Prerequisites: Biology and Chemistry recommended

\section*{Medical Microbiology* (MICRO)}

Course \#: 08848 Credits: \(1 / 2\) Science credit
PEIMS \#: 13020700
Grades: 11-12
Students in Medical Microbiology explore the microbial world, studying topics such as pathogenic and non-pathogenic microorganisms, laboratory procedures, identifying microorganisms, drug resistant organisms, and emerging diseases. Note: This course, coupled with Pathophysiology, can count as the fourth year of science for graduation requirements This course is only available at Holland Medical High.
Prerequisites: Biology and Chemistry (may be taken concurrently)
*Advanced CTE course

\section*{Pathophysiology* (PATHO)}

Option for Dual Credit

\section*{Course \#: 08849}

PEIMS \#: 13020800

\section*{Credits: ½ Science credit}
in Pathophysiology, students conduct laboratory and field investigations, using scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Pathophysiology study disease processes and how humans are affected. An emphasis is placed on prevention and treatment of disease. Students will differentiate between normal and abnormal physiology. Note: This course, coupled with Medical Microbiology, can count as the fourth year of science for graduation requirements. This course is only available at Holland Medical High.
Prerequisites: Biology, Chemistry, Medical Microbiology; Anatomy and Physiology highly recommended

\section*{Problems \& Solutions - Phlebotomy (PROBS1)}

Course \#: 08950
Credits: \(1 / 2\)
PEIMS \#: 12701500 Grade: 12
Phlebotomy is an independent study course taught on the campus of TSTC, offered as a continuing education credit. This course usually meets three nights a week during the spring semester. Phlebotomy provides a general overview of techniques, procedures and issues pertaining to the proper collection of blood specimens for routine clinical laboratory testing in order to develop well-trained, proficient and professional phlebotomists. Students will learn proper patient contact and procedures; phlebotomy techniques, procedures and equipment; the anatomy and physiology of the circulatory system; and laboratory organization and measurement. Training includes 84 hours of classroom instruction and clinical hours determined by the successful completion of 100 combined vein puncture and finger/heel sticks for students to receive a National Phlebotomy certification. This course is only available at Holland Medical High.
Prerequisites: Principles of Health Science

\section*{Problems \& Solutions - Research and Design (PROBS1)}

Course \#: 08952
Credits: 1
PEIMS \#: 12701500
Grade: 12
This independent study course is a project-based learning experience developed by a student or group of students and an interdisciplinary mentor team. The project provides opportunities for an in-depth study of at least one aspect of the healthcare industry. The student or group demonstrates the ability to utilize a variety of resources, advanced technology, and communication skills in the development and presentation of the project. This course meets one of the advanced measures of the Distinguished Achievement plan for graduation. This course is only available at Holland Medical High.
Prerequisites: Principles of Health Science, Practicum in Health Science

\section*{Human Services}

It takes a special person to work in Human Services. Although many jobs in the cluster pay well, those who choose Human Services generally don't do it for the money. Instead, they are motivated by the desire to assist others. Psychologists, therapists, counselors, social workers, health aides, cosmetologists, financial planners, clergy members, and others tend to the physical, mental, and spiritual needs of people in their hometowns. They offer helping hands to everyone from babies in child-care centers to seniors in long-term care facilities. The work is sometimes challenging, but the reward of knowing that you improved someone's life is immense. If you feel a calling to serve your fellow men and women, feel comfortable caring for people, or want to improve your community, then Human Services could be the right career cluster for you.

\section*{Human Services}

\section*{Principles of Human Services (PRINHUSR)}

Course \#: 08854
Credits: \(1 / 2\)
PEIMS \#: 13024200
Grades: 9-12
This laboratory course will enable students to investigate careers in the human services career cluster, including counseling and mental health, early childhood development, family and community, and personal care services. Each student is expected to complete the knowledge and skills essential for success in high-skill, high-wage, or high-demand human services careers. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.
Prerequisites: None

\section*{Dollars and Sense (DOLLARSE)}

\section*{Course \#: 08855}

Credits: 1/2
PEIMS \#: 13024300
Grades: 10-12
Dollars and Sense focuses on consumer practices and responsibilities, the money management process, decisionmaking skills, impact of technology, and preparation for human services careers. Students are encouraged to participate in career and technical student organizations and other leadership organizations
Prerequisites: None

\section*{Interpersonal Studies (INTERSTU)}

Course \#: 08905
Credits: 1/2
PEIMS \#: 13024400
Grades: 10-12
The course examines how the relationships between individuals and among family members significantly affect the quality of life. Students use knowledge and skills in family studies and human development to enhance personal development, foster quality relationships, promote wellness of family members, manage multiple adult roles, and pursue careers related to counseling and mental health services. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.
Prerequisites: Principles of Human Services
recommended

\section*{Lifetime Nutrition and Wellness (LNURTWEL)}
```

Course \#: }0885
Credits: }

```

PEIMS \#: 13024500 Grades: 10-12
This laboratory course allows students to use principles of lifetime wellness and nutrition to help them make informed choices that promote wellness as well as pursue careers related to hospitality and tourism, education and training, human services, and health sciences. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations. This course cannot be entered at mid-term.
Prerequisites: Principles of Human Services or Principles of Hospitality and Tourism or Principles of Education and Training recommended

\begin{abstract}
Child Development (CHILDDEV)
Course \#: 08857
Credits: \(1 / 2\)
PEIMS \#: 13024700
Grades: 10-12
This technical laboratory course addresses knowledge and skills related to child growth and development from prenatal through school-age children, equipping students with child development skills, Students use these skills to promote the well-being and healthy development of children and investigate careers related to the care and education of children. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.
\end{abstract}

Prerequisites: None

\section*{Child Guidance I* (CHILDGUI)}

Course \#: 08858
Credits: 2
PEIMS \#: 13024800
Grades: 10-12
This course is designed to allow students an opportunity to develop the occupational skills necessary for teaching young children. The student will serve as a teacher's assistant in Abilene daycare centers. During the first semester students will receive classroom instruction on planning, preparing, and presenting activities to pre-school children and will study the various stages of child development. During the second semester students will be assigned to an area day care facility and will receive practical experiences in teaching and attending young children. Students will begin compiling documentation for the Child Development Associate certification.
Prerequisites: Principles of Human Services and Child Development recommended

\section*{Practicum in Human Services* (PRACHUSR)}
```

Course \#: 08859
Credits: 2

```

\section*{PEIMS \#: 13025000}

Grades: 11-12
During this second-year course the students continue training in local daycare centers. Classroom instruction will prepare students for the Child Development Associate certification exam. Prerequisites: Child Guidance I

\section*{Introduction to Cosmetology (INTCOSMO)}

\section*{Course \#: 08860}

Credits: 1
PEIMS \#: 13025100
Grades: 10
Students explore areas such as bacteriology, sterilization and sanitation, hair styling, basic manicuring, scalp and hair conditionings, and basic facials. The student researches careers in the personal care services industry. To prepare for success, students must have skills relative to this industry, as well as academic knowledge and skills. Students may begin to earn clock hours toward state licensing requirements. This course is offered on the Abilene High campus but is open to all AISD students.
Prerequisites: Principles of Human Services recommended

\section*{Cosmetology I* (COSMET1)}

Course \#: 08861
Credits: 3
PEIMS \#: 13025200
Grades: 11-12
Students coordinate integration of academic, career, and technical knowledge and skills in this laboratory instructional sequence course designed to provide job-specific training for employment in cosmetology careers. Instruction includes sterilization, sanitation procedures, hair care, nail care, and skin care and meets the Texas Department of Licensing and Regulation requirements for licensure upon passing the state examination. Analysis of career opportunities, requirements, expectations, and development of workplace skills are included. This course is offered on the Abilene High campus but is open to all AISD students.
Prerequisites: Introduction to Cosmetology
recommended

\section*{Cosmetology II* (COSMET2) \\ Course \#: 08862 \\ Credits: 3 \\ PEIMS \#:13025300 Grades: 12}

Students review academic knowledge and skills related to cosmetology. This course is designed to provide advanced training for employment in cosmetology careers. Instruction includes advanced training in sterilization and sanitation processes, hair care, nail care, and skin care and meets the Texas Department of Licensing and Regulation requirements for licensure upon passing the state examination. Students apply, combine, and justify knowledge and skills to a variety of settings and problems. This course is offered on the Abilene High campus but is open to all AISD students.
Prerequisites: Cosmetology I

\section*{Law, Public Safety, Corrections and Security}

SIRENS SCREAM. BOMBS EXPLODE. BULLETS FLY. This is the image that many people have of careers in Law, Public Safety, Corrections \& Security. The truth is that those things do happen occasionally, but mostly careers in this cluster don't involve constant danger. Instead, they concern the important daily duties of protection and serving the public. What folks in these careers crave is the peace and quiet.....that means that people and property are safe. As homeland security has become more and more of a concern, demand for people to protect sites as varied as skyscrapers and seaports, airports and reservoirs, and nuclear power plants and military bases has skyrocketed. If you have a calling to serve others, can keep a cool head under pressure, or love the law, then a career in Law, Public Safety, Corrections \& Security could be the right decision for you.

