# Confirm Enrollment

Click Confirm Enrollment to view the summary information page for the student and to have an email sent to you with a web confirmation number. The email address associated with the TEAMS account used to enroll the student is where the enrollment confirmation email is sent. The email is not needed to finalize registration at the campus.

Thank you for completing the online portion of student registration. Please finalize enrollment by visiting the campus/registration location. Be sure to bring the required documentation for registration finalization at the campus.

Please contact your campus for any questions regarding student enrollment.
