

# Restrictions/Permissions

The first two options indicate whether or not the parent/guardian and the student can access the required Student code of Conduct and Student Handbook. If these two items are not selected, then the campus will reach out and ensure the parent/guardian and student knows how to access the information online. A printed copy of each is available upon request from the main campus office.

The remaining options allow the parent/guardian to restrict the use of student data, information, and activities outside the school district.

Mark the appropriate restrictions/permissions and click **Next**.