Law Enforcement

Principles of Law, Public Safety, Corrections and Security

Grades: 9-12

Law Enforcement I
Grades: 10-12
Credit: 1

*Advanced CTE course

\section*{Law, Public Safety, Corrections, and Security}

Principles of Law, Public Safety, Corrections, and Security (PRINLPCS)

\section*{Course \#: 08873 \\ Credits: 1}

PEIMS \#: 13029200
Grades: 9-12
Principles of Law, Public Safety, Corrections, and Security introduces students to professions in law enforcement, security, corrections and fire and emergency management services. Students will examine the roles and responsibilities of police, courts, corrections, private security, and protective agencies of fire and emergency services. The course provides students with an overview of the skills necessary for careers in law enforcement, fire service, security, and corrections. At Cooper High students will have the opportunity to complete certification in First Aid/CPR/AED.
Prerequisites: None

\section*{Law Enforcement I (LAWENF1)}

Course \#: 08874
Credits: 1

\section*{PEIMS \#: 13029300}

Grades: 10-12
Law Enforcement I is an overview of the history, organization, and functions of local, state, and federal law enforcement. This course includes the role of constitutional law, the United States legal system, criminal law, law enforcement terminology, and the classification and elements of crime. This course cannot be entered at mid-term.
Prerequisites: Principles of Law, Public Safety, Corrections, and Security recommended

\section*{Law Enforcement II* (LAWENF2)}

\section*{Course \#: 08875}

Credits: 1
PEIMS \#: 13029400 Grades: 11-12
Law Enforcement II provides the knowledge and skills necessary to prepare for a career in law enforcement. This course includes the ethical and legal responsibilities, operation of police and emergency telecommunication equipment, and courtroom testimony. Students will have the opportunity to complete certification in National Association of Emergency Dispatchers. This course cannot be entered at mid-term.
Prerequisites: Law Enforcement I recommended

\section*{Court Systems and Practices* (COURTSP)}

Course \#: 08876
Credits: 1
PEIMS \#: 13029600
Grades: 11-12
Court Systems and Practices is an overview of the federal and state court systems. The course identifies the roles of judicial officers and the trial processes from pretrial to sentencing and examines the types and rules of evidence. Emphasis is placed on constitutional laws for criminal procedures such as search and seizure, stop and frisk, and interrogation. This course cannot be entered at mid-term.
Prerequisites: Law Enforcement I recommended

\section*{Correctional Services* (CORRSRVS)}

Course \#: 08877
Credits: 1
PEIMS \#: 13029700
Grades: 11-12
In Correctional Services, students prepare for certification required for employment as a correctional officer. The student will learn the role and responsibilities of a correctional officer; discuss relevant rules, regulations and laws; and discuss defensive tactics, restraint techniques, and first aid procedures as used in the correctional setting. The student will analyze rehabilitation and alternatives to institutionalization. This course cannot be entered at mid-term.
Prerequisites: Law Enforcement I recommended

\section*{Security Services* (SECSRVS)}

\section*{Course \#: 08926}

Credits: 1
PEIMS \#: 13029800
Grades: 11-12
Security Services provides the knowledge and skills necessary to prepare for certification in security services. The course provides an overview of security elements and types of organizations with a focus on security measures used to protect lives, property, and proprietary information. This course cannot be entered at midterm.
Prerequisites: Law Enforcement I recommended

Multidisciplinary
}

\section*{Studies}

\section*{Endorsement}

\section*{Subject to State Board of Education approval and updates:}

A student may earn a Multidisciplinary Studies endorsement by completing the following requirements:
1. four advanced courses that prepare a student to enter the workforce successfully or postsecondary education without remediation from one endorsement area or among endorsement areas that are not in a coherent sequence; or
2. four credits in each of four foundation subject areas (four English, four math, four science, four social studies) to include English IV or College Prep ELA and chemistry and/or physics; or
3. four credits in Advanced Placement courses or International Baccalaureate courses, or dual credit selected from English, mathematics, science, social studies, economics, languages other than English or fine arts.

\section*{Core}

Academic
Courses

\section*{Economics with Emphasis on the Free Enterprise System and its Benefits (ECO-FE)}

\section*{Course \#: 07361}

Credits: \(1 / 2\)
PEIMS \#: 03310300
Grades:11-12
The focus in this course is on the basic principles concerning production, consumption, and distribution of goods and services in the United States and a comparison with those in other countries around the world. Students examine the rights and responsibilities of consumers and businesses. Students analyze the interaction of supply, demand, and price, and study the role of financial institutions in a free enterprise system.
Prerequisites: None

\section*{AP Macroeconomics (APMACECO)}

\section*{Course \#: 07304}

\section*{Credits: \(1 / 2\)} Grades: 11-12

This course prepares students to take the College Board Macroeconomics AP Exam. This course is designed to give students a thorough knowledge and understanding of economic principles that apply to the economy as a whole. The course stresses the study of national income and price determination, economic performance measures, economic growth, and international economics. Students are expected to take the AP examination.

\section*{Prerequisites: None}

\section*{English Language Arts and Reading}

\section*{English I (ENG 1)}

Course \#: 01121 Credits: 1
PEIMS \#: 03220100
Grades: 9-12
This course focuses on an integration of writing (grammatical concepts, usage, capitalization, punctuation, and spelling) with literature. It also focuses on reading improvement through drama, short story, poetry, novel, and epic. Students will learn literary forms and terms associated with selections read.
Preparation for End of Course testing will be included.
Prerequisites: None

\section*{PreAP English I (ENG 1 PREAP)}

Course \#: 01101
Credits: 1
PEIMS \#: 03220100
Grades: 9-12
Using the study of various literary genres as a base, emphasis is placed on critical thinking skills by discovering meaning in literature through language, imaging, characters, action, argument, strategies, and techniques used. Writing focuses on interpretation, analysis, and creativity. PreAP classes are a sequential program designed to lead to Advanced Placement credit. Preparation for End of Course testing will be included.
Prerequisites: Summer reading as required by teacher

\section*{English II (ENG 2)}

Course \#: 01221
Credits: 1
PEIMS \#: 03220200
Grades: 10-12
This course includes an integrated program of writing and reading skills. The literature units will include poetry, novels, Shakespearean drama, and short stories. Students will write multiparagraph compositions. Preparation for End of Course testing will be included.
Prerequisites: English I

\section*{PreAP English II (ENG 2 PREAP)}

\section*{Course \#: 01201}

Credits: 1
PEIMS \#: 03220200 Grades: 10-12
The PreAP English II course is a continuation of PreAP English I.
Using world literature as a base, subject matter will be covered in greater depth, and analytical reasoning skills will be further developed. PreAP classes are a sequential program designed to lead to Advanced Placement college credit. Preparation for End of Course testing will be included.
Prerequisites: English I, summer reading as required by teacher

\section*{English III (ENG 3)}

Course \#: 01321
Credits: 1
PEIMS \#: 03220300
Grades: 11-12
This course will emphasize a study of American literature, literary criticism, and techniques for writing the research paper along with other forms of communication. A focus on literary forms and terms will continue.
Prerequisites: English I and English II

\begin{abstract}
AP English III (APENGLAN)
Course \#: 01301
Credits: 1
PEIMS \#: A3220100
Grades: 11-12
Advanced Placement English III, which emphasizes preparation for the AP English Language and Composition test, uses works in American literature to teach techniques of analysis, synthesis, and evaluation applicable to any written, spoken, or graphic English composition. In addition, a research project is required. Students are expected to take the AP Exam.
Prerequisites: English I and English II, summer reading as required by teacher
\end{abstract}
```

English IV (ENG 4)
Course \#: 01421
PEIMS \#: 03220400
Credits: }
Grade: 12

```

This course is a survey of British literature and the development of the English language, which gives the college bound student a background in the history and culture of the English-speaking peoples. Reading, grammar, usage, mechanics, and composition skills are integrated into the literature units. Course research projects emphasize literary criticism.
Prerequisites: English I, English II and English III

\section*{AP English IV (APENGLIT)}

\section*{Course \#: 01405}

Credits: 1
PEIMS \#: A3220200
Grade: 12
The Advanced Placement English IV course is a college level course with emphasis placed on training students to become skilled readers and writers in diverse genres and modes of composition. Utilizing world literature as a base, the AP course will concentrate on individual interpretation and response. Students are expected to take the AP English Literature and Composition exam.
Prerequisites: English I, English II and English III, summer reading as required by teacher

\section*{Business English (BUSENGL)}

Course \#: 08908 Credits: 1
PEIMS \#: 13011600
Grade: 12
This course is designed to prepare students for a rapidly evolving global business environment. Students apply technical skills to address business applications of emerging technologies.
Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business environment. Course requirements include planning, drafting, and completing written compositions on a regular basis; editing papers for clarity, language, and the correct use of written English; and producing error-free documents suitable for business.
Prerequisites: English III

\section*{Independent Study in English (IND ENG)}

\section*{Course \#: 01435}

Credits: 1
PEIMS \#: 03221800
Grade: 12
This course provides students an opportunity to do additional advanced work in English. Students will be given opportunities to conduct research, produce original works in print, develop an advanced communication-related skill, or do advanced study in a specific area of interest.
Prerequisites: English III, teacher approval and concurrent enrollment in English IV

\section*{Independent Study in English: Hebrew Scriptures (HEBSCEN)}

Course \#: 01161
Elective Credits: \(1 / 2\)
PEIMS \#: 03221830
Grade: 9-12
In this course students will study the characters, poetry, and narratives of the Hebrew Scriptures that are prerequisites to understanding the contributions and influence of the Bible on contemporary society and culture, including literature, art, music, mores, oratory, and public policy. The content of the course will not endorse, favor or promote any particular religion or non-religious faith or religious perspective. Offered first semester only.
Prerequisites: None

\section*{Independent Study in English: New Testament (NEWTENG)}

Course \#: 01162
Elective Credits: \(1 / 2\)
PEIMS \#: 03221840
Grade: 9-12
In this course students will study the characters, poetry, and narratives of the New Testament that are prerequisites to understanding the contributions and influence of the Bible on contemporary society and culture, including literature, art, music, mores, oratory, and public policy. The content of the course will not endorse, favor or promote any particular religion or non-religious faith or religious perspective. Offered second semester only.
Prerequisites: None

\section*{Creative/Imaginative Writing (CREAT WR)}

Course \#: 01323
Credits: 1/2
PEIMS \#: 03221200
Grades: 11-12
The students will explore figurative language and literary devices by incorporating them into a piece of discourse. They will learn how to use proportion, contrast, suspense, rhetorical repetition, and various points of view. They will analyze these devices in literary examples, while at the same time considering their own work as a piece of literature, a literary test. The production of original work will be paramount in this course.
Prerequisites: 80 or above average in previous English class and teacher approval recommended
Literary Genres (LIT GENR)
Course \#: 01391
Credits: \(1 / 2\)
PEIMS \#: 03221500
Grades: 11-12
Students will explore various literary genres found in the literature of the world.
Prerequisites: 80 or above average in previous English class and teacher approval recommended

\section*{Practical Writing Skills (PRACT WR) \\ Course \#: 01433 \\ Credits: 1 \\ PEIMS \#: 03221300 \\ Grade: 12}

The study of writing allows high school students to earn credit while developing skills necessary for composing business letters and requests for information, as well as for completing job applications and résumés. This course emphasizes skill in the use of conventions and mechanics of written English, the appropriate and effective application of English grammar, and the effective use of vocabulary.
PREREQUISITES: English I, English II and English III

\section*{College Preparatory English Language Arts (CPELA) \\ Course \#: 01459 Credits: 1 \\ PEIMS \#: CP110100 Grades: 12}

The focus of the course is on applying critical reading skills for organizing, analyzing and retaining material and developing written work appropriate to the audience, purpose, situation, and length of the assignment. This course is designed to prepare students for college-level reading and writing intensive courses including ENGL 1301. Students will learn to write effective, logical essays, utilizing textual support to develop reading comprehension strategies and to analyze, synthesize and make value judgments using critical thinking. The course fulfills The Texas Success Initiative (TSI) requirements for reading and writing. Students who successfully complete this course and pass the TSI will qualify to take ENGL 1301.
Prerequisites: Three English credits prior to enrollment

\section*{Journalism (JRNLSM)}

Course \#: 01131
Credits: 1
PEIMS \#: 03230100
Grades: 9-12
This preparatory class for either the newspaper or the yearbook includes a study of the purpose and function of the media, basic features of journalism, current trends in format, techniques and typography, study of graphics, design, layout and the printing process, preparation of press-ready materials. Study includes news, editorial, feature and headline writing and editing.
Prerequisites: \(\mathbf{8 0}\) or above average in previous English class recommended

\section*{Advanced Journalism: Yearbook I (YBK1)}

Course \#: 01159 Credits: 1
PEIMS \#: 03270700 Grades: 9-10

Credits: 1
PEIMS \#: 03270800
Grades: 10-11

Course \#: 01359
Grades: 11-12
Reading I, II, and III offers students instruction in word recognition, comprehension strategies, and vocabulary to ensure that high school students have an opportunity to read with competence, confidence, and understanding. Students are given opportunities to locate information in varied sources, to read critically, to evaluate sources, and to draw supportable conclusions. Students learn how various texts are organized and how authors choose language for effect. All of these strategies are applied in texts that cross the subject fields.

\section*{Visual Media Analysis and Production (VI MEDIA) \\ Course \#: 01381 Credits: \(1 / 2\) \\ PEIMS \#: 03221700 \\ Grades: 9-12}

This course involves students in the principles and techniques of the visual media as an artistic and informative medium. The students identify the purposes of visual media, analyze techniques used in visual media, recognize associated terminology, develop and use standards for analyzing visual media, recognize the origin and development of visual media, compare with other art forms, explore the emotional and intellectual effects of visual media on viewers, analyze the content and values of visual media, and study the relationship between subject matter and choice of media for presenting that subject matter. The students create projects outside of class.

\section*{Prerequisites: None}

\section*{Debate I (DEBATE 1)}

Course \#: 01246
Credits: 1
PEIMS \#: 03240600
Grades: 9-12
Debate II (Debate 2)
Course \#: 01248
Credits: 1
PEIMS \#: 03240700
Grades: 10-12

\section*{Debate III (DEBATE 3)}

Course \#: 01346
Credits: 1
PEIMS \#: 03240800
Grades: 11-12
These courses develop skills in analysis, research, and organization and provide opportunities to prepare and present debates in a variety of debate contexts. Debate 1 is a precompetition class. Students may have the opportunity to debate in at least one TFA qualifying tournament. Major emphasis in Debate II and III will be placed on TFA, NFL, and UIL competition, which includes traveling to tournaments.
Prerequisites: Debate I - none; Debate II and III completion of Debate 1 and teacher approval recommended

\section*{Oral Interpretation I (ORALINT1)}

\section*{Course \#: 01237}

Credits: 1
PEIMS \#: 03240200 Grades: 9-12
Oral Interpretation II (ORALINT2)
Course \#: 01261
Credits: 1
PEIMS \#: 03240300
Grades: 10-12

\section*{Oral Interpretation III (ORALINT3)}

Course \#: 01361
Credits: 1

\section*{PEIMS \#: 03240400}

Grades: 10-12
These courses furnish opportunities for students to develop competencies in analysis, adaptation, and performance of literature for an audience. Major emphasis in Oral Interpretation II and III will be placed on TFA, NFL and UIL competition.
Prerequisites: Oral Interpretation I - none; Oral Interpretation II and III - completion of Oral Interpretation I and teacher approval recommended

Public Speaking I (PUBSPKG1)
Course \#: 01255
Credits: 1
PEIMS \#: 03240900 Grades: 9-12
Public Speaking II (PUBSPKG2)
Course \#: 01275
Credits: 1
PEIMS \#: 03241000 Grades: 10-12
Public Speaking III (PUBSPKG3)
Course \#: 01277
Credits: 1
PEIMS \#: 03241100
Grades: 10-12
Emphasis in this course will be on the practical application of speech skills. The course will include an exploration of the following: concepts of rhetoric, outstanding public speakers of the past and present, topic selection, research skills, organization of ideas, selection of language, preparation and presentation of speeches, delivery skills, listening skills, and evaluation skills. Students will be expected to compete in speech competition.
Prerequisites: Public Speaking I - none; Public Speaking II and III - completion of Public Speaking I and teacher approval recommended

\section*{Independent Study/Speech (IND SPCH)}

\section*{Course \#: 01253} Credits: 1

\section*{PEIMS \#: 03241200}

Independent study in speech provides opportunity for advanced students to plan, organize, produce, perform, and evaluate a project that enables them to develop advanced skills in communication, critical thinking, and problem-solving.
Prerequisites: Public Speaking I or Oral Interpretation I or Debate I and teacher approval recommended

\section*{Communication Applications (COMMAPP)}

\section*{Course \#: 01145}

Credits: \(1 / 2\)
PEIMS \#: 03241400
Grades: 9-12
Subject areas included in this course are the identification, analysis, development, and evaluation of communication skills necessary for professional and social success in interpersonal situations, group interactions, and personal and professional presentations.

\section*{Prerequisites: None}

\section*{Professional Communications (PROFCOMM)}

\section*{Course \#: 08823}

Credits: \(1 / 2\)
PEIMS \#: 13009900
Grades: 9-12
Professional Communications blends written, oral, and graphic communication in a career-based environment. Careers in the global economy require individuals to be creative and have a strong background in computer and technology applications, a strong and solid academic foundation, and a proficiency in professional oral and written communication. Within this context, students will be expected to develop and expand the ability to write, read, edit, speak, listen, apply software applications, manipulate computer graphics, and conduct internet research. Prerequisites: None

\section*{Fine Arts}

Note: For Communications Applications, Debate, Oral Interpretation, and Professional Communications see the English Language Arts and Reading section, pages 84-85

\section*{Art I (ART 1)}

Course \#: 02111
PEIMS \#: 03500100
Credits: 1
Grades: 9-12
Art I provides the student an opportunity to develop skills in design, drawing, painting, printmaking, and sculpture. It includes four basic strands: perception; creative expression/performance; historical/cultural heritage; and critical evaluation. These provide unifying structures for organizing the knowledge and skills students are expected to acquire. Students will be required to use memory, imagination, and real life objects/experiences as sources for art works. This course cannot be entered at midterm.
Prerequisites: None

\section*{PreAP Art I (ART 1 PREAP)}

\section*{Course \#: 02113}

Credits: 1

\section*{PEIMS \#: 03500100}

Grades: 9-12
This course is designed for the art student that has shown advanced skills in middle school art. The student will continue developing (1) a sense of quality in their work and (2) decisive use of art elements and principles. This course cannot be entered at mid-term.
Prerequisites: Teacher approval recommended

PreAP Art II - Jewelry (ART2JWLR PREAP)
Course \#: 02226
Credits: 1
PEIMS \#: 03501100
Grades: 9-12
Students will explore jewelry and adornment from different cultures. Various materials will be used to create jewelry including clay, paper, metal, wire and fiber. Students will design and create their own individual jewelry pieces using elements and principles of design. This course cannot be entered at midterm.
Prerequisites: Art I; teacher approval recommended

\section*{PreAP Art II - Drawing (ART2DRAW PREAP)}

Course \#: 02213
Credits: 1
PEIMS \#: 03500500
Grades: 9-12
This course requires that students develop basic drawing skills using a variety of media. Drawing is approached as a final product. The basic strands established in Art I will be emphasized. This course cannot be entered at mid-term.
Prerequisites: Art I; teacher approval recommended

\section*{PreAP Art II - Sculpture (ART2SCLP PREAP)}

Course \#: 02224
Credits: 1
PEIMS \#: 03501000
Grades: 9-12
In this course students will construct sculptures using additive and subtractive methods in a variety of media. 3D design concepts such as form, plane and light, depth and space will be explored.
Prerequisites: Art I; teacher approval recommended
```

PreAP Art II - Photography (ART2PHTO PREAP)
Course \#: }0222
PEIMS \#: 03501200
Credits: }
Grades: 9-12
This course introduces the student to advanced applied and aesthetic aspects of digital and traditional photography. Content includes a study of different digital and film camera types, parts and operation, fundaments of digital and traditional film photography and imaging, composition, and natural and artificial lighting. Emphasis will be on the digital aspects of this course. This course cannot be entered at mid-term.

```

Prerequisites: Art I; teacher approval recommended

\section*{PreAP Art III- Drawing (ART3DRAW PREAP)}

\section*{Course \#: 02325}

Credits: 1
PEIMS \#: 03501300
Grades: 10-12
In this course, the student is required to draw in depth and will develop the ability to plan and execute drawings as the basis for painting, printmaking, and sculpture. This is a prerequisite for AP 2D Design Portfolio, AP 3D Design Portfolio, and AP Art Drawing Portfolio. This course cannot be entered at mid-term.
Prerequisites: Art II Drawing; teacher approval
recommended

\section*{PreAP Art III- Photography (ART3PHTO PREAP) \\ Course \#: 02423 \\ PEIMS \#: 03502200 \\ Credits: 1}

This course introduces the student to advanced digital photography techniques, creative digital imaging, darkroom and alternative processes, and printing for competitions and exhibitions. Emphasis is placed upon preparation for entry into AP Two-Dimensional Design Portfolio (Photography/Digital Imaging). This course cannot be entered at mid-term.
Prerequisites: Art II Photography; teacher approval recommended

\section*{AP Art/Drawing (APSTARTD)}

\section*{Course \#: 02301}

Credits: 1

\section*{PEIMS \#: A3500300}

Grades: 11-12
The requirements for this course reflect three major concerns: a sense of quality in a student's work; the student's concentration on a particular visual interest or problem; and the student's need for breadth of experience in the formal, technical, and expressive means of the arts. During this course, the student will be introduced to a variety of problems in drawing. Students are expected to make application to the College Board and submit their portfolios for possible college credit. This course cannot be entered at mid-term. Students are expected to submit an AP portfolio.
Prerequisites: Art II; teacher approval recommended

\section*{AP Art/Two-Dimensional Design Portfolio (Art Levels III \& IV) (AP2DDP)}

Course \#: 02414 Credits: 1
PEIMS \#: A3500400 Grades: 11-12
This portfolio is intended to address a very broad interpretation of two-dimensional design issues. This type of design involves purposeful decision-making about the use the elements and principles of art in an integrative way. The elements of design (line, shape, illusion of space, illusion of motion, pattern, texture, value, and color) are like a palette of possibilities that artists use to express themselves. For this portfolio, students are asked to demonstrate proficiency in two-dimensional design using a variety of art forms such as graphic design, typography, digital imaging, photography, collage, fabric design, weaving, illustration, painting, and printmaking. This course cannot be entered at mid-term. Students are expected to submit an AP portfolio.
Prerequisites: Art II; teacher approval recommended
AP Art/Three-Dimensional Design Portfolio (Art Levels III \& IV) (AP3DDP)
Course \#: 02514
Credits: 1
PEIMS \#: A3500500
Grades: 11-12
This portfolio is intended to address a broad interpretation of sculptural issues in depth and space. These may include mass, volume, form, plane, light, and texture. Such elements and concepts can be articulated through additive, subtractive, and/or fabrication processes. A variety of approaches to representation, abstraction, and expression may be part of the student's portfolio. These might include, among others, traditional sculpture, architectural models, apparel, ceramics, three-dimensional fiber art or metal work. Students are expected to submit an AP Portfolio. This course cannot be entered at mid-term.
Prerequisites: Art II; teacher approval recommended

\section*{AP History of Art (APHISART)}

\section*{Course \#: 02314}

Credits: 1
PEIMS \#: A3500100
Grades: 11-12
This course is designed to provide the same benefits to secondary school students as are provided by an introductory college course in art history and the understanding and enjoyment of architecture, sculpture, painting, and other art forms with an historical and cultural context. The students will examine major forms of artistic expression and learn to look at works of art critically, with intelligence and sensitivity, and to articulate what they see or experience. Students are expected to make application to the College Board and take the AP exam for possible college credit. This course cannot be entered at mid-term. Students are expected to take the AP exam.
Prerequisites: Teacher approval recommended

\section*{Theatre Arts I (TH1)}

Course \#: 02231
Credits: 1
PEIMS \#: 03250100
Grades: 9-12
This is the first course in theatre, introducing theatre as an art, and beginning the study of the cultural contributions of the theatre, its plays and its performance, its production styles and techniques. The course introduces basic acting, the role of the actor in interpreting dramatic literature, and the historical evolution of performance styles. This course cannot be entered at mid-term.
Prerequisites: None

\section*{Theatre Arts II (TH2)}

Course \#: 02331
Credits: 1
PEIMS \#: 03250200 Grades: 10-12
Theatre Arts III (TH3)
Course \#: 02431
Credits: 1

\section*{PEIMS \#: 03250300}

Grades: 11-12

\section*{Theatre Arts IV (TH4)}

Course \#: 02433 Credits: 1
PEIMS \#: 03250400
Grade: 12
These courses build on the background established in Theatre I, continuing the study of the cultural contributions of the theatre, its plays, and its performance and production styles and techniques. Basic principles of production are studied and applied through performances in various theatrical modes. Each level of theatre will require a greater degree of understanding and competency in technique and performance. This course cannot be entered at mid-term.
Prerequisites: Theatre I, audition and teacher approval

\section*{Technical Theatre I (TH1TECH)}

Course \#: 02241
Credits: 1
PEIMS: 03250500
Grades: 10-12
Technical Theatre II (TH2TECH)
Course \#: 02341
Credits: 1

\section*{PEIMS: 03250600}

Grades: 11-12
Technical Theatre III (TH3TECH)
Course \#: 02441
Credits: 1
PEIMS: 03251100
Grades: 12
This course combines theories of design and stage-craft techniques with construction and operation of the various elements of technical theatre. This course cannot be entered at mid-term.
Prerequisites: Teacher approval

\section*{Theatre Production I (TH1PROD)}

Course \#: 02381
Credits: 1
PEIMS \#: 03250700
Grades: 9-12
Theatre Production II (TH2PROD)
Course \#: 02383
Credits: 1
PEIMS \#: 03250800 Grades: 10-12
Theatre Production III (TH3PROD)
Course \#: 02385 Credits: 1
PEIMS \#: 03250900
Grades: 11-12
Theatre Production IV (TH4PROD)
Course \#: 02387
Credits: 1
PEIMS \#: 03251000
Grade: 12
Students will develop and practice acting concepts, skills, and many technical phases of theatre production. Students will also be provided opportunities to grow aesthetically through participation and observation of theatre events.
Prerequisites: Audition and teacher approval

\section*{Theatre and Media Communications 1 (TH1MCOM)}

Course \#: 02389
Credits: 1
PEIMS \#: 03251300
Grades: 9-12
Theatre and Media Communication 1 provides students with a rigorous and relevant experiential study of theatre along with video and audio design. Creation and analysis of student performances will be balanced with explorations into contemporary practices in digital media. Students will learn how to bridge traditional stagecraft with current technology applications to create new digital media. The course will include a major project to address local issues within the community. This project will afford students an opportunity to learn and practice creative research skills, develop a narrative, engage an audience, and connect an online community to their project.

\section*{Prerequisites: None}

Band 1, 2, 3, 4 (MUS1BAND)
Course \#: 02752
Credits: 1
PEIMS \#: 03150200
Grades: 9-12
This course is open to students with previous instrumental training. Admission is by audition. First semester is devoted basically to preparation for marching contests, football halftime, pep rallies, parades, and Christmas literature. Second semester is usually devoted to concerts, contests, festivals, and individual achievements such as solo and ensemble contests and region, area, and state band tryouts.
Prerequisites: Director approval
\begin{tabular}{lr}
\hline Marching Band (SUBMB) (first time taken) & \\
\hline Course \#: 04911 - P1 \(\quad\) Credits: \(1 / 2\) \\
\hline PEIMS: PESO0012 & Grades: \(9-12\) \\
\hline Marching Band (SUBMB) (second time taken) \\
\hline Course \#: 04911 - P2 & Credits: \(1 / 2\) \\
\hline PEIMS: PESO0012 & Grades: \(9-12\) \\
\hline Prerequisites: None & \\
\hline
\end{tabular}

\section*{Jazz Band (MUS1JZBN)}

Course \#: 02757 Credits: 1
PEIMS \#: 03151400
Grades: 9-12
Jazz band explores various musical styles including jazz, blues, Funk, big band, cool, rock, and other popular forms. Available at Abilene High and Cooper High Schools.
Prerequisites: Member of band and director approval

\section*{STEEL DRUM BAND (MUSIINEN)}

Course \#: 02756 Credits: 1
PEIMS \#: 03151800 Grades: 9-12
This course explores various musical styles including Afro-Cuban, Latin, and Caribbean. Students will learn the origins of steel drums and the history of the Trinidad/Tobago region. Outside performances are an expectation of this course. (Abilene High school only)
Prerequisites: Music reading ability, audition, and director approval

Choir 1, 2, 3, 4 (MUS1CHOR)
Course \#: 02760
Credits: 1
PEIMS \#: 03151000
Grades: 9-12
These courses are open to students with and without previous vocal training. There is continued vocal training with emphasis on tone production, sight-reading, and a variety of choral literature.
Prerequisites: Director approval

\section*{Vocal Ensemble (MUSIVOEN)}

Course \#: 02850
Credits: 1
PEIMS \#: 03152200
Grades: 9-12
Vocal ensemble is composed of selected students who demonstrate advanced skills in vocal maturity and an acquaintance with a variety of musical styles.
Prerequisites: Director approval

Orchestra 1, 2, 3, 4 (MUS1ORCH)
Course \#: 02758 Credits: 1
PEIMS \#: 03150600
Grades: 9-12
This is a course for orchestra students. Style and technical skills are explored through the use of a variety of orchestral literature.
Prerequisites: Director approval

\section*{AP Music Theory (APMUSTHY)}

Course \#: 02701
Credits: 1
PEIMS \#: A3150200
Grades: 11-12
This course is designed to prepare students to take the College Board AP Music Theory exam. This course is designed to develop a student's ability to recognize, understand and describe the basic materials and processes of music that are heard or presented in a score. This course cannot be entered at midterm. Students are expected to take the AP exam.
Prerequisites: Teacher approval and ability to read music

See page 115 in the English Language Arts and Reading section for course description on Oral Interpretation, Public Speaking, Communication Applications, and Professional Communications.

\section*{Health Education (HLTH ED)}

Course \#: 04201
Credits: \(1 / 2\)
PEIMS \#: 03810100
Grades: 9-12
Topics are addressed that assist the students in understanding a healthy lifestyle, including body systems, substance abuse, accident prevention, human sexuality, mental health, disease control, self-esteem, and decision-making.
Prerequisites: Recommended for 9th grade students

\section*{Advanced Health Education (ADHLTHED)}

\section*{Course \#: 04301}

Credits: \(1 / 2\)
PEIMS \#: 03810200
Grades: 9-12
Students are provided opportunities for researching, discussing, and analyzing health issues. This higher level of involvement provides students with experiences designed to reinforce positive health behaviors. Students are given the opportunity to learn more about technology, how it affects health, and how to use electronic technology to gain health information. The emphasis in this course is less related to learning facts and more related to providing students with the skills necessary to access their own health information and services and become health literate.
Prerequisites: Health Education recommended

\section*{Sports Medicine I (SPORTMD1)}

\section*{Course \#: 04205}

1 state elective credit
PEIMS \#: N1150040
Grades: 10-12
This course provides an opportunity for the study and application of the components of sports medicine including but not limited to sports medicine related careers, organizational and administrative considerations, prevention of athletic injuries, recognition, evaluation, and immediate care of athletic injuries, rehabilitation and management skills, taping and wrapping techniques, first aid/CPR/AED, emergency procedures, nutrition, sports psychology, human anatomy and physiology, therapeutic modalities, and therapeutic exercise. Ninth graders may take the course during the Spring semester with teacher approval. Offered at Abilene High School only.
Prerequisites: None

\section*{Sports Medicine II (SPORTMD2)}

\section*{Course \#: 04207 \\ 1 state elective credit \\ PEIMS \#: N1150041 \\ Grades: 10-12}

This course is designed for athletic training students. It provides an in-depth study and application of the components of sports medicine including but not limited to: basic rehabilitative techniques; therapeutic modalities; wound care, taping and bandaging techniques, prevention, recognition, and care of musculoskeletal injuries; injuries to the young athlete; drugs in sports; modern issues in sports medicine. Individualized and independent assignments will be included in this course. This course will involve outside-of-class time homework and time required working with athletes and athletic teams. This course compliments the classroom preparation of a student wishing to work in the actual sports medicine arena, by working as an athletic training student with the various sports teams offered in high school. Offered at Abilene High School only.
Prerequisites: Sports Medicine I and instructor approval

\section*{Sports Medicine III (SPORTMD3) \\ Course \#: 04209 \\ 1 state elective credit \\ PEIMS \#: N1 150044 \\ Grades: 11-12}

This course provides athletic training students the opportunity to continue to perform the assigned duties and responsibilities in the operation of the athletic training room. The assigned duties will enhance the knowledge and skills acquired in the sports medicine course curriculum. This course is only offered at Abilene High.
Prerequisites: Sports Medicine I and II, and instructor approval

\section*{Languages Ołher Than English}

\section*{Spanish I (SPAN I)}

\section*{Course \#: 03141}

Credits: 1
PEIMS \#: 03440100
Grades: 9-12
Students will acquire listening, speaking, reading, and writing skills, and concepts at the novice level that result in the understanding of simple, routine situations. Students will also be made aware of concepts which result in the knowledge and awareness of the history and culture of another people. This course cannot be entered at mid-term.
Prerequisites: None

\section*{PreAP Spanish I (SPAN I PREAP)}

\section*{Course \#: 03144}

Credits: 1
PEIMS \#: 03440100
Grades: 9-12
This college preparatory course will focus on skills necessary for success in Advanced Placement classes. The course content will be covered in greater depth and/or at an accelerated pace. Student skills will include listening, speaking, reading, and writing of concepts at the novice level that will result in the understanding of simple, routine situations. Students will be made aware of the history and culture of another people. This course cannot be entered at mid-term.

\section*{Prerequisites: None}

\section*{Spanish II (SPAN 2)}

Course \#: 03244 Credits: 1
PEIMS \#: 03440200
Grades: 9-12
Students will continue to acquire listening, speaking, reading, and writing skills, and concepts at the novice level that result in the understanding of most routine questions, statements, and commands along with the ability to respond and to reproduce vocabulary sufficient to express themselves in everyday situations. Students will study the history and culture of another people within a range of different situations. Students will be aware of generalizations about how a language operates and the skills that result in the application of the language learning process to the study of other languages. This course cannot be entered at mid-term.
Prerequisites: Spanish I

\section*{PreAP Spanish II (SPAN 2 PREAP)}

Course \#: 03344 Credits: 1
PEIMS \#: 03440200
Grades: 9-12
This college preparatory course will focus on skills necessary for success in Advanced Placement classes. Subject matter will be covered in greater depth and/or at an accelerated pace. Students will acquire listening, speaking, reading, and writing skills that result in the understanding of most routine questions, statements, and commands along with the ability to respond and to reproduce vocabulary sufficient to express themselves in everyday situations. Students will study the history and culture of another people within a range of different situations. This course cannot be entered at mid-term.
Prerequisites: Spanish 1 or PreAP Spanish I

PreAP Spanish III (SPAN 3 PREAP)
Course \#: 03249
Credits: 1
PEIMS \#: 03440300
Grades: 10-12
This preparatory course covers material in depth and prepares the student for AP Spanish IV. The following skills will be included in the course: listening and speaking on an intermediate-ability level emphasizing extemporaneous speech and comprehension of native-speakers; reading and writing on an intermediateability level emphasizing classical and/or contemporary literature and original compositions; cultural experiences emphasizing the awareness and knowledge of cultural differences; grammatical structure on an intermediate-ability level emphasizing mechanics and vocabulary. This course cannot be entered at mid-term.
Prerequisites: Spanish II or PreAP Spanish II

\section*{AP Spanish IV (APSPALAN)}

\section*{Course \#: 03446}

Credits: 1
PEIMS \#: A3440100
Grades: 10-12
This course emphasizes the use of the language for active communication and develops the following skills: the ability to comprehend formal and informal spoken Spanish; acquisition of vocabulary and a grasp of structure to allow the easy, accurate reading of newspaper and magazine articles, as well as of modern literature in Spanish; the ability to compose expository passages; and the ability to express ideas orally with accuracy and fluency. Course emphasizes preparation for the AP Spanish Language Exam. This course cannot be entered at mid-term. Students are expected to take the AP exam.
Prerequisites: PreAP Spanish III or teacher recommendation

\section*{AP Spanish V (APSPALIT)}

\section*{Course \#: 03546}

Credits: 1

\section*{PEIMS \#: A3440200}

Grades: 11-12
This course emphasizes advanced reading and writing skills; introduces students to the diverse literature written in Spanish and helps them reflect on the many voices and cultures with an extensive reading list including works from seven centuries of Hispanic literature; course also requires advanced ability to express ideas in writing with accuracy and fluency; course emphasizes preparation for the AP Spanish Literature Exam. This course cannot be entered at mid-term. Students are expected to take the AP exam.
Prerequisites: AP Spanish IV or teacher recommendation

\section*{French I (FREN 1)}

Course \#: 03221
Credits: 1
PEIMS \#: 03410100
Grades: 9-12
Listening, speaking, reading and writing skills, and concepts that result in the understanding of most routine situations will be taught. Students will be made aware of concepts which result in the knowledge and awareness of the history and cultures of other people. This course cannot be entered at mid-term.

\section*{Prerequisites: None}

\section*{French II (FREN 2)}

Course \#: 03224 Credits: 1
PEIMS \#: 03410200
Grades: 9-12
The students will acquire listening, speaking, reading and writing skills, and concepts that result in the understanding of most routine questions, statements, and commands along with the ability to respond and to reproduce vocabulary sufficient to express themselves in everyday situations. The students will study the history and cultures of other people within a range of different situations. The students will be aware of generalizations about how a language operates and the skills that result in the application of the language learning process to the study of other languages. This course cannot be entered at mid-term.

\section*{Prerequisites: French I}

\section*{PreAP French II (FREN 2 PREAP)}

Course \#: 03326 Credits: 1
PEIMS \#: 03410200
Grades: 10-12
This college preparatory course will focus on skills necessary for success in Advanced Placement classes. Subject matter will be covered in greater depth and/or at an accelerated pace. Students will acquire listening, speaking, reading, and writing skills that result in the understanding of most routine questions, statements, and commands along with the ability to respond and to reproduce vocabulary sufficient to express themselves in everyday situations. Students will study the history and cultures of other people within a range of different situations. This course cannot be entered at mid-term.
Prerequisites: French I

\section*{PreAP French III (FREN 3 PREAP)}

Course \#: 03228
Credits: 1
PEIMS \#: 03410300
Grades: 10-12
This college preparatory course covers material in depth and prepares the student for AP French 4. The following skills will be included in the course: listening and speaking on an intermediate-ability level emphasizing extemporaneous speech and comprehension of native-speakers; reading and writing on an intermediate-ability level emphasizing classical and/or contemporary literature and original composition; culture experiences emphasizing the awareness and knowledge of cultural differences; grammatical structure on an intermediateability level emphasizing mechanics vocabulary. This course cannot be entered at mid-term.

\section*{Prerequisites: French II}

\section*{AP French IV (APFR LAN)}

Course \#: 03328
Credits: 1
PEIMS \#: A3410100 Grades: 10-12
This course emphasizes the use of the language for active communication and develops the following skills: the ability to understand spoken French in various contexts: a French vocabulary sufficiently ample for reading newspaper and magazine articles, literary texts, and other non-technical writings without dependence on a dictionary; and for viewing, understanding and responding to global current events via TV and/or technology; and the ability to express ideas coherently, resourcefully, and with reasonable fluency and accuracy in both written and spoken French. Course emphasizes preparation for the AP French Language Exam. This course cannot be entered at mid-term. Students are expected to take the AP exam.
Prerequisites: French III

\section*{American Sign Language I (ASL 1)}
\begin{tabular}{lr}
\hline Course \#: 03121 Credits: 1 \\
\hline PEIMS \#: \(03980100 \quad\) Grades: 9-12
\end{tabular}

Students will acquire expressive and receptive skills and concepts at the novice level that results in the understanding of simple, routine situations and conversations with deaf and hardof hearing people. Students will also be made aware of early deaf history, and introduction to deaf culture, as well as the medical, cultural, and linguistic perspectives as they relate to American Sign Language. Finger spelling, number systems, basic vocabulary for people, verbs, and adjectives will be introduced in this course. This course cannot be entered at mid-term.

\section*{Prerequisites: None}

\section*{American Sign Language II (ASL 2)}

Course \#: 03123
Credits: 1
PEIMS \#: 03980200
Grades: 10-12
Using a total-immersion approach of instruction, students will continue to acquire expressive and receptive skills and concepts that result in the understanding of most routine questions, statements, and commands along with the ability to respond and reproduce vocabulary to express themselves in everyday interactions with deaf and hard-of-hearing people. This course introduces complex grammatical aspects of ASL and use of classifiers and spatial organization when signing. This course will discuss ASL Poetry, ASL literature, and more in depth analysis of deaf culture and the evolving deaf community. Contact with the deaf community will be required to enhance linguistic and cultural knowledge. This course cannot be entered at mid-term.

\section*{Prerequisites: American Sign Language I}

\section*{American Sign Language III (ASL 3) \\ Course \#: 03125 Credits: 1 PEIMS \#: \(03980300 \quad\) Grades: 10-12}

Continuing a total-immersion approach of instruction, students will cover ASL course material in depth that will develop comprehension and production skills using complicated ASL phrases, idioms, and humor. This course increases conversational competence and expands vocabulary range at the intermediate level. Expressive and receptive skills of native signers will be assessed. Knowledge of deaf schools, deaf education, as well as intense research and presentation in ASL will take place. Video production and editing of ASL videos will take place. Video involved ASL skills after high-school, and students will be required to have contact with the deaf community. This course cannot be entered at mid-term

\section*{Prerequisites: American Sign Language II}

\section*{Mathematics}

\section*{Algebra I (ALG 1) \\ Course \#: 05141 \\ Credits: 1 \\ PEIMS \#: 03100500 \\ Grades: 9-12}

Algebra I provides the foundation concepts for Algebra 2, Geometry, and all high school mathematics. It establishes concepts in the areas of number operations, quantitative reasoning, algebraic thinking, and symbolic reasoning. An emphasis is placed on function concepts, the relationship between equations, and the use of these to model real world applications. Preparation for End of Course testing will be included.
Prerequisites: None

\section*{PreAP Algebra I (ALG 1 PREAP)}

\section*{Course \#: 05101}

Credits: 1
PEIMS \#: 03100500
Grades: 9-12
This college-preparatory course covers the same material presented in regular Algebra I. Concepts will be explored in greater depth and problem-solving will be more varied and demanding. Technology including the graphing calculator and the computer will be used to a greater extent than in Algebral. Additional topics to be covered are geometric representations of algebraic situations, quadratic systems with parabolas, and absolute value equations and inequalities. Preparation for End of Course testing will be included.
Prerequisites: None

\section*{Geometry (GEOM)}

\section*{Course \#: 05251}

Credits: 1
PEIMS \#: 03100700
Grades: 9-12
Geometry is a college-preparatory course as well as preparation for school-to-work programs. Geometry consists of the study of geometric figures of zero, one, two, and three dimensions and the relationships among them. Connections are made between geometric concepts and solving real world problems by using a variety of representations (concrete, pictorial, algebraic, and coordinate), tools, technology, applications and modeling, logical reasoning, justification, and proof.

\section*{Prerequisites: Algebra 1}

\section*{PreAP Geometry (GEOM PREAP)}

\section*{Course \#: 05203}

Credits: 1
PEIMS \#: 03100700
Grades: 9-12
This college-preparatory course will contain the Texas Essential Knowledge and Skills in the regular geometry course. Concepts will be explored in greater depth and with rigor designed to properly prepare students to be successful in Pre-Advanced Placement Algebra 2. Preparation for End of Course testing will be included.
Prerequisites: Algebra I

\section*{Mathematical Models With Applications (MTHMOD) Course \#: 05135 \\ Credits: 1 \\ PEIMS \#: 03102400 \\ Grades: 10-12}

This course is offered as a bridge to Algebra II. Algebral and Geometry concepts will be revisited. In addition, students will be introduced to applied math in real world situations, including personal finance (budgeting, insurance, savings, and credit.) This course may not fulfill the math entrance requirements of some colleges. Semesters are independent of each other. NOTE: Math Models must be taken before Algebra II to meet requirements of the Recommended Graduation Plan.
Prerequisites: Algebra I; Geometry recommended

\section*{Algebra II (ALG 2)}

Course \#: 05241
Credits: 1
PEIMS \#: 03100600
Grades: 9-12
Progression through the algebra concepts taught in this course allows students to develop logical reasoning and problemsolving skills vital in today's technology-oriented world. It prepares students for either school-to-work programs or progression to higher mathematics needed for post-secondary studies. It emphasizes the need to master functional relationships and employ them to problem-solve real situations. It provides access to current technology that allows table building, coordinate graphing, algebraic analysis, and computation. It encompasses the study of algebraic functions using data analysis, matrices, factoring, complex numbers, properties of exponents, graphs, and tables. The relationships between algebra and geometry are continuously integrated into the course. Abstract algebra concepts and their geometric graphs are linked together for such functions as linear, quadratic, radical, inverse, exponential, and logarithmic functions. Graphs of circles, ellipses, parabolas, and hyperbolas (the conic sections), and their respective algebraic descriptions are also studied and applied.
Prerequisites: Algebra I; Geometry recommended; Geometry can be taken concurrently

\section*{PreAP Algebra II (ALG 2 PREAP)}

Course \#: 05201
Credits: 1
PEIMS \#: 03100600 Grades: 9-12
This college-preparatory course covers the same material presented in regular Algebra II in addition to other topics that will better prepare students for Pre-Advanced Placement PreCalculus. Concepts will be explored in greater depth and problem-solving will be more varied and demanding.
Prerequisites: Algebra I; Geometry recommended; Geometry can be taken concurrently

\section*{Pre-Calculus (PRE CALC)}

\section*{Course \#: 05353}

Credits: 1
PEIMS \#: 03101100
Grades: 10-12
Pre-Calculus combines the use of the real number coordinate system with an extensive study of functions and their graphs, including trigonometric functions and their periodicity, inverse, composite, polynomial, rational, exponential, and logarithmic functions. Functions, sequences and series, conic sections, parametric representations, and vectors will be used to model real life situations.
Prerequisites: Algebra I and II and Geometry

\section*{PreAP Pre-Calculus (PRE CALC PREAP)}

Course \#: 05301
Credits: 1
PEIMS \#: 03101100
Grades: 10-12
This college-preparatory course is intended for students who have displayed a high degree of understanding in their previous math courses. It is designed to prepare students for AP Calculus. It includes the same concepts covered in Pre-Calculus but explored in greater depth, and problem solving will be more varied and demanding.
Prerequisites: Algebra II; Geometry recommended

\section*{AP Calculus AB (APCALCAB)}

\section*{Course \#: 05403} Credits: 1
PEIMS \#: A3100101
Grades: 11-12
This course will follow the course description for AP Calculus AB as defined by the college board. Students will be taught the Texas Essential Knowledge and Skills of calculus such as applying limit theorems, continuity, differentiation and integration of algebraic and transcendental (trigonometric, exponential, and logarithmic) functions. Also, applications of first and second derivatives including curve sketching, velocity and acceleration, maxima and minima, and related rates are covered. Indefinite and definite integration including applications are presented. Other subjects covered are: differentiating composite functions using the chain rule, implicit differentiation problems, and other integration methods. Graphing calculator skills are required for solving some problems. Preparation for the College Board AP Calculus Exam is emphasized. Students are expected to take the AP exam.
Prerequisites: Pre-Calculus

\section*{Statistics And Risk Management* (STATSRM)}

\section*{Course \#: 08840}

PEIMS \#: 13016900
Credits: 1 nernniques to analyze patterns and departures from patterns to identify and manage risk that could impact an organization. Students will use probability as a tool for anticipating and forecasting data within business models to make decisions. Students will determine the appropriateness of methods used to collect data to ensure conclusions are valid.
Prerequisites: Algebra II recommended

\section*{AP Statistics (APSTATS)}

\section*{Course \#: 05405}

Credits: 1

\section*{PEIMS \#: A3100200}

Grades: 11-12
This course will follow the course description for AP Statistics as defined by the college board. Students will be introduced to the major concepts and tools to collect, analyze, and draw conclusions from data. Topics are divided into four major themes: exploratory analysis, planning a study, probability, and statistical inference. Preparation for the College Board AP Statistics Exam is emphasized. Students are expected to take the AP exam.
Prerequisites: Algebra II and Geometry; Juniors concurrently enrolled in Pre-Calculus recommended

Independent Study In Math I (INSTUMTH)
Course \#: 05355 Credits: 1
PEIMS \#: 03102500
Grades: 9-12
Prerequisites: Geometry and Algebra II

\section*{Independent Study In Math II (INSTMTH2)}

Course \#: 05356
Credits: 1
PEIMS \#: 03102501
Grades: 11-12
Prerequisites: Geometry and Algebra II

Math in Agriculture, Food and Natural Resources*
(MATHAFNR)
Course \#: 09846
Credits: 1
PEIMS \#: 13001000
Grades: 12
To be prepared for careers in agriculture, food, and natural resources, students must acquire technical knowledge in the discipline as well as apply academic skills in mathematics. Students should apply knowledge and skills related to mathematics, including algebra, geometry, and data analysis in the context of agriculture, food, and natural resources. To prepare for success, students are afforded opportunities to reinforce, apply, and transfer their knowledge and skills related to mathematics in a variety of contexts.
Prerequisites: Recommended 1 credit from the courses in the Agriculture, Food, and Natural Resources cluster.

\footnotetext{
*Advanced CTE course
}

\section*{AP Computer Science A (APTACSA)}

\section*{Course \#: 09105}

Credits: 2
PEIMS \#: A3580100
Grades: 11-12
AP Computer Science A is equivalent to a college-level course in computer science/programming. The course introduces students to computer science with fundamental topics that include problem solving, design strategies and methodologies, organization of the data (data structures), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. The course emphasizes both object-oriented and imperative problem solving and design using Java language. These techniques represent proven approaches for developing solutions that can scale up from small, simple problems to large, complex problems. This course provides instruction in all Texas Essential Knowledge and Skills required for Computer Science 1 and Computer Science II. Students may fulfill the graduation requirement of two years of foreign language (Computer Science 1 and II) or elective credit with successful completion of this course. This course may not be entered at midterm.
Prerequisites: Credit or concurrent enrollment in precalculus or calculus

\section*{College Preparatory Math (CPMAT)}

Course \#: 05259 Credits: 1
PEIMS \#: CP111200
Grade: 12
This course is designed to prepare \(12^{\text {th }}\) grade students for success in entry-level college math courses. Topics include the Real Number System, Algebraic Reasoning, Functions, Equations, Inequalities, and Quadratics. Students will work to increase math skills and problem-solving ability as they prepare for success on the TSI assessment as a measure of college readiness. This is an advanced fourth math credit for the Foundation Plan and Endorsements. The course is an elective credit for other graduation plans. It is not eligible for dual credit. Students may earn \(1 / 2\) credit for one semester.
Prerequisites: Three math credits prior to enrollment

\section*{Financial Mathematics (FINMATH)}
Course \#: 08939 Credits: 1

PEIMS \#: 1301800
Grades: 10-12
This course is about personal money management. Students will apply critical-thinking to analyze personal financial decisions based on current and projected economic factors including career and postsecondary education planning. Topics include employment earnings, taxation, credit, housing, transportation, investments, and insurance.
Prerequisites: Three math credits prior to enrollment

\section*{Algebraic Reasoning}

Course \#: 05367
Credits: 1
PEIMS \#: 03102540
Grades: 10-12
This course will build upon the knowledge and skills for math from Kindergarten through Algebra 1 in order to develop a deeper understanding of algebraic reasoning. Topics include functions, relationships, patterns, numeric reasoning and data to increase workforce and college readiness.
Prerequisites: Algebra 1

\section*{Physical Education}

\section*{Foundations of Personal Fitness (PEFOUND)}

Course \#: 04900 Credits: \(1 / 2\)-1
PEIMS \#: PESO0052
Grades: 9-12
This course will use a textbook in conjunction with fitness-related activities. The basic purpose of this course is to encourage students to strive for lifetime personal fitness with an emphasis on the health-related components of physical fitness.
PREREQUISITES: None

Individual or Team Sports (PEITS)
\(\begin{array}{lr}\text { Course \#: } 04903 & \text { Credits: } 1 / 2-1 \\ \text { PEIMS \#: PES00055 } & \text { Grades: 9-12 }\end{array}\)
This class is designed for the development of health-related fitness through the selection of individual or team sport activities that can be pursued for a lifetime.
Prerequisites: None
\begin{tabular}{|c|c|}
\hline \multicolumn{2}{|l|}{Aerobic Activities (PEAA)} \\

\end{tabular}

\section*{Adventure/Outdoor Education (PEAOA)}

Course \#: 04901
Credits: \(1 / 2-1\)
PEIMS: PESOO053
Grades: 9-12
Adventure/Outdoor Education is expected to develop competency in outdoor education activities that provide opportunities for enjoyment and challenge which enhances a physically active lifestyle. These activities promote a respect for the environment and can be enjoyed for a lifetime.
Prerequisites: None

\section*{PE Substitution - Cheerleading (SUBCHLDG) (first time taken)}

Course \#: 04972
Credits: 1
PEIMS: PES00013 Grades: 9-12

Cheerleading (CHEERLEADI) (each year thereafter)
Course \#: 04973 local credit only
PEIMS: 84200013

}

\section*{Science}

\section*{Biology (BIO)}

Course \#: 06121
Credits: 1

\section*{PEIMS \#: 03010200}

Grades: 9-10
In Biology, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical-thinking and scientific problem-solving. Students in biology study a variety of topics that include the following: structures and functions of cells and viruses; growth and development of organisms; cells, tissues, and organs; nucleic acids and genetics; taxonomy; metabolism and energy transfers in living organisms; living systems; homeostasis; ecosystems; and plants and the environment. Preparation for End of Course testing will be included.

\section*{Prerequisites: None}

\section*{PreAP Biology (BIO PREAP)}

Course \#: 06201
Credits: 1

\section*{PEIMS \#: 03010200}

Grades: 9-10
In PreAP Biology, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical-thinking and scientific problem-solving. Students in biology study a variety of topics that include the following: structures and functions of cells and viruses; growth and development of organisms; cells, tissues, and organs; nucleic acids and genetics; taxonomy; metabolism and energy transfers in living organisms; living systems; homeostasis; ecosystems; and plants and the environment. Students will be expected to perform on an advanced level in preparation for further upper-level science courses. Preparation for End of Course testing will be included.

\section*{Prerequisites: None}

AP Biology (AP-BIO)

\section*{Course \#: 06373}

Credits: 1
PEIMS \#: A3010200 Grades: 11-12 (10 th grade with teacher recommendation)
The Advanced Placement Biology course is designed to be the equivalent of a college introductory biology course. The course will include those topics regularly covered in a college biology course, and differs from standard high school biology with respect to the kind of textbook used, the range and depth of topics covered, the kind of laboratory work done by students, and the time and effort required of students. The course aims to provide students with the conceptual framework, factual knowledge, and analytical skills necessary to deal critically with the rapidly changing science of biology. Content requirements for AP Biology are prescribed in the College Board Publication Advanced Placement Course Description: Biology, published by the College Board. Students are expected to take the AP exam.
Prerequisites: Biology I, Chemistry and Physics
recommended (may be taken concurrently).

\section*{Chemistry (CHEM)}

Course \#: 06263
Credits: 1
PEIMS \#: 03040000 Grades: 10-12
In Chemistry, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem-solving. Students study a variety of topics that include the following: characteristics of matter; energy transformations during physical and chemical changes; atomic structure;
periodic table of elements; behavior of gases; bonding; nuclear fusion and nuclear fission; oxidation-reduction reactions; chemical equations; solutes; properties of solutions; acids and bases; molar relationships; and chemical reactions. Students will investigate how chemistry is an integral part of our daily lives.
Prerequisites: Algebra I; Biology recommended.
Completion or concurrent enrollment in a second year of math recommended. (If IPC is taken it must be completed before enrolling in chemistry or physics.)
PreAP Chemistry (CHEM PREAP)
Course \#: 06203
Credits: 1
PEIMS \#: 03040000 Grades: 10-12 (9 \({ }^{\text {th }}\) grade with teacher recommendation)
In PreAP Chemistry, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem-solving. Students study a variety of topics that include the following: characteristics of matter; energy transformations during physical and chemical changes; atomic structure; periodic table of elements; behavior of gases; bonding; nuclear fusion and nuclear fission; oxidation-reduction reactions; chemical equations; solutes; properties of solutions; acids and bases; molar relationships; and chemical reactions. Students will investigate how chemistry is an integral part of our daily lives. Students will be expected to perform on an advanced level in preparation for further upper-level science courses.
Prerequisites: Algebra I; Biology recommended.
Completion or concurrent enrollment in a second year of math recommended (If IPC is taken it must be completed before enrolling in chemistry or physics.)

\section*{AP Chemistry (AP-CHEM)}

Course \#: 06473
Credits: 1
PEIMS \#: A3040000 Grades: 11-12 ( \(10^{\text {th }}\) grade with teacher recommendation)
The Advanced Placement Chemistry course is designed to be the equivalent of the General Chemistry course usually taken during the first college year. For some students, this course enables them to undertake, as college freshmen, second-year work in the chemistry sequence, or to register in courses in other fields where general chemistry is a prerequisite. For other students, the AP Chemistry course fulfills the laboratory science requirement and frees time for other courses. This course differs from high school Chemistry I with respect to the kind of textbook used, the topics covered, the emphasis on chemical calculation and the mathematical formulation of principles, and the kind of laboratory work done by students. Quantitative differences appear in the number of topics treated, the time spent on the course by students, and the nature and the variety of experiments done in the laboratory. Content requirements for AP Chemistry are prescribed in the College Board Publication Advanced Placement Course Description: Chemistry, published by the College Board. Students are expected to take the AP exam.
Prerequisites: Algebra II and Biology; Chemistry or Physics recommended (may be taken concurrently).

\section*{Physics (PHYSICS)}

\section*{Course \#: 06371}

\section*{PEIMS \#: 03050000}

Grades: 11-12
In Physics, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem-solving. Students study a variety of topics that include the following: laws of motion, changes within physical systems and conservation of energy and momentum; force; thermodynamics; characteristics and behavior of waves; and quantum physics. This course provides students with a conceptual framework, factual knowledge, analytical, and scientific skills.
Prerequisites: Algebra I and Biology recommended. (IPC is not a prerequisite. If IPC is taken it must be completed before enrolling in chemistry or physics.)

\section*{PreAP Physics (PHYSICS PREAP)}

\section*{Course \#: 06305}

Credits: 1
PEIMS \#: 03050000
Grades: 11-12
In PreAP Physics, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem-solving. Students study a variety of topics that include the following: laws of motion; changes within physical systems and conservation of energy and momentum; force; thermodynamics; characteristics and behavior of waves; and quantum physics. This course provides students with a conceptual framework, factual knowledge, and analytical and scientific skills. Students will be expected to perform on an advanced level in preparation for further upper-level science courses. Preparation for End of Course testing will be included.
Prerequisites: Algebra I and Biology with completion or concurrent enrollment in a second year of math. (If IPC is taken, it must be completed before enrolling in chemistry or physics. 0

\section*{AP Physics 1: Algebra-Based (APPHYS1)}

\section*{Course \#: 06427}

Credits: 1
PEIMS \#: A3050003 Grade: 12
AP Physics 1: Algebra-Based is the equivalent to a first-semester college course in algebra-based physics. The course covers Newtonian mechanics (including rotational dynamics and angular momentum); work, energy, and power; and mechanical waves and sound. It will also introduce electric circuits. The focus is on a series of learning objectives that clarify the knowledge and skills students should demonstrate to qualify for college credit and placement. Please check the college you plan to attend for the acceptance of this course in your major field of study. Content requirements for Advanced Placement (AP) Physics are prescribed by the College Board Publication Advanced Placement Course Description: Physics 1, published by the College Board. Students are expected to take the AP Exam.

\section*{AP Physics 2: Algebra-Based (APPHYS2)}

\section*{Course \#: 06429}

Credits: 1

\section*{PEIMS \#: A3050004}

AP Physics 2: Algebra-Based is the equivalent to a secondsemester college course in algebra-based physics. The course covers fluid mechanics; thermodynamics; electricity and magnetism; optics; and atomic and nuclear physics. The focus is on a series of learning objectives that clarify the knowledge and skills students should demonstrate to qualify for college credit
and placement. Please check the college you plan to attend for the acceptance of this course in your major field of study. Content requirements for Advanced Placement (AP) Physics are prescribed by the College Board Publication Advanced Placement Course Description: Physics 2, published by the College Board. Students are expected to take the AP Exam.
Prerequisites: Algebra II, completion of Biology,
Chemistry, AP Physics I, and concurrent enrollment in PreCalculus or Calculus is strongly recommended.

\section*{AP Physics C (AP-PHYSC)}

Course \#: 06425 Credits: 1
PEIMS \#: A3050002 Grade: 12
This course provides the student who is planning to specialize in physical science or engineering with the opportunity to meet his/her requirement for Introductory Physics. The Physics C course is divided into \(1 / 2\) year of mechanics and \(1 / 2\) year of electricity and magnetism. Use of calculus in problem-solving and in derivations increases as the course progresses. Please check the college you plan to attend for the acceptance of this course in your major field of study. Content requirements for AP Physics are prescribed in the College Board Publication Advanced Placement Course Description: Physics, published by the College Board. Students are expected to take the AP exam.
Prerequisites: Geometry, Algebra II, Biology, Chemistry, Physics or PreAP Physics, and Pre-Calculus, concurrent enrollment in Calculus strongly recommended.

\section*{Anatomy and Physiology* (ANATPHYS)}

Course \#: 08847
Credits: 1
PEIMS \#: 13020600
Grades: 11-12
This course introduces a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis. Students conduct laboratory investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem-solving. Note: This course can count as the fourth year of science for graduation requirements for students entering \(9^{\text {th }}\) grade in 2007-2008.
Prerequisites: Biology and Chemistry recommended

\section*{Integrated Physics and Chemistry (IPC)}
\begin{tabular}{lr} 
Course \#: 06327 & Credits: 1 \\
PEIMS \#: 03060201 & Grade: 9-10
\end{tabular}

In Integrated Physics and Chemistry, students conduct field and laboratory investigations, use scientific methods during investigations, and make informed decisions using criticalthinking and scientific problem-solving. This course integrates the disciplines of physics and chemistry in the following topics: motion, waves, energy transformations, properties of matter, changes in matter, and solution chemistry.
Prerequisites: Biology recommended
*Advanced CTE course

\section*{Environmental Systems (ENVIRSYS)}

\section*{Course \#: 06233}

Credits: 1
PEIMS \#: 03020000
Grade: 11-12
inmental Systems, students conduct field and laboratory ations, use scientific methods during investigations, and make d decisions using critical-thinking and scientific problem-solving. s study a variety of topics that include the following: biotic and actors in habitats; ecosystems and biomes; interrelationships resources and an environmental system; sources and flow of through an environmental system; relationships between carrying \(y\) and changes in populations and ecosystems; and changes in nents.
Prerequisites: Biology and a physical science recommended.

\section*{AP Environmental Science (AP-ENVIR)}

\section*{Course \#: 06309}

Credits: 1
PEIMS \#: A3020000
Grades: 11-12
In AP Environmental Science students will study scientific principles that help them understand the relationships of the natural world. Students will identify environmental problems both natural and man-made and examine solutions for resolving these problems. Topics that will be covered include the following: flow of energy, nutrient cycles, earth dynamics, atmospheric pollution, biomes, population studies, renewable/nonrenewable resources, water and soil quality, evaluation, and human impact on environmental issues. Students are expected to take the AP exam.
Prerequisites: Algebra II and Biology; Chemistry and Physics recommended (may be taken concurrently).

\section*{Astronomy (ASTRMY)}

\section*{Course \#: 06379 \\ Credits: 1}

PEIMS \#: 03060100
Grades: 11-12
in Astronomy, students conduct laboratory and field investigations, use scientific methods, and make informed decisions using critical thinking and scientific problem-solving. Students study the following topics: astronomy in civilization, patterns and objects in the sky, our place in space, the moons, the reason for the seasons, planets, the sun, stars, galaxies, cosmology, and space exploration. Students who complete Astronomy will acquire knowledge within a conceptual framework, conduct observations of the sky, work collaboratively, and develop critical-thinking skills.
Prerequisites: One unit of high school science (i.e. Biology, Integrated Physics and Chemistry or Chemistry) Recommended

\section*{Social Studies}

\section*{World Geography Studies (W GEO)}

Course \#: 07261
Credits: 1

\section*{PEIMS \#: 03320100}

Grades: 9-12
Students examine people, places, and environments at local, regional, national, and international scales from the spatial perspective of geography. Students describe the influence of geography on events of the past and present. A significant portion of the course centers on the physical environment; cultural patterns; the distribution and movement of world population; relationships among people, places, and environments; and the concept of region. This course cannot be entered at mid-term.
Prerequisites: None

\section*{PreAP World Geography Studies (W GEO PREAP)}

\section*{Course \#: 07210 Credits: 1}

PEIMS \#: 03320100
Grades: 9-12
Students examine people, places, and environments at local, regional, national, and international scales from the spatial and ecological perspectives of geography. Students describe the influence of geography on events of the past and present. The course will focus on the physical processes that shape patterns in the physical environment, and the social processes that shape cultural patterns of regions. Students compare how components of culture shape the characteristics of regions and analyze the impact of technology and human modifications on the physical environment. Students use problem-solving and decision-making skills to ask and answer geographic questions. This course is the introductory course to the high school social studies AP Program. The course cannot be entered at mid-term.
Prerequisites: None

\section*{World History Studies (W HIST)}

Course \#: 07241
Credits: 1
PEIMS \#: 03340400
Grades: 10-12
The major emphasis in this course is on the study of significant people, events, and issues from the earliest times to the present. Students analyze important events and issues in western civilization as well as in civilizations in other parts of the world. This course cannot be entered at mid-term.
Prerequisites: World Geography recommended

\section*{Pre-AP World History Studies (W HIST)}

\section*{Course \#: 07245}

PEIMS \#: 03340400
Credits: 1
Grades:9-12
Pre-AP World History is a College-Board designed course that introduces the skills needed to succeed in AP Social Science courses while covering the content and concepts of World History. Course curriculum, materials, and expectations are designed to better prepare the student for college-level course work while placing emphasis on creative thinking, independent research, problem solving, essay writing, and reading both primary and secondary sources while also developing oral skills. Students in Pre-AP World History analytically study civilizations and historical eras and, with greater complexity, by focusing on political, economic, religious, social, intellectual, and artistic developments.
Prerequisites: None

AP World History (APWHIST)

Course \#: 07203

Credits: 1

PEIMS \#: A3370100

Grades: 10-12

The purpose of AP World History is to develop a greater understanding of the evolution of global processes and contacts, in interaction with different types of human societies. The course highlights the nature of changes in international frameworks and their causes and consequences, as well as comparisons among major societies. Focused primarily on the past thousand years of the global experience, the course builds on an understanding of cultural, institutional, and technological precedents. Specific themes provide further organization to the course, along with the consistent attention to contacts among societies that form the core of world history as a field of study. Preparation for the College Board AP Exam is emphasized. This course may be substituted for World History Studies. This course cannot be entered at mid-term. Students are expected to take the AP exam.
Prerequisites: World Geography, PreAP World Geography recommended
```

United States History Studies Since 1877 (US HIST)
Course \#: 07111 Credits: }
PEIMS \#: 03340100
Grades: 10-12

```

Students study the history of the United States since Reconstruction to the present. Historical content focuses on the political, economic, and social events and issues related to industrialization and urbanization, major wars, domestic and foreign policies of the Cold War and post-Cold War eras, and reform movements including civil rights. This course cannot be entered at mid-term. Preparation for the College Board AP Exam is emphasized. Preparation for End of Course testing will be included.
Prerequisites: World History, World Geography recommended

\section*{AP United States History (APUSHIST) \\ Course \#: 07401 \\ Credits: 1 \\ PEIMS \#: A3340100 \\ Grades: 10-12}

Advanced Placement United States History is designed to provide students with the analytic skills and factual knowledge necessary to deal critically with the problems and materials in American history. This course, designed as a college-level course, prepares students for intermediate and advanced college courses by making demands upon them equivalent to those made by full-year introductory college courses. In this course students will learn to assess historical materials, their relevance to a given interpretive problem, their reliability, and their importance-and to weigh the evidence and interpretations presented in historical scholarship. Preparation for the College Board AP Exam is emphasized. This course may be substituted for U.S. History Since Reconstruction. This course cannot be entered at mid-term. Preparation for End of Course testing will be included and students are expected to take the AP exam.
Prerequisites: Pre-AP World History and Pre-AP World Geography recommended

\section*{United States Government (GOVT) \\ Course \#: 07331 \\ Credits: \(1 / 2\) \\ PEIMS \#: 03330100 \\ Grades: 11-12}

The focus of this course is on the principles and beliefs upon which the United States was founded and on the structure, functions, and powers of government at the national, state, and local levels. Students learn major political ideas and forms of government in history. A significant focus of the course is on the U.S. Constitution, its underlying principles and ideas, and the form of government it created.
Prerequisites: United States History recommended

\section*{AP United States Government and Politics (APUSGOVT)}
Course \#: 07403 Credits: \(1 / 2\)

PEIMS \#: A3330100
Grade: 12
Advanced Placement United States Government and Politics is designed for qualified students who wish to complete studies in high school equivalent to a one-semester college introductory course. It will give students an analytical perspective on government and politics. The student will become familiar with the Constitutional underpinnings of United States Government; political beliefs and behaviors; political parties and interest groups; the institutions and policy processes of national government; civil rights and civil liberties. Students will acquire the skills of analyzing data, and writing and presenting written and oral arguments which will prepare them for the demands of beginning and intermediate college courses. Students are expected to take the AP exam.
Prerequisites: Pre-AP World History and Pre-AP World Geography recommended

\section*{AP European History (APEUHIST)}

Course \#: 07405 Credits: 1
PEIMS \#: A3340200 Grades: 11-12
AP European History is a college-level course covering the political, economic, religious, and cultural history of Europe since the Renaissance. Preparation for the College Board AP Exam is emphasized. This course cannot be entered at mid-term. Students are expected to take the AP exam.
Prerequisites: World History, World Geography, AP United States History recommended

\section*{AP Human Geography (APHUMGEO)}

\section*{Course \#: 07301 \\ Credits: 1}

PEIMS \#: A3360100
Grades: 10-12
This course is to introduce students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of the Earth's surface. Students employ spatial concepts and landscape analysis to analyze human social organization and its environmental consequences. They also learn about the methods and tools geographers use in their science and practice. Preparation for the College Board AP Exam is emphasized. This course cannot be entered at mid-term. This course may be used as a substitute for World Geography. Students are expected to take the AP exam.

\section*{Prerequisites: None}

\section*{Psychology (PSYCH)}

Course \#: 07281
Credits: 1/2
PEIMS \#: 03350100
Grades: 11-12
Students consider the development of the individual and the personality. The study of psychology is based on an historical framework and relies on effective collection and analysis of data. Students study topics such as theories of human development, personality, motivation, and learning. This course is offered at AHS only.
Prerequisites: None

\section*{Social Studies Advanced Studies (.5) (SSADV1PREP) and AP Psychology (.5) (APPSYCH) \\ Course \#: 07285/07283 Credits: 1 \\ PEIMS \#: 03380001/A3350100 \\ Grades: 11-12}

The Research Methods and AP Psychology course introduces students to the systematic and scientific study of human behavior and mental processes. While considering the psychologists and studies that have shaped the field, students explore and apply psychological theories, key concepts, and phenomena associated with such topics as the biological bases of behavior, sensation and perception, learning and cognition, motivation, developmental psychology, testing and individual differences, treatment of abnormal behavior, and social psychology. Research Methods is offered \(1^{\text {st }}\) semester and must be completed to enter AP Psychology which is offered \(2^{\text {nd }}\) semester. (Course only available at CHS and receives \(1 / 2\) credit for Research Methods and \(1 / 2\) for AP Psychology)
Prerequisites: None

\section*{Sociology (SOC)}

Course \#: 07391
Credits: \(1 / 2\)
PEIMS \#: 03370100
Grades: 11-12
Students study dynamics and models of individual and group relationships; topics such as the history and systems of sociology, cultural and social norms, social institutions, and mass communication. This course is offered at AHS only.

\section*{Prerequisites: None}

\section*{Peer Assistance and Leadership 1 (PAAL1)}

Course \#: 09364 Credits: 1
PEIMS \#: N1290005 Grades: 11-12
Peer Assistance and Leadership 2 (PAAL2)
Course \#: 09464
Credits: 1
PEIMS \#: N1290006
Grades: 11-12
The Peer Assistance and Leadership program is a peer helping program in which selected high school students in grades 11 and 12 are trained to work as peer helpers with other students either on their own campus or from feeder middle schools or elementary schools. Participants will be trained in a variety of helping skills which will enable them to assist other students in having a more positive and productive school experience. PALS also perform service projects at various local non-profit agencies. The program is approved by the Texas Education Agency as an elective course for credit (1 unit) toward graduation. Students must submit an application and be interviewed before being selected for this course. This course requires a one year commitment and cannot be entered at midterm. This course also requires a minimum of 3 Saturdays for volunteer work. AHS and CHS PALS partners with Big Brothers Big Sisters in working with elementary students.
Prerequisites: Application and interview

Grade: 12
AVID is an elective course that prepares students in the academic middle for four-year college eligibility. For one period a day, they learn organizational and study skills, work on critical thinking and asking probing questions, get academic help from peers and tutors, and participate in enrichment and motivational activities that make college seem attainable. Students must be enrolled in challenging classes that best prepare them for college
Prerequisites: None

\section*{Countdown to College (SAT PREP)}

Course \#: 09486
Credits: \(1 / 2\)
PEIMS \#: 85000104
Grades: 10-12
This course is designed for serious college-bound students who will take the PSAT in their junior year or SAT/ACT in their senior year. The purpose of the course is to increase the test scores of college-bound students and increase the opportunities for participants to receive academic college scholarships.
Prerequisites: Recommended for college bound students

\section*{Career Preparation I (CAREERP 1)}

Course \#: 08953
Credits: 3
PEIMS \#: 12701300
Grades: 11-12
This course provides opportunities for students to participate in a learning experience that combines classroom instruction with paid business and industry employment experiences and prepares students with a variety of skills for a fast-changing workplace. Career Preparation includes employability skills, job interview techniques, communication skills, financial and budget activities, human relations, as well as job-specific skills related to a student's training station.
Prerequisites: None

\section*{Career Preparation II (CAREERP2)}

Course \#: 08954
Credits: 3
